The Tariff Debate Goes Unceasingly On.

Protection for Grandmother Hayes's Eggs.

The Senate Passes the Army Appropriation Bill.

John W. Green's Nomination as Postmaster of Los Angeles Confirmed—Washington Notes.

Associated Press Dispatches.]

WASHINGTON, May 10.—The house today went into committee of the whole on the tariff bill. Lanham, of Texas, in a speech generally critical of the measure, urged the importance of reciprocity with Mexico. He especially antagonized the feature of the bill which places a duty on silver-lead ore, declaring that it would destroy the smelting industry of Texas and the neighboring states, and would invite retaliatory legislation on the part of Mexico.

McAdoo, of New Jersey, opposed the bill, and in the course of his remarks sarcastically taunted the republican party with the failure of its ante-election promises.

La Follette's Alleged Logic.

La Follette, of Wisconsin, drew a comparison between the Mills bill and the pending measure. He said the republican bill favored protection to American agriculture, manufactures and labor; the democratic bill opposed that policy. The republican bill proposed to foster a home market for Americans; the democratic bill proposed to invite all other countries to take this market from our people whenever it was in their power to do so. The issue was made, and he, as a republican, welcomed it. The republican policy would strengthen the alien labor law; the democratic policy would nullify that law, because it was cheaper to import the products of cheap labor than to import cheap labor itself. He then entered into a detailed explanation and defense of the various schedules of the bill.

Mills' Remarks Ridiculed.

In conclusion he said: "What does the democratic system offer? The gentleman from Texas (Mills) has told us. I listened to his gleeful description of the world's market our farmers would find if the blinders of protection were removed from their eyes. He descanted in an enthusiastic and robust speech of the government soup houses in the old world, established to feed the herds of hungry poor, and mounted to his supreme climax with the declaration that men were starving for bread there. I waited breathlessly for more, but in vain. In God's name is this the market you ask the American farmers to sell their wheat in? Are they to trundle their grains from the Dakotas to the old world and wait for the aristocratic patronage of the government soup-houses and other subjects starving for bread to bid against each other and fix the price?"

Springer's Take-Offs.

Springer, of Illinois, opposed the bill. He denounced granting bounties on sugar and raw silk, and then in a facetious manner proceeded to point out the benefit which would inure to the farmers of Illinois from the provisions of the law. Cabbages were now taxed 10 per cent ad valorem. It was proposed to tax them 3 cents a head. According to agricultural reports no cabbages were imported at 10 per cent. How many would be imported at the equivalent of 50 per cent?

Protection for Granny Hayes.

After ridiculing the imposition of duty on eggs as a measure of protection to ex-President Hayes, who had gone into the chicken business, he reviewed the free list and declared that the American hog was discriminated against, in that bristles were placed on the free list, while a high duty was placed upon wool. Was it for the benefit of the Illinois farmer that his sleek fat hogs were placed on an equality with the razor backs of Mexico? [Laughter.] The democratic party was ready to meet the issue tendered in the bill; and he predicted that the house in the fifty-second congress would have a democratic majority of fifty; in 1892 there would be a democratic congress pledged to repeal this bill if it should become a law.

Dingley, of Maine, supported the bill, and Barnes of Georgia, Andrew, of Massachusetts, Cummings, of New York, and Brickner, of Wisconsin, opposed it. The committee then rose and a recess was taken until evening.

SENATE PROCEEDINGS.

No Beer or Wine to be Sold to Enlisted Men of the Army.

WASHINGTON, May 10.—In the senate today, the house amendment to the senate bill to increase the limit of the cost for a public building at Sacramento, Cal., was concurred in.

The army appropriations bill was then taken up. Hale's amendment that no alcoholic liquors, beer or wine be sold and supplied to enlisted men in any canteen or building in a garrison or military post, was agreed to—yeas 30, nays 13. Cockrell's amendment striking out the words "beer or wine" was disagreed to. The bill was then passed.

The calendar was then taken up and the following bills, among others, were passed: Senate bill appropriating \$10,000 for two wagon roads through Fort Canby military reservation, in the state of Washington; senate bill appropriating \$12,000 for a steam launch for the collection district of Puget sound.

The senate then took up the individual pension bills on the calendar, and passed all of them (18) in an hour and a half. After executive session, the senate adjourned.

FREMONT FAINTED.

THE OLD PATHFINDER OVERCOME BY GOOD NEWS.

He Thought He Owed the Government \$19,000, but It Turns Out That Uncle Sam Is His Debtor for \$21,000.

When John C. Frémont was a lieutenant in 1848, in California, his accounts with the government were left in such a state that he has always been regarded as an official debtor to the government to the amount of \$19,000, and it has been one of the chief sorrows of Frémont's later years that he was unable to square this balance against him. The other day Frémont called at the office of the second comptroller of the treasury, and said his financial circumstances are such that if his salary as retired major-general were retained to meet this alleged shortage, he would be for some time in actual want. At his request the comptroller investigated the accounts, and discovered that instead of Frémont being the debtor, the government had actually owed him for over forty years \$21,000. The records are perfectly clear, and it was proven beyond dispute that through a mistake in book-keeping Lieutenant Frémont had been charged with a sum for which a voucher was on file. When Frémont called again to ask whether some arrangements might be made to pay his supposed indebtedness by installments, he was so unprepared for the glad news awaiting him, that he fainted. Yesterday a warrant for the amount due him was made out and duly approved and signed.

The Amount Only \$1,900.

WASHINGTON, May 10.—The statement made in a special dispatch to a New York paper that the government is indebted to General Frémont in the sum of \$21,000, is incorrect. The amount involved is \$1,900, and congress will be asked to pay it.

CROP CONDITIONS.

A Falling Off of One Point in Winter Grain During April.

WASHINGTON, May 10.—The official report of the condition of winter grain, May 1st, makes a reduction of one point in wheat, the average being 80. The rye average is maintained, being 93.5; barley, 84.6. The areas in which the roots were not too severely frozen, have improved during the past month; in others the injury is shown to be greater than appearances indicated. The heaviest decline in the condition appears in Indiana and Illinois. Part of the Ohio breadth improved, while the larger part declined, causing a fall of five points for the state.

There is a partial recovery from the very low condition of April on the Pacific coast, and improvement in Kansas, Michigan, Kentucky and Tennessee and in New York. The average conditions for the principal producing states are as follows: New York, 91; Pennsylvania, 96; Ohio, 82; Michigan, 73; Indiana, 63; Illinois, 64; Missouri, 82; Kansas, 92; California, 82; Oregon, 93.

The reported progress of spring plowing and planting indicates an average state of forwardness of farm work. It is evident that the depression in prices of corn and oats and other products has not affected the wages of agricultural labor.

The Outlook is Good.

SACRAMENTO, May 10.—Sergeant Barwick, of the signal office, sent his weekly crop report dispatch to Washington today, saying: Grain and all kinds of fruits have been favorably affected in all parts of the state, excepting early cherries and strawberries and hay that was cut, which is slightly damaged. The outlook is good for the biggest fruit crop Southern California ever had.

Raisin-Packing Union.

WOODLAND, May 10.—A convention of raisin-growers, packers and shippers, of Yolo county, will be held next Saturday, for the purpose of effecting a permanent organization. The primary object of the meeting is to consider the advisability of establishing a mutual protective and educational society.

Carpenters Flocking to Portland.

PORTLAND, Ore., May 10.—A large number of outsiders have come here to take the places of the striking carpenters, and the contractors say that more will arrive in a few days.

Editor Rothacker Dead.

OMAHA, May 10.—O. H. Rothacker, former editor-in-chief of the Omaha Republican, and son-in-law of the late S. P. Rounds, died of consumption this afternoon.

Price of Jute Bags.

THE COLORADO SPAN

Trains Cross the New Cantilever Bridge.

Largest Span of Its Kind in America.

It Was Finished Just as It Was Most Urgently Needed.

Ten Acres Is Governor Waterman's Modest Demand for Space at the World's Fair.

Associated Press Dispatches.]

SAN FRANCISCO, May 10.—A Chronicle special from the Needles, Cal., says the first train to cross the Atlantic and Pacific great cantilever bridge, passed over at 2 o'clock this afternoon, allowing travel to be resumed after thirty hours' interruption caused by a washout.

The bridge is 900 feet long. The span is 660 between the main piers, the longest span of that type in America. Five passenger trains held each side of the river by the washout, proceeded at 3 o'clock. The formal opening will probably occur on the 20th.

Its completion just as a big washout occurred was extremely fortunate. The new bridge is thirteen miles below the old one at Mojave cañon, at the foot of the Needles mountain. Thirteen miles of new track was built, making the route 3.1 miles longer. Ten miles of old track on the east bank of the river and the old wooden bridge will be taken up at once. The building of a temporary track around the big washout has been abandoned since the new bridge is in use. The river is still rising rapidly, and cutting away the east bank and old road bed.

TEN ACRES ENOUGH.

Is This Sitting Room for the Governor or Standing Room for Boruck?

SAN FRANCISCO, May 10.—Governor Waterman today telegraphed the world's fair executive committee at Chicago, asking that ten acres of space be reserved for California's exhibit, and promising that if the request is acceded to California's exhibit will be one of the features of the fair.

THE WHITE METAL.

A Corner Manipulated in New York—The Government Buying Abroad.

NEW YORK, May 10.—A special from Washington says: The statement is made that during the last two or three days a corner in silver has been consummated in New York. Uncertainty in regard to silver legislation helped the manipulators greatly. The government is now compelled to buy silver from England. The amount of silver held by the New Yorkers is estimated by some at \$40,000,000 in bullion and certificates, but conservative accounts place the total bullion at \$4,000,000. While these figures would cover the bullion, it may be increased several millions by silver certificates.

It is a fact that the government has been compelled to buy silver in London, and to complete the deal the New York people have been keeping even with the government in purchases abroad. They have almost cornered the market in London. It is also a fact that the silver offered by the government at the assay office in New York has been at a premium of 2.03 cents.

Director of the Mint Leach this morning did not deny the rumors of the corner, but said no silver had ever been offered to the government at New York; that it had bought bullion in London, and was storing it in the assay office at New York. It is also storing what silver it has in the west and issuing certificates.

WANAMAKER'S SLEUTH-HOUNDS.

Pious John Says 'Tis the Custom to Show Postoffice Applicants.

WASHINGTON, May 10.—The postmaster-general has made an answer to the resolution adopted by the house, inquiring what postoffice inspectors or special agents have been employed to investigate the standing and claims of rival applicants for appointment as postmasters. He says: "I know no instance where an inspector under this administration has been detailed merely to ascertain whether or not an applicant was a republican, democrat or member of any other party, unless it was where the charge of deception had been made in seeking the appointment."

The postmaster-general adds that the practice of occasionally sending inspectors to report upon applicants is not new, and has been followed by all the postmasters-general for years past.

Santa Monica has been blest with unusually fine weather the last few days, and many of the denizens of Los Angeles have taken advantage of the opportunity to spend the day here.

H. E. Pollard, our genial city clerk, was summoned to Los Angeles, where his wife underwent medical treatment. Their many friends hope she may fully recover and soon be among us again.

The soldiers at the home are making preparations to duly celebrate Decoration day, and commemorate the boys who have gone before. There are twenty graves in the little cemetery at the home.

Among the many on the beach yesterday afternoon may be mentioned Judge Theodore Savage, A. R. Manville, L. A. Winthrop, J. G. Powers, Charles Williams, William Lyons and Hyram Squires.

The statement has been circulated that the whole beach has been washed away and untold damage caused by the storms during the winter rains. The damage all told will not amount to fifty dollars.

The statement which appeared in some of the Los Angeles papers that J. W. Scott had purchased the north beach bathhouse and suits is not correct. Scott purchased the suits, the bath house still remaining the property of Jones and Baker, under the management of F. R. Ellis, who has secured one thousand as fine suits as ever were seen upon the Pacific coast.

Frank Tibbets was arrested on two warrants sworn out by J. W. Hart accusing him of disturbing the peace and threatening to do bodily harm. He was brought before Judge McElfresh, who fined him \$7 on the first charge and placed him under \$500 bonds to keep the peace on the latter, which was promptly furnished, and he was at liberty once more.

The board of trade held a special meeting Thursday to consider the propriety of appointing a committee to wait upon Mr. Huntington on his arrival and ascertain what assistance the town could expect from the Southern Pacific in the many improvements contemplated. After quite a general discussion John Steere, T. L. Lewis, L. T. Fisher and President Gray were appointed a committee for such a purpose. Answers were received from Senator Stanford and the various members of congress representing California in reference to the petition before congress asking for government aid in improving the harbor. All stated that they would do their utmost, and it looks as if Santa Monica, which has been neglected so long, will receive some consideration at last.

When six months old, the left hand of our little grandchild began to swell, and had every appearance of a large boil. We poulticed it, but all to no purpose. About five months after it became a running sore. Soon other sores

GRANDSON HARRY LAWRENCE. Now 11 years old.

He could walk a little, but could not get up if he fell down, and could not move when in bed,

having no use of his hands. I immediately commenced with the CUTICURA REMEDIES, using all freely. One sore after another healed, a bony matter forming in each one of these five deep ones just before healing, which would finally grow loose and were taken out; then they would heal rapidly. One of these ugly bone formations I preserved. After taking a dozen and a half bottles he was completely cured, and is now, at the age of six years, a strong and healthy child.
