SCHOOL EXHIBIT. A Circular Issued by Superintendent Ira G. Hoyt.

Superintendent of Public Instruction Ira G. Hoyt has issued the following circular concerning an educational exhibit, to be made at the world's fair, addressed to the superintendents and teachers of the public schools:

It is a matter of pride and congratulation that the department of public instruction of California was awarded a gold medal at the world's fair in Paris. That award was made upon an exhibit of our state text-books, our school laws, educational reports, record books, and a complete set of the blanks used in conducting the business of our public schools.

I now desire to call your attention to the opportunity offered to the educational department of California to show at the world's fair, to be held at Chicago in 1893, the best work done in the schools themselves. While all of the other departments of industry in the state are organizing for a grand display at Chicago, let us make on that occasion an educational exhibit for California which shall surpass anything of the kind yet seen in America or elsewhere.

In this connection, I am authorized by the First National Bank of D. O. Mills & Co. of Sacramento, to offer one hundred dollars, as a premium, to be awarded to the party or parties submitting to that convention the best plan for a California educational exhibit at the great exposition of 1893, in Chicago. The plans must be submitted in writing and placed in the hands of the superintendent of public instruction, at Sacramento, on or before December 1, 1890, under seal, and indorsed: "Plan for California's Educational Exhibit." The names and addresses of the parties competing must accompany, under another cover, each plan submitted. The award will be made by a committee appointed by the superintendent of public instruction. The names of those submitting plans will not be known to the committee till after the award is made.

The great variety and beauty of our California woods, from which to prepare handiwork, the almost endless variety of our minerals, from which to collect cabinet, our abundant and beautiful and rich flora, from which to arrange an herbarium, offer facilities and afford an opportunity to the schools of California possessed by no other state in the nation. The very efforts made by the teachers and pupils in the preparation of such an exhibit will give lessons that will be of immeasurable value to the educational development of the state. Let the superintendents, teachers and pupils of California do their duty, and I am sure the state will have occasion to be proud of her sons and daughters. Ira G. Hoyt, Superintendent of Public Instruction.

A SCARED EDITOR. A rugged farmer stalked into the sanctum with a big whip under his arm. "Be you the editor?" "I am," was the half apprehensive reply. "Here's two dollars—send me your paper, for life," he said. "You see," he went on, "our daughter was sick and like to die; she drooped and grew weak and pale, had headaches, no appetite, back ached, hands and feet like ice, couldn't sleep, harked with cough, and we thought she had consumption. No medicine helped her until she tried that Dr. Pierce's Favorite Prescription mentioned in your paper, when she began to mend in no time and is now well and handsome as a rose—put me down as a life subscriber." Now the editor is looking for another scare. The medicine has cured thousands afflicted as was the farmer's daughter, restoring the female functions to healthy action, and removing the obstructions and suppressions which caused her trouble. It is guaranteed to give satisfaction in every case, or price (\$1.00) refunded. It's a legitimate medicine, not a beverage. Contains no alcohol to inebriate; no syrup or sugar to sour or ferment in the stomach and derange digestion. For a Book of 100 pages on Woman: Her Diseases, and How to Cure them, (sent sealed in plain envelope) enclose ten cents to WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main Street, Buffalo, N. Y.
