

FRENZIED SAVAGES.

The Crazy Sioux Still in War Paint.

Troops Arrive at Pine Ridge Agency.

The Expected Battle Has Not Taken Place as Yet.

The Presence of the Soldiers Has a Quiet- ing Effect but the Ghost Dance Is Kept Up.

Associated Press Dispatches.

CHICAGO, Nov. 20.—General Miles this evening received a telegram from Rushville, informing him that General Brooke's command reached Pine Ridge at 7 a. m. Indians are coming in in large numbers from Rosebud. There is much excitement and the ghost dance continues.

General Miles also received a communication from an officer at a camp on Poplar river, Montana, dated November 17th, containing matter of interest with reference to the Messiah craze. The officer reports that all the Indians in that vicinity are affected by the prevailing craze, and even the more intelligent half-breeds believe in it. A number of young Indians recently procured Winchester rifles, where, the officers could not ascertain. There has been no excitement up to the yet, or any dances, but there is a deep and universal belief that there will be astonishing supernatural manifestations before very long. One of Sitting Bull's lieutenants (White Gut), with two other Sioux, have recently been up there preaching the new doctrine, denouncing schools and telling the Indians to procure arms and ammunition, and meet other Indians in the Black Hills country next spring.

They were ordered off the reservation, and went to the woody mountains north of the British line, to proselyte the remnants of the Ogallalas and Umpapapas. One of the loyal Indians told this officer that in case the Sioux should open hostilities many young warriors from that vicinity would likely go and join them. The Ogallalas and Umpapapas north of the British line are a bad lot, some of whom were in the Custer affair, and some of the older ones were concerned in the Minnesota massacre of 1862. The Gros Ventres Indians at Fort Belknap reservation are in a very turbulent state.

Raised from the Dead.

As an instance of the stories floating around, the officer tells of one occurring on the reservation, to the effect that several young warriors started from there to visit Sitting Bull and learn about the new Messiah. One of the party, Yellowhawk, said he had been commanded in a dream to kill himself as a test of faith, with the promise that he should be raised from the dead. He committed suicide accordingly, and the party went on without him. When they reached Standing Rock, they found Yellowhawk there alive and well, having been resurrected and taken to Standing Rock ahead of his companions. This is the story sent back by the travelers.

General Miles expressed great satisfaction this evening that General Brooke's troops reached the agency this morning before the Indians had inaugurated hostilities, and the further fact that the latter are not committing any violence. "Now," said he, "they have to attack us in our own position, or else break away from the reservation. The danger is now that the turbulent bucks may leave the reservation. The appearance of General Brooke's command, however, will have the effect of sustaining the authority of the government, and give protection to the loyal element among the Indians."

Buffalo Bill Stuffs a Reporter.

Buffalo Bill, who is in the city, told an Associated Press representative that General Miles has received information that a fight occurred this afternoon between General Brooke's troops and Indians, between Rushville and Pine Ridge. No particulars have been received, and the casualties are unknown. He expressed the opinion that General Miles would, "if let alone by the government," have settled the trouble expeditiously.

General Miles could not be seen to-night, either at his headquarters or hotel. It was stated that he had gone out in company with Colonel Corbin, his assistant adjutant general.

Later—General Miles was seen at midnight, and assured a reporter that he knew nothing whatever about a battle having occurred.

The Crazy Red Skins.

KANSAS CITY, Nov. 20.—A dispatch from Pine Ridge from James N. Finley, formerly of this city, now a post trader at Pine Ridge agency, was received here tonight. The dispatch mentions the arrival of the troops and continues as follows: "The Indians are actually crazy with religious fanaticism, and excitement at the ghost dances is of a most intense character. Add to their excitement their utter recklessness of consequences induced by blind fanaticism, and you may gain some idea of the situation. It is the general opinion among the troops that they will be ordered in a day or two to stop the Indians' ghost dances, then trouble will undoubtedly follow. Two or three of these dances are now in progress. A herder who has just reached here, reports that several hundred Indians have congregated secretly nine miles from this place. They are all heavily armed, and expecting the Rosebud Sioux to join them shortly."

Continued Ghost Dances.

PERRIE, S. D., Nov. 20.—Captain Norvil, special Indian agent stationed here, returned today from a trip up Red river, where he had gone on receipt of a report that the Indians, on account of the Messiah craze, were failing to attend the distribution of rations, and were killing cattle. He reports that he found the Indians much excited, and keeping up their famous ghost dances with a zest and perseverance that is alarming. He found Hump Rod, with

about 300 braves of the Two Kettle band, all painted up and acting in a very suspicious manner. Cowboys who arrived here tonight stated that the Indians killed a number of cattle, and are acting in a strange manner, and the famous Indian, Steps-the-Cripple, had told them they had better keep on their guard. Some of the chiefs told Norvil that several of the hostiles had urged them to go and join in the ghost dances, making threats if they did not enough force would be sent against them to kill them all. They claim to stand in great fear of the hostiles.

All Quiet at Rosebud.

FORT NIobrARA, Neb., via Valentine, Nov. 20.—The troops from Niobrara reached Rosebud agency early this morning, and found all quiet and peaceful. The Messiah craze has not been prevalent at the Rosebud agency, and most of those affected by it left several days ago for Pine Ridge to participate in the ghost dances. The presence of large numbers of Indians with a dozen wagons yesterday in Valentine, for the purpose of freightage agency goods to Rosebud, when they knew the troops were marching to the agency, was assuring to the people that little trouble was to be apprehended. It is also considered a good evidence that there will be no trouble at Pine Ridge, where, it is thought, most of the present row was caused by the new and inexperienced agent.

More Troops to March.

OMAHA, Neb., Nov. 20.—Orders have been received at Fort Omaha to have the four remaining companies of the Second infantry ready to go to the front at a moment's notice. The companies immediately began to pack up, and inside of two hours everything necessary in a winter campaign was ready and has been placed on board the cars. These companies, as far as at least as the commanders are concerned, comprise some of the oldest Indian fighters in this section of the country.

Brooke and his battalion reached Pine Ridge agency early this morning. Two troops of cavalry that have been patrolling the north confines of the reservation all summer will join the command tomorrow. The Pine Ridge Indians are greatly excited, and continue dancing. General Brooke is informed that bands of Indians are en route from Rosebud agency to join those at Pine Ridge.

BEAT HIS RECORD.

STAMBOUL REDUCES HIS RECORD TO 2:11 1/4.

The Great Stallion Surprises Some of the Devotees of the Turf—Betters Was Against Him, 5 to 1.

STOCKTON, Nov. 20.—Stamboul trotted against his record today on the fastest track in the state, and made a mile without a skip in 2:11 1/4, beating the stallion's record made at Napa by one-quarter of a second. Several watches, including Goldsmith's, made the time 2:10 3/4, but the three official time-keepers agreed on 2:11 1/4. Stamboul came on the track at 2 o'clock, and seemed to be in his best form. Johnny Goldsmith, the driver, was confident of lowering his record, but the spectators beat against him. Pools sold 5 to 1 against breaking the record. Harry Whiting was selected as a guide and runner, and after a little scoring, Stamboul got away on a good start. The first quarter was made in 32 seconds, and a fast gait carried the horse to the half in 1:03 3/4; turning into the home stretch the great trotter seemed to slacken up, until he led out on the finish and came home with the driver's whip swishing in the air, and not touching the horse, going under the wire in 2:11 1/4. When the time was announced, the spectators cheered for the horse and the driver. Stamboul will trot here again on Saturday to beat his time made today.

NEW YORK, Nov. 20.—A representative crowd attended the sale of horses owned by Ex-Congressman Scott of Pennsylvania, this forenoon in this city. The bidding star of the sale was Bolero, the crack 2-year-old of the year, by imported Rayon D'Or, out of All Hands Around, knocked down to Phillip Dwyer for \$35,000. The Concord's Trial Trip.

NEW YORK, Nov. 20.—The cruiser Concord on her trial trip made eighteen knots per hour, against a strong tidal current. She proved to be the fastest gun boat yet built for the navy, but despite her splendid speed, the Concord failed to develop the requisite 3400-horse power. The failure is due directly to trouble in the second hour of the test, with the after feed pump, and the leaking of the after boiler. Before the trial ended there were from two to three inches of water on the floor of the fire room. A rupture had occurred in the nipple of the side pipe leading to the after air pump. It is notable that notwithstanding this trouble, she developed nearly 3200-horse power. The test will probably not be accepted as official.

Gas and Hot Water.

SONOMA, Cal., Nov. 20.—A natural gas and a hot water well has been discovered two miles north of this city. The flow of gas measures 9000 feet every twenty-four hours. The well has now been bored to a depth of thirty-six feet, and the water is 110 degrees.

Associated Press Dispatches.

SAN FRANCISCO, Nov. 20.—Luther L. Ewing, who represented one of the districts of this city in the assembly for the past four years, was arrested today on two charges of misdemeanor or embezzlement. Ewing has been employed by the Market-street Railway company for the past sixteen years, and was a trusted employee. He has been employed as collector, and it was his duty to collect the money deposited as fares in the horse cars, and to take the money from the conductors. He is charged with appropriating money for his own use. He was caught in the act and confessed his guilt. It is not known how much he has stolen, but the company thinks it will amount to \$6000.

THE SKIPPER SKIPPED.

A Sea Captain Frees Himself from the Law's Meshes at San Diego.

SAN DIEGO, Nov. 20.—Captain Bartells, a seaman who assaulted a witness against him during the session of Justice Sweeney's court, a few days ago, and was sentenced to fifty days imprisonment for contempt of court by the justice, in lieu of the payment of a fine, was liberated yesterday on a writ of habeas corpus. Superior Judge Pierce holding that a justice's court has no power to enforce its orders. Bartells was hardly across the threshold of the courtroom, however, when he was re-arrested for assault. He is also wanted at Tillamook for embezzling \$500. He appeared in the police court this morning, and his trial was set for December 11th, with bail fixed at \$100. As soon as he left the courtroom, he repaired to his vessel, the Rowana, and left for parts unknown. It is surmised that he has gone to Guatemala.

Perkins, of Alameda, read a paper on the subject of the national registration of plants, and a discussion on pruning, led by R. C. Kells, occupied the balance of the session. This evening was designated as ladies' night. Papers were read by Mrs. I. H. Raymond upon window gardening, and by Miss Lillian Howard upon wild flowers. The programme not being full, a paper by F. L. Clarke, upon forest culture, was also presented. A discussion upon floral matters followed, and concluded the evening session.

The delegates were given a banquet at the St. James hotel tonight by the ladies of the Santa Clara county alliance.

MYSTERIES OF PARIS.

Much Speculation About the Murder of Selverskoff.

PARIS, Nov. 20.—At the request of the Russian embassy an autopsy will be held on the body of General Selverskoff. The government is acting energetically against the nihilists in Paris. Le Matin says the police believe the killing was an act of private vengeance. Podlesky, the alleged murderer, was the lover of a girl who had been enticed by a woman, at the instance of Selverskoff, into a house of ill-fame. This, it is claimed, was the motive for the crime. A liaison existed between the woman who induced the girl to visit the house and Selverskoff.

The nihilists here affirm that the general was director of Russian police in

France, and played an important part in the recent arrests of nihilists in Paris. A newspaper recalls the fact that a servant of Selverskoff, named Muller, was assassinated in Paris in 1868; that the murderer was never found. Since then the general had received a number of letters threatening him with death.

Eclair says the Nihilists' committee decided that if Sophia Günsberg, arrested at St. Petersburg for having bombed, was sentenced to death, Selverskoff should be killed. The woman was sentenced to be hanged Monday. The shooting of the general was ordered the day after.

A person resembling Podlesky crossed the Belgian frontier Tuesday night.

KOCH DECORATED.

Emperor William Bestows upon Him an Emblem of Merit.

BERLIN, Nov. 20.—Emperor William has bestowed the grand cross of the order of the Golden Eagle upon Prof. Koch.

Three patients treated by Koch's method are reported dead. They were all in a critical condition before they received the injections.

The Frankfort Courier says of Dr. Koch's remedy: By the injection of the lymph the tuberculosis germ is killed. At the same time the injected particles retain sufficient strength to detach and expel the dead germs, together with the dead tissue. A reparative process ensues, and healing follows.

Big Tree Lands.

WASHINGTON, Nov. 20.—Special Agent Caldwell, located at the Visalia land office, has filed a report describing the sections in California where the mammoth trees are found. The Kaweah Co-operative Colony company, the agent says, is making squatter claims on a section of country covered by a large and perfect body of trees, and have located a saw mill there. The agent says it will be an irreparable loss if private individuals are permitted to destroy these fine forests.

MERCED, Cal., Nov. 20.—Baron Von Doensburg arrived this morning with party of Hollanders, who are booked for the Rotterdam colony. They left Holland on October 25th, and came via New Orleans. They will settle on lands of the Crocker-Huffman company.

PARNELL AT THE HELM.

HE WILL CONTINUE TO STEER THE HOME RULE CRAFT.

So Long as His Colleagues and the Irish People Stand by Him He Will Not Desert His Post.

LONDON, Nov. 20.—Parnell has sent to several of his colleagues a communication to the effect that as long as he is supported by his colleagues and the Irish people, he will remain at the helm in politics. He says he has never sought either office or reward of any kind from any English party, and he does not seek their assistance now. The Irish people, not English politicians, must decide the question of the leadership of the Nationalist party. At the present critical juncture he would be false to his duty to Ireland if he should desert his position because of private matters, with which politics has no concern. When his mission is accomplished, and justice has been won for Ireland after her long struggle against overwhelming odds, the people may choose whom they will to conduct their local affairs.

DUBLIN, Nov. 20.—The statement is made in Nationalist circles here that Parnell will resign his seat in parliament at the end of the session and offer himself for re-election.

At a great National meeting today the lord mayor made the opening address. He said the only crime Ireland would take notice of, was one Parnell was incapable of committing, namely treason to his command.

Justin McCarthy, in moving a vote of confidence in Parnell, said he did not ignore the serious nature of the question, but was sure it would not cost them a single friend.

Timothy Healy in seconding McCarthy's motion, said for Irishmen, Parnell was less a man than an institution. McCarthy's resolution carried amid great enthusiasm.

LONDON, Nov. 20.—Gladstone telegraphs that it is not true that he has conveyed an intimation to Parnell as to the course he should pursue.

Mysterious Shooting.

SAN FRANCISCO, Nov. 20.—John Gardine, a stone mason, was shot four times and dangerously wounded, on the county road, a few miles north of Berkeley, this afternoon. According to his story he was suddenly attacked by a man, who stepped from behind a clump of bushes, as he was walking along the road with an Italian laborer. The man attacked him first with a hammer, and when this was taken away from him, he shot Gardine and escaped.

Immense Forest Fires.

SANTA CRUZ, Nov. 20.—Two immense forest fires are raging in the woods north of this city, one at Cave gulch four miles off, and the other near Bonny Doon, a little further. Many men are out fighting the fires, but cannot get them under control. Large quantities of wood are being destroyed. The northern sky is overcast with heavy smoke, much of which is blown to this city, and the smell of burning green willows, redwoods and pines is very perceptible.

THE COLUMBIAN FAIR.

Better Feeling at Length Established.

Rival Authorities Coming to an Understanding.

The Vexed Question of Building Sites Finally Settled.

Mrs. Potter Palmer Elected President of the Ladies' Board of Managers. Other Proceedings.

Associated Press Dispatches.

CHICAGO, Nov. 20.—The board of lady managers of the world's fair this morning reassembled and elected Mrs. Potter Palmer as president, Mrs. General John A. Logan having declined the nomination in favor of Mrs. Palmer.

When the national commission resumed its session this morning, the trouble between the executive and foreign committees was settled, by the adoption of a resolution setting forth that no disrespect to the foreign committee was intended, but simply an intimation as to the state of the funds available, that strict economy was necessary in all the committees.

The auditing committee reported the expense of the commission to date to be \$51,000.

The report of the committee on buildings and grounds was then taken up. This is one of the bombs which was expected to explode with great violence, as it embraced what proportion of the fair should be placed on the lake front. It recommended that the fine arts and decorative art buildings, music hall, electrical display, water palace and steel tower, with other germane exhibits, be placed on the lake front, with the main department buildings, government and state exhibits in Jackson park, and the overflow in the Midway Plaisance and Washington park.

Commissioner De Young of California, who introduced a resolution several days ago rescinding the acceptance of the site, announced that he had not called it up because he and all the others were now satisfied with the manner in which the buildings had been allotted. With all the buildings grouped together he did not care which of the side affairs were put on the lake front. He moved to strike out the words "decorative art buildings," and leave it sim-

ply the art buildings, that the meaning might be clear.

Dr. Mercer, of Wyoming, strongly objected to anything but the art gallery going on the Lake front. He also protested against the double site submitted by thirteen associations.

Sewell, of Maryland, Jones, of Wisconsin, and other commissioners, including President Palmer, spoke in favor of the report.

De Young's and Mercer's amendments were voted down, and the report of the committee adopted, finally settling the vexatious site question.

A committee of eighteen, representing the live stock interests of America, appointed for the purpose of securing a fair representation at the world's fair, met here today. It decided that the awards on all live stock exhibits be uniform, consisting of first, second, third and fourth cash prizes, a reserved number prize and a commended prize. The commissioners will be asked to provide stalls for horses 12 by 12, for cattle, 10 by 10 and for hogs 8 by 12. Two hundred acres of ground is to be asked for the live stock exhibit. The amount to be given in prizes will be settled later.

Commissioner St. Clair opened up the serious question of the relative jurisdiction of the national commission and the local directory. He offered a resolution accusing the directory of delay in presenting plans and failure to recognize properly the director-general. The resolution asked the chairman of the standing committees to report on the situation. A discussion arose over the preamble which criticised the action of the local directorate. It was pointed out in the discussion that an appeal as to the clash between the two bodies could only be taken to congress, which would mean fatal delay to the fair. A number of amendments were offered to the resolution, and finally the whole matter of jurisdiction was referred to a committee of six—St. Clair, DeYoung, Lindsay, Massey, Walker and Martindale. The committee will report a plan of procedure as soon as possible.

After the adjournment of the commission Vice-President Bryan, of the local directory, expressed confidence that the committee would agree upon a settlement soon.

Several ladies were put in nomination for secretary at the afternoon session; Miss Cousins, of Tennessee, Miss Clark, of Iowa, Miss Russell, of Nevada, Mrs. Allen, of Oregon, and Miss Phoebe Cousins, of St. Louis. The fourth ballot settled the contest in favor of Miss Cousins.
