

## THE SANTA FE PLANS.

### The Meaning of the Colorado Midland Deal.

### It Was Not to Crowd the Rock Island Out.

### The Object Was to Form a Gigantic Railway Trust.

### A Sharp Move to Spoil the Game of the Union Pacific-Vanderbilt Alliance.

Associated Press Dispatches.

CHICAGO, Oct. 4.—The Tribune says: The purchase of the Colorado Midland road by the Atchison, Topeka & Santa Fe, appears to have a greater significance than has been the general impression. It becomes more evident every day that it was not the object of the Santa Fe, or rather the bankers who control that road, to crowd out the Rock Island or any other road which now terminates at the eastern slope of the Rocky mountains. The impression is gaining strength that the deal was consummated with the view of bringing about the formation of a gigantic railway trust, or combination of all the roads between Chicago and the Pacific coast. The railroad situation in the west is in a more demoralized condition than ever before, and unless a pool or combine is speedily formed, that will insure the maintenance of high rates, many roads will be pushed to the wall. The Union Pacific, since its alliance with the Northwestern, or rather the Vanderbilt combine, has been encroaching upon the territory of the Santa Fe and Gould's lines in all directions. It has obtained outlets into Texas, both from Denver and Omaha, and is now extending the Utah Southern from Frisco, Utah, to Mojave, the connection of the Santa Fe with the Southern Pacific. Tapping the latter at Ogden and Mojave, the Union Pacific-Northwestern combination would stand invincible and be able to control nearly all the California traffic, by encompassing an alliance with the Southern Pacific. To spoil such a game seems to have been the object of the Santa Fe people when they secured control of the Colorado Midland lines. If they secure the Denver and Rio Grande Western, they will have a line through to Salt Lake city and Ogden, where they can retaliate against the Union Pacific-Northwestern combination if the latter attempts to show fight at Mojave. The issue is nothing more or less than a test of strength between the bankers, aided by Jay Gould and nearly all of the other western roads, against the Union Pacific-Vanderbilt combination, and until that issue is decided, an improvement in western railroad affairs cannot be looked for.

### MALIGNANT DYSENTERY.

### An Awful Plague in a Fifty New Jersey Village.

HAMBURG, N. J., Oct. 4.—In this village, with a population of 500, there have been no less than 45 cases of malignant dysentery within the last two months, and many of the inhabitants in a little hamlet near by have suffered with the plague and nine have died. But in Hamburg, where the disease originated, its ravages have been greatest. Twenty deaths have occurred. A doctor says it is unmistakably a plague of epidemic, contagious dysentery. Others believe the disease is a species of cholera, such as was predicted would follow the general epidemic of "grippe" last spring. There is a foul pig pen in the village on the edge of a pond, and within ten feet of a large cemetery. For years it has not been cleaned out, and offal has been accumulating all this time.

### AERIAL NAVIGATION.

### An Air Ship That Can Go Around the World in Five Days.

CHICAGO, Oct. 4.—The Times says: A syndicate of Englishmen and Americans has been in session here several days, and today filed articles of incorporation of the Aerial Ship company, with a capital of \$20,000,000; that immense works will be once erected, and the building of airships and cars began; that the first will be ready inside of sixty days; that it will be perfectly controllable; that with it a trip around the world can be made in five days.

### HOPEFUL SAINTS.

### Revelations Received Direct From Joseph Smith and Brigham Young.

SALT LAKE CITY, Oct. 4.—The Mormon semi-annual conference was opened today by George Q. Cannon. Elder Roberts spoke of a revelation to come from President Woodruff, and said 1890 would rank as an epoch in the history of

the church. President Woodruff then came forward and said the Lord would not reveal time, but he had talked twice recently with Joseph Smith in the spirit, and the purport of it was that the bridegroom was about to mate the bride. He had also talked behind the veil with Brigham Young, and was encouraged greatly. Apostle Richards said the kingdom was to advance more rapidly than ever, but the Son of Man and his angels would not come on earth until Jerusalem was rebuilt. The saints should study the Scriptures more, and then the young men would see visions and the old men dream dreams. Apostle Thatcher advised the saints to prepare for 1891. They had prospered greatly of late, and that made him fearful. "What we need is persecution and plenty of it," he expressed full belief in Woodruff's conversations with Joseph Smith and Brigham Young. The time is coming when this country will again engage in strife between labor and capital, and the Mormon question will be forgotten for the time, then the people will flee from all parts of the land to Utah, and the Mormons will welcome them and will establish here a true republican form of government with democratic principles.

**The Count of Paris Banquetted.**

The governor of the club extended to the count the privileges of the club for sixty days, a privilege seldom extended.

## THE AGONY OVER.

### THE CHAMPIONSHIP BASE BALL SEASON CLOSED.

### The Beaneaters and Bridegrooms Take the Pennant in the Players and National Leagues Respectively—Closing Games.

CHICAGO, Oct. 4.—The championship season of the National and Players baseball leagues closed this afternoon. Since the first few weeks of the season passed interest in the game in the east has died out wonderfully, and this week, instead of there being, as in the past, excitement at various points over the closing of the contest, and the standing of the different clubs, interest has lessened. The Players league teams finished in the following order: Boston, Brooklyn, New York, Chicago, Philadelphia, Pittsburgh, Cleveland, Buffalo. The Nationals stand: Brooklyn, Chicago, Philadelphia, Cincinnati, Boston, New York, Cleveland, Pittsburgh.

### THE CLOSING GAMES.

**Rain Interferes Seriously at Many Points.**  
CLEVELAND, Oct. 4.—Cleveland and Philadelphia National league teams closed the season today with two games, the home team winning both by superior hitting and fielding. Score—First: Cleveland, 5; Philadelphia, 1. Second: Cleveland, 7; Philadelphia, 3.

CHICAGO, Oct. 4.—The National games at Cincinnati, Chicago and Brooklyn were not played today; rain.

**Brookline.**  
CHICAGO, Oct. 4.—Chicago and New York tried to play ball today, but the effort was farcical, with the park a swamp, rain falling, and two hundred spectators. The game was finally called at the end of the fifth inning, with the score a tie, two each.

**CLEVELAND, Oct. 4.—**The game between the Cleveland and Philadelphia Brotherhood teams was called at the end of the seventh, on account of darkness. Up to that time it had been a walkover for the visitors, who were batting Gruber's delivery all over the field. Score—Cleveland, 4; Philadelphia, 16.

**BUFFALO, Oct. 4.—**The Bisons couldn't hit Sowers at all, while Brooklyn had a comparatively easy time with Twitchell. Score—Buffalo 0; Boston 5.

**PITTSBURG, Oct. 4.—**Two very indifferent games were played here today. Pittsburgh won the first from Boston by a score of 10 to 6. The second game had to be called at the end of the sixth on account of darkness. Boston won by a score of 7 to 3.

**SYRACUSE, Oct. 4.—**First game: Syracuse 7; Athletics 6. Second game: Syracuse 6; Athletics 1.

**ST. LOUIS, Oct. 4.—**St. Louis 2; Toledo 4.

**ROCHESTER, Oct. 4.—**Rochester 2; Baltimore 5.

**LOUISVILLE, Oct. 4.—**Louisville 3; Columbus 6.

### CALIFORNIA LEAGUE.

### The Colonels Win Because the Stocktons Weren't in It.

STOCKTON, Cal., Oct. 4.—The Stocktons were not in it in the game with the Oakland today, narrowly escaping a shut out. At the beginning of the ninth inning the score stood 7 to 0 in favor of the Oakland, and it took three errors by Oakland to give Stockton one lone home run.

**The Senators Beaten.**  
SAN FRANCISCO, Oct. 4.—The home team won another game from Sacramento today. It was sharply contested from the first, Sacramento leading off with three runs in the first inning. Score—San Francisco, 6; Sacramento, 3.

**The Cincinnati Team Transferred.**  
CINCINNATI, Oct. 4.—The base ball deal has been consummated and the Cincinnati team transferred to the Players league. It is understood that the consideration was \$38,000 cash. The lease of the grounds was also transferred for three years. It is understood one feature of the agreement was that the old managers would not engage in the base ball business in Cincinnati without the consent of the Brotherhood.

Ernest Riell, cashier for a business house in Omaha, Neb., was arrested at New York as he was going aboard the Servia to sail for Europe, in consequence of a telegram received at police headquarters stating that Riell is an embezzler.

## THE KAISER'S REALM

### William's Attitude on the Socialist Question.

### He Feels Confident of His Ability to Solve It.

### Anti-Socialist Laws To Be Replaced by Remedial Legislation.

### Terrific Storms in the East Sea Provinces. Lawn Tennis Not a Fit Game for German Girls.

Associated Press Dispatches.

BERLIN, Oct. 4.—[Copyrighted, 1890, by the New York Associated Press.]—The lapse of the anti-socialist laws has led to a renewal of the discussion regarding Emperor William's attitude toward the socialist question. The Cologne Gazette repeats that the emperor and all his ministers, with the exception of Bismarck, desired the continuance of the special act, and were ready to accept a permanent act in the form offered by the National Liberals, namely: without the power of expulsion, but Bismarck disagreed and the Reichstag in consequence dissolved. The emperor himself, says the Gazette, would never voluntarily have dispensed with the act. At the same time the emperor views the death of the laws without regret, confident of his ability to solve the social problem without them by means of remedial legislation, depriving the party of discontent of their most serious grievances.

The tone of most of the socialist meetings the past few days was one of equation, but all were orderly. A great meeting was held at the Brockbrauer. The men present appeared to belong to the intelligent working classes. They were accompanied by their wives and families. Several speeches were made. A sheet entered "Bestowing the Socialist Law," explaining how Christianity might have been destroyed in its inception if the Jewish and Roman authorities had only imitated the Russian police and dissolved every meeting of its founders met with a large sale.

Herr Bebel declared in an interview that his party would meet the government's remedial bills on their merits. It is notable that at the Berlin elections for delegates to the coming socialist congress at Halle, all the men belonging to the moderate section of the party, a large restaurant has been purchased at Erfurt, and another with a large hall for meetings attached, will be bought shortly to assist the propaganda; knowing that the repeal is only an experiment, the party will avoid giving occasion for a renewal of coercive laws. A sheet entered "Bestowing special attention to the schemes which the government is preparing for the reform of the rural local government, and the national school system, as well as upon the project of direct taxation. The far reaching proposals of Miquel, minister of finance, for the collection of an income tax, will, it is estimated, raise the amount collected, 25 per cent. The North German Gazette, commenting on the Kaiser's reception in Austria, gives a hint which appears to confirm the renewed rumors concerning a new commercial treaty with Austria. The fact that the Austrian ministers were not present at the railway station in Vienna to meet the Emperor William on his arrival there, is much commented on in connection with the Dreihund, but it is officially declared that their absence had no political significance. Emperor William having ignored him last year, Count von Taaffe purposely absented himself.

Terrific storms are reported in Schleswig and the East Sea provinces. Hail ruined crops and smashed thousands of windows in Elmshorn, which was flooded by the sea. Numerous houses were unroofed and many inhabitants injured. At Danzig a tramcar was overturned and several occupants crushed to death. Many shipwrecks attended by loss of life are reported.

The editor of the Mayence Volks Zeitung has been arrested for ridiculing the celebration of the battle of Sedan, and eulogizing France.

Cardinal Hergewoth, the Catholic historian and champion of the vatican decrees against Dollinger, died today at Meheran monastery.

The clergy of Treves have denounced lawn tennis as unbecoming for German girls.

**Dockmen's Working Hours.**

**Holland's Sick Monarch.**  
THE HAGUE, Oct. 4.—The condition of the King of Holland shows no signs of improvement. He is constantly confined to his bed. He suffers from insomnia and can take no nourishment but milk.

**No New Cabinet Formed.**  
LISBON, Oct. 4.—The statement that Ferrao has succeeded in forming a new cabinet appears premature. Owing to the demands of the Progressists, the ministerial crisis continues.

**Burchell Weakening.**  
WOODSTOCK, Ont., Oct. 4.—Burchell is said to be at last beginning to realize

## STATE POLITICS.

### MAYOR POND'S GRAND RECEPTION AT SAN BERNARDINO.

### An Enthusiastic Meeting Addressed by Pond, Coleman and Waters—Pond and Del Valle Will Astonish the Natives.

SAN BERNARDINO, Oct. 4.—[Special]—A reception was given to Mayor Pond today, on his arrival here from San Diego, such as is seldom given a man before the people for public office. The town was wild with enthusiasm, and tonight the opera house, where Pond, Coleman and Byron Waters appeared to discuss the issues of the campaign, was crowded to suffocation. Mayor Pond was lustily cheered throughout his speech, and the remarks of Messrs. Coleman and Waters were also applauded to the echo. From tonight's indications, it is apparent that if Col. Markham expects to get any votes in the home of Waterman he will have to set more potent agencies to work than his "hypnotic hand." Pond and Del Valle will poll a vote here in November that will astonish the natives.

### Markham at Sacramento.

SACRAMENTO, Oct. 4.—Col. H. H. Markham was given a reception tonight. The affair was the formal opening of the campaign by the Republicans here. The demonstration commenced with a torch light procession by the Markham brigade. Col. Markham was cheered along the line of march. The procession halted in front of the capital building where a speaker's platform had been erected. Dr. G. L. Simmons was chairman of the meeting, and introduced Col. Markham and H. V. Moorehouse, who made speeches.

### Wonderful Onyx Deposits.

SAN FRANCISCO, Oct. 4.—Professor Louis Falkman, chemist and mining expert, has just returned from a professional trip to the onyx mine of Yavapai county, Arizona. He says Onyx occurs in several localities in this state. Heretofore however, the main supply has come from Mexico, where a wealthy syndicate has controlled it. The Arizona deposit which I have just examined is certainly one of the greatest natural curiosities of the coast. The onyx lies in solid and continuous layers, whose thickness varies from ten to twenty feet. They appear to extend all through the rolling hills, which the property, 220 acres in extent, covers.

It is expected that a large market for Onyx will be created in the east.

Fleming Bros. of Pittsburg, wholesale manufacturers and dealers in proprietary medicines, have assigned. Liabilities, \$240,000. The firm claims over \$1,000,000 assets and says every penny will be paid.

## HERRINGTON'S TALE.

### The Bakersfield Tar and Feather Episode.

### The Victim Gives His Version of the Affair.

### A Desperate Struggle with the Vigilantes in His Cell.

### A Bullet Lodged in His Side—He Walks Fifteen Miles With No Garb but His Tarry Coat.

Associated Press Dispatches.

STOCKTON, Oct. 4.—James Herrington, the land lawyer who was tarred and feathered at Bakersfield, a few days ago, is in the city with his wife. His story is that shortly before he was tarred and feathered he received warning that there was a plot against him. He was arrested at Selma by a deputy sheriff, on a charge of perjury, for the purpose (so he asserts) of getting him back to Bakersfield and in the hands of his enemies. Within a half hour after being incarcerated in the Bakersfield jail, masked men came, entered his cell and tried to overpower him. He fought hard, and one of the men shot at him. The ball entered his side. The man dropped the pistol, and Herrington seized it, but another man stepped on his hand and he had to let go of the weapon. They then carried him out of town, tarred and feathered him and turned him loose. He traveled fifteen miles in the sparsely settled country, with his feet torn and bleeding, and finally saw an acquaintance coming along the road in a wagon. This man drove home with him, stopping on the way to get some socks to serve as clothing. Herrington says he has no idea who his assailants were. The bullet in his side was not extracted until tonight.

### THE FRESNO TRAGEDY.

### Williams' Body Taken to Stockton—Smith's Bad Record.

STOCKTON, Oct. 4.—The remains of Percy Williams, who was shot and killed at Fresno, Friday morning, were brought here this morning and taken to the residence of G. W. Trahem, the father of Mrs. Percy Williams. Many personal friends of the deceased called to see the body this afternoon, and at 4 o'clock there was a quiet ceremony performed, which consisted of the reading of the Episcopal burial service and prayers. The remains will be taken to

San Francisco tomorrow to be placed in the family vault in Laurel Hill cemetery.

The remains of the four-month-old son of Percy Williams, who died last February, were removed from a vault at Rural cemetery today, and will also be conveyed to the Laurel Hill vault tomorrow.

Williams' slayer is about twenty-five years old, of medium stature, dark complexion and good address. He is an all round sport and gambler, who deals faro, who follows fairs and when no other occupation is open, drives hacks. A few years ago he lived in Tulare, and about a year and a half ago had an altercation with John Meech, now a real estate dealer of Fresno, and was shot in the leg by Meech. Smith, however, after receiving the wound disarmed Meech and gave him a terrible beating. He was suspected of being implicated in the Pixley train robbery, but evidence sufficient to warrant his arrest could not be obtained. The suspicion arose from the fact that on the day following the robbery, Smith had a pocket full of gold, but he declared that it was insurance money on his house which had been destroyed by fire sometime before.

### Potatoes Nipped by Frost.

PETALUMA, Oct. 4.—Last Friday morning, frost, the first of the season, fell on low places between this city and the coast, killing many potato vines. There is some blight in the fields between here and the coast, and some farmers on that account estimate their loss at one-third the yield anticipated earlier in the season.

### An Open Switch.

### Fire in a Foundry.

PORTLAND, Ore., Oct. 4.—Fire in the casting room of the Union Iron Works this afternoon destroyed property valued at about \$47,000. The entire roof of the building was burned off, and a large number of patterns destroyed. It was partly covered by insurance.
