Crushed Under the Wheels of a Heavy Wagon.

A Serious Accident That Befell George Bradford.

A Woman Dies From the Neglect of Her Attendant.

The Verdict of the Coroner's Jury—Testimony at the Inquest—Other Items of Interest.

About 8 o'clock yesterday morning George Bradford, a house-mover, residing at 916 West Twelfth street, was engaged in moving a small house at the corner of Seventh and Regent streets, when he met with an accident, which may cause him the loss of one or both of his legs. The house was raised on trucks behind, but the front part rested upon a wagon drawn by a team of horses. The building having been attached to the vehicle and everything being secure, Bradford started the team forward. Instead of driving from the seat of the wagon, as usual, Bradford took up a position on the ground close behind the horses, with the lines in his hands, and while glancing back at the building as a precautionary measure, he carelessly stepped in front of the wheel of the wagon nearest to him and was knocked down. The vehicle passed over his legs before his fellow workmen realized what had happened and stopped the team, when it was found that Bradford was seriously injured. The patrol wagon was telephoned for and in it he was conveyed to the police station for medical treatment, and Dr. Morrison, the police surgeon, was summoned. On examination it was discovered that his injuries were of a very serious nature. He had sustained a compound comminuted fracture of the left thigh bone, a compound fracture of the right thigh bone, his left foot was badly wrenched and shockingly torn and mangled, and several ribs were broken on his right side over the liver. His wounds were dressed and he was carried upstairs and put to bed in a small chamber adjoining the officers' reading-room, where he was subsequently attended by his wife, who remained at his side all night. At a late hour last night he was visited by Dr. Wing, who found him resting comparatively easy and in a fair way to recovery. The circulation of the left leg was very poor, however, and it is probable that unless this is improved today the limb will have to be amputated.

DIED FROM NEGLIGENCE.

Facts Developed at an Inquest Held Yesterday.

Coroner Meredith held an inquest at 4 o'clock yesterday afternoon at the parlors of Sanson & Garrett, upon the body of Mrs. Juliana Gonzales Nieto, a young woman who died on Sunday afternoon under peculiarly distressing circumstances, at No. 42 Johnston street, East Los Angeles. From the evidence adduced it was learned that the deceased and her husband, a young laborer named Renaligo Nieto, have resided at Downey since their marriage, three years ago, and that they have a child about 2 years of age. Mrs. Nieto being in a delicate condition, her husband determined to bring her to this city for proper treatment, and they came to town on February 4th last, and took up their residence with Mr. and Mrs. F. Bacon, at No. 42 North Johnston street, East Los Angeles. Early on Sunday morning Mrs. Nieto was seized with labor pains, and acting upon the advice of his aunt, Mrs. Bacon, Nieto secured the services of a woman named Mrs. Luz Contreras, who lived on Macy street, Boyle Heights, it being understood that she was to receive pay for her attendance as midwife. Mrs. Contreras arrived about 6 o'clock in the morning, and Mrs. Nieto gave birth to a fine child at 11:25 o'clock. For an hour afterwards she felt well, but gradually became very weak from loss of blood. Shortly after 4 o'clock Nieto was dispatched for a physician, and about three-quarters of an hour later he returned with Dr. Carlisle of Boyle Heights, but in the meantime the unfortunate woman had succumbed, having literally bled to death. Dr. Carlisle immediately notified Health Officer D. G. McGowan, who made an investigation and refused to issue a certificate of death, and the Coroner, having been notified, took charge of the body and ordered a post-mortem examination, which was made by Dr. L. B. Hamilton. The result of the examination disclosed the fact that the young woman had died simply for want of proper medical treatment. The physicians stated the deceased was extraordinarily well proportioned and that there was no question as to the certainty of her recovery had she been properly treated. Mrs. Bacon testified that she had secured the services of Mrs. Luz Contreras on the occasion of her daughter's confinement, and that she considered her an expert. She gave her, the woman, \$10 on Sunday, but no price was agreed upon, nor did she ask any recompense. The Contreras woman did everything that was usual under the circumstances. Did not send for a physician sooner, because it is not customary to employ one when a midwife is in attendance. Mrs. Luz Contreras after being instructed that she need not answer the questions put to her unless she wished, stated that her husband, Ismael Contreras, was a laborer and that she herself took in washing and did anything that came along her way. She had no license to practice midwifery, and always told ladies who employed her as a midwife that she did not. She had no price, but always expected to get paid for her services. She went in response to the invitation of Nieto to see his wife on Sunday morning. She handled her patient as had been her custom with former ladies, and gave her a teaspoonful of Florida water, diluted, to ease the pain. After the delivery of the child, she waited for developments and as the patient fainted at 4 o'clock she advised that a physician be summoned, but when he arrived it was too late, the patient being dead. The jury after hearing the testimony deliberated for about thirty-five minutes and finally returned a verdict to the effect that the deceased came to her death in childbirth, a fatal hemorrhage occurring by reason of the ignorant neglect of her attendant. The matter will be referred to the District Attorney.

After 15 Years.

"For 15 years my mother has been troubled with milk leg. She went to different parts of California, as persons said the climate might help her, but it was of no avail, and I, being a druggist, thought I would get her to try Hood's Sarsaparilla. Before she had taken half a bottle she said she was improving, so she continued until she took half a dozen bottles, and now she is perfectly well. For nearly fifteen years she was unable to walk around, but now she can walk as well as ever." T. F. BLAKE, San Francisco, with C. F. Richards & Co., Wholesale Druggists.

Like a New Creature.

"I have been for years trying to get help for that terrible general debility and weakness so common to women. Within a year I have taken ten or twelve bottles of Hood's Sarsaparilla, and I am now feeling like a new creature." Mrs. F. B. ROSS, Marlin, Texas.
