

FINANCE AND TRADE.

Financial.

NEW YORK, July 10.—The stock market is still awaiting developments, especially as regards monetary possibilities as affected by the financial straits of the Argentine republic and Uruguay, whose disasters are expected to be reflected here through London. Today's market was a reaction from the depression of yesterday and in some directions showed more life than had been seen for several weeks. Just before close Kidder, Peabody & Co. engaged \$1,000,000 for export, and precipitated a selling movement, which reached all portions of the list, and a large portion of the gains were lost, the market closing weak. Most of the list is fractionally higher tonight.

Government bonds were steady.

Petroleum opened steady. Spot at 88 1/2; August, 88 1/2. The market declined, reacted and closed steady.

Reminiscence of the Johnstown Flood.

Soon after the great flood in the Conemaugh valley, Penn., last summer, the press dispatches heralded the news of an epidemic of diarrhoea in Johnstown. The following letter from Rev. H. L. Chapman, pastor of the Methodist-Episcopal church, Johnstown, gives the particulars and most successful remedy used:

The box of six dozen Chamberlain's Colic, Cholera and Diarrhoea Remedy, which you sent at the suggestion of Hon. Wesley Redhead, reached us soon after the great flood and at a time when diarrhoea was quite prevalent. As soon as it became known that I had the medicine for distribution, there began a great run on it, which continued until it was about all gone. Every one, so far as I heard from them, testified to its virtues, declaring it the best medicine for the purpose they had ever used. Those who got it shared it around with their neighbors, so that I am confident your generosity in sending it was productive of great good. We used some of it ourselves and found it not only an excellent medicine for diarrhoea, but for all kinds of pains and uneasiness in the stomach and bowels. It has been regarded as the best medicine known here for the diseases it is recommended for. In view of your sending such a large quantity for free distribution among poor people, I think you are entitled to this testimonial in its favor.—H. L. CHAPMAN, pastor Methodist-Episcopal church, Johnstown, Pa.

No Land on Which the Sun Shines Possesses greater natural advantages than our own, but there are portions of the great grain-bearing west and fertile south where atmospheric influences prejudicial to health militate against them, in some degree, as places of residence. Heavy mists and the overflow of great rivers, which upon their subsidence leave the stomach exposed to the rays of the sun, there breed malarial fevers, and there also the inhabitants are periodically obliged to use some medicinal safeguard against the scourge. The most popular is Hostetter's Stomach Bitters, a preventive that has for over a third of a century afforded reliable protection to those whom experience in the fatality of ordinary remedies for fever and ague, has taught to submit to them. Whether intermittent or remittent, miasmatic fevers are conquered and averted by the superb anti-periodic and fortifying medicinal safeguard against the scourge. Preparation in use here by no other pure local bitters.
