

ABOUT TOWN.

The Crown Hillites Adopt Spicy Resolutions.

They Object to the Way They are Treated.

A Sudden Death and Inquest at Lancaster.

Mr. C. P. Huntington Will Not Visit Los Angeles—Other Matters of Local Interest.

The Crown Hills board of trade met Tuesday evening and discussed several matters of importance to the West End. The following resolutions regarding the First-street grade were adopted:

WHEREAS, Nature has undesignedly interposed an unimportant hill between us and the business center of the city; and

WHEREAS, Perched on said hill, a few citizens inherit rights of possession superior to the universal and immemorial right of eminent domain; and

WHEREAS, The just demands and rights of the many to go through said hill is obstructed by the few, in the face of an intention and offer to pay all costs and damages; and

WHEREAS, It is sought by the few to establish a grade over said hill of one foot in nine and one-sixth, a grade much worse than that now being destroyed and revised on the Temple-street hill; and

WHEREAS, The foregoing grade is a local improvement, precluding an assessment district and involving heavy damages to property on cross streets which a better grade with a short tunnel will mainly avoid; and

WHEREAS, The estimates of the engineers, less than our own estimate, have effectually disproved the wild and misleading assertions of excessive cost, and have shown that a good grade can be paid for within the means of an assessment district; now, therefore, be it

Resolved, That we place ourselves on record as follows: We will not cease in the endeavor to open a thoroughfare into the city until such thoroughfare is obtained. If one project fails we will try another, and then another, and in due lapse of time we will try each in turn again. If we are denied by one council or blocked by one mayor, we will demand our rights by each succeeding mayor and council, and will take a hand in the election of city officials. If a grade is established that ignores our rights, we will overthrow it and bring it down at the earliest opportunity. We call on all fair-minded citizens to aid us by word and deed in opening a passage-way through a barrier that must eventually give way before the unanimous demands of a large and rapidly increasing portion of the city.

The following resolution as regards water rates was adopted:

Resolved, That if meters are used at all by the Citizens' Water Company, every consumer should be supplied with one, in order that no discrimination be made.

The following resolution was also adopted:

That we recommend to the Crown Hills Improvement Society and to the West End board of trade to request the city council to give immediate notice of intention to terminate the lease of the Citizens' Water Company of the water obtained from the Los Angeles river.

The following resolution was then introduced by Messrs. C. M. Wells and J. M. Davies and adopted:

Resolved, That the citizens are requested to report to the Crown Hills Improvement Society or West End board of trade all cases of extortionate charges for water or unjust discrimination in charges or violation of the water ordinance.

Resolved, That we recommend citizens to refuse to pay unreasonable meter and other water rates.

Resolved, That we counsel organization for the purpose of resisting discrimination and extortion.

WILL NOT BE HERE. C. P. Huntington Called East on Business—Railroad Matters.

A dispatch was received yesterday by the local Southern Pacific officials to the effect that President C. P. Huntington had been called east on business and would not visit this part of the state at this time, as was expected. Mr. Huntington will be in the east about two months, and will probably make a trip to Los Angeles on his return.

The \$38 second-class and \$63 first-class rate to Chicago is now being quoted by the Santa Fe and Union Pacific. Both roads deny that they have sold tickets for a less figure.

The regular weekly Warner excursion arrived Tuesday over the Santa Fe route, with the following passengers: E. C. Eckstein, Grand Rapids; W. C. Newhall and family, Galesburg; H. W. Meidendorff, Evanston; G. N. Straight and T. Wertzler, Chicago; John Eldman, Joliet; Mrs. C. N. Whitehouse and Annie Roberts, Detroit; Jennie Thomas and W. J. Denand and wife, Chicago; C. W. Smith and Miss J. N. Swertz, Washington Heights; James McKenzie, Columbus; I. W. Swaggart, Cleveland; P. J. Bruce and wife, Cincinnati; Mrs. E. Dower, Kansas City; F. J. Trembley, Toledo; J. Bond Francisco and Miss Minnie Moler, Columbus; E. A. Vanderhoof and Miss J. Hewitt, New York; Frank W. Worthorst and S. M. Crossland, Muskegon; Carrie Field, Chantute; Mrs. H. C. Wiesel and daughter, Kansas City; Daniel Schleser, Marletta; See Stapleford and William J. Smith, Albuquerque.

The last two days of hot weather have driven many people to the beach, and Santa Monica's patronage is daily increasing. Should this weather continue till Sunday a regular mid-summer scene will be witnessed at that resort.

AN INQUEST. A Young Man Dies Suddenly at Lancaster.

Coroner Meredith held an inquest at Lancaster, on Tuesday evening, upon the body of Charles Slipp, a young man about 35 years of age, who died suddenly at the Lancaster hotel, on Monday last, of consumption. From the testimony adduced at the official inquiry into the cause of his death, it was learned that on Friday, the 25th ult., Slipp arrived at Lancaster from Norwalk, in a very weak condition. He was assisted over to B. Hannah's hotel, near the depot, and remained there until he died. About the

third day after his arrival he was very much better and he improved to such an extent that on Monday morning last he announced his intention of returning to Norwalk. Hannah packed his trunk for him, and prepared to accompany his guest. After purchasing tickets, Hannah suggested that Slipp had better eat dinner before the train arrived, and the young man went into the dining-room and sat down. Shortly after he had taken his seat, however, he had a hemorrhage, and Hannah was called in and found a lady holding Slipp's head. The youth was bleeding at the nostrils and shortly afterwards fainted. He was carried to his room, but never rallied and death ensued in a few minutes after his removal from the dining-room.

The jury returned a verdict of death from natural causes.

INSTANTLY KILLED. A Block of Granite Falls on Two Men in a Monrovia Quarry.

The Herald's Monrovia correspondent sends in word that two men were almost instantly killed at that place yesterday. Their names are C. M. Whittaker and G. W. Stubbs. They were loading a two-ton block of granite at the quarry and the derrick broke, letting the big stone down with all its weight. It caught the two men with fatal effect, and when they were extricated they were almost dead. Medical aid was at once dispatched to the quarry. Whittaker's skull was fractured and Stubbs was found to have sustained internal injuries of a very serious nature. Life was not quite extinct when the men were taken out, but at the time the dispatch was sent in from the quarry it was generally conceded that neither of the unfortunate men had any chance of surviving the injuries for more than a very short period.

The Baxter brothers own the quarry, and employ a good many men, as they are getting out 500 cars of rock for the Santa Fe Company. The quarry is north of the city of Monrovia and near the reservoir.

THE CHAMBER.

Danger to the Public Building Appropriations.

Efforts to be Concentrated on One Thing.

The Question of a Public Market Place to be Investigated.

A Number of New Members Admitted to the Association, and Other Business Transacted.

The regular monthly meeting of the chamber of commerce was called to order shortly before 3 o'clock yesterday afternoon, with President E. W. Jones in the chair, and about thirty members present. After the reading of the minutes, the secretary offered the report of the committee on membership, recommending favorable action on the following applications for membership: George Hinds, C. Mahom, R. A. Ling, Thomas G. Barnard, J. H. Melville, S. H. Butterfield, Albert M. Stephens, R. Y. McBride, Gillis A. Cook, J. E. Aull, Dr. R. S. Den, Thomas Strohm, J. W. Davis, John W. Green, J. Banbury, S. P. Creasinger, M. Kremer, Aaron Mason, Horace Bell, E. M. Ross, G. A. Dobinson, J. Marion Brooks, J. E. T. Buntington, J. Fisher, John H. Schumacher, C. J. Fox. The secretary was instructed to cast the ballot of the chamber for the new members.

The following resolutions, offered by J. J. Jones, were read and referred to the committee on commerce:

WHEREAS, The appropriation for the improvement of San Pedro harbor for the fiscal year was only \$35,000, a sum totally insufficient for any practical benefit to the said harbor; and

WHEREAS, The government has appropriated larger sums of money on less important places along the Pacific coast for harbor improvements than at San Pedro; therefore be it

Resolved, That a committee of five members from the chamber be appointed by the chair to investigate the reason why the appropriation was so small, so as to hereafter avoid mistakes if any have been made by the people in asking for government aid in the improvements of our harbor.

The secretary read the following communication from the secretary of the Calhenga Township Producers' Union, which provoked some discussion:

Resolved, That a committee of five members from the chamber be appointed by the chair to investigate the reason why the appropriation was so small, so as to hereafter avoid mistakes if any have been made by the people in asking for government aid in the improvements of our harbor.

Adjourned.

A large number of strangers visited the permanent exhibit yesterday, and the displays looked particularly attractive. Dr. E. P. Howard and J. H. Coffy added some very fine specimens of ore to the mineral collection, and Mrs. H. F. Corneil gave a turtle for the fountain.

Other donations were: W. A. Nimmicks, Fulton Wells, oranges and lemons; Preston Williams, Downey, sweet potatoes, pumpkins, citron and beets; N. Vanderlip, Tustin, stalk of oats, 9 feet 10 inches long.

Those who donated flowers were: Mrs. H. F. Corneil, decorated cross, horsehoe and ladder; Miss Frankie McCreery, Mrs. Longstreet.

N. A. Bruster and D. M. Hough, of the chamber of commerce of Rochester, N. Y., spent a few hours in the chamber and expressed surprise at the display and the success of the chamber.

The Dunkard exhibits are coming in very slowly and not as satisfactory as was wished.

Pullman Passengers. The following Pullman passengers departed for the north at 1:40 yesterday: Mrs. Robert Marsh, J. A. Robinson, H. Thompson, Prof. Anthony, John Bryson, S. H. Weller, Mr. Hirsam, George L. Rhodes, Rev. Hough, W. B. Story.

A motion was made to refer the matter to the committee on public improvements. Captain A. W. Barrett thought the subject ought first to be discussed by the chamber. Mr. C. M. Wells said that the question was one that merited attention. All cities of the size of Los Angeles had public market-houses where the consumer could meet the producer. He thought that the matter should go to the committee for careful consideration; that they should find out whether there was any suitable place for such a market, and report at the next meeting of the chamber.

Mr. McKoon suggested that Mr. Wells be added to the committee on commerce to assist in the work, but that gentleman declined to serve, and Captain Barrett promised that the committee would have a report ready by the next meeting.

A communication was read from Otheman A. Stevens, agent of the New York Herald, offering to prepare an article descriptive of Los Angeles for sale by the chamber. It referred to the committee on publication.

The secretary read the following letter from T. W. Blackburn, superintendent of Indian schools.

DEPARTMENT OF THE INTERIOR, OFFICE OF INDIAN AFFAIRS, WASHINGTON, May 9, 1890.

Major E. W. Jones, Los Angeles, Cal.: My DEAR SIR—I am a good deal disturbed over the prospect for appropriations for Southern California. I hope I am wrong, but the way it appears to me now, Los Angeles and Southern California will get next to nothing. I am persuaded that unless you folks do something to force attention to your needs even the public building appropriation will prove a disappointment.

It is true San Jose pushed her bill through and secured several other important measures affecting Northern California interests have gone a long way toward realization, but thus far our own section has been almost neglected.

Senator Plumb's attack upon San Diego in the senate, in which he described that city as a village of 10,000 people, is a fair sample of the knowledge eastern people have of Southern California.

Most of my new-made acquaintances look upon me as a fabricator when I try to convince them that Los Angeles has a population of 80,000 or more.

General Vandever's Indian school bill appropriating \$50,000 lies in a committee pigeon-hole. So of most measures in which the south country is interested, San Francisco and the bay counties will knock the persimmon this year, unless Los Angeles makes her importance known and vigorously demands her share of the grand prizes. Yours truly,

T. W. BLACKBURN.

Mr. W. S. Van Dorn suggested that the letter be referred to the committee on public buildings, with instructions to report to the board of directors. He thought that immediate action should be taken. Los Angeles would be left unless something was done immediately. The directory should, if necessary, call a special meeting of the chamber.

Captain Barrett said that Los Angeles should have a man at Washington especially to look after her interests. San Francisco, San Jose and other northern cities had such men, and paid them to push such matters through. This dis-

tributed had a representative at Washington, but he did not seem to bother himself much about Los Angeles.

Mr. Fish had seen by the papers that Colonel H. H. Markham had gone on to Washington, and thought he would be a good man to turn the matter over to.
