### OLD HORSE.

The Trading that J. D. Chambers is Said to Have Done.

For the past three weeks Detective A. B. Lawson has been engaged in investigating the actions of Joe D. Chambers, the foreman of the Washington-street car barn, on behalf of the Los Angeles Cable Railroad Company, with the result that some very damaging circumstantial evidence is said to have been gathered, and Chambers, it is alleged, has seen fit to leave town without notifying his employers of his intention to resign. It is alleged by E. C. Booher, who was a confidential friend of Chambers, that the latter proposed to him, that when the cable company sold off about 600 head of horses and mules, some months ago, he should buy up the stock of the company, set the price at what the animals were to be disposed of, and Booher purchased them, Chambers subsequently selling them at a good percentage. As yet Booher had not been able to have a settlement with Chambers, but he had every confidence in his doing so, on account of their long-continued friendship. It is also claimed by Foreman Fulton, of the Twelfth and Olive-street barn, that on April 20th last he reported to Superintendent Robinson that Chambers had purchased a lot of old "skate" horses and exchanged them for the youngest and best animals in the barn. Superintendent Robinson said that he would investigate the matter fully, but next day Chambers denied the whole affair, and nothing more was done in the premises until the matter was reported to Superintendent Aiken, who is still investigating it.

One instance is cited where Chambers disposed of a mule and six horses to Blair & Gould for \$377, part of which was composed of agricultural implements, which he subsequently sold to Sanford & Johnson for \$280 cash. The books of the company, however, show that the sum of \$140 only was realized by the sale of the animals.

Several other transactions have been traced to Chambers's door, but the company does not appear anxious to prosecute him.

### The Liveliest Town Anywhere.

W. G. Kautz, Jr., who returned from a trip through the east a day or two ago, says Los Angeles is the liveliest place of its size that he has been in for months. In Salt Lake the real estate market is on the verge of collapse. The best business property is held at \$2,500 a foot, and good residence property at \$200 a foot. That is away above prices in Los Angeles. In the east the impression is growing that now is the time to buy in Los Angeles. Guess this is correct.

### From B. W. Layton.

A letter has reached a member of the HERALD staff from B. W. Layton, well known here for years past. He is now at Wapakoneta, Ohio, the home of his brother, an eminent lawyer of that section. This brother, F. C. Layton, has been nominated for congress in that district by acclamation. It is a sure democratic district, and to be nominated is the same as to be elected. Mr. Layton writes in a hopeful strain, indicating that he is doing well.

**CATARRH, THROAT DISEASES,**  
Asthma, Bronchitis and Consumption, together with diseases of the Eye, Ear and Heart, successfully treated by

M. HILTON WILLIAMS, M.D.

M. C. P. S. O.,  
By His Hot Air Medicated Inhalations and his COMPOUND OXYGEN TREATMENT.

### ASTHMA

It is a common error to suppose every disease which is attended by oppressed breathing to be Asthma or Hay Fever. We have shortness of breath in Consumption and Pneumonia just as we do in Asthma, only that in these diseases it is always present, whereas in Asthma it occurs in paroxysms.

Asthma is a spasmodic disease of the lungs, which manifests itself in periodic attacks or "fits." It comes on suddenly and is attended with great difficulty of breathing while it lasts; but when the attack is over the patient breathes almost as well as in health.

Nervous, Humid and Dry Asthma are names given to different forms of this disease. Emphysema is another and more inveterate kind of Asthma, while Hay Fever or Rose Cold is a peculiar variety of Asthma which occurs at a certain season of the year. Each of these forms of disease differs somewhat from the others in symptoms, but practically these distinctions are very little value. We have shortness of breath in Consumption and Pneumonia just as we do in Asthma, only that in these diseases it is always present, whereas in Asthma it occurs in paroxysms.

Without courage and perseverance nothing is curable. But with these, aided by proper and skillful treatment, Asthma can be cured even after the lungs are extensively diseased.

Persons desiring treatment by this system of practice can use the remedies at home, as well as at our office, and which will cause no inconvenience or hindrance from business whatever. Every case of Asthma is curable. Eastern visitors and invalids will be wise in being cured before they return home.

Those who desire to consult with me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally can use the remedies at home, and circular, both of which will be sent free of charge. Address

### The Natick House.

#### NEW MANAGEMENT.

The Natick House, one of the oldest and best known Hotels in the city, has lately changed hands. M. S. Rowell has retired from the management, and the House will hereafter be conducted by Mr. H. A. Hart, a Hotel man of experience. Mr. Hart has already made a number of changes which will prove of benefit to his patrons, and adds very much to the convenience and comforts of the House. The Table and Dining Service especially has been greatly improved.

During the past few weeks the Natick has been in the hands of the painters and decorators. A commodious office is one of its good features. Electric Bells with return calls and Fire Alarm have also been added, and altogether the House is in better condition than ever before for doing business.
