

DAILY HERALD. SEVEN DAYS A WEEK. PUBLISHED BY JAMES J. AYERS & LYNN.

Office of Publication, 223-225 West Second St. Telephone 156.

Much will be condoned to the present legislature if it will only abolish the useless commissions.

Both General Mathews and Captain Marion are doing yeoman's service in the work of defeating county division.

As we write, the barometer is falling, the sky is overcast and all the indications point to rain.

That truck gardening pays in Los Angeles county is shown by the fact that a single Chinaman last year cleared \$10,000 in potatoes and cabbage.

Mr. H. JAY HANCHETTE was summoned to Sacramento yesterday to supply needed statistics as to our school status.

It is pleasant to know that there are some people in Los Angeles who believe in work.

The city council yesterday adopted a series of resolutions against any further division of the county.

The board of supervisors having already adopted such action, there can be little doubt of where the sentiment of the bulk of our people lies in this matter.

SENATIONALISM has gone to such extremes that it is almost impossible to get a plain, matter-of-fact statement about anything.

The severe weather in Europe has played havoc, not only with the olive but with the orange crop of Italy and Spain.

THE HERALD'S proposition is that of St. Paul, which was substantially to try all things and to hold fast to that which was found to be good.

THE proposed gerrymander of California by the Voorheis bill is doubtless a scheme carefully concocted by the Republican bosses.

GOOD authorities have estimated that in the efforts of a portion of Colusa county to detach itself from that Democratic stronghold and erect itself into Glenn county.

EVER since 1884 we have not only had moist years, but in many cases years of flood.

THE proposed gerrymander of California by the Voorheis bill is doubtless a scheme carefully concocted by the Republican bosses.

GOOD authorities have estimated that in the efforts of a portion of Colusa county to detach itself from that Democratic stronghold and erect itself into Glenn county.

GOOD authorities have estimated that in the efforts of a portion of Colusa county to detach itself from that Democratic stronghold and erect itself into Glenn county.

highly probable, however, that Senator Stanford has too much respect for the sentiment of the people of California to commit himself to any such revolutionary measure.

THE CURRENT ORANGE CROP—CONSIDERATIONS FOR AN ESTEEMED CONTEMPORARY.

Our esteemed contemporary, the Times, in its issue of yesterday, had some comments to make on the HERALD'S remarks about the orange situation.

To be a little franker than we had desired to be, the Porter Brothers of Chicago have started out to corral the orange crop this season.

The Times says that the season is far advanced, and that contracts have not yet been closed.

We assure our esteemed contemporary, the Times, that the HERALD is not only not hostile to but exceedingly friendly to the organization of an Orange Growers' association.

It is of course very easy to say that the orange growers are thronging forward tumultuously to join the new movement.

THE HERALD'S proposition is that of St. Paul, which was substantially to try all things and to hold fast to that which was found to be good.

THE proposed gerrymander of California by the Voorheis bill is doubtless a scheme carefully concocted by the Republican bosses.

AMONG THE RAILROADS.

THE SANTA FE AND ITS SEPARATED BRANCH.

Will President Manvel Authorize It?—A Plain From San Diego—The Union Pacific Economic—Notes.

The Santa Fe officials seem to be well disposed towards the proposition made by the Pomona people to build a road from North Pomona, through Pomona, to Chino, but it is not probable that anything will be done in the matter until President Manvel reaches here.

A San Diego Plain. The San Diego papers keep up a pretty constant kick against the management of the Santa Fe, which they accuse of trying to aid Los Angeles at the expense of the city of Bayonne.

The order has been issued to abolish the general offices of that road in Portland, and the freight agent will be forth to have the east-bound train evade Los Angeles.

Union Pacific Economics. The Union Pacific is cutting down expenses all along its line, and in consequence the princely-salaried young men in the office in this city are in a more or less uneasy condition.

A Raymond excursion arrived last evening. President Manvel is due here some time this week.

It is about settled that the Chino narrow gauge road will be extended to Anaheim, Santa Ana and Newport Landing.

The westbound Southern Pacific overland express was five hours late last evening, owing to a delay at El Paso waiting for the New Orleans train.

The men interested in the Belt Electric road of this city are anxiously awaiting the result of the legislators' action on the legality of their franchise.

A BIG UNDERTAKING.

Mr. John Whyte's Chino Brickyard in Active Operation. A reporter of the Times visited the Chino brickyard Thursday morning, in company with Mr. John Whyte, the contractor for the two and a half million brick for the sugar factory.

To get anything like an intelligent idea of the contract Mr. Whyte has undertaken, one must needs visit the yard and see the work of preparation which has engaged his attention since Christmas.
