

HARDIE'S MURDER.

Dr. F. L. Haynes Returns With the Remains.

His Statement as to How it Occurred.

General Grierson Thinks the Murderers Were Not Indians.

A Number of Soldiers in Search of the Guilty Parties—Action of the Bar Association.

Shortly after 10 o'clock last night Dr. Francis L. Haynes arrived in this city from Arizona, with the body of his brother-in-law, Robert Hardie, who was killed at Rucker's cañon on Saturday last. He was accompanied by his brother, Dr. John R. Haynes, and Dr. Walter Lindley, both of whom met him at Colton yesterday. On the arrival of the train at the Arcade depot, the body of Mr. Hardie, which had been embalmed at Tombstone, was conveyed by Messrs. Orr & Sutch, the undertakers, to his late residence, No. 920 South Main street, at the request of his relatives, from which place the funeral will be held today. As Dr. Haynes stepped off the train he was met by Dr. W. W. Beckett and a HERALD reporter, but after a few words of greeting to the former, he excused himself to the latter on the plea that he was too much exhausted by his journey to be interviewed, and, joining his friends, quickly made his way to a carriage that was in waiting and drove home. The doctor's brother was also questioned by the reporter, but he also had nothing to say with regard to the unfortunate affair, and referred the reporter to Dr. Walter Lindley, to whom Dr. Haynes had told the story in detail, while en route from Colton to this city. Dr. Lindley was then seen at the Hollenbeck, and told the story of the murder in effect as follows, merely corroborating the accounts already published through the Associated Press dispatches.

Dr. Haynes and Mr. Hardie had been on a visit to Mike Gray's ranch, about sixty miles south of Tombstone, and near the borders of Sonora, and during the week which they remained there had been in the habit of taking daily rides together on horseback in the adjacent country. The residents in the vicinity did not display any signs of uneasiness, the farmers pursuing their vocations without any apparent fear of molestation, and there were no indications of the presence of hostile Indians; consequently both gentlemen rode unarmed and unsuspecting of danger. On Saturday afternoon last they rode down Rucker's cañon, Hardie, who had an unfaded rifle strapped behind his saddle, being about five yards in the lead. When about midway down the cañon, and at 3:30 o'clock, Dr. Haynes heard a volley of shots, fired apparently from a clump of pines on the left-hand side of the cañon; and Mr. Hardie fell with a groan. Dr. Haynes jumped from his horse and ran to his brother-in-law's assistance, his first idea being that Hardie had been accidentally shot by a hunter on the side of the cañon. On reaching Hardie's side he found that he was dead, a rifle bullet having entered his left breast and penetrated to the heart. He then realized that it had been an accident there would only have been one shot fired and not a volley, and his next impulse was that of self-preservation. He accordingly jumped upon his horse, but the animal was at that instant shot from under him and other shots were fired at him. Leaving the trail, Dr. Haynes ran up the cañon, traveling from left to right in zigzag fashion to escape from the bullets of the unbrushed enemy, but being an invalid he was unable to proceed very far, the atmosphere at that altitude (6,000 feet) being very rarified. Looking backwards as he stopped for breath, he saw an Indian in war paint and covered with beads, which reminded him of a picture of Geronimo he had seen in an illustrated magazine, who was within fifty feet of him and about to shoot at him. Fear lent new strength to the doctor's limbs and lungs and he again fled into the thicket, a bullet striking past his ear as he stumbled into the brush. When the doctor again stopped to rest he saw Hardie's pony on the trail a short distance ahead of him, and he ran out and caught it. He then galloped to Graves's ranch, and informed his friends of Hardie's death. Three men accompanied him back to the cañon after dark, and found the body of Hardie lying just where he fell. It was not mutilated in any manner, but the dead man's watch and pocket-book were missing, as was also his cartridge belt. The corpse was carried back to the ranch, and conveyed in a wagon to Tombstone, the party reaching that place on Sunday night. An inquest was held, and the body embalmed and placed in a casket and shipped to this city, Dr. Haynes leaving Tombstone at 1 p. m. on Monday. He expressed himself as deeply grateful for the kindness extended to him by the people with whom he came in contact in Arizona.

AMUSEMENTS.

Herrmann's Vaudeville Combination at the Los Angeles.

Professor Herrmann's Vaudeville Company appeared at the Los Angeles theater last night before a packed house. It is a variety performance made up of very many combinations of many kinds. It delighted the audience very generally, although it is far from being of equal merit all the way through. Some of the features are the very best of their kind seen here, and some of them are not so good. They have a child who sings and dances, who is the best thing in this line yet seen in Los Angeles. Katie Seymour does not sing well, but she dances supremely well. Trewey, in his slight of hand tricks and shadow pictures, is at the head of the class. The four dancing girls from the Gaiety, London, are a picture worth seeing. They dance to perfection. These are only half the features of the play, and there are others as good as these. The play is on until next Friday night, including a Friday matinee, when all the soldiers' orphans in the city are to be admitted free. It is a typical London music-hall show.

"Paul Kauvar."

At the Grand Joseph Haworth, in Paul Kauvar, is not drawing as he and the play deserve. Steele Mackaye has done excellent work in the plot. It is superbly set, and is a realistic presentation of the reign of terror in Paris. The Monarchs and Sans Culottes of that terrible period are represented to the life. Any one who has read Tom Carlyle's history of the time will realize how well the playwright has done his work. It is on for the week.

Miss Irene Lamb has removed her millinery and art rooms from 224 W. Second street, Hollenbeck block, to 229 S. Spring street, Los Angeles theater building.

The Condensed Milk

Made by the new factory, Buena Park, is the richest and purest in the market. Every grocery store has got it, and every person should ask for the "California Brand" of condensed milk. Remember it is absolutely pure, and besides being a home product, it is the best.

Cleopatra.

Her power was retained by force of personal charms. She is the old "beauty" of them, ever she talked "pretty" to them and showed her teeth. History should tell us that she used 60,000 lbs. of lead. The preparation she used might have had another name then.

Special Excursion.

The teachers' vacation excursion to St. Paul and all points east, will leave Los Angeles, June 24, via Denver and Rio Grande railway, stopping at Salt Lake City and Niagara Falls. For further particulars call on address.

these later that the party escaped. The Arizona posts will do their best to recapture the murderers, whether red or white, and numerous parties are now in the field in their pursuit.

The Bar Association.

The Los Angeles Bar Association met yesterday afternoon in Judge Clark's court room, to take action upon the death of Mr. Hardie, who was held in high esteem by all who knew him. Judge A. W. Hutton called the meeting to order, and Judge A. J. King was selected as chairman and W. I. Foley as secretary. A committee on resolutions was appointed, consisting of A. T. Patton, F. H. Howard, M. W. Wicks, R. B. Carpenter, A. W. Hutton and D. C. Bower. A committee to attend the funeral services was appointed, consisting of Hon. A. W. Cheney, Hon. W. H. Clark, Hon. W. F. Fitzgerald and W. E. Foley. The meeting then adjourned until this morning at 9:30, when the committee on resolutions will report.

U. S. MATTERS.

Sentences in the Courts—A New Suit Filed.

In the United States district court yesterday, five of the six prisoners indicted by the grand jury on Monday last appeared before Judge Erskine M. Ross for arraignment upon the various charges against them. Gabriel Torres, James Kelly, John Howe and Ah Him entered their pleas of guilty to the charges of selling liquor to Indians, and each was committed to the county jail for a term of six months' imprisonment.

Avery Clinton also entered his plea of guilty to the charge of mailing an obscene letter to Miss Charlotte Shiels, of Saticoy, Ventura county, on March 22d last, and was sentenced to imprisonment at San Quentin for three years, with hard labor. He addressed the court at some length before sentence was passed upon him, asking for leniency. He expressed his regret in the crime, and had committed unintentionally, and stated that he loved the girl to whom the objectionable letter was indited, but that her father had opposed his suit.

John Howe, one of the men under indictment for selling liquor to Indians, also asked the court to be lenient, as he had borne a good reputation for forty years past, and had merely bought the whiskey for an Indian, who requested him to do so, and paid him fifty cents commission. Judge Ross expressed his determination to suppress the practice, and announced that every offender who came before him a second time would receive the full penalty of the law.

Dr. Wo Sing, the Chinaman who was held to answer to the charge of aiding and abetting the illegal landing of Chinamen from Mexico, by United States Commissioner M. L. Ward, of San Diego, on the 21st inst. without bail, appeared before Judge Ross yesterday in the United States district court on a writ of habeas corpus, and was ordered to be released under bonds in the sum of \$2,000.

The papers in the suit entitled A. L. Burbank vs. L. W. Dennis, John P. Sanborn, Fred. D. Sanborn and the San Gabriel Land and Water Company, were yesterday filed in the United States circuit court, having been transferred from the superior court on petition of one of the defendants. This suit, which was commenced on December 17, 1889, was brought by the plaintiff on behalf of the dissatisfied stockholders of the San Gabriel Land and Water Company, of which he was one of the original subscribers, and owns 280 shares of its capital stock, to obtain an accounting. He alleges that Dennis and the Sanborn Bros., the promoters of the company, made false reports showing that they had advanced \$193,966.67 upon lands for the stockholders; whereas he avers that they only expended \$97,606.67 as first payments upon said lands, and that there is still unaccounted for the sum of \$96,000.

WANTS DAMAGES.

Twenty Thousand Dollars for Being Put Off From a Car.

The case of R. C. Guirardo against the Los Angeles Cable Company is on trial before Judge Wade and a jury. The suit was brought for the purpose of obtaining damages to the amount of \$20,000 alleged to have been sustained by being ejected from a car belonging to the defendant. The plaintiff sets forth in his complaint that on June 8th last year, when the Grand-avenue branch of the cable road was opened, he obtained a transfer from the Fourth-street line and boarded a car on Broadway. The conductor asked him if he had an invitation from the company, explaining that the cars were moving on their trial trip, and only persons holding invitations from the company were allowed to ride. He got off, and as he stated yesterday, proceeded to walk down Fourth street, when, thinking over the matter, he walked back to where he had got on with a transfer and boarded the next car that came along, which was No. 106. To the conductor of this car he tendered, instead of his transfer, a five-cent piece, which was refused. Again things were explained to him, but this time he refused to get off. He alleged that he was put off by force, and his feelings injured to the extent of \$20,000.

THEATRICAL BALL.

A Great Game to Be Played This Afternoon.

There will be a game of baseball for blood and something else at the baseball park this afternoon. Two theatrical companies will be in town and will play for the championship. The nines will be made up of Haworth's Paul Kauvar nine and Herrmann's Vaudevilles. The Kauvar players will wear real pajamas, especially built by a Chinese tailor for this occasion. To make the game more interesting a laurel wreath, in the shape of a keg of beer, will be placed on third base. The thirsty Thespians will be allowed to quench the aforesaid thirst when they reach the base. It is understood by all concerned that no player will be allowed to run to third base after hitting the ball, but will be compelled to make the usual circuit. Neither will a player be allowed to sleep at third base when he gets there. The Kauvar Pajamas will be made up of the following graduates of eastern colleges. They are all good players and the practice they have had in Nick Engle's promises to make their game, so far as third base is concerned, the greatest event of the season. The nine is composed as follows: Walton, s. s.; Ransome, p.; Hermance, 1st b.; Leslie, c.; Fenton, 1. f.; Woods, c. f.; McRea, 2d b.; Logan, r. f.; Boardman, 3d b. E. J. Stone will prove that he is a brave man by acting as umpire. The following will sit on the bench as substitutes: Joseph Haworth, Mark Lynch and John Drohan. Game called at 3 p. m. and admission free.

LOCAL MELANGE.

Meeting of the Crown Hills Association.

The Water Supply and Other Matters.

Wants Damages for Being Put Off From a Cable Car.

A Theatrical Baseball Game Today—Other Matters of More than Ordinary Local Interest.

The Crown Hills Improvement Society met last night, C. M. Wells in the chair.

Matters pertaining to First street were discussed, and it was stated that all were waiting to see what action the mayor will take regarding the ordinance of intention upon the grade of one in twenty. It was learned that as soon as either First or Second street was graded that the west end could with a certainty expect either a double cable line or an electric road on the hills, either of which would be welcome.

The following petition was introduced and adopted: To the Honorable City Council: As the water that is furnished the people of Los Angeles is very unsatisfactory and the prices charged exorbitant, and believing that the city should own its own water works and furnish the same in an unlimited quantity at a minimum cost to the people; and believing that a trust is forming to buy all the water in sight, we respectfully petition your honorable body to order an investigation as to the cost and possibility of building an entire new water system, to be paid for by bonds issued by the city.

The advantages of such a procedure are many, and we would have the expenditure of many thousands of dollars, which would increase the livelihood of many idle men. Such expenditure would return to the people in better, cheaper and more wholesome water. In a general conversation regarding transportation, the cost of cable and electric roads was fully discussed, and from the best sources of information it was learned that electric roads could be operated at about 60 per cent. less than cable lines, and that electric roads could be operated on a grade of one in ten with perfect safety.

In regard to the fire protection, it was shown that a fire hydrant connecting with a two-inch pipe, such as is laid over the hills, was inadequate, and the following petition will be presented to the council with the endorsement of the board: To the Honorable City Council: We respectfully petition your honorable body to take action in regard to the placing of fire hydrants in the Crown Hills district, as ordered by the council. Notice of such order having been served on the Citizens' Water Co. by the city clerk April 29, 1890, our investigation shows that the Citizens' Water Co. have only two-inch pipes where hydrants were ordered. The chief of the fire department says it is useless to place fire hydrants on two-inch pipes. The Citizens' Water Co. say that the hydrants are to be placed on four-inch pipes; that the city will have to put in such four-inch pipes.

We urgently petition your honorable body to take immediate action in regard to the matter. We have had numerous fires and sustained the loss of several homes through the inability to obtain water—homes that could have been saved had we the proper fire facilities.

THE ORO FINOS.

New Rooms to be Opened on Saturday Evening.

The Oro Fino Club is about to open club-rooms of its own in the old Masonic hall on Spring street, opposite the court house, and on Saturday evening it will give a reception. It proposes to show the Union League Republican Club how these celebrations should be conducted, and according to the statements made, the rooms will be made attractive. The opening exercises will consist of a pyrotechnic display, an open-air concert, vocal music, recitations, songs by public singers and addresses by the following: Gen. John Mansfield, Col. C. C. Allen, Major Geo. H. Donchraque, Gov. L. A. Sheldon, Gen. H. C. Rolfe, H. C. Osborne, J. A. Kelly, O. W. Baldwin, Gen. E. P. Johnson, J. F. Gilmore and W. I. Foley.

BICYCLE NOTES.

A Proposition to Divide the California League.

Local Consul Will F. Stuart, of the wheelmen's league, is working to have California divided into two separate divisions, and if he is successful the members of the league, it is thought, will get more benefit from the league than now. Stuart has petitions which he has sent to all of the consuls in this southern division for all league members to sign. He states that he will try and get everything in shape to send the petitions to President Dunn at New York by June 15th, and if successful in getting the division, that this division will have some bicycle races this year.

Scrofula

In Its Worst Form—"White Swelling" Cured.

The remarkable effect of Hood's Sarsaparilla in the following case illustrates the power of this medicine over all blood diseases: "My son, 7 years old, had a white swelling come on his right leg below the knee, which contracted the muscles so that his leg was drawn up at right angles. Physicians lanced the swelling, which discharged freely, but did not help him materially. I considered him

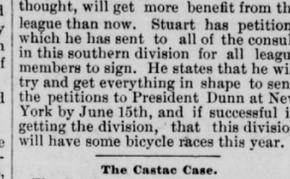

A Confirmed Cripple.

I was about to take him to Cincinnati for an operation, expecting his leg would have to be taken off, and began giving him Hood's Sarsaparilla in order to get up his strength. The medicine worked up his appetite, and soon pieces of bone were discharged from the sore. We continued with Hood's Sarsaparilla, as it seemed to be doing him so much good, and the discharge from the sore decreased, the swelling went down, the leg straightened out, and in a few months he had perfect use of his leg. He is now apparently as well as ever." JOHN L. McMURRAY, Notary Public, Ravenswood, W. Va.
