Brownback-Lowe. On July 2d at Norristown, Pa., Miss Augustine Marguerite Lowe, of this city, was wedded to District Attorney Henry W. Brownback, of Norristown. The Norristown paper devotes three columns to the description of the wedding, which took place in the Presbyterian church. The wedding party is described as follows: First came the ushers in pairs, H. P. McDowell, of Philadelphia; William B. Crawford, of Bryn Mawr; James McClose, Jr., Henry B. Garber, D. Ogden Rogers and B. Percy Chain, of Norristown; and then the groom, accompanied by his best man, Muscoe M. Gibson, of Norristown. After them walked the two bridesmaids, Miss Zoe Lowe and Miss A. Main Derr, in blue, wearing the bride's jewel present of a white pansy pin set in diamonds, and carrying La France roses. Then followed the maid of honor, Miss Edna Lowe, in pink, with a necklace of large pearls, her flowers being also La France buds. Finally, on the arm of her father, came the bride, radiant in white faille silk and white lace, and flashing with diamonds. Beneath her long veil could be seen the diamond locket set in monogram, the treasured wedding present of the groom, and a magnificent diamond pendant, the gift of her mother. Her veil was also fastened by a diamond cluster pin, and she carried a large bunch of delicate fragrant lilies of the valley.

The family group in the parlor at the opening of the reception was a rare one. The father still in the very prime of intellectual and physical manhood, and the mother charming in matronly dignity, were surrounded by five married daughters in addition to Mrs. Brownback. There were Mrs. Leon P. Lowe, who wore her wedding dress of white brocade embroidered with pearls, and pearl ornaments; Mrs. Louise Gleim in white silk, pearl trimmed, and lace; Mrs. John Haug, white silk and diamonds; Mrs. C. Henry Stinson, wedding dress of white silk and point lace; and Mrs. Warren A. Wright, wedding dress of brocade and pearls. The two daughters still single participated in the wedding ceremony, which was also witnessed by Prof. Lowe's youngest son, Sobieski, the elder brothers being detained in the west by the requirements of the father's varied business enterprises. All richly endowed with inherited beauty, carefully educated in the best schools and cultivated by extensive travel, the daughters of this house are equally famed for good looks and domestic accomplishments, and the sons for business ability and good sense.

A Pampas Fire. An alarm was rung in from box 71 at 3:20 o'clock yesterday afternoon, for a small blaze in a clump of pampas grass on the right bank of the old zanja No. 6-1, opposite the Southern California railroad depot, and near First and Vignes

streets. The department turned out with its usual promptitude, but the fire was readily extinguished with a single stream of water thrown upon the burning grass by the boys of engine No. 6, from Boyle Heights. A large crowd of people was attracted to the scene of the fire by the column of dense smoke which was caused by the burning of the green pampas, and the fact that the alarm had been rung in from the depot was alone sufficient to draw a crowd thither. About twenty bunches of the graceful pampas were destroyed.

ACCEPTED THE CALL.

Rev. J. S. Thomson to Be Pastor of Unity Church. The members of the Church of the Unity are very much pleased with the success of their efforts in securing the services of Rev. J. S. Thomson, late of Somerville, Mass., as pastor to their society. In a letter received yesterday he accepted their call, his services to commence the first Sunday in October next. Mr. Thomson has the reputation of being a man of pure character and kindly spirit, great scholarly attainments, with the added advantage of wide and extensive travel. He is a man of fine presence, a very attractive extemporaneous speaker, and with many of the traits that have given such worldwide celebrity to the name of the Rev. Robert Colver. Mr. Thomson was married recently to a very highly accomplished lady of Montreal, and the society heartily trusts that they will add largely to the social, religious, and intellectual life of this city.

THE CENSUS WORK.

ALL THE SOUTHERN COUNTIES ARE ENUMERATED.

The Results as Compared With the Figures of Previous Years—A Probable Congressional District.

Table with 5 columns: COUNTIES, 1890, 1880, 1870, 1860. Rows include Los Angeles, Orange, San Bernardino, San Diego, Santa Barbara, Ventura, and Totals (leaving out Inyo).

The enumeration of the remaining counties of Southern California has been completed and the figures were yesterday given out by Supervisor Mosher. The results are spoken of as approximate, as they are not final, but are still open to correction. Inyo county for some reason is included in this district and its population is given with the rest.

The population of Orange county in 1880 and preceding years is with that of Los Angeles. Ventura was, until 1871, a part of Santa Barbara county. It will be seen by the totals that the present population of Southern California is considerably in advance of the present ratio of representation, which is 151,912. This ratio will, as increase in the past in complaints, hardly be raised to 175,000. It will, therefore, provide a representative for the four southern counties alone, leaving Santa Barbara and Ventura to go with some other district.

Supervisor Mosher received a long telegram from Superintendent Porter with regard to the complaints which emanate from San Diego with regard to the reasons of the census work there. He consents to a plan which Mr. Mosher had suggested, which was that he should transfer his office for a short time from this city to San Diego. Mr. Porter says that he wishes to have every possible ground for complaint removed. He suggests that Mr. Mosher had better take plenty of office help and make a business of examining into all complaints and ascertaining the truth or falsity of the statement that many have been omitted.

LONG BEACH.

A Lecture on the Witch of Endor.

This beach was a very popular one yesterday, judging from the carloads of people who went down to enjoy its surf and breakers. The band was out again for the day and evening. Last night it played for a ball at the pavilion.

The assembly continues to draw its crowds, and is as popular as ever. The lecture course proves to be a rare one. The devotional exercises were conducted in the morning by Rev. J. H. Weber. Dr. W. A. Wright addressed the school of the English Bible, and at 11 o'clock Rev. Selah Brown delivered his lecture on "The Witch of Endor." As a prelude to the lecture, Miss Gertrude Neivel, of Pomona, sang most delightfully "The Tempest" and answered to an encore. Dr. Brown said that "modern spiritualism is only about forty-two years old; but spiritualism is as old as mankind, having first been heard of in the garden of Eden, when the spirit tempted Eve. When Saul rejected God he sought information of a woman known as the witch of Endor, and there met the spirit of Samuel, which told him that the next day he would be killed. This came to pass, and he was killed for seeking a witch for information and not God. Modern spiritualism was first brought into notice by the Fox girls of Rochester, and very appropriately on the 1st of April. They have since confessed that they only did it to amuse themselves and delude their friends. From this it spread all over the world. We have manifestations of spirits moving chairs and tables, flashing lights, appearing to view, speaking to us, and touching us, etc. Spiritualism appeals to our desire to see our dead friends and to pry into the unseen world. When the medium comes and says to the sorrowing one: 'I have a message from your friend,' it is hard to resist the desire to investigate. Alas, that these should be deceived. I think I can account for these unusual things in three ways: First, by nature's laws; second, fraud, treachery, and slight-of-hand. Third, satanic agency. There are many things in nature we do not understand—electric phenomena, mesmerism, and psychic force. I believe that nine-tenths of all this is fraud and humbuggery." The lecturer reviewed at length the many exposures and confessions of mediums, and asked, "What has spiritualism done for the world? Why does it not reveal something? I want something better than the ringing of my dinner-bell when dinner is over, or my Methodist chairs set to dancing in my parlor. Let the spirits come in daylight, and not with the owls and bats. They can stand the light of our midday sun if from the land of light; if from the other land they need not fear eighty or ninety degrees of heat. The world is full of spirits, but not of such as spiritualism teaches. The bible says such are an abomination and of the devil."

DRIED FRUIT.

Shipments to the Eastern Markets Well Under Way.

The first car of dried apricots left Southern California for Chicago a week ago last Thursday, shipped from the Riverside drying establishment of Cook & Langloe. Being the first on the ground, they found a ready market. The canneries and drying establishments all through the southern country are now running at their utmost capacity. Fruit is in good demand at from 1 to 1 1/2 cents a pound. The crop of apricots in the north being a little short, the demand in the east for those dried in a satisfactory fashion is likely to be good right through the season.

Apricots dried are quoted at 12 to 15 cents a pound. The product this season dries well in spite of the fact that the winter was unusually damp. Last year a considerable percentage of the crop was wasted owing to the fact that the canneries and drying establishments could not handle it to advantage. This year it is probable that the entire crop will be utilized and will bring pretty good returns to growers.

DEMOCRATIC MEETINGS.

A New Club Organized in the Second Ward.

A Second Ward Democratic Club was organized last night at the corner of Waller and Buena Vista streets. Q. J. Horrell acted as temporary chairman, and E. T. Gates as temporary secretary. Sixty-six names were enrolled. A committee of five was appointed on permanent organization. The club will meet again next Tuesday evening at 8 o'clock at the same place. The committee consists of B. Cohn, Jr., A. E. Senseny, A. Morano, A. Monroe and S. Nicoletti.

The Spanish-American Club met last evening on the corner of New High and Marchessault streets. Messrs. R. F. Sepulveda, R. R. Dominguez, F. Dominguez and A. Monroe addressed the club, which adjourned to meet Wednesday evening.

In an account of the meeting in the seventh ward published yesterday morning the name of Major H. W. Patton was inadvertently omitted. Major Pat-

ton was present and made an excellent speech, taking land matters viewed from a Democratic standpoint as the text for his remarks, which were frequently applauded.

CHAMBER OF COMMERCE.

The Permanent Exhibit—Testimony as to Its Value. An unusually large number of additions were made to the display at the chamber of commerce yesterday. They were as follows: Phil. Stein, of Pomona, case of apricots; Misses Estella, Minnie and Delight Buckingham, floral wreaths; H. Reif Snyder, of Fruitland, apricots; Stephens & Co., Los Angeles, fresh display of yeast cake; E. Polkin-hem, of Fruitland, nectarines; L. T. Garney, West Washington street, Los Angeles, peaches weighing half pound each; A. C. Ward, of Covina, apples, Kelsey plums, German plums; Henry Clausen, of Cahuenga, apricots, French plums; Thomas H. Stombs, Los Angeles, a display of tin cans, buckets, pails, etc., of his own manufacture; C. W. Hicks, Los Angeles, potatoes; C. A. Scharrif, Park Nursery Company, Pasadena, eucalyptus ficifolia in bloom, very handsome; Mrs. William F. Grosser, plums and crab apples.

The benefit derived by manufacturers placing their goods in the exhibit is illustrated by the remark made yesterday by Mr. Stephens, of Stephens & Co. He says they were one of the first to place samples of their yeast cake on display, and they have received orders for it from every state and territory on the coast, especially from the large cities, the party ordering generally remarking he had seen samples at the chamber of commerce, or had been requested to order it by parties who had visited the chamber when in Los Angeles. A list of names sent from California on Wheels of parties desiring information about this section was received at the chamber of commerce a few days ago. It contains the following names: Messrs. J. B. Waugh, Tracy, Lyon county, Minn.; H. White, Sherry, Wisconsin; M. Burress, Atchison, Kansas; G. M. Williams, Young Hickory, Ohio; H. L. Ross, Philadelphia, Pennsylvania; J. W. Ludlum, 108 Harrison avenue, Evanston, Cook county, Illinois; O. J. Messer, St. Paul, Minnesota; G. A. Gangelhoff, 1511 Twenty-first street, South Minneapolis, Minnesota; the Lyman Elid Drug Company, of Minneapolis, wants prices and sample of olive oil, also land suitable for olive culture; Ellwood Verrall, 2090 Lake street, Minneapolis, desires land in Los Angeles county; Mr. L. Bousse, Oceanside, California, in search of homes for a number of families to settle; R. G. Watkins, Coleville, Mono county, California; T. H. Leavitt, Lincoln, Nebraska, information concerning wine, brandy and raisin products; Mr. T. C. Voorhees, Pella, Iowa; A. C. Pillard, Salt Lake City; S. M. Thompson, 1212 Clay street, Oakland, California.

The lady is much mistaken who thinks she has thoroughly cleansed her face because she has just washed it with water and soap. To prove it—let her then use a little CREAM EIDER FLOWER CREAM, by rubbing it thoroughly in the skin and then wiping the face well with a towel. The result—as seen on the towel—proves it. Soap and water scarcely remove the impurities from the surface of the skin; they never penetrate and cleanse the pores; besides soap is a caustic, and dries and withers and turns the skin dark. Indeed, many eminent dermatologists go so far as to declare that a woman should never apply soap and water to her face if she wishes to preserve a fresh complexion and youthful appearance.
