

AT THE CAPITAL.

The House Wrestles With Army Appropriations.

Objection Made to Furnishing Beer to Soldiers.

The Senate Votes \$6,200,000 for Galveston Harbor.

The House Naval Appropriations Bill Completed—The Pathfinder Ordered Released.

Associated Press Dispatches.

WASHINGTON, March 29.—After business of minor importance, today, the House went into committee of the whole on the Army Appropriation bill.

Morse said the provision for an appropriation of \$100,000 for canteens at the posts, showed that among the things to be sold at these posts, were beer and light wines, and a Government beer saloon was to be connected with a library and reading-room. He protested against this as an outrage against temperance and the Christian people of this country.

Morse's amendment that no alcoholic liquors be sold to enlisted men in any canteen was adopted, 52 to 45, many Democrats who were opposed to the proposition voting for it, in order that there may be a year and may vote in the House.

Pending further action the committee rose and the House adjourned.

Senate Proceedings.

In the Senate today, the bill for the completion of the entrance to Galveston harbor, appropriating \$6,200,000 in the aggregate, but the expenditures of any year not to exceed \$1,000,000, was passed.

The conference report upon the Urgent Deficiency bill was agreed to.

On motion of Voorhees the Senate bill appropriating \$14,675 for the purchase of the Capron collection of Japanese works of art, now in the National museum, was passed.

In the discussion Hale satirized Voorhees, for his advocacy of the measure, as if it was on behalf of the farmers, whose depressed condition he pictured last week.

Adjourned.

An Inoperative Law.

The Collector of Customs at Portland, Ore., recently inquired of the Treasury Department if he would be justified, under the act of September 13, 1888, in landing three Chinese holding certificates issued by the customs officers at British Columbia, declaring them Chinese merchants.

Assistant Secretary Tichenor informed him that the law referred to was inoperative, by reason of the non-ratification of the treaty upon which it should go into effect.

Naval Appropriations Bill.

The House committee on naval affairs has completed the Naval Appropriation bill, carrying \$22,151,523, which is \$459,013 more than for the current year.

The bill provides for the construction of four large, heavily armored, sea-going vessels, one to be built on the Pacific Coast and one on the Gulf of Mexico or waters tributary thereto, if it can be built at a reasonable cost.

There is an item in the bill appropriating \$65,000 for Mare Island.

Notes.

The President has approved the bill suspending the law requiring steamboats to carry certain projectiles and guns or propelling power.

The Pan-American Conference has adopted the report of the committee on customs regulations.

PANAMA ADVICES.

The Recently Seized Schooners Not American Craft.

SAN FRANCISCO, March 29.—Panama advices of March 15, state that the Colombian Government has released the schooners Pearl and Julian which were seized last month on the San Blas coast for infringement of a customs laws of the United States of Colombia, which requires all vessels trading with the San Blas Islands to procure clearance papers at Cartagena and pay duty at that port. The Colombian Consul at New York had evidently forgotten the law, as he issued clearance papers to the vessels to proceed direct to the San Blas coast. The Colombian Government, on learning the circumstances, released the vessels and forwarded an explanation to Washington. The American Consul at Colon states that neither of the schooners carried an American register, the Pearl being an English craft and the Julian carrying the flag of San Domingo.

HORRIBLE BUTCHERY.

A Woman Murdered, Dismembered and Dismembered by Her Husband.

LEAVENWORTH, Kan., March 29.—Yesterday, in the Missouri river, was discovered the dead body of a woman. The body was dismembered, both legs were cut off, and a bullet wound was in the head. The body was identified as Mrs. Metman, the wife of a German painter. The dead woman's daughter said her father and mother quarreled some time ago but made up. Sunday afternoon the mother went to a neighbor's to visit and left there at 8 o'clock, saying she was going home. That was the last seen of her alive. Efforts to get a story from her husband were unavailing, and finally he was put under arrest. Suspicion was aroused by his actions, and a careful search of the premises showed a trail of blood on the sidewalk opposite the house.

A SATISFACTORY VERDICT.

The Windsor Murderer Found Guilty in the First Degree.

SANTA ROSA, Cal., March 29.—William Brugg, the Windsor murderer, was found guilty last night of murder in the first degree, without recommendation. This is the second verdict of the kind ever rendered in the county, and there is considerable excitement over the prospect of the hanging of one of the most brutal murderers in the criminal annals of the State. Brugg, who had been tantalizing his victim, Louison, for several hours, went into a saloon and waited for Louison to come in from the back door, when he placed the muzzle of a revolver at the back of his head and shot him dead. Louison was unarmed, and had made no demonstration.

The dead man was about 35 years old.

BISMARCK'S ADIEU.

The Ex-Chancellor Departs From Berlin.

He Retires to His Country-Seat at Friederichsrahe.

The City Turns Out En Masse to Bid Him Farewell.

Marked Attention Shown by the Old Prince to Minister Phelps—Other Foreign News.

BERLIN, March 29.—[Copyright, 1890, by the New York Associated Press.]—Prince Bismarck left Berlin for Friederichsrahe, his country seat, today. Yesterday he visited the imperial mausoleum and placed a wreath upon the coffin of William I. Thousands of persons gathered in Wilhelmstrass and along the route to the railway station. Bismarck was greeted with stormy enthusiasm. The windows of the houses in the vicinity were crowded with spectators. The entire route was a sea of waving handkerchiefs. A number of other carriages filled with friends and admirers closed the procession. When the party arrived at the station all the ministers, diplomatic corps and court and state officials were waiting to bid farewell to the Prince, and there was a great mass of people outside. Mountains of bouquets for the Prince and Princess filled the waiting-rooms. Bismarck, in a hearty voice, bid all farewell, Phelps, the American minister, and Von Caprivi being among the few who got to shake his hands. Many tears were shed, and it was altogether an affecting scene. At 5:40 the train started amid renewed cheering and singing.

Marked Distinction to Phelps.

In connection with the regard evinced by Bismarck for Mr. Phelps, it is worthy of note that on Tuesday last he denied himself to all others and received Phelps in private audience. The object of the discussion excited much curiosity here. Rumor says the Prince made a careful statement of the recent events with a view to the future.

The real history of the crisis is still wrapped in mystery.

The appointment of Baron Bieberstein as Foreign Secretary is regarded as definite.

The Labor Conference Closed.

The final sitting of the labor conference was made today. Minister Von Berlepsch made a long address. He believed the delegates had arrived at a decision which would form a basis and develop the idea of protecting and securing the material and moral welfare of the workingmen, and had found a common standpoint for the solution of social questions by individual Governments according to their exceptional circumstances. In conclusion the minister conveyed to the delegates the Emperor's thanks for their labors.

The conference then closed. Its decisions will soon be published. Many of them have already been announced. Others recommend the optional establishment of courts of arbitration, and the general observance of Sunday as a holiday in all trades. Throughout the conference the Emperor treated the French plenipotentiary with marked distinction.

Inherited Serofula.

Swift's Specific (S. S. S.) cured my little boy of hereditary serofula, which broke out all over his face. For a year he had suffered, and I had given up all hopes of his recovery, when at length I decided to use S. S. S. After using a few bottles he was entirely cured. Not a symptom now remains of the disease. This was three years ago. MRS. T. L. MATHERS, Mathersville, Miss.

In the early part of last year I had a violent attack of rheumatism, from which I was confined to my bed for over three months and at times was unable to turn myself in bed, or even raise the cover. A nurse had to be in constant attendance day and night. I was so feeble that what little nourishment I took had to be given me with a spoon. After calling in the best local physicians, and trying all other medicines without receiving any benefit, I was induced by friends to try Swift's Specific (S. S. S.). I discontinued all other medicines, and took a course of S. S. S. thirteen small bottles, which effected a complete and permanent cure. L. C. BASSETT, El Dorado, Kansas.
