THE COMING FOURTH. From all appearances the coming Fourth of July will be more gloriously and more patriotically celebrated in our city than ever before. Cannon will boom and reverberate and fire crackers will snap and hiss, and the colors that have never been trailed will be flung from thousands of masts and windows. Processions, music, oratory and literary exercises will be the melange of the day, and our military, fire laddies and civic societies will join the mechanic and the merchant and the grocer and the producer in a spectacular parade through the principal streets. The anniversary of the Declaration of American Independence is undoubtedly the dearest of all our holidays, and its emotions are more precious than the gems that once glistened upon the breastplate of that ancient architect, Aaron, or in the crowns of the Assyrian kings. Every time we celebrate the anniversary of the birth of our nation, we educate our children to keep up their respect for the signers of that mighty paper which is the bulwark of our incomparable institutions, and a symbol of the rarest and most daring patriotism the world has ever known. If our youth have never heard the story of the patriotic ardor of one Charles Carroll, we will repeat it: After Carroll had appended his signature to that great document, some friend felicitously said to him: "Charles, you will escape the scaffold should this effort fail, there are so many Charles Carrolls in your state." Mr. Carroll made no reply; but, picking up the important paper again, added, "of Carrollton," and then said: "Let there be no mistake about my identity!" This was great courage, as well as magnificent patriotism, and was typical of the spirit which actuated the rest of the noble signers of that famous roll. They were inspired by the truest patriotism and the highest courage, and it is meet that our men and our women and our children should do all in their power to perpetuate the historic event of the 4th day of July, 1776.

CLOSING EXERCISES. The Commencement of St. Vincent's College. Orations and Essays of the Graduates. The Senior Class-Day of the High School. Entertainment at the University—Other Affairs to Take Place Here This Week. The graduating exercises of St. Vincent college took place last evening in Turn Verein hall. A large audience assembled to witness the ceremonies and every seat in the hall was filled. The stage was occupied by the faculty of the college and by a number of prominent citizens, among whom was Mayor Hazard. The hall was handsomely decorated for the occasion with flags, streamers and flowers, and a band was in attendance. The galleries were filled with the students of the college. The opening address was delivered by Joseph H. Glass, one of the graduates. In a brief but forcible fashion he described the work of the course through which the class had passed and paid a handsome tribute to the instructors who had acted as their guides. He then narrated the principal events of the year at the college and told of the loss with which the class had met, in the death of two of its members. The speech was excellently written and delivered with good effect, and when the young man concluded he was treated to a good round of applause. After some music by the orchestra Henry L. Lunnigan delivered an oration upon the subject of "Popular Education." The government of a people, he said, varies, as does their intelligence and their morality. Contrasting various forms of government, we find despotism ever exercising her sway over ignorance. Liberty, which crushes the tyrant, is the reward of intelligence. The march of knowledge has been the march of civilization, and civilization demands free government. If an intelligent people demand free government, so does a free government demand an intelligent people. The people must be the conservators of the happiness they possess. Make educational institutions public and attendance obligatory. The vital axle of the republic is the right of suffrage. In exercising this right, intelligence is demanded in the highest degree. Education alone will preserve a pure ballot. Our nation has thrown open wide the door to the sanctuary of knowledge, and welcomed all to enter. But religion should enter as an element into this education. The conscience of the people must be educated. While forming the individual we mold the character of the nation. The class oration was delivered by David S. Snedden. It was on the subject of "Science and Christianity." He said: Into the nineteenth century have converged the forces generated in other ages. In a retrospective view of civilization it is evident that Christianity and scientific knowledge are the two most potent agencies that have worked for its advancement. The speaker then made a brief review of the work done by science in the world's history and that accomplished by Christianity. "The intelligent world," he said, "is profoundly agitated with regard to the mutual relations of these agencies. Are they antagonistic or are they synergistic? After recounting the history of this antagonism in the past, showing that there was no cause for the disagreement, he said: "The infidels of the last century based their opposition to Christianity on philosophical grounds; now they base it on the natural sciences. But the truths of science do not seem to be absolute, as their theories are constantly being abandoned. As science frees herself from antiquated errors it will facilitate the transmission of Christianity throughout the world. A word in conclusion to those with whom I have spent a period of life which will be always a happy recollection. We feel a spirit of gratitude for the reason of life. I stand here tonight to pronounce my farewell to alma mater. To those by whom the world of learning has been unfolded may memory appreciate their labors and life apply their examples. To those who graduate tonight let us hope that fate will not divide us, but that we may meet again in the world often, as in our school days. Reverend father and schoolmates, I bid you all farewell. As the speaker retired he was greeted with a round of applause. Degrees were then conferred and diplomas awarded by the Rev. Father H. G. Dockery. David S. Snedden, of Ventura county, received the degree of bachelor of arts, and the fellow honors presented with the diploma of graduation in the commercial course: W. H. Workman, Los Angeles (special honor); Stephen N. Lopez, San Fernando; Emile C. Ganahl, St. Louis, Mo.; James Rimpun, Anaheim; John Teahan, Los Angeles; and Benjamin A. Rimpun, Anaheim. A gold medal for general scholarship was given to Emile C. Ganahl, with Henry L. Dunnigan, the nearest competitor. The gold medal for the English essay contest was awarded to Henry L. Dunnigan, with Richard Dillon next on the list. The gold medal for the best composition on Christian doctrine was awarded to James F. Kenealy, with Benjamin A. Rimpun next in merit. This medal was donated by John P. Moran. After some music by the orchestra the Rev. J. P. Fisher came forward and delivered the commencement address. He said: "Graduates and students of St. Vincent's college—I rise to utter a few parting words to you. The honor conferred upon me by the invitation to address you brings with it duties which I almost hesitate to undertake, but I am here to contribute my mite. This is one of the most important events of your life. Your beloved alma mater has conferred upon you the highest honors. How worthy you will prove yourself of this honor must depend upon yourself. The honor of your college too is in your keeping. During the nineteen centuries of the career of the church she has gathered to herself much of the knowledge of mankind and has distributed it through agencies such as this occasion naturally suggests. According to Plato education consists in giving to the mind and soul the highest possible development. Herbert Spencer says that

there is no education without a sense of duty. Washington says that there is no political prosperity without morality, and no morality without religion. Education lies always, to a greater or less extent, in the hands of the teachers of religion. But I dismiss this subject, it having been ably handled by Mr. Dunnigan, who preceded me on the programme, to say a few words of advice to the graduates. You are now in the morning of life, with all human possibilities before you. Your college life is passed. The great world is your future field of action. Here in this energetic republic there is no place for an idle man. His life is superfluous. If you wish to be happy, go to work soon. Remember, no matter what vocation you may adopt you will have to encounter difficulties which will seem well-nigh insurmountable. Patient industry will conquer all. Mr. Fisher then treated his listeners to a good deal of excellent advice, warning them not to try to accomplish too much at once, and not to be discouraged at failure. He assured them that the rewards of life waited for them if they were firm, industrious and upright. Above all he enjoined upon them to be true to their native country and to accept patriotism as a part of their religion. At the conclusion of the address Father Dockery, assisted by Mayor Hazard, awarded premiums in the shape of books to twenty or thirty pupils for good scholarship during the year, and read the list of those who received honorable mention. This closed the ceremonies of the commencement. University Exercises. The young ladies of the Athena Literary Society of the University gave their annual entertainment last evening in the college chapel. The motto of the society, *Cor et Mentes Colere Enituntur* was on the wall in the rear of the rostrum. Bamboo canes and palm leaves were distributed throughout the room, and the ivy entwined about the pillars of the hall gave it a rustic appearance. The evening's entertainment was opened by an instrumental duet "Minuet" (Baccherini), played by Misses Maud Conklin and Alice Hazard. Dr. Cherington then invoked the divine blessing, after which Miss Marie Crow played the instrumental solo, "Zur Gitarre Improvptu," Op. 97 (Hiller). Miss Cora Cass appeared upon the platform as an old woman leaning upon her cane. She related her story with emotion, and the audience listened with interest. Miss Laura Whitlock read an essay on the subject of "Justice to the Jews." The Jews, she said, have been the object of persecution and hatred from the earliest times in other countries. In the United States they have from the first been accorded equal rights with other people, but even here are the objects of prejudice. Such men as Gambetta, Rubenstein and Renan were Jews. They are accused of dishonest dealings, and sharp practice in business. How could it be otherwise when they have suffered so all on the account of their religion. Miss Josie Williams sang a vocal solo, "Were I a Bird (Holzel)." Her singing pleased the audience, for she was encored. Miss Lilly Everest Burnett declaimed "The Sioux Chief's Daughter." Her delivery was excellent and her gestures were good. Miss May E. Curran followed with an essay on "What to Read." Books are everywhere. It is impossible to read all the books of the day, and if we were possible it would not be practicable. What, then, shall we read? In the first place, we should read what interests us most. She advised the people to read history. Some people do not believe in reading fiction. We do not agree with them, although it is injurious to read fiction to the exclusion of everything else. Miss Ollie Harrison then played an instrumental solo, entitled the "Hunting Song" (Mendelssohn). The president of the Athena Society, Miss Josie Maclay, delivered the oration of the evening, on "Woman in Business and Professional Life." What is woman's proper sphere? When a woman steps out of domestic life, the cry goes up that she is out of her sphere. If a woman obtains a professional education she has something to fall back upon if she is compelled to go to work. Why should not a woman be a lawyer, doctor, merchant or a member of any other profession, if she is capable. England has by an act of parliament authorized women to become apothecaries. Women wish to enter the same professional life as men. She then presented Miss May E. Curran, the only lady graduate this year, with a diploma. Misses Whitehorn and Snook in closing sang a vocal duet, "The Fishers." This afternoon class day will be held in the campus. In the evening the college of music will give its annual concert. Yesterday was a red letter one in the annals of the senior class of the Los Angeles high school, for it was the occasion of its first "class day," and its members may congratulate themselves upon the success of their venture, for that it was a success no one who was fortunate enough to be present can deny. The occasion was celebrated by an entertainment at the Temperance temple, the large concert hall of which institution was crowded with the friends and relatives of the members of the class of '00. The proceedings commenced with the class yell and chorus, which was somewhat as follows: "Ki, Yi, Ki, Yi, For '90 is night, Ki, Yi, Ki, Yi, For yellow and white, Ki, Yi, Ki, Yi, For '90 is night, Ki, Yi, Ki, Yi, For yellow and white." The following, excellently arranged programme was then carried out, and as the numbers were short and the original features most remarkably interesting, a most enjoyable afternoon was spent by all present. Address—Mr. Russ Avery, president class '00. Cornet solo—Mr. Norman Martin. Recitation—"Virginius," Miss Cora Foy. Class history—Miss Xora Avery. Chorus—"All Among the Barley." Oration—Mr. Frank Stephenson. Violin solo—Miss Mabel Brousseau. Recitation—"On Doing Without," Miss Letha Lewis. Class prophecy—Miss Gertrude Henderson. Piano solo—Miss Mary Mansfield. Poem by Gertrude Henderson—Miss Bertha Borchers. Class Will and Testament—Mr. Stanley Houghton; and class yell again. Lack of space forbids individual mention of each performance, but those who participated in the afternoon's entertainment may lay the flattering unction to their souls that success attended their efforts on their initial class-day.

THE COMING FOURTH. From all appearances the coming Fourth of July will be more gloriously and more patriotically celebrated in our city than ever before. Cannon will boom and reverberate and fire crackers will snap and hiss, and the colors that have never been trailed will be flung from thousands of masts and windows. Processions, music, oratory and literary exercises will be the melange of the day, and our military, fire laddies and civic societies will join the mechanic and the merchant and the grocer and the producer in a spectacular parade through the principal streets. The anniversary of the Declaration of American Independence is undoubtedly the dearest of all our holidays, and its emotions are more precious than the gems that once glistened upon the breastplate of that ancient architect, Aaron, or in the crowns of the Assyrian kings. Every time we celebrate the anniversary of the birth of our nation, we educate our children to keep up their respect for the signers of that mighty paper which is the bulwark of our incomparable institutions, and a symbol of the rarest and most daring patriotism the world has ever known. If our youth have never heard the story of the patriotic ardor of one Charles Carroll, we will repeat it: After Carroll had appended his signature to that great document, some friend felicitously said to him: "Charles, you will escape the scaffold should this effort fail, there are so many Charles Carrolls in your state." Mr. Carroll made no reply; but, picking up the important paper again, added, "of Carrollton," and then said: "Let there be no mistake about my identity!" This was great courage, as well as magnificent patriotism, and was typical of the spirit which actuated the rest of the noble signers of that famous roll. They were inspired by the truest patriotism and the highest courage, and it is meet that our men and our women and our children should do all in their power to perpetuate the historic event of the 4th day of July, 1776.

CLOSING EXERCISES. The Commencement of St. Vincent's College. Orations and Essays of the Graduates. The Senior Class-Day of the High School. Entertainment at the University—Other Affairs to Take Place Here This Week. The graduating exercises of St. Vincent college took place last evening in Turn Verein hall. A large audience assembled to witness the ceremonies and every seat in the hall was filled. The stage was occupied by the faculty of the college and by a number of prominent citizens, among whom was Mayor Hazard. The hall was handsomely decorated for the occasion with flags, streamers and flowers, and a band was in attendance. The galleries were filled with the students of the college. The opening address was delivered by Joseph H. Glass, one of the graduates. In a brief but forcible fashion he described the work of the course through which the class had passed and paid a handsome tribute to the instructors who had acted as their guides. He then narrated the principal events of the year at the college and told of the loss with which the class had met, in the death of two of its members. The speech was excellently written and delivered with good effect, and when
