

ONANCOCK. THE OUTLOOK ON THE EASTERN SHORE.

(Continued from First Page.)

SLIGHTLY NERVOUS.

Colonel Nottingham said to-day that Uzel was slightly nervous and apparently agitated when he surrendered himself at the barracks yesterday morning and that he appeared glad when he knew he was under the protection of the militia.

"He would not talk," said Col. Nottingham, "and let no word drop that would throw any light on the situation. He is quiet and calm now although he shows the strain of the ten days in which he has been in hiding from the crowds." Col. Nottingham said the situation at the Eastern Shore is quiet and that no further trouble is anticipated.

GREATLY EXAGGERATED.

S. Wilkins Matthews, secretary of the state board of fisheries, who is in Norfolk to-day, said that the trouble at Onancock has been greatly exaggerated.

It was originally intended by the whites that they would not allow the Negroes to hold their fair which begins next week," said Mr. Matthews, "but the feeling has quieted down and they have agreed to allow the fair to proceed and the Negroes have been promised protection by the troops. We fear no further trouble.

Uzel is about five feet, six inches in height and is slender in build. He is apparently about 25 years old and is neat in his dress.

Irresponsible Whites at Fault.

NORFOLK, Va., Aug. 17.—Major C. L. Wright, assistant adjutant general on the staff of Brigadier-General Vaughan, to-day heard from the Norfolk militia under Col. Nottingham, at Onancock and Tazewell on the Eastern Shore, incident to the race troubles there. Major Wright was informed that continued trouble seems to be due more to the actions of the whites than to the Negroes, though he has not been officially advised as to the true state of the trouble.

To-day's report said that three colored women had applied yesterday to Colonel Nottingham for protection against the firing into their houses by whites at night.

A prominent Accomac county man has reported to Major Wright, Governor Swanson and General Vaughan that the trouble is being largely caused by the irresponsible whites who have in many instances sent "move out" orders to unoffending colored people.

The Norfolk troops will remain on the scene until after the colored fair at Tazewell, which begins Monday. They will likely be home the last of next week.

Sergeant-Major Talbot Truxton, having been relieved has returned home, and reported at the Norfolk custom house as an assistant inspector of customs.

Private Langerheim, of Company B, is the only other man who has returned. He has gone to Williamsburg with the others designated to represent the Seventy-first Virginia regiment at the State target shoot.

The Black Movement to Africa.

Bonita, Arizona, U. S. A., August 16, 1907.

Dear Editor: Please allow space to publish in your valuable paper for the information of Rev. J. J. Evans of the United Trust Company and all the colored people in the country.

The United States Government sent Mr. C. D. Lowe, one of the detectives and mail inspectors to examine our books and papers pertaining to the organizing of the African Movement.

Mr. Lowe got here on August 10th and took my affidavit and he inspected my books and papers on August 11, 1907 and found them all to be official matter on organizing of the movement. The money, (I had only collected \$62.95 since I commenced sounding the people on the movement, and nearly all of this came from both white and black men of my country) was spent for the printing of petitions and circulars which have been throughout the country and foreign nations appealing to the Governors of all the states and territories and to the United States Government to urge Congress to prepare a home in Africa where the colored people shall have a free government of their own and appropriate money to carry the movement into effect and separate the two races to a great extent, by sending all the colored people who want to go, those unemployed and doing no good here and all the colored convicts to Africa.

Outside of donation all expenses will be charged to the trustees of the colored people and their colonial government.

I have spent more than \$250.00 of my own money in this work besides my own living and traveling expenses, and if I had a million dollars I would put every cent into the movement except enough to educate my children. I own 120 acres of good land here, but it is on the wrong side of the Atlantic Ocean.

Look for me this fall to commence the general organizing and collecting of money and means. I would be pleased to meet Rev. J. J. Evans, provided his warning leads him in the above direction, and if not possibly we can induce him and Mr. Booker T. Washington who is also opposed to the movement to become a part of the rear guard to the movement.

Very respectfully, D. R. THOMAS, Organizing Sec. and Treas.

TO KILL BOYCOTT.

Manufacturers Begin a Test Case Against Union Labor. WASHINGTON, Aug. 20.—A significant legal action was begun in the supreme court of the District of Columbia by James W. Van Cleave, president of the National Association of Manufacturers, to enjoin Samuel Gompers, John Mitchell and other officers of the American Federation of Labor and several of its subsidiary organizations from using the boycott and so called "unfair list."

Mr. Van Cleave institutes the suit in the name of a large manufacturing company in St. Louis of which he is president and whose products are alleged to have been declared unfair by the labor unions, but the significance of the action lies in its being a test case wherein Mr. Van Cleave, as head of the manufacturers' association, seeks to permanently enjoin organized labor from using the "unfair" or "we don't patronize" lists in its fight against firms and individuals.

The papers were filed here in order that personal service might be immediately obtained against a large number of the labor leaders named in the complaint who are in Washington in attendance upon a general conference.

Harriman, has made himself a reputation as a fireman on the Union Pacific road, and Saturday night he tried the locomotive of his father's special train between Laramie and Rawlins.

Mr. Harriman is making a trip over the system and has his son with him. Just as the special was leaving Laramie the young man climbed into the cab, having received permission from his father to ride with the engine driver to Rawlins.

Instead of sitting down young Harriman peeled off his coat, grabbed a shovel and began throwing coal, insuring that the fireman take a rest. The trainmen grinned, expecting the boy to give out soon, but he stuck to the work during the one hundred and twenty mile run and brought the train in on time.

KINK-INE Great Hair Straightener and Grower Most Wonderful Discovery ever made for curly, kinky and knotty hair. Makes hair grow long, straight, soft and silky; cures dandruff and stops falling hair. Kink-ine acts like magic on the hair.

Kink-ine is No Experiment. It was discovered by R. Roberts, a famous English chemist, who has made a study of the scalp of colored people for the past 30 years, and who, after much time and experience, has prepared this tonic for the colored people. This chemist says that his experience and study have taught him that the scalp of the colored people requires a special treatment and after laboring and testing these many years he has discovered the greatest REMEDY THE WORLD has ever known for the HAIR of colored people. KINK-INE will make the hair GROW from one to three inches per month, if the directions and instructions are carefully followed out. We have many cases on record where the above results have been obtained, and we do not hesitate when we make these claims. KINK-INE is the only safe preparation in the world that is guaranteed to make the hair straight and make dry hair smooth and stop it from breaking off and falling out; takes out all the knots and cures dandruff, makes the hair soft and silky, and by nourishing the roots gives it new life and vigor, restoring it to natural color. Read what Miss Ellirabeth Jones of Chicago says of KINK-INE: "My hair was not more than three inches long when I commenced to use Kink-ine, six months ago. I have used it steadily since that date and it has grown on an average of two inches each month and it is now more than fifteen inches long. Besides, my hair has become almost straight and I fully believe by the end of the year I will have the most beautiful head of hair of any colored lady in the world." SPECIAL OFFER.—To prove the quality and superiority of our goods over all others, we will sell one full-size bottle of Kink-ine, price 35 cents, one cake of Kink-ine Soap, the best Shampoo and Toilet Soap in the world, price 35 cents, both for only 50 cents, or six bottles and six cakes of soap for \$3.00.
