

**SWELTERING CITIES.**

**Prolonged Hot Weather at the East.**

**Unprecedented Heat in the Central Valley.**

**Many Deaths and Prostrations From Sunstroke.**

**Great Mortality Among Children in the Crowded Cities—Industry Paralyzed.**

Associated Press Dispatches.]

WASHINGTON, June 28.—The signal office furnishes the following special bulletin: "The present period of continued high temperature in the middle Mississippi valley is unprecedented for June. Beginning with Tuesday, June 20th, when the temperature was ten degrees above normal, it has gradually risen till the 26th and 27th to nearly 20 degrees above. The maximum temperatures for the past eight days have exceeded the highest ever known for an equal period in June. The cause for this abnormal condition has been a uniform high pressure in the gulf region, with an almost stationary low pressure area in the northwest.

CHICAGO, June 28.—Extreme hot weather has prevailed throughout Illinois, Wisconsin and Iowa for the past five days, ranging as high as 106 degrees in some places. Many prostrations and several deaths are reported. Some places of business have suspended. Today, the hottest of the spell here, the thermometer registered 88 degrees at 8 a. m. and 95 degrees at 11. Six deaths from heat have occurred in the last four days.

LATER.—The temperature reached the highest point of the season this afternoon, registering 98 degrees, and at a late hour this evening stood at 88 degrees. There were half a dozen fatal cases of sunstroke, and probably twenty-five prostrations during the day. The latter will all recover.

CINCINNATI, June 28.—The heat continues. The signal-service thermometer registered 87 today at 10 o'clock. There have been from three to six prostrations each day, about one-fourth of them fatal. The most marked effect is the increased death-rate of children. Of thirty-eight deaths reported yesterday twenty-six were of children under two years of age.

The heat has increased. At 1 o'clock it is five degrees hotter than at the same hour yesterday. Herman Lachman, a well-known brewer, who was prostrated this morning, is still unconscious. Up to 6 o'clock this evening twenty cases of sunstroke were reported, four fatal.

MILWAUKEE, June 28.—This is the hottest day of the season, the thermometer at 11 a. m. registering 92 degrees. Since early morning the police patrol wagons have been kept busy in responding to cases of prostration. Only one fatality has thus far been reported, but there are a number of cases that may result fatally.

LATER.—Twenty cases of prostration are reported, two of which are fatal. Several factories closed down today on account of the heat.

LOUISVILLE, June 28.—At 11 o'clock the mercury stood at 94. An hour later it had fallen two points and a cool breeze was blowing. Thirteen prostrations occurred today, only one fatal. Since the heated term began there have been eight fatalities.

LATER.—The weather continues very oppressively warm, and four fatal cases of sunstroke were reported today. There are numerous cases of prostration.

INDIANAPOLIS, June 28.—At 11 o'clock the thermometer registered 96 in the shade. Carpenters, bricklayers and street laborers have not been working regularly for three days. A number have been prostrated.

ST. LOUIS, June 28.—The weather moderated somewhat today, but is still very oppressive, with numerous prostrations. The mortality among children is greatly increased.

KANSAS CITY, Mo., June 28.—The weather is extremely hot, the thermometer marking 95. Half a dozen prostrations occurred during the morning, but none are expected to result fatally.

MINNEAPOLIS, June 28.—The hot weather of the past three days continues. Several cases of sunstroke have occurred.

**CENSUS RETURNS.**

**Population of the Cities of the Second California District.**

SACRAMENTO, June 28.—The following is the approximate population of the principal places in the second census district of California: Oakland, 46,000; Sacramento, 26,800; Stockton, not including the insane asylum, 12,700; adding the 1,700 insane, makes 14,400; Nevada City, 1,600; Grass Valley, 3,400; Auburn, 3,200; Sonoma, 1,500; San Andreas, 1,500.

**Warrants for Bank Officers.**

PHILADELPHIA, June 28.—Magistrate Chesoro this afternoon issued warrants of arrest for John J. McFarlane, president of the defunct American Life Insurance Company; Louis E. Pfeiffer, president of the defunct Bank of America, and Charles W. Dugan, cashier of the Bank of America, charging them with conspiracy in obtaining \$25,000 of funds of the bank by crediting a loan to Richard E. Banks, an employee of the bank. This is the first step of the depositors to begin criminal proceedings against the officers of the Bank of America and their accomplices.

**Grappling for Bodies.**

ALBANY, Ore., June 28.—All last night and today searers, aided by divers and men with grappling hooks, searched the river for the bodies of Roscoe Goss and the two boys, Allen Matthews and Loy McFarland, who went boat-riding on the river last evening and were drowned. This evening they found the body of Goss below the falls, where it had been carried into an eddy. It was mangled and bruised almost beyond recognition. The bodies of the boys have not yet been recovered.

**SPREADING RAILS.**

**A Bad Wreck on the Missouri Pacific. Many Passengers Hurt.**

NEVADA, Mo., June 28.—A Missouri Pacific passenger train was wrecked five miles from here this afternoon by the spreading of the rails on a sharp curve. Three coaches were precipitated down an embankment. Conductor Sam Jones and a child of W. H. Marvin's, both of Kansas City, were fatally hurt. Twenty-seven other people were injured, more or less seriously, but it is not thought that any of them will die.

**Death of Superintendent Brandt.**

SAN FRANCISCO, June 28.—J. Brandt, superintendent of the Southern Pacific lines in Oregon, died at the Lick house this morning from heart disease. The deceased had been ailing for a year past. He returned yesterday morning from Monterey seemingly recovered. Last evening he attended the theater. This morning he awoke with a bad cough, and before medical aid arrived he expired.

**A Bakery Burned.**

SAN JOSE, June 28.—The American bakery, on St. John street, was destroyed by fire tonight at 10 o'clock. Mrs. Bradley, wife of the proprietor, in attempting to put out the fire, was badly burned, but escaped from the building. She thinks the fire was incendiary, as she heard a noise at the window previous to the fire. Loss, about \$2,500; insurance, \$1,000.

**Wealthy Hebrews Charged With Arson.**

GALVESTON, Tex., June 28.—Messrs. Samson and Isaac Heidenheimer, two leading wealthy Hebrew citizens, were arrested today, charged with having burned the Texas Standard Oil Company's mill last April. Samson was president of and the largest stockholder in the company.

**RECORD-BREAKING.**

**ANOTHER GREAT DAY FOR CALIFORNIA HORSES.**

Racine Lowers Ten-Brock's Long-Standing Record of 1:39 3-4 for a Mile—Teuton Also Breaks a Record.

CHICAGO, June 28.—Six thousand people gathered at Washington park today, the hottest day of the season, and saw some great sport and remarkable record-breaking.

The first surprise for the multitude was in the second race, one mile, when the 3-year-old California horse, Racine, owned by Senator Stanford, made the remarkable time of 1:39 1/2, beating by a quarter of a second the record of Ten Brock made at Louisville May 24, 1877. The time for the different distances is as follows: One-eighth mile, 12 1/2; quarter, 24 1/2; half, 48 1/2; three-quarters, 1:13 1/2; mile, 1:39 1/2.

What makes the performance of Racine the more notable is the fact that it was made in an actual race, whereas Ten Brock's record was made against time, on a specially prepared track.

The other event of the day was the Oakwood handicap, mile and an eighth, sweepstakes, worth to the winner nearly \$5,000, won by T. Holloway's 4-year-old, Teuton, beating the famous Los Angeles by a head, and the record of 1:53, made by Terra Ootta, at Sheephead Bay, in June, 1888. The time at the different distances was: Quarter, 25 seconds; half, 50; three-quarters, 1:16 1/2; mile, 1:39 1/2; mile and an eighth, 1:52 1/2.

**Summaries.**

Three-year-olds and upward, mile—Ja Ja won, Rambler second, Benson third; time, 1:41.

Extra, 3-year-olds and upward, mile—Racine won, Marion second, Gynast third; time, 1:39 1/2.

Two-year-olds, five furlongs—Sister Linda won, Brutus second, Virgin third; time, 1:02 1/2.

Oakwood handicap, all ages, mile and furlong—Teuton won, Los Angeles second; Santiago third; time, 1:52 1/2.

SHEEPSHEAD BAY, June 28.—Three-year-olds and upward, seven furlongs—Tenny won, Diablo second, Volunteer third; time, 1:27 1-5.

June stakes, two-year-olds, three-fourths mile—La Tosca won, Correction second, Miss Ransom third; time, 1:10 4-5.

Spendthrift stakes, three-year-olds, mile and quarter—Sir John won, Lung-run second, Chesapeake third; time, 2:09 3-5.

Knickerbocker handicap, mile and three furlongs—Firenze won, Longstreet second; time, 2:24.

Mile and furlong—Loantaka won, St. Carlo second, Galliet third; time, 1:54 1-5.

Mile and three furlongs on turf—Eon won, Rhono second, Bryan Born, third; time, 2:23 1-5.

**Slogged to Sleep.**

SACRAMENTO, June 28.—Harry Jones, of San Jose, slogged Tom Burke, of Chicago, to sleep tonight in the second round. Burke was much the larger of the two, but was no fighter.

BENICIA, June 28.—E. McLaughlin, of San Francisco, defeated William Catchart, also of San Francisco, at the Benicia Athletic Club in ten rounds tonight. McLaughlin outfought Catchart from the start, and knocked him out in the tenth round by a blow on the temple.

**Mountain Fires Extinguished.**

BOULDER, Colo., June 28.—The fires near Ward have been practically extinguished, being completely under control. The burnt district extends over an area of about 2,500 acres. The only building destroyed is the shaft-house of the Baltimore mine, owned by Dr. Charles Palmer, of the State University. The loss has not yet been estimated.

**A Slim Attendance.**

WASHINGTON, June 28.—At the evening session of the house there was a very slim attendance. Several addresses were made for and against the election bill, and at 11:30 the house adjourned.

**Death of a Prominent Mason.**

NEW YORK, June 28.—Charles Roome, ex-president of the Consolidated Gas Company, and one of the leading Masons of the country, died yesterday.

**ANOTHER RACE WAR.**

**Vengeance Visited on Negro Villagers.**

**White Regulators Terrorize a Louisiana Town.**

**Offensive Blacks Killed, Beaten and Banished.**

**Sensational Developments in the Chicago Aldermanic Bribery Case—Ocher Eastern News.**

Associated Press Dispatches.]

NEW ORLEANS, June 28.—A Picayune special from Abite City, Louisiana, says trouble has been incited by agitators to strike and make threats, etc. Early this morning 200 armed white men rode into the town after 7 o'clock. They threw out pickets and asked the whereabouts of Henry Daniels, Zach Taylor, Dug Tollis and George Howard. Howard was found in a garden, and refusing to surrender, was killed. Two other negroes were seriously wounded. Dug Tollis and two associates were taken to the outskirts of town, whipped and ordered to leave. The men then searched the residences of all suspicious colored people, captured eighteen or twenty shot-guns, some Winchester rifles and revolvers, and then dispersed. The negroes are known to have been very bold here of late. There has been considerable promiscuous shooting, threats of trouble, etc., which aroused the indignation of the whites to a high pitch.

**ALDERMANIC BRIBERY.**

**The Chicago Grand Jury Developing Suspects—Ex-Convict Mackin Skips.**

CHICAGO, June 28.—The grand jury today continued investigation into the charges of aldermanic bribery in connection with the Lake-street elevated road, and there were sensational developments. The alleged affidavits of ex-Aldermen Wallner and Monear, bearing the notarial seal and signature of Joseph C. Mackin, the noted political "wire-worker," were laid before Mackin by the grand jury several days ago, but he professed to know nothing about them, and the impression was given that they were manufactured by his clerk. Today an intimate friend of the clerk went to the state's attorney and said positively that the affidavits were drawn by Mackin and the latter boasted of the fact. A bailiff was sent out for Mackin, but he could not be found, and the general impression is that he has absconded to avoid prosecution for perjury. Mackin was released a few months ago from Joliet prison, where he served a five-year term for manipulating election returns.

**WORLD'S FAIR SITE.**

**The Chicago People Insist on the Lake Front Location.**

CHICAGO, June 28.—The local directors of the World's Columbian exposition tonight, after a discussion lasting several hours, voted on the question of site for the fair to be recommended to the national commission for acceptance or rejection. The result was that the lake front site should be passed upon by the commission. The vote stood 33 for that site to 10 against it.

**General Water Works Committee.**

The committee authorized at its late mass-meeting to appoint a general committee to take charge of the further movement toward municipal control of the water works of the city has appointed the committee as follows: J. T. Shevard, C. N. Earl, C. M. Wells, E. W. Jones, Dr. H. Sinsabaugh, H. C. Register, H. G. Otis, Joseph Messer, O. W. Churchhill.

First Ward—E. M. Hamilton, F. W. Tyler.

Second Ward—E. E. Galbreth, B. A. Breaker.

Third Ward—C. P. Dorland, John Van Dam.

Fourth Ward—H. Z. Osborn, J. A. Anderson.

Fifth Ward—James Burdette, Joseph Maskell.

Sixth Ward—J. S. Van Doren, J. W. Hinton.

Seventh Ward—George W. Knox, Ralph E. Hoyt.

Eighth Ward—Oscar Macy, C. DeCamp.

Ninth Ward—S. M. Perry, W. H. Workman.

The committee will hold its first meeting at the office of C. M. Wells, Temple and New High streets, at 3 o'clock p. m. Tuesday, July 1, 1890.

**Orange Profits.**

The best orange-grove returns in the Pomona valley the past season were those from the Meserve orchard. The trees, 1,640 in number, are twelve years old, and have the best possible care all the year around. They are navel orange trees. Mr. Meserve sold his crop late, and got the highest price. He had 5,169 boxes that sold for \$2.60 a box, and lately the fruit was paid for by a Chicago draft for \$14,990.10. The net profit per acre from the Meserve orchard for the year has been \$936. We don't wonder that the eastern people are incredulous at reports of such profits, but there is an abundance of facts to prove that the average bearing and well-kept orange orchard in this section is worth about \$300 an acre, while we have known some orange orchards to yield a net profit of \$1,000 a year. The Crafts orange crop sold in 1888 at a rate of \$1,173 an acre, but that was unusual.—[Pomona Progress.]

**The Melon as an Ameliorator.**

The south is pretty well, thank you, and the melon growers will no doubt improve in their financial health. All things considered, the south is getting in a condition to stick her head out of the window and "holler howdy" to the north.

We believe the Georgia watermelon will finally heal the wounds of the nation.—[Atlanta Constitution.]

**Fresno's Figures.**

FRESNO, June 28.—The enumerators place the population of Fresno at 11,000.

**A \$40,000 Blaze.**

SAN FRANCISCO, June 28.—Fire broke out at 10 o'clock this evening in the upper story of 14 and 16 Fremont street. It must have burned fifteen minutes before being discovered. The delay enabled it to gain great headway, and an hour's hard work was required to extinguish it. Loss, \$40,000. Jory Bros.' stock of boots and shoes, top floor, was entirely destroyed. The Revue Rubber Company, second and third floors, were much damaged. The Judson Manufacturing Company, S. B. Paige and Co. and Willard Beam, all hardware firms, on the ground floor, were somewhat injured.

**Longshoremen Strike.**

SAN DIEGO, June 28.—A strike of longshoremen occurred on the steamship wharf today, they demanding 40 cents per hour instead of 35 cents. Agent Simpson refused to accede to the demands of the men, and the steamer Mexico is now loading without their help.

**The Growth of the Nation.**

WASHINGTON, June 28.—Superintendent of Census Porter, in a conversation with a reporter today, said from present indications the returns of the enumerators would show the total population of the United States to be 65,000,000, against 50,155,785 in 1880.

**Orange County Fair.**

SANTA ANA, June 28.—The constitution and by-laws of the Orange County Fair Association were adopted today. The first annual meeting will be held Saturday, July 12th, when arrangements for the first fair will be made.

**The Twin Cities' Population.**

ST. PAUL, June 28.—It is stated tonight that the census returns make St. Paul's population 154,341, and Minneapolis 263,405.

**ON THE DIAMOND.**

**SIX THOUSAND PEOPLE SEE YALE DEFEAT HARVARD.**

Oakland Defeats Sacramento—San Francisco Beaten by Stockton—Fair Attendance at Most of the Eastern Games.

SPRINGFIELD, Mass., June 28.—Six thousand people saw Yale defeat Harvard and win the baseball championship by 6 to 3 after an exciting game this afternoon.

**California League.**

SAN FRANCISCO, June 28.—Oakland defeated Sacramento today by a score of 9 to 6. Up to the sixth innings Sacramento bade fair to win, but in that inning the Oaks made four. To these their victory is due.

ST. LOUIS, June 28.—Both teams played good ball today, but the home team succeeded in winning the victory by a score of 4 to the San Francisco's 3. Young and Kilroy both pitched splendidly.

**National League.**

CHICAGO, June 28.—The local team played a very loose game today and lost through their numerous errors. Attendance, 2,200.

**PARNELL'S BIRTHDAY.**

**A Banquet in His Honor—Irish Freedom Dawning.**

LONDON, June 28.—A grand banquet was given tonight by the National Liberal Club in honor of Parnell's birthday. Justin McCarthy presided. Parnell in an address congratulated his hearers upon the Gladstonian alliance, and expatiated upon the constitutional policy.

Parnell referred to the recent absence of certain Irish members when the government was nearly defeated, and excused them. He said it was as much of a surprise to the Irish party as to the government. It would have been useless to issue a whip, because it was a notorious fact that the government opened all the Irish members' letters, and a whip would thus have defeated its own object. Nevertheless, it was worthy of remark that the Parnellites were present in greater strength than any other party. He was convinced that the Irish party had not much longer to wait for his harvest.

**DIED LIKE A HERO.**

**Major Panizza Executed—His Body Riddled With Bullets.**

SOFIA, June 28.—The sentence of death pronounced upon Major Panizza for conspiring to overthrow the government, was carried out today. With a firm step he walked to the post and saluted the military officers present. He was then bound to a tree. Just before the order to fire was given, the condemned man cried out in a loud voice: "Long live Bulgaria." His body was given to his widow. The execution took place at a camp near the city. Twenty-one bullets pierced his body.

**IN THE CONSOMME.**

**The Last Forlorn Hope of Panama Canal Bondholders Ended.**

PARIS, June 28.—The French press admit that negotiations between Tiet Wyse, the representative of the liquidator of the Panama Canal Company, and the Colombian government for the extension of the Panama canal concessions, and the resumption of work on the canal, have collapsed, and that the hopes of the bondholders are ended. The budget committee will submit this report to the chamber of deputies this week.

**Pilgrimages Forbidden.**

LONDON, June 28.—The authorities of Algeria and Tunis have forbidden pilgrimages from those countries to Mecca, on account of the prevalence of cholera in Arabia.

**Chinese Railway Surveys.**

ST. PETERSBURG, June 28.—Two Chinese officials and two British engineers have arrived at Vladivostok. They state that they have made a preliminary survey for a line of railroad through Mongolia, and the Chinese government is desirous of expanding the completion of railroads to the Russia frontier.

**Ignited by a Sky-Rocket.**

SACRAMENTO, June 28.—One of the two buildings constituting the public school at Fourth and O streets took fire tonight from a sky-rocket, and was burned. The other building was damaged somewhat. Loss, about \$3,000.

**AFFAIRS ABROAD.**

**Advancement of the German Army Bills.**

**The Reichstag Getting Ready To Take a Recess.**

**The Porte Sends a Note to the Powers Regarding Bulgaria.**

**Major Panizza Meets His Doom Like a Hero—Parnell Banqueted on His Birthday.**

Associated Press Dispatches.]

BERLIN, June 28.—[Copyrighted, 1890, by the New York Associated Press.] The reichstag passed the army bill to third reading without amendment. The efforts of the minority, consisting of the Freisinnige, Socialist and Volks parties, aided by a few Centrists, were futile. The house next passed to second reading the budget committee's report striking out the credit demanded by the government for raising the pay of officers below the rank of colonel. The government now having secured the passage of the army bill, the house can adjourn early in July until November.

The British ambassador and Chancellor Capri have had a conference on the subject of French opposition to the East African agreement. The English government has prepared a reply to France to the effect that if the sultan accepts the protection of England or any other power, the treaty of 1862 gives France no right to object, and further, that the agreement does not attack the independence of the sultan, protection not involving subjection.

Renewal of the dreibund until '95 is effectively assured, communications which have already been exchanged, committing the governments to the extension of the period of compact.

Emperor William arrived at Elsinore this afternoon. He was met at the landing by King Christian, Crown Prince Frederick and other Danish royalties and civil and military authorities, and given a cordial greeting.

The porte has sent private envoys to Berlin, Vienna and London on a mission relating to the demands for Bulgarian independence which are concurrent with Russia's insistence upon the immediate payment of thirty million francs war indemnity. The policy of the Bulgarian prime minister is obscured, while Russia is preparing to back up her demand by sending her Black-sea fleet into Turkish waters.

The story of the undermining of the czar's palace at Gatschina proves to have been exaggerated. A barrel half full of dynamite was found in the wine cellar and there is no clue as to how it came there. The chief of the private police has been dismissed on account of it.

**PARNELL'S BIRTHDAY.**

**A Banquet in His Honor—Irish Freedom Dawning.**

LONDON, June 28.—A grand banquet was given tonight by the National Liberal Club in honor of Parnell's birthday. Justin McCarthy presided. Parnell in an address congratulated his hearers upon the Gladstonian alliance, and expatiated upon the constitutional policy.

Parnell referred to the recent absence of certain Irish members when the government was nearly defeated, and excused them. He said it was as much of a surprise to the Irish party as to the government. It would have been useless to issue a whip, because it was a notorious fact that the government opened all the Irish members' letters, and a whip would thus have defeated its own object. Nevertheless, it was worthy of remark that the Parnellites were present in greater strength than any other party. He was convinced that the Irish party had not much longer to wait for his harvest.

A well-known medical authority is a strong advocate of change of scene. He says: "Change your climate if you can; if you can not do that, change your house; failing in that, change your room; if not your room, then change your furniture." Many a man who is suffering from nervous weakness or exhaustion of the nervous system is "change of scene." This has long been a recognized necessity in the large cities where the excessive heat, shut in by high brick buildings and reflected from pavement, drives every one who can go to seek the breeze of seashore and mountain. It is in the country, in remote hamlets, that the monotonous grind of daily life is the variation to which change of scene is equally beneficial.

**DOCTORS ALL SAY THERE IS MUCH GOOD IN IT.**

One of the favorite remedies now advocated for people who are suffering from general weakness or exhaustion of the nervous system is "change of scene." This has long been a recognized necessity in the large cities where the excessive heat, shut in by high brick buildings and reflected from pavement, drives every one who can go to seek the breeze of seashore and mountain. It is in the country, in remote hamlets, that the monotonous grind of daily life is the variation to which change of scene is equally beneficial.

**CHANGE OF SCENE.**

Doctors All Say There is Much Good in It.

One of the favorite remedies now advocated for people who are suffering from general weakness or exhaustion of the nervous system is "change of scene." This has long been a recognized necessity in the large cities where the excessive heat, shut in by high brick buildings and reflected from pavement, drives every one who can go to seek the breeze of seashore and mountain. It is in the country, in remote hamlets, that the monotonous grind of daily life is the variation to which change of scene is equally beneficial.

A well-known medical authority is a strong advocate of change of scene. He says: "Change your climate if you can; if you can not do that, change your house; failing in that, change your room; if not your room, then change your furniture." Many a man who is suffering from nervous weakness or exhaustion of the nervous system is "change of scene." This has long been a recognized necessity in the large cities where the excessive heat, shut in by high brick buildings and reflected from pavement, drives every one who can go to seek the breeze of seashore and mountain. It is in the country, in remote hamlets, that the monotonous grind of daily life is the variation to which change of scene is equally beneficial.

It is possible every individual should away once a year for a month or so, under different surroundings, as this is not possible, changes of scene, such as a bill if you have become "run down" in health. Make as many excursions as you can during the summer, so once a week if possible and you will find them more efficacious to build up strength than any tonic that can be administered. If possible get a change of food for the family at such times, that they are daily accustomed to, even if it is as delicate. A change of food will even stimulate a jaded appetite. It is a good thing to tempt plain food which is different from that of the table of the office.

The keeper of a famous hotel, where the cuisine is the admiration of every traveler, once admitted confidentially that he became so cloyed himself with a long-continued diet of even the daintiest food cooked by his chef, that he set out to the country once a week, and ordered a good boiled dinner from a small inn in the backwoods, and no longer tastes so deliciously at that time, he said; "yet I know it would seem coarse fare if I was accustomed to it. When I go back to the hotel food is all right." When children or grown people begin to lose their appetite and seem listless, better than a spring tonic for the blood is a visit at a distance, where there is complete change of scene and food.—[New York Tribune.]

**There are sixteen negro jockeys in the country who are paid from \$2.00 to \$8.00 a year, but not a colored minister in the United States receives one-half the lesser sum.**
