NEWS NOTES.

More new dwellings are being erected near the Wolfskill depot. The roof is being placed on the new St. Vincent market on Broadway, opposite the postoffice. The electric-road people have rented the whole upper story of W. G. Krutz's building, on the corner of Second and Los Angeles, to be used for offices. This afternoon the W. C. T. U. will be addressed by Mrs. L. M. Wells on the "W. C. T. U. School of Methods." The executive committee will meet at 2 o'clock. Pasadena will take quite a part in the flower festival. The Park Nursery Company will compete in potted plants, and a number of people are active in securing co-operation in cut-flowers. John Brown, a native of Italy, was admitted to citizenship yesterday. Brown is the English of the Italian name, as this citizen wants to reform his name as well as his allegiance. The debate between the Normal Adelphians and the Young Men's Literary Society on the question as to whether the world grows better as it advances in civilization, or not, will take place at the Normal school this evening. James Riley came before Judge McKinley yesterday on a writ of habeas corpus. The matter was heard and the prisoner was remanded pending the decision of the court. It is one of the Justice Lockwood cases, and hinges on the validity of that court. The ladies that are out selling tickets for the entertainment which Father Meyer is arranging for the benefit of the poor, are meeting with great encouragement. The ladies will call on the business houses today, and the merchants will undoubtedly respond liberally to the appeal. While Councilman J. T. Brown was sitting in his cart, behind one of his bay horses, on Main street, on Wednesday afternoon, a runaway horse attached to a milk wagon ran into the cart and scared the alderman's animal. Mr. Brown was thrown from his seat and his leg caught in one of the wheels, but fortunately he succeeded in extricating it, leaving his boot between the spokes. The pioneers of California will hold a meeting in the parlors of the Chamber of Commerce on Saturday night to make preparations for the reception of the Boston pioneers, who will arrive here on the 18th. It is requested that all Californians will attend and help with their counsel and help with their contributions to give the old fellows from Boston a welcome of the pioneer sort. The committee of the Los Angeles Art Association having in charge the art exhibit at the flower festival, request all persons having in their possession works of art that may be exhibited at that time, to send such objects of art to Hazard's pavilion on Broadway and Sixth streets, on Friday evening, April 11th. A committee has been appointed to take charge of the exhibits. Communications should be addressed to M. P. Thain, secretary of Los Angeles Art Association, Bryson-Bonebrake building. R. D. List, 123 W. Second st. Simi telephone. Notary Public. Legal papers carefully drawn.

Where the Officers Are. A Minneapolis Republican journal says that "the Republican party has the reputation of being a party that is troubling the Democrats." The Minneapolis editor is mistaken. The Democrats are not troubled and the Republican party has not got the offices. Said offices are reposing in grandpa's hat, and the Democrats just now are enjoying the troubles of the Republicans who are nosing about that ancient and well-worn headgear.—[Chicago Times].

AMUSEMENTS.

The New York Casino Company at the Grand. Last night at the Grand the Aronson company reproduced Nadjy, to the delight of a very large and enthusiastic audience. For tonight the Black Hussar is the play. At the Los Angeles. Miss Katie Emmett is giving a great deal of satisfaction to those who frequent the Los Angeles. She is playing Waifs of New York there this week. Next Week. At the Grand next week will be produced The Great Metropolis, a play by George H. Jessup and Ben Teal. It has made a great hit wherever produced. At the Los Angeles next week, beginning Sunday night, Lew Johnson's Negro Minstrels will appear for the whole week. The San Francisco Examiner says of this attraction: "It is really worth one's while to witness the refined performance of Lew Johnson's Colored Minstrels."

High School Lectures. The first of this series of five entertainments will be given this evening at 8 o'clock, at the First Baptist church, corner Sixth and Broadway. Music will be provided by the Los Angeles High School Orchestra and the Male Quartette, Messrs. F. E. Nay, Ed. Averill, Harry Maybin and Frank Wallace. Prof. Edwin Fowler will speak upon the "Tendencies of the Times." For several reasons Los Angeles should give him a full house. Being a student and an educator, he fully comprehends the need of a perfect development of intellect and character that the "tendencies of the times" may be rightly interpreted. As an educator, Prof. Fowler began in one of the Eastern States, as a teacher in a district school. His advancement was steady, from rank to rank, until he became a superintendent of a city school. From here he was called to the college presidency of Edina, Mo. Later he became a member of the National Lecture Bureau, and familiar to the rostrum. California people have reason for interest in him as the author of the California volumes of Bancroft's great work, "Native Races of North America."

Stereopticon Views. Last evening Mr. A. H. Hutchinson exhibited a number of his stereopticon views at the power house of the Los Angeles Cable Company to a large crowd, among whom were the employees of the company. These views were mainly of Los Angeles and surroundings, and were excellent in every particular. There were 102 in all, of which twelve were of the cable company's possessions and one of Col. J. C. Robinson, vice-president of the road. Mr. Hutchinson is collecting views of all the principal portions of this part of the State, and will before long exhibit them throughout the East. It has been suggested that he be engaged to spend some time at the Chicago exhibit, and aid in advertising Southern California.

Illinois Social. At the Illinois social this evening, in Illinois hall, the register for visitors will be opened. There will also be music by an orchestra, novel instrumental specialties by Fred Hollingsworth and others, vocal selections by Misses Reginald Rohrer and Amelia Grosser; recitations by Misses Hattie Pearson and Pettie Harwood. The second part will consist of the comedy, A Quiet Family, produced by the Woodbury College Dramatic Company, under the stage management of Mr. G. A. Hough, in which the following will take part: J. W. Kelsey, G. A. Hough, C. W. Medlar, Fred M. Rawson, Annie L. Kelsey, Nellie L. Woodlawn, Engel G. Sumner, Hattie M. Dilke.

THE UNIVERSITY BANK.

A Showing that Speaks Volumes for the Soundness of its Management. The following annual report of the president of the University Bank has been submitted to the directors and stockholders: GENTLEMEN—Herewith you will find the cashier's yearly report, taken at the close of business April 5th, as follows: RESOURCES. Loans \$203,811.92 Furniture and fixtures 2,796.77 Expenses and taxes 2,208.87 Cash on hand and with banks 112,274.31 \$321,091.87

LIABILITIES. Capital stock \$100,000.00 Surplus 31,000.00 Undivided profits 5,056.31 Deposits 185,035.56 \$321,091.87

Gentlemen, you will realize that we commenced business April 15, 1887, at a time when the depression of business in Southern California began. Of course, when we began we had no income, and for the first few months we were occupied in creating a business. In less than three years we have carried to our reserve fund \$31,000, on a capital of \$100,000 leaving a certain amount of earnings not yet due and collected, which are not counted in the report. The policy of this bank has been to declare no dividends, but to carry all earnings to a reserve. As our stockholders do not need or desire the dividends, the policy has met with their approval. After the reserve has reached \$100,000 the policy can be changed so that the profits of the reserve can go to dividends and the profits of the capital stock again go to a reserve.

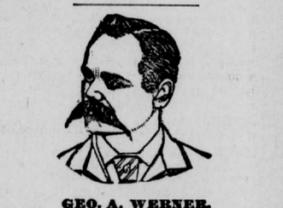

In this way an institution can be built up into a first-class business, possessing every desired element of safety. We could have realized larger profits by taking more risks in business, but it has been our fixed and invariable principle: Safety first, and such profits as are consistent therewith. This is why we carry and have carried such large amounts of cash in proportion to our deposits. With the hope that this meets with your approval, it is respectfully submitted. Respectfully, etc., J. M. WIDNEY.

Los Angeles, April 10, 1890. The above exhibit cannot fail to be gratifying to the stockholders of the bank as well as to the general public who do business at its counters. It may not be generally known that the University Bank of Los Angeles is organized on the very same plan as the famous Chemical Bank of New York City. That is known among all financiers as absolutely the most conservative and the most secure of all the banks of the country. At Old Trinity Church, Broadway, New York, by moonlight! A QUEER CASE.

Ronald Smith Charged With Stealing a House. Ronald W. Smith was yesterday arrested upon a charge of grand larceny, and will appear before Justice Austin this morning for arraignment. He is alleged to have stolen a house belonging to Clara C. Carver. He claims, however, that some time ago he contracted with a real estate man named Records to purchase lot 5, part of the west half of lot 7, block 74, Hancock's survey, and after paying part of the money down, erected a three-room house thereon at a cost of \$300. As he was unable to make his second payment, the contract was declared void and his first payment forfeited; but as he did not wish to forfeit the house also, he took it away. Unfortunately it had been sold with the lot by Records to Mrs. Carver, who naturally objected to its being carried away.

It divides the load with a dyspeptic stomach and replaces the distressing sense of fullness and oppression with a feeling of ease and relief. It is a perfect liver and bowel regulator. We have both been taking it for months. It is good to have handy."

CATARRH, SPECIAL NOTICE. Throat Diseases, Asthma, Bronchitis and Consumption. Together with diseases of the EYE, EAR AND HEART, Successfully treated by M. HILTON WILLIAMS, M.D. M. C. P. S. O., (Graduate of Medical Department Victoria College, Ontario, Canada, in 1867, and member of the College of Physicians and Surgeons of Ontario, since 1892.) By His Hot Air Medicinal Inhalations and his COMPOUND OXYGEN TREATMENT.

Probably no system of practice ever employed has been so universally successful as that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption. Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract fresh cold. Indeed he declares that he is scarcely free from one cold before he takes another, and he is always exceedingly careful; it is also a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of catarrh seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear and he learns to his horror, that instead of recovery from the disease, it is somewhat changed in its character and has extended to the throat. A sense of weariness is sometimes felt in reading, speaking or singing; hoarseness at times occurs, a sensation of dryness is felt in the throat, or it appears that some foreign substance, as, for instance, a hair, obstructed the throat; there becomes a sense of languor and fatigue; the breath lessens on a little exertion, a short, hacking cough, a peculiar sound in clearing the throat, a feeling as though there was not room enough in the chest to breathe; these and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this time the press of the disease may have been slow and the patient may, in expressing his confident hope that it will "wear off," declare that he has had the catarrh for years and has not seemed to become much worse, and trusts that he will "by and by" recover. But this delusion is the grand error which has peopled our cemeteries with catarrh victims, as all forms of catarrh end finally in consumption.

Every case of Catarrh is curable when properly treated. Eastern visitors and invalids should avail themselves of the opportunity of being cured before they return home. Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally can write for list of questions and circular, both of which will be sent free of charge.
