CATARRH, THROAT DISEASES, Asthma, Bronchitis and Consumption, together with diseases of the Eye, Ear and Heart—successfully treated by  
M. HILTON WILLIAMS, M.D.  
M. C. P. S. O.

By his MEDICATED INHALATIONS and COMPOUND OXYGEN TREATMENT. Probably no system of practice ever employed has been so universally successful as that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

### CATARRH.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract fresh cold. Indeed he declares that he is scarcely free from one cold before he takes another, and he is always exceedingly careful; it is also a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of catarrh seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptoms soon appear and he learns to his horror, that instead of recovery from the disease, it is somewhat changed in its character and has extended to the throat. A sense of weariness is sometimes felt in reading, speaking or singing; hoarseness at times occurs, a sensation of dryness is felt in the throat, or it appears that some foreign substance, as, for instance, a hair, obstructed the throat; there becomes a sense of languor and fatigue; the breath lessens on a little exertion, a short, hacking cough, a peculiar sound in clearing the throat, a feeling as though there was not room enough in the chest to breathe; these and other symptoms occur after the disease has made considerable progress. Then it is a time when consumption is about to begin its dreadful work. Up to this time the press of the disease may have been slow and the patient may, in expressing his confident hope that it will "wear off," declare that he has had the catarrh for years and has not seemed to become much worse, and trusts that he will "by and by" recover. But this delusion is the grand error which has puzzled our cemeteries with consumptive forms, as all forms of catarrh end finally in consumption.

Every case of catarrh is curable when properly treated. Eastern visitors and invalids should avail themselves of the opportunity of being cured before they return home. Those who desire to consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally can write for list of questions and circular, both of which will be sent free of charge. ### AMUSEMENTS.

A Pair of Jacks still holds the boards at the Grand and drew a fair house last night.

Next week A Long Lane will be at the Grand. It is said to be an interesting comedy-drama with a number of sprightly situations.

The Farlong Inquest. Coroner Meredith held an inquest last night upon the body of Michael Furlong, a native of Ireland, 40 years of age, who died at the Sisters' hospital yesterday from the effects of the injuries he received by jumping from a handcar while on a trestle three miles this side of Ravenna, on the Southern Pacific railroad, on Monday last. After hearing the testimony of the engineer and fireman of the freight train which was coming towards the car when all the men on it jumped off, and the statements of the four who escaped injury, the jury returned an open verdict in accordance with the facts.
