### DAILY HERALD.

United States Signal Service. Report of observations taken at Los Angeles, August 17, 1890:

Time.	Bar.	Ther.	R.H.	Wd.	Vel.	W.ther.
5:07 a. m.	29.98	68	60	C	0	Clear
5:07 p. m.	29.87	90	33	W	0	Clear

Max. tem., 98; min. tem., 67.  
SAN FRANCISCO, August 17.—Forecast for California: Fair weather.

### BRIEFS.

The Farmer's Convention met in Turner hall this morning.

The two past days have been hot ones. The third usually ends a "hot spell." Today is the third.

There are undelivered telegrams at the office of the Western Union Telegraph Company for Henry Wiese, W. S. Williams and Mrs. Susie Dunbar.

The last train from Santa Monica yesterday afternoon, which left that place at 6 o'clock, did not arrive at the Arcade depot until after 8 o'clock, the locomotive having broken down near University station. The accident was telegraphed to headquarters and another engine was sent down to bring the train in.

### PERSONAL.

J. H. Beecher, of Chicago, is at the Hollenbeck.

Mr. and Mrs. S. F. Bryd of Philadelphia, are at the Hollenbeck.

Mrs. John A. McIntire of Sacramento, with her children, is here on a visit to her sister Mrs. Col. J. J. Ayers.

Mrs. Emily Slater, who has been on a visit to her daughters in Oakland and Sacramento, for the past three months, has returned home.

Geo. M. Holton esq., ex-district attorney returned, yesterday from the Sacramento convention to which he was a delegate.

P. Noble, manager of the Pacific Rolling Mills, San Francisco, arrived in this city from the North yesterday afternoon and is registered at the Nadeau. He is accompanied by his mother and Miss Florida Noble, his sister, both of whom have a host of friends in Southern California.

### AN HYSTERICAL BENDER.

**A Watercart Driver Not so Sick as He Seemed.**

A telephone message was received at police headquarters last night to the effect that a man was dying at a contractor's camp in the Wollskill tract, and the patrol wagon was at once dispatched to the place. It returned at 11 o'clock with a man named Charles Bender, the driver of a street sprinkler, who appeared to be in a very low condition. He was placed upon a cot in the receiving hospital, and Police Surgeon Morrison was summoned. Before the doctor arrived, Bender became very violent and the combined efforts of six men were required to restrain him. Under the soothing touch of the physician, however, he soon quieted down, and after a careful diagnosis, Dr. Morrison pronounced it as a simple case of hysteria, produced by overeating or drinking, when subject to heart trouble. Bender experienced a good deal of difficulty in

### A TALE OF WOE.

**The Dolan Family Have a Falling Out.**

A man named J. B. Dolan, who is a printer by trade, called at the police office yesterday evening, having with him his little girl. Very soon afterward his wife came into the station and demanded the child. A man named Charley Castleton who, is said to be a railroad man, accompanied her. Clerk Cottle advised Dolan to let her have the child and to apply tomorrow to the courts for his possession. Dolan claims that his wife has been dissipating with a notorious woman who has several times been arrested since her husband's death over two years ago. Yesterday he traced them to a Main street house and they were both very much intoxicated. He worked with his wife until he became tired, giving her ice and soda water to sober her up, and finally concluded that his best plan was to take his little girl away with him. Mrs. Dolan followed and intercepted him at the station. When she had obtained possession of the child she left for her mother's house near the Cathedral on Main street. Castleton remained outside awaiting the departure from the station of Dolan and the officers standing around were satisfied that his intention was to assault him. Captain Morton read Castleton a severe lecture about breaking up a family where there are children, but the man was very insolent and Officer Palmer finally pushed him away, telling him that if he kept around much longer he would place him under arrest.

### IN THE LIBRARY.

**A Resort that is Not Deserted in Hot Weather.**

Perhaps the most comfortable place in the city these hot days, is the public library. A cool breeze seems never to desert the third story of the city hall, possibly on account of the amount of wind generated in a certain chamber a floor below.

A HERALD reporter, who strayed in there yesterday, found the reading room comfortably occupied by just enough persons to monopolize two chairs each. There were quite a number of men and big-headed boys. By this it is not meant that they were big-headed in the same way as the average office-holder is afflicted, but they all possessed abnormally large skulls. The kids all had short hair and freckles, their tastes ran in the line of Mark Twain's and Harry Castlemon's works. The selections of the elderly element ran in the line of fiction principally. A bald-headed old fellow was dozing over a book on psychology. Presently he ducked his head in the peculiar way affected by men who are trying to keep awake. Rousing with a start he scowled around to see if any one had observed him, then spread his scarlet silk handkerchief over his bald pate and spoiled the skating rink for the dies.

A study of attitudes could have been profitably made among those present. Embracing all forms of lounging possible in combination with chairs and the edges of the tables.

The only really wide awake persons present were the kids, who eagerly devoured their exciting stories with dilated

### FOUR ACRES

The State Board of Trade says that the San Francisco Chronicle has received three interesting exhibits from the interior counties. The first and most important is from Los Angeles, and represents the production of four acres in the Vernon district. Accompanying the fruit is the following statement of the annual yield of the four acres of ground: Nine hundred and eighty-five boxes of oranges, 15 boxes of lemons, 8,000 pounds of apricots, 2,200 pounds of peaches, 200 pounds of loquats, 2,500 pounds of nectarines, 4,000 pounds of apples, 1,000 pounds of plums, 1,000 pounds of prunes, 1,000 pounds of figs, 150 pounds of walnuts, 500 pounds of pears. The total receipts amounted to \$1,650.

### BAD LUCK.

**Tucson Deprived of Music by a Hoodoo Band.**

The military band now at Tucson meets with all sorts of mishaps. A short time ago they could not play because four of the men were in the guard house. Now comes another catastrophe which

Please give us a call. We will give you all the money you want.**

**CATARRH, THROAT DISEASES, Bronchitis, Asthma and Consumption, together with diseases of the Eye, Ear and Hear successfully treated by**

**M. HILTON WILLIAMS, M.D.**  
M. C. P. S. O.

With his new system of medicated inhalations combined with proper constitutional remedies for the liver, stomach, blood, etc.

Probably no system of practice ever employed has been so universally successful as that introduced by Dr. Williams for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

**CONSUMPTION,**  
From consumers, "to waste away," usually applied to the advanced stage of lung disease. The following are prominent symptoms in the first stage, and whenever any of them exist a thorough examination should always be made, with a view to arrest the disease if shown to exist: There is usually a sense of weariness upon a little exercise, a disposition to remain passive and idle, insensibility, often from no apparent cause, a peculiar sensitiveness to the effect of cold, and a breathlessness upon moving quickly, or descending a hill or stairs, a slight hacking cough, with or without expectation, excitability upon slight occasions, flying pains through the chest or back, or under the shoulder blades. The symptoms are more noticeable toward or during the night, a fever in the afternoon; cold feet and hands, or in many cases, blue lividity of the lips and roots of the finger nails.

Constitutional or tubercular consumption is a common form of lung disease. The progress is slow, but if left to itself no less sure. It usually begins with a dry cough. At first these tubercles are exceedingly minute, the patient not at all suspecting their presence. Gradually they develop into more active disease, and then follows the train of symptoms which leave no doubt as to its true character. Sometimes spitting of blood, or slight streaks in the mucus is the first indication of tubercular deposit, or it may be a chilly sensation in the back, followed by more or less heat in the palms of the hands, or an afternoon flush on the cheeks. The slow and gradual inroads of this form of consumption leave the stomach and appetite undisturbed for a considerable time. Finally, however, hectic fever and night sweats supervene, preceded by a diarrhoea. Then the loss of flesh and strength becomes rapid, the chest contracts, the features sharpen, the eye attains an unusual brilliancy, and the patient begins to realize that he is in the last stage of confirmed constitutional consumption.

By the employment of proper inhalations in the form of medicated vapor (not steam or spray) we are able to produce immediate and direct action upon the diseased surface in the pharynx and the nasal passages for air will find its way into the remotest and intricate cavities, where it is utterly impossible to make fluid applications. By these means every case can be cured.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance from business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless both lungs are seriously involved. Even then the Compound Oxygen and other inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success.

The very best references from those already cured.

**CONSULTATION FREE.**

Those who desire to consult with me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally can write for a copy of my medical treatise, containing a list of questions. Address
