

AT THE CAPITAL.

A Pension for Mrs. Fremont Proposed.

Admiral Belknap Reports From Corea.

He Did Not Take Possession of the King's Palace.

Heated Colloquies in the House Over Raun's Administration of the Pension Bureau.

Associated Press Dispatches.

WASHINGTON, July 15.—In the house today Vandever, of California, introduced a bill granting a pension of \$3,000 a year to the widow of the late General John C. Fremont.

Twin City Census Frauds. Assistant Attorney-General Cotton left Washington last evening for St. Paul and Minneapolis, under orders from the attorney-general to investigate the alleged irregularities in the census returns to those cities.

The Squadron of Evolution. The squadron of evolution, which sailed from Rio de Janeiro ten days ago, has not been heard from since at the navy department, although Admiral Walker was expected to stop at Pernambuco, 1,500 miles from Rio. No anxiety, however, is felt for the safety of the squadron.

Did Not Take the King's Palace. Rear-Admiral Belknap, commanding the naval forces on the Asiatic station, has informed the navy department that there is no truth in the report that he took possession of the king's palace at Seoul during the recent trouble in Corea, and that all he did on the occasion in question was to station troops in the United States legation building for the protection of American subjects and property. They were subsequently withdrawn as affairs resumed their usual state.

The Clayton-Breckinridge Case. The house committee on elections today heard arguments by Judge John McClure, of Arkansas, Clayton's representative upon the Breckinridge election case. Judge McClure began his argument by attacking Breckinridge in reply to certain statements made by that gentleman as exhibited in the record. He charged that Breckinridge had sought to incite his partisans to treat him (McClure) as they had treated Clayton. He represented the effort which he said, had been made to make the people of Arkansas responsible for the series of crimes, which, he sought to show, were part of a general plan carried out by politicians and ballot-box stuffers and stealers with the deliberate purpose to reverse the will of the people at the polls.

HOUSE PROCEEDINGS.

An Additional Clerical Force Voted the Pension Bureau.

WASHINGTON, July 15.—In the house, today, Cannon moved that the house go into committee of the whole on the bill appropriating \$636,189 for an additional clerical force to carry into effect the provisions of the dependent pension act. Pending this motion, he moved that the general debate be limited to two hours. Agreed to—yeas, 114; nays, 60. The previous question was then agreed to—yeas, 135; nays, 57—and the house went into committee of the whole.

Dockery, of Missouri, criticized the majority of the committee on appropriations for not reporting a bill making an appropriation to pay the pensions which would be granted under the dependent pension bill, and intimated that its failure to do so was attributable to political reasons. The appropriation would not be made before the November elections. Cannon said the money would be appropriated and paid just as rapidly as pension certificates were issued.

Dockery charged that the majority was frightened by the startling appropriation made at the present session for pensions, and that it was the intention of the majority to spring an enormous deficiency bill after the election.

Sayers, of Texas, predicted that the next session of congress would be called upon to appropriate no less than \$40,000,000 to supply the deficiency in the appropriations for pensions. Enloe, of Tennessee, thought that before any increase of force was granted the pension bureau, it should be ascertained whether the charges brought against the present bureau were in the resolution offered by Cooper, of Indiana, were true.

Cooper, of Indiana, said he was ready to prove before a competent committee that the commissioner of pensions outrageously sold out a ruling on behalf of a firm of pension attorneys in Washington. If the commissioner of pensions would devote his time to the discharge of the duties of his bureau instead of becoming president and chief manager of a refrigerating institution, based possibly on no substantial foundation, there would be no necessity for a considerable number of clerks.

Cannon said he did not know until last Friday that Cooper had introduced an investigation resolution. If he (Cannon) had introduced such a resolution, and a hearing was in progress, he would wait until the hearing was completed. Cooper replied that the committee on rules, after hearing his statement, adjourned to meet last Monday. But it did not meet to pursue the inquiry because the gentleman from Illinois (Cannon) and other members were themselves absent.

Cannon said he had been absent Monday for the first time in eighteen years. The gentleman's eagerness would seem to show an anxiety to figure in the newspapers. It might be that the administration of the pension bureau was corrupt. If it be corrupt, let it be shown. From an acquaintance of twenty years with Green B. Raun, from his honorable career, the responsible position held by him for years in the treasury, and his uniform good character; from all these things he would say if it should be true that in these last days he had fallen under temptation it was a rare case, and for one he would not condemn him until proof was shown.

McKinley said, owing to serious illness in his family, he had not been present at the meeting of the committee on rules to which Cooper alluded. So far as the investigation was concerned, if any gentleman would rise and charge irregularities or corruption or dishonesty or unfair dealing on the part of the commissioner, that would be sufficient reason for him to give his vote for an investigation. Cannon said he did not go so far as

the gentleman from Ohio. The charge on the part of a member of congress (who frequently did not weigh his words) of maladministration against an executive officer, was not sufficient to authorize the house to order an investigation. It must be a specific charge, for which the representative has made himself responsible. He must state such facts and circumstances as would satisfy the house that investigation ought to be made.

Enloe, of Tennessee, offered an amendment providing that the persons employed under this bill be apportioned among the congressional districts of the several states and territories not now having their quota of employees under the existing law. Ruled out, on a point of order. During a colloquy between Cannon and Enloe concerning the civil service law there was considerable warmth of expression. Finally the committee rose, the bill was passed and the house adjourned.

IN THE SENATE.

Sherman Reports a Substitute for His Bond Reduction Bill.

WASHINGTON, July 15.—In the senate today Sherman reported a substitute for the bill introduced by him on the 16th of May to reduce the amount of United States bonds to be required of national banks, and to restore to the channels of trade the excessive accumulations of money in the treasury. Placed on calendar. It provides that the compulsory requirement deposit of United States bonds with the treasurer of the United States by national banks be limited in amount to \$100,000 of bonds for each bank, provided that the voluntary withdrawal of bonds for the retirement of national bank notes shall not exceed \$3,000,000, in any month; and also provided that the act shall not apply to the deposit of bonds to secure deposits of public moneys. Also, providing that national banks be entitled to receive circulation notes, not exceeding the whole amount of the par value of the bonds deposited, and that at no time the total amount of such shall exceed the amount of capital stock actually paid in. The senate bill granting to the state of Washington a section of public land for a soldier's home, and as a training ground for the state militia, was taken from the calendar and passed.

The senate resumed consideration of the sundry civil appropriation bill, the first item being \$200,000 for surveying public lands, the committee recommending its increase to \$600,000. Without disposing of the amendment, the senate adjourned.

STATE BOARD OF TRADE.

California Exhibits Wanted at Eastern State Fairs.

SAN FRANCISCO, July 15.—At the meeting of the state board of trade today, letters were received from representatives of the state fairs of West Virginia and Indiana, proposing that California products be exhibited at their fairs. A special committee was appointed to endeavor to obtain proper transportation facilities for the proposed exhibits.

W. H. Mills told of his observations regarding the world's fair at Chicago. He considered that the nation made a mistake in putting the cost of a ten-million-dollar exhibition on one million people. Chicago is now depending on the receipts from the fair to reimburse the subscribers. Dividing the place of exhibition at Chicago, he also considered was a mistake. It would be a good idea, he thought, to have an exhibition in San Francisco at the same time, and hold out inducements for visitors to Chicago to come here.

Our Merchant Marine.

SAN FRANCISCO, July 15.—The chamber of commerce held a meeting this afternoon, and resolutions were introduced protesting against the policy of permitting the extinction of the American commercial marine in foreign trade, and instructing the board of trustees to telegraph the Pacific coast delegation in congress to use every honorable means to secure the passage of the Frye and Farquhar shipping bills.

The Engineer Exonerated.

SAN FRANCISCO, July 15.—At the coroner's inquest, held at Redwood City, on the bodies of the members of the picnic party who were killed by a railway train near Baden, Sunday, the jury exonerated the engineer of the train, but suggested that more care be exercised in running trains over the Baden crossing in order to lessen the liability of accidents.

Wages Raised.

SAN MATEO, Cal., July 15.—The workmen on the Spring Valley dam, 450 in number, struck for a raise of wages from \$1.25 and board to \$1.40 and board, this morning. A compromise was effected, and work will be resumed tomorrow at \$1.35. Yesterday twenty-five truck-haulers struck for a raise to \$3 per day, instead of \$2.50. Their demand was also granted.

Meeting of Hop-Growers.

SACRAMENTO, July 15.—The state hop-growers of California held their regular annual meeting yesterday afternoon. Daniel Flint, of Sacramento, was elected president. Directors were elected from each of the five hop-growing districts. Resolutions were adopted condemning the universal practice of consigning hops to be sold on commission.

Cloak-Makers Strike Ended.

NEW YORK, July 15.—The cloak-makers' strike ended this afternoon by the manufacturers agreeing to discharge all non-union men, with the understanding that they would be taken back as soon as they join the union.

UNFOUNDED RUMORS.

Canadian Vessels Not Carrying Arms.

No Resistance to Revenue Cutters Contemplated.

The Sealers Claim to Be Neither Poachers Nor Pirates.

No British Ships Ordered to Bering Sea. The Gathering at Esquimaux Purely Incidental.

Associated Press Dispatches.

VICTORIA, B. C., July 15.—The statement that two Canadian vessels which recently sailed out of Maple bay were armed with guns and would resist the American revenue cutters, is without foundation. The steam schooner Mischieff, belonging at Seattle, was chartered to take supplies to the sealers and bring down their catch. Messrs. Hall & Marwin, who own seven out of thirty vessels running out of Victoria, say the reports were sent to prejudice the foreign office at London against the cause of the sealers.

"We are neither poachers nor pirates," they stated. "We clear at the customs houses and the officials know our destination. If the business is illegal they should refuse to give us proper passes. In case the question is decided against the sealers we will quit the business, but to do so now would be to admit the right of the United States to the course it has adopted."

The following vessels are in Esquimaux harbor: The second-class cruiser Champion, 280 men; third-class cruiser Espiegle, 130 men, and the gunboats Daphne and Nymph, with a complement of 140 men each.

Captain St. Clair, of the Champion, the senior ranking officer in the absence of the admiral, was seen, and in reply to a question said: "The reason of gathering here in such force is to welcome Admiral Potham, who succeeds Admiral Heneage in command of the fleet. I can assure you, on my honor, that we have received no orders regarding Bering sea. As senior officer of the squadron, I have opened every message cabled from London by the admiral, most of them relating to the stations of the vessels during the next year. The Espiegle will probably go to Honolulu, the Champion to Callao; the Nymph or Daphne may go to Bering sea, but only for a cruise, as was done last year."

A FAIR FORGER.

She Works the Lottery Ticket Agents to Profitable Advantage.

SACRAMENTO, July 15.—Isidore Cohen, a cigar dealer and lottery ticket seller, mourns the loss of \$475. He cashed a \$500-ticket of last month's drawing for \$25 off. In due time the ticket was forwarded to New Orleans for collection, and a few days later was returned to Cohen with the startling announcement that it was bogus, having been altered for fraudulent purposes. The original numbers had probably been removed by means of an acid and the winning numbers substituted. The swindle was worked upon Cohen by a handsome young blonde woman. Cohen has not seen her since. One year ago Samuel Giusberg, another ticket dealer, was swindled for a similar amount by a woman.

Whitecaps in New Mexico.

WASHINGTON, July 15.—The secretary of the interior has received from a gentleman now in New Mexico a circumstantial account of outrages committed in that territory in the last few months by "whitecaps," in persons of several hundred Mexicans who, armed, masked and mounted, almost nightly parade throughout the country for thirty miles around Las Vegas, destroying crops, houses and bridges, shooting and terrifying citizens. Governor Prince has been ordered to report, and troops will probably be sent to the afflicted district.

Investigating Charges.

SAN FRANCISCO, July 15.—The fish commissioners met in executive session this afternoon to investigate the charges of dereliction of duty preferred against Deputy Fred Callandun. It is charged that Callandun sized fish with nets, the use of which is forbidden by law.

Victimized His Uncle.

HOLLISTER, Cal., July 15.—Bert Jeffery, a nephew to ex-Supervisor John Breen, of San Juan, yesterday confessed to a series of forgeries on his uncle, amounting to over \$450. He was arrested at Pacific Grove today.

Produce Exchange Election.

SAN FRANCISCO, July 15.—The annual election of the San Francisco produce exchange was held today. Barry Baldwin was elected president; Jackson Hart, vice-president; James W. Sperry, treasurer.

SMARTSVILLE, July 15.—The body of Thomas H. Curtis, formerly of Nevada City, who had been missing for several days, was recovered this afternoon from the Yuba river.

A Cure for Diarrhoea.

Mr. J. A. Burnison, of Colburn, Montgomery county, Iowa, has found out how he can cure any case of diarrhoea. Two of his children had the disease; for about six weeks he tried four different patent medicines without benefit, but he finally got hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which he says completely cured them, and is confident it will cure any case when the printed directions are followed. Hewitt's Iron Workers' Strike.

TRENTON, N. J., July 15.—Five hundred iron workers at the New Jersey Steel and Iron Company's works struck this morning. This mill is principally owned by Abram S. Hewitt, ex-mayor of New York, who is traveling in Europe for his health. The strike is the result of the refusal to sign the scale of the Amalgamated Society of Iron and Steel Workers. Superintendent Stokes says, in Mr. Hewitt's absence, no one has authority to sign the scale.

Cancer of the Nose.

In 1875 a sore appeared on my nose, and grew rapidly. As my father had cancer and my husband died of it, I became alarmed and consulted my physician. His treatment did no good, and the sore grew larger and worse in every way, until I had concluded that I was to die from its effects. I was persuaded to take S. S. S., and a few bottles cured me. This was after all the doctors and other medicines had failed. I have had no return of the cancer. MRS. M. T. MABEN. Woodbury, Hall County, Texas. Treatise on Cancer mailed free.
