

AT THE CAPITAL.

President Harrison's First Veto Message.

Ogden Denied the Right of Increasing Her Debt.

The Republican Senators Again Discuss the Silver Question.

Federal Authority to be Enforced in Florida—Mrs. Garfield Visits the White House.

Associated Press Dispatches.

WASHINGTON, April 26.—The President has vetoed the bill to authorize the city of Ogden, Utah, to assume an increased indebtedness. This is President Harrison's first veto.

In his message the President says: "The general law fixes the limit of 4 per cent. on the last assessment for taxation as the limit of the indebtedness which municipal corporations in Territories may assume. This bill extends the limit to Ogden to 8 per cent. The purposes are not peculiar or exceptional. They relate to schools, street improvements, etc., and are common to every prosperous town. If the argument by which the measure is supported is adopted, the conclusion should be the repeal or modification of the general law; but in my opinion the limitation imposed by the law is wise and wholesome and should not be relaxed. The city now has the power to increase its indebtedness \$180,000, which would seem enough to make a good beginning in the construction of sewers, while the cost of street improvements is usually met by street assessments. Almost all States have limited the power of municipal corporations to incur indebtedness, and the limit is generally lower than that fixed in the Territories. I do not doubt that the citizens of Ogden will ultimately realize that the creation of a municipal debt of over half a million dollars by a city of 15,000 population, being about \$37 per capita, is unwise."

WASHINGTON, April 26.—In the Senate today, the Senate bill to carry out (in part) the terms of the agreement with the Sioux Indians of Dakota, for the sale of a portion of the reservation, and appropriating \$1,800,000 for that purpose, was reported and passed.

The Senate then proceeded to the calendar, and passed the following: Senate bill to validate pre-emption filings and pre-emption proofs, made within the States of North and South Dakota, Montana and Washington. Senate bill authorizing the Secretary of the Interior to negotiate with the Turtle band of Chippewa Indians for crossing their reservation.

The joint resolution accepting the donation of the battle sword of the late Captain Samuel Chester Reed, tendered as a gift by his son, and providing for the presentation to him by Congress of a gold medal, was taken up, but after some discussion was laid over.

The following bills were passed: House bill approving, with amendments, the funding act of Arizona. Senate bill to amend the interstate commerce act, as to the mode of procedure. Adjourned.

WHITE METAL.

The Republican Senators Again Refer the Whole Subject to a Committee.

WASHINGTON, April 26.—A caucus of the Senate Republicans was held this morning to consider the silver situation. The committee which met a committee of the House Republicans and agreed to the form of a silver bill, reported the result. A discussion ensued, which was not completed when the hour for opening the Senate arrived.

It is said a great variety of views were expressed by the Senators, but the friends of the measure agreed upon by the two committees are confident that it will be adopted by the caucus.

The Republican Senators' caucus to consider the silver question was in session a long time again this afternoon. After adjournment, it was announced that the whole subject was again referred to a caucus committee, who would endeavor to frame a bill acceptable to all.

It is reported that while the differences between the silver men and advocates of the bill agreed upon by the committee of the House and Senate, seem to be radical, yet an earnest purpose was shown to harmonize and, if possible, come to an agreement.

The silver men desire the provision in the bill reported by the caucus committee, which gives the Secretary of the Treasury discretion to redeem in bullion the treasury notes issued in payment for bullion, stricken out. They do not wish to give the Secretary power, under any consideration, to pay out bullion after it is once deposited in the treasury. This view is supported by Everts.

The silver men also desire to have the notes provided for in the bill made full legal tender, but this is not insisted upon with the same intensity and earnestness as is the proposition to keep the bullion in the treasury.

AN EXECUTIVE ORDER.

The President Directs the Use of Federal Power in Florida.

WASHINGTON, April 26.—The following correspondence was made public today: EXECUTIVE MANSION, April 24, 1890. To the Attorney General:

Sir—I have had frequent occasion during the last six months to confer with you in reference to obstructions offered in the counties of Leon, Gadsden, Madison and Jefferson, in the State of Florida, to the execution of the process of the courts of the United States. It is not necessary to say any more of the situation than that the officers of the United States are not suffered freely to exercise their lawful functions. This condition of things can no longer be tolerated. You will, therefore, instruct United States Marshal Weeks, as soon as he has qualified, to proceed at once to execute such writs of arrest as may be placed in his hands. If he apprehends resistance he will employ such a civil posse as may seem adequate to discourage resistance, or to overcome it. He should proceed with the calmness and moderation which should always attend a public officer in the execution of his duty, and at the same time with a firmness and courage that will impress the lawless with a wholesome sense of danger, and the facility of resistance. You will assure the officers of the law and those who have foolishly and wickedly sought to set the law at defiance, that every

resource lodged with the executive by the Constitution and laws, will, as the necessity arises, be employed to make it safe and feasible to hold a federal commission and to execute the duties it imposes. Very Respectfully, (Signed) BENJAMIN HARRISON, Attorney-General Miller to United States Marshal Weeks, of Florida, directing that the President's instructions be faithfully carried out.

MRS. GARFIELD AND DAUGHTER.

Their First Visit to the White House Since Garfield's Death.

WASHINGTON, April 26.—Mrs. Garfield and daughter, Mrs. Brown, visited the White House this morning, the first time since the death of President Garfield, and were received in the red parlor by President and Mrs. Harrison and Mrs. McKee.

Agricultural Memorials.

WASHINGTON, April 26.—The Senate committee on education and labor today received a committee of the Association of Agricultural Colleges and Experimental Stations, who presented a memorial of their needs. The memorial sets forth the special and immediate needs of these colleges for more generous support, and asks that at least \$15,000 a year be provided now for each State, to be increased until the limit of not less than \$25,000 is reached.

Senator Paddock today presented a pamphlet from the legislative committee of the National Grange, containing their memorial in favor of legislation to prohibit the adulteration of food, gambling in farm products and the formation and continuation of trusts; also in favor of the remonetization of silver and the revision of the tariff in the interest of agriculture.

DID NOT DEFAME QUAY.

CONGRESSMAN ALLEN MAKES AN EXPLANATION.

He Made Some Pointed Remarks, but the Pennsylvania Senator Need Not Wear the Shoe Unless It Fits.

WASHINGTON, April 26.—In the House this morning Allen, of Mississippi, rising to a question of personal privilege, replied to strictures in the press and the Pennsylvania Republican Convention on a recent speech made by him, in which it was alleged that he reflected on the integrity of Senator Quay. He said it had never been his purpose to begin an attack on Senator Quay, and he had never done so. In the heat of debate, in reply to Cannon, who arraigned the Democratic party because it had a defaulting State Treasurer, he simply said the Democratic party never elected such men to the United States Senate, or made them chairman of its national committee. He did not know Quay, but understood he was a man of some good traits. He was no party to any conspiracy to injure or defame him.

PRIVATE LAND CLAIMS.

Relief Recommended for the Heirs of Myra Clark Gaines.

WASHINGTON, April 26.—The House committee on private land claims has authorized a favorable report on the bill for the relief of the heirs of Myra Clark Gaines. The bill recites that Myra Clark Gaines, as a legal representative of Daniel Clark, deceased, of Louisiana, was entitled by reason of Spanish grants, to 38,457 acres of land, and provides for the issue of patents to her heirs, for all of these lands which the Commissioner of the General Land Office shall find vacant, unappropriated and undisposed of by the United States, which patents shall operate only as a relinquishment of title on the part of the United States, and not impair or preclude any adverse claimants from the right to assert the validity of their claim for all lands disposed of by the United States, or otherwise lawfully appropriated, provided that there shall issue certificates of location of the character prescribed in the act for the adjustment of private land claims in Florida, Louisiana and Missouri.

Sensational Charges Against a Physician.

Startling Revelations Growing Out of a Divorce Suit.

The Doctor's Wife Accuses Him of Wholesale Malpractice, and of Cruelly Burning His Patients' Offspring.

Associated Press Dispatches.

MILWAUKEE, Wis., April 26.—A local paper devotes five columns to an alleged exposé of the criminal practices of Dr. Thomas Hatchard. Ten days ago Dr. Hatchard brought a suit for divorce against his wife Nancy, in which he alleged that she excessively used liquor and morphine. Mrs. Hatchard, in answer, charges her husband with many cruel and brutal acts, including criminal malpractice and the burning of young babies alive. Among other things in her answer, which is sworn to, she states that he converted their home into a hospital, where women who wished to avoid the consequences of their crimes were treated; that she was forced against her will to care for and nurse them after he performed operations upon them. She also alleges that on at least two occasions the doctor burned prematurely born babies, and that one woman, Maggie Hogan, from Fond du Lac county, died in their house from the effects of a criminal operation. Her answer gives names, dates and details of a chapter of horrible crimes alleged to have been committed by the doctor. In an interview, attested by an affidavit, Mrs. Hatchard declares that she saw her husband take no less than five new-born infants, build a hot fire, and throw them, shrieking and kicking, into the flames. He did the same, she says, with many others, both dead and alive, probably twenty altogether. The Hogan girl, and another named Langworthy, died from the effects of abortions in the house. The records of the health department show the death of these girls.

MISCELLANEOUS.

Scaly Psoriasis 20 Years

A startling revelation of suffering. Entire person covered with dry scales. Every morning a dustpanful, some as large as an envelope, taken from the sheets. Tried every medicine and many doctors and hospitals. All thought he would die. Bred a mass of disease, hair dead and lifeless. Suffering fearful. Cured in six weeks by the Cuticura Remedies. N. B.—This cure was made in 1879, and has remained permanent to date, January 27, 1890.

Cured by Cuticura

I have been afflicted for twenty years with an obstinate skin disease, called by some M. Ds. Psoriasis, and others leprosy, commencing on my scalp; and, in spite of all I could do, with the help of the most skillful doctors, it slowly but surely extended, until a year ago this winter it covered my entire person in the form of dry scales. For the last three years I have been unable to do any labor, and suffering intensely all the time. Every morning there could be nearly a dustpanful of scales taken from the sheet on my bed, some of them half as large as the envelope containing this letter. In the latter part of winter my skin commenced cracking open. I tried everything, almost, that could be thought of, without any relief. The 26th of June I started West, in hopes I could reach the Hot Springs. I reached Detroit, and was so low I thought I should have to go to the hospital, but finally got as far as Lansing, Mich., where I had a sister living. One Dr. — treated me about two weeks, but did me no good. All thought I had but a short time to live. I earnestly prayed to die. Crossed through the skin all over my back, across my ribs, arms, hands, limbs; feet badly swollen; toe-nails came off; finger-nails dead, and hard as a bone; hair dead, dry and lifeless as old straw. O my God! how I did suffer. My sister, Mrs. E. H. Davis, had a small part of a box of CUTICURA in the house. She wouldn't give up; said, "Well, try CUTICURA." Some was applied on one hand and arm. Eureka! there was relief; stopped the terrible burning sensation from the work. It immediately got the
