An Atrocious Crime at St. Augustine.

A Rejected Suitor Slays His Lady Love.

An Inoffensive Citizen Kicked to Death by Troughs.

A Stubborn Fire in Chicago Last Night—Fatal Gas Explosion in a Pennsylvania Mine.

Associated Press Dispatches.

St. AUGUSTINE, Fla., Sept. 30.—This city is terribly excited over an awful tragedy which occurred here today. Alexander Campbell, a rejected suitor, called at the house of Miss Mamie Joseph, a member of a prominent family, and when she advanced to meet him, drew a revolver. The girl, divining his purpose, ran out of the house, while her mother and the servant tried to restrain Campbell. Their efforts were ineffectual, however, and he followed the girl across the street, firing as he ran, inflicting a slight wound. Mamie ran into Dr. Shine's yard, and fell down. As she was trying to raise, Campbell fired again, sending a bullet through her heart, while the girl's mother and the servants were screaming and trying to restrain him. Campbell has been jailed. He says he determined to kill the girl when she rejected him. He expects to be hanged, and is indifferent about it. He may be lynched.

St. LOUIS, Sept. 30.—Following are in substance the articles of agreement of the recently formed Southwestern Steamship and Railway association. The signers are: Jay Gould, president of the Texas Pacific; H. H. Clark, general manager of the Missouri Pacific and Iron Mountain; C. P. Huntington, president of the Southern Pacific; President Manvel, of the Atchison and Frisco companies; J. Waldo, general traffic manager of the Missouri, Kansas and Texas; Robert Mallory, of the New York and Texas Steamship company; S. H. Seaman, president of the Cromwell Steamship company; W. B. Dodge, general manager of the St. Louis, Arkansas and Texas; George H. Nettleton, president of the Kansas City, Fort Scott and Memphis.

The agreement provides that the association shall cover all interstate traffic having its origin or destination at points where there is competition between the members; does not cover or relate to any traffic which begins or ends within the limits of a state or disconnected from continuous transportation through or into other states. This paragraph is believed will fully comply with the Texas anti-trust law. All action of the rate committee is subject to review and approval by the executive committee. The fundamental principle of agreement is that the receiver, president, vice-president or general manager whose names are affixed, will assume the responsibility as executive officers of their respective companies for the maintenance of the provisions of the agreement, which shall take effect September 1, 1890, and continue thereafter, subject to ninety days written notice to the chairman, of the desire of any member to withdraw therefrom. The strength of the agreement lies in section 1 of article 4, where the rate-making and rate-changing power is taken away from the traffic managers and vested in the executive committee composed of the highest officers of the companies interested.

DIXIE'S NEMESIS.

NEGRO DOMINATION THE SOUTH'S CONSTANT DREAD.

The Mississippi Constitutional Convention Petitions Congress for the Repeal of the Fifteenth Amendment.

JACKSON, Miss., Sept. 30.—In the constitutional convention today, the committee to which was referred the subject of memorializing congress to repeal the fifteenth amendment, reported a long set of resolutions. They set forth that the white and negro races, though friendly and homogeneous for all business and industrial purposes, are widely separated by race instincts and prejudices, in all political and social matters. There is no well founded hope of change. With such conditions there will ever be conflicts of greater or less magnitude concerning the control of the governments of the states in which their numbers are approximately equal. Such a condition of insecurity is not only a great political and social evil, but also greatly impedes industrial development; and inasmuch as the white people only are capable of conducting and maintaining the government of such states, the negro race (even if its people were educated) being wholly unequal to such great responsibility, therefore it is the deliberate judgment of the people of Mississippi that the only efficient remedy lies in the repeal of the fifteenth amendment, whereby such restrictions may be put upon negro suffrage by the several states as may be necessary and proper for the maintenance of good and stable governments therein. Congress is asked to submit the proposition to the states.

AUTUMNAL SHOWERS.

Their Good and Bad Effects on California Crops.

MARYSVILLE, Sept. 30.—Raisin grape growers and vineyardists will suffer greatly from last night's rain, particularly as it did not clear up this morning. The heaviest grape growers had large quantities of seedling grapes out. The Muscatels were all taken care of, however. The wheat raisers are thankful for the rain, as it will help plant planting. Reports throughout the country state that the hop growers had nearly finished picking, and the rain was not disastrous to them.

NAPA, Sept. 30.—The rainfall for the storm amounts to .59 of an inch. The business of the wine cellars is practically stopped. Grapes will rot badly, and will be salable only for distilling purposes, if the rain continues, which seems probable. The damage to the grape crop is already very great. Vineyardists are much discouraged with the outlook.

The Strike at the Wellington Mines a Dead Letter.

VICTORIA, B. C., Sept. 30.—The strike at Dunsmuir Sons Wellington mines is practically over. One hundred and fifty men were at work Saturday, thirty-five of whom arrived from San Francisco by the collier Wellington; sixty others are coming next trip. A number of English coal miners have arrived and have sent word to their friends that they have "struck it rich," the first week having earned \$8 per day.

Dense fogs have prevailed in the straits the past few days, but beyond narrow escapes and delays in steamer arrivals, no casualties have occurred. From an official source it is learned that the United States revenue cutters' orders are to proceed to sea and not to interfere with sealing schooners unless they go to the harbors and rivers of Alaska and transgress the regular coast laws. The sealers here are satisfied with this, as they have no intention in the winter trip to venture into forbidden waters.

Mrs. Robert Dunsmuir, widow of the late coal owner, has just occupied her new residence, which has cost half a million dollars.

HUNGRY IRELAND.

AMERICA AGAIN APPEALED TO FOR BREAD.

NEW YORK, Sept. 30.—The Sun tomorrow publishes an appeal to the American people, from the American committee for the relief of the famine in Ireland. It says the period of actual suffering from hunger has not yet been reached, but the days of starvation, unless help comes, are not far off. In the last great famine, in 1878-79, Parnell, Davitt and others who voiced the country's appeal for food, pledged themselves never again to appear as supplicants before the world on behalf of starving Ireland. So no appeal has been sent out, and probably will not come from that source until the situation becomes desperate. A movement is on foot among well known men not connected with any Irish societies or political bodies, to bring to the attention of America the appalling calamity which now threatens Ireland, before actual death from hunger has claimed many victims. It has been decided to organize under the name of the "American Committee for the Relief of Famine in Ireland." It is proposed to make its work cover both North and South America. The personnel of the American committee contains the following names: Chairman, General James Grant Wilson; honorary chairman, Hon. Rutherford B. Hayes, Hon. Grover Cleveland; vice chairman, James Redpath, George Ennet, Colonel Elliott F. Shepard; James Phillip, Jr., treasurer, the New York Sun; secretary, Arthur Dudley Vinton. Chauncey M.
