

THEY DISAGREED.

THE JURY DID SOME DANGEROUS FLOPPING OVER.

Which Will Not Be Agreeable to Justice of the Peace Lockwood—Seven for Conviction, and Five for Acquittal.

The jury in the Lockwood case, which went out Thursday morning at 11:47, came into court yesterday afternoon at 4 o'clock and informed Judge Cheney that they were unable to agree. On Thursday it was reported that they stood on the first ballot seven for acquittal and five for conviction, and later on when they returned for instructions they stated that they were seven to five. It is understood that soon after one of the seven flopped to the other side. When they had taken their seats the court asked each individual juror whether, in his opinion, it was possible for them to agree. All except the foreman stated positively that a chance of coming to an agreement was utterly out of the question. The foreman was not so sure. He stated to Judge Cheney that one of defendant's testimony was understood differently by four of the jurors from the way in which the majority had interpreted it. The jury was ordered back for a few minutes and the stenographer was directed to look up the part referred to; when he had found it the jurors were again brought into court and the testimony read to them. It was the statement made by Lockwood in which he denied having supplied Damron, during his stay in the Reddick block, with anything except on one occasion, the Sunday night when he took up to his room some whiskey and cigars. The foreman now stated, that as far as he was concerned, he was now willing to say that he had also made up his mind that no verdict could be reached. He stated that the jury stood 7 to 5, but that it was not in the way it was the day before. The court ordered them into their room again, but in a few minutes, it being 4:30 p. m., they knocked at the door and were again brought in. They stated that an agreement was an impossibility, and the court, after stating that he did not expect they would come to a verdict after having been out twenty-eight hours, discharged them. The judge directed the case reset on the trial calendar, and ordered that the defendant give a new bond for \$3,000. Messrs. Shinn and Ling both qualified, but as Lockwood's other sureties had not arrived, he went to find them in the custody of the sheriff. To a HERALD reporter, who asked one of the discharged jurors how they stood, the positive statement was made that on the last ballot they were seven for conviction and five for acquittal.

COURT NOTES.

Little Incidents Which Occurred in Legal Circles Yesterday.

August F. Schunk, a native of Germany, was admitted to citizenship yesterday by Judge Cheney. The United States circuit court meets today, Judge Ross, in the absence of Judge Sawyer, presiding. The Southern Pacific company has given notice of appeal from the judgment awarding George Bramer \$2500 damages. The case was recently tried in department 3. August Penkert, a native of Germany, was naturalized yesterday by Judge Wade. The contempt proceedings against Juan Machado, in the case of Machado and Machado, were continued in department 5 until this morning. A suit for the condemnation of part of the Arroyo de los Angeles, belonging to Mrs. Rump, which is needed by the Los Angeles, Pasadena and Glendale railroad, was on trial yesterday before Judge Shaw. The testimony in the Coenen damage suit for \$50,000 against the Los Angeles Cable Car company, now on trial before Judge Clark and a jury, was concluded late yesterday afternoon. The argument will commence today and the case will probably go to the jury this evening.

AN EYE WITNESS

Who Saw Charles Lawson Stab Captain Moody.

The examination of Charles Lawson for the stabbing, with a sharpened putty knife, of Captain J. F. Moody was commenced yesterday before Justice Savage. Captain Moody was the first witness. His testimony was similar to that given at the examination of the two Lawsons before Judge King, at which they were discharged. He stated that he did not draw his revolver until after the defendant had pulled the knife out. A new witness in the case, B. F. O'Neal, was examined in the afternoon. He is a Nebraska man. He was passing near the Lanfranco block at the time Lawson made the assault. He saw the defendant draw the knife and attempt to stab Moody, who fell on his knees and then ran to the car track. A. B. Lawson, the private detective, called to his brother, "Kill him! Kill him!" Charles Lawson ran up to Moody and would again have stabbed him if Night Patrolman Sheets had not prevented it. The defendant gave up the knife to a policeman. Witness stated that he was within two feet of the defendant when he drew his knife. He stated on cross-examination that he did not see Moody draw a revolver. He stated that he is the cashier of the Lone Pine (Nebraska) bank and a brother-in-law of S. P. Lunt. The examination will not be concluded until this afternoon.

REDONDO BEACH.

Many Interesting Sea Side News and Personal Notes.

Redondo has experienced some of the most perfect weather for the past week. The mornings have been warm, clear and simply beautiful in every respect. By the break of day dozens of men, women and some small boys could be seen going to the pier with rod and line to enjoy a few hours in Isaac Walton's pursuit. Miles & Maxey draw their seine every day and make a good haul. Yesterday they pulled in a large quantity of smelt, of which a portion was shipped to Los Angeles. Barrels of sardines have been landed here by different parties. Those using the surf line have caught some very fine rock bass and yellow tail, some weighing as high as twenty-two pounds. Saturday there were over sixty persons fishing from the pier. The two mast steam schooner, Noyo, landed yesterday loaded with piles and timber for the Santa Fe railroad. Just twelve days ago she left here after un-

loading about the same cargo for the same company. The Eureka landed at the pier yesterday afternoon with a large load of general merchandise and eight passengers for Redondo. She had six carloads of beans aboard. Mr. Weir is moving out of Mrs. Glassell's house and will occupy Mrs. Reynolds's residence this winter. Mr. Steele is putting an addition to his cottage. Mr. Reese, secretary for Redondo Beach company, will soon have his fine residence completed, and will be surrounded with rare plants and shrubbery; it is located at the corner of Ruby and Dominguez avenues. Many other buildings and improvements are to be seen springing up in all directions. Mr. Miller has just completed his cottage in the Mellus tract, and is now having a well dug on his lot. George H. Rose, of the Palma, is doing the work. He put in a well last week for Linsay Brothers, at their planing mill here, and excellent cold soft water was found in abundance at a depth of thirty-six feet. Among those visiting Redondo were noticed today Ed. Carson, of the S. P. R. R., J. R. Ridge, R. H. Gray, J. E. Loucks and Judge Anson Brunson, of Los Angeles, Colonel Whitson and A. Teel, of East Los Angeles. Mr. Teel says he will build a fine residence on his land on Nob Hill. The Los Angeles Annual HERALD is for sale at Redondo Beach at the fruit and news stand at the end of the wharf, and at the office in the Redondo hotel. It is selling rapidly; many are sending it to their friends all over the world. The Redondo Beach company has dug and graded a road to the beach just beyond the hotel and covered it with straw. This is a great accommodation for those wishing to drive on the beach at low tide. A large body of oil stone has been found between Redondo and the Point; it is very oily, and soft enough to strap a razor on. Samples of it will be on exhibition at Hotel Redondo on Sunday, as well as samples of the water containing a large per cent of magnesia. The spring producing this water was accidentally found it is as soft as rain water, cool and clear as a crystal, and comes out of a solid rock. The school is progressing splendidly with nearly 100 pupils. In fact, Redondo is daily going ahead in all directions. S. B. H. Redondo, Sept. 26th, 1890.

SANTA MONICA.

A Grand Democratic Celebration to Occur Tonight.

The Democratic club here, which is over eighty strong and manned by sterling Democrats, expect to have a fine time at their ratification meeting and jubilee tonight. The various clubs of Los Angeles have accepted the invitation sent out last Saturday and will leave Los Angeles at the Arcade depot at 6:30 p. m. on a special. The secretary stated to your correspondent that every Democrat in Southern California was specially invited to be present, and all Republicans who come will be welcomed. It will furnish the boys in Angel town an excellent opportunity to bring their best girl, wife, or sister along to enjoy the moonlight evening by the sea. The old Santa Monica band has been reorganized, and the boys have been practicing daily, and expect to be in good form by tonight to entertain their brother Democrats. Hon. Joseph D. Lynch has kindly consented to address the gathering, and the gentleman will be made to feel a grand old welcome which is in store for one who has ever had the special interests of Santa Monica at heart. George Weeks of East Los Angeles visited the beach today. Deputy Sheriff Hammel passed the day here. S. E. Smith of Tulare, Cal., accompanied by his niece, Miss E. Lois Snecker, of Staten Island, N. Y., passed the day here. Misses Ollie Scott and Emma Truesdell are spending a couple of weeks at Glendora, guests of Mrs. Hubbard. The proprietors of the Union fish market, Williams and Dagenhardt, have had bad luck in the matter of runaways lately. Thursday one of their horses ran away, demolishing the cart. Mr. Dagenhardt left his other horse alone for a moment yesterday, when something startled him, and he started on a run down Utah avenue, turning into Third street, where he collided with the team of Mr. Schroeder, of Balona, which started on the stampede down the street over the railroad towards home. The last seen of the fisherman's horse, he was heading for the cañon, leaving the wagon behind him near the market. James Dimmock, of San Francisco, who is visiting Los Angeles, drove a party down to Santa Monica today, consisting of Mr. and Mrs. J. H. Clark, L. H. Mott, Miss Alice Mott and Mr. and Mrs. James Dimmock, who returned charmed with their day's outing.

NATURAL GAS.

Preliminary Work to Commence Today at Ivanhoe.

The story of the discovery of natural gas at the Ivanhoe tract which was circulated yesterday, is premature. The story was that in digging a well a flow of gas was struck; but no such thing could be located after a thorough exploration of that locality. Professor J. M. Forney, however, is satisfied that gas will be found at Ivanhoe, and has organized a company to bore for it. Today work will be commenced on a shaft which will be sunk on the Rheude place to a depth of twenty-five feet, simply to determine the character of a sandstone formation there. If the result is satisfactory, as Mr. Forney is convinced will be the case, the work of boring will begin as soon as the machinery can reach here. A large plant, consisting of the most approved machines used in well boring, is all packed at an eastern manufacturing point, only waiting for a final telegraphic order to be sent on its way here. The Illustrated Annual Herald. The most acceptable present you can send to eastern friends is the Illustrated Annual HERALD. There are forty-eight large pages of fresh and reliable information about Southern California, including statistical matter of the greatest value, relating to the climate, crops, population, etc. There are fifty fine illustrations of local scenes, the first view of the city of Los Angeles being alone worth the cost of the publication. No gift would be more appreciated in the east than a copy of the Annual HERALD. It may be obtained of newsdealers, or at the HERALD business office. Price 15 cents per copy. A. A. Adam's Wall Paper House has removed to 303 S. Spring st. corner of Third. 9-25-1w

DYER'S LIPS SEALED.

BUT TAYLOR MAKES AN ANTE-MORTEM STATEMENT.

The Editor Shooter Arraigned Yesterday—Taylor Still in a Critical Condition—The Proceedings in Court.

The preliminary examination of Frank Dyer, on the charge of an assault with intent to commit murder, took place yesterday afternoon before Judge Austin. Judge Gardner assisted Deputy District Attorney Phibbs in the prosecution, and Attorneys Willis and Appel appeared for the defendant. Mrs. Dyer was present during the examination. She was accompanied by a lady. Officer Bob Martin testified in regard to the arrest of Dyer, on the evening of the 14th, as also did Officer Ellis. General Bouton testified that he was directly behind Dyer when the shooting took place and that he caught hold of him. E. C. Miller swore that he saw Dyer make a second attempt to shoot and heard Taylor exclaim: "Don't let him shoot again. Give me a pistol and I will shoot the..." Dr. K. D. Wise was put on the stand for the purpose of ascertaining the condition of the wounded man. The doctor stated he was a little better today, but that his condition was still critical. Mr. Fisher stated that he saw Taylor fall and that he saw Dyer standing over him with a weapon in his hand. W. H. Wood was sworn and testified: "I saw Dyer walk up, pull a gun and shoot Taylor. I was about thirty feet behind Dyer. Dyer was about forty feet away from Taylor when he shot him." This closed the prosecution. Attorney Willis announced that the defense would offer no testimony. He also asked the court to reduce the bail, as Doctor Wise had reported that Taylor's condition was somewhat improved. Judge Austin held Dyer to answer and fixed the bail at \$10,000. James Taylor has made a statement in regard to the trouble between him and Dyer, but it will not be made public unless Taylor dies from his injuries. Doctor Wise admitted to the HERALD reporter that Taylor had given his version, but that he was not at liberty to make the statement public. Frank Dyer still refuses to talk and will endeavor to keep the public in the dark as long as possible. His mouth is sealed for the best cause in the world.

PUBLIC WORKS.

The Recommendations Which Were Made Yesterday by the Board.

The board of public works, which was in session yesterday morning, will present the following recommendations to the council on Monday: That the city attorney be instructed to present ordinances of intention to open Kohler street, between Eighth and Ninth, in accordance with the city engineer's map; for the extension of Flower street from Twentieth street to Twenty-third street, the street to be sixty feet wide. That the petition of Pierre Nicholas, asking for the paving of Marchessault street, between Upper Main and New High streets, be granted. That the paving of Fifth, east of Main street, be suspended until property owners agree upon some definite plan of action. That the city engineer be instructed to draft an ordinance of intention for a sidewalk eight feet wide on Pearl street, excepting that portion between Sixth and Tenth streets, where a sidewalk is already laid. The matter of the disposition of storm water on Alameda street, where railroad switches are placed, was recommended referred to the city engineer for investigation and report. The petition of J. H. Cordyce and others, referring to encroachments on Adobe and Yale streets, was referred to the committee on lands. That the petition of Baer & Newbauer asking for leave to place a hitching post in front of 124 South Spring street, be granted. That Mr. Haight be granted an extension of thirty days in which to complete his contract for the grading of Eighth street between Grand avenue and Pearl street. The matter of recommending the passage of an ordinance granting B. O. Carr the right to construct and operate an electric railway, to which reference was made a few days ago in the HERALD, was taken up and a considerable discussion, Major Barrett, on behalf of the road, being present, it was finally agreed that the council be requested the same. The only changes that were made in the proposed route are from 23rd street to Hayward street and thence to Hoover street. The superintendent of streets entered a protest against the council or the board of public works entertaining any petition from property owners against his decision in regard to the construction of sidewalks. DAMRON ILL. He is Suffering From a Surgical Operation. In department one yesterday the three cases against J. M. Damron were continued till Monday. An operation was performed on him last Sunday at Santa Monica, by Drs. Davison and Chaffee, and it is not expected that he will be unable to get out of bed for at least three weeks. This will of course necessitate further continuances of the trials. It is Exceedingly Meaty. We have received a copy of the Illustrated Los Angeles HERALD. It contains 48 pages and is handsomely printed and illustrated. It is exceedingly "meaty," filled as it is with valuable statistics and descriptive matter about Los Angeles county and other portions of Southern California. Santa Monica is remembered in an excellent descriptive article accompanied by a picture of the residence of Senator Jones. As we have only had time to take a hasty glance at its pages, we shall notice it more fully hereafter, as well as copy liberally from its columns.—Santa Monica Outlook.

A Reprieve for the Condemned.

Wretched men and women long condemned to suffer the tortures of dyspepsia, are filled with new hope after a few doses of Hostetter's Stomach Bitters. This budding hope blossoms into the fruition of certainty, if the Bitters is persisted in. It brings a reprieve to all dyspeptics who seek its aid. Flatulence, heartburn, sinking at the pit of the stomach, nervousness, the nervous tremors, indigestion, of which chronic indigestion is the parent, disappear with their hateful progenitor. Most cases of dyspepsia are the result of a habit of eating unwholesome food, and the Bitters is a powerful agent to describe the tortures of dyspepsia, but in many of the testimonials received by the proprietors of the Bitters, these are portrayed with vivid truthfulness. Constipation, biliousness, muscular debility, malarial fevers and rheumatism are relieved by it. 9-25-3c

S. S. S.

Mrs. Geo. P. Smoots, a highly cultivated and estimable lady of Prescott, Ark., writes under date of April 22, '89: "During the summer of 1888 my eyes became inflamed and my stomach and liver hopelessly disordered. Nothing I ate agreed with me. I took chronic diarrhoea for some time my life was despaired of by my family. The leading physicians of the country were consulted, but the medicines administered by them never did me any permanent good, and I lingered between life and death, the latter being preferable to the agonies I was enduring. In May, 1888, I became disgusted with physicians and their medicines. I dropped them all and depended solely on Switt's Specific (S. S. S.), a few bottles of which made me permanently well—well from then until now." It Builds up Old People. My mother who is a very old lady, was physically broken down. The use of Switt's Specific (S. S. S.) has entirely restored her to health. R. B. DILWORTH, Greenville, S. C. Treatise on Blood and Skin Diseases mailed free. SWIFT SPECIFIC CO., Atlanta, Ga.

Mr. G. W. Sutherland, a druggist in the town of Colfax, state of Washington, keeps in stock all of the leading medicines for the throat and lung diseases, but says he sells more of Chamberlain's Cough Remedy than any other and has never heard a complaint from anyone. This Remedy gives entire satisfaction, because it can always be depended upon. It is popular because it never disappoints and because it is pleasant to take. Let anyone afflicted with a severe cold or other throat or lung troubles give it a trial and he will realize for himself what a valuable medicine it is, and learn why it is so popular. For sale at 50 cents per bottle by C. F. Heinzenman, 222 N. Main street. John A. Off, cor. 4th and Spring streets, and all leading druggists. Bear in mind that St. Patrick's Pills not only physic, but cleanse the whole system and regulate the liver and bowels. A dose at bed-time is sufficient. For sale by C. F. Heinzenman, 222 N. Main street. John A. Off, 4th and Spring streets, and all leading druggists. St. Patrick's Pills are liked because they are reliable; because they produce a pleasant cathartic effect; because they correct bilious disorders and because they are as near perfect as they can possibly be made. For sale by C. F. Heinzenman, 222 N. Main street. John A. Off, 4th and Spring streets, and all leading druggists.

A Recommendation. I, the undersigned, being dangerously ill, applied to Dr. Mung Chow and was restored to perfect health, and therefore desire all my friends to be informed in reference to Dr. Mung Chow, that his reputation be not concealed; and advise all afflicted ones to repair to Dr. Mung Chow's office at No. 641 Upper Main street and be cured. LOUISE HING, July 15th, 1890.

The HERALD Job Office is now better prepared to turn out first-class job printing than ever. Give us a call when in need of printing of any description.
