The Rose String in Good Condition—The Blood Horse Meeting—Facts About Baldwin's Latest Purchase.

Sporting matters are at a standstill at present. Next month and thereafter for six months there will be plenty of sporting news to chronicle. The eastern string of the Rose stable will leave for Brooklyn in about ten days. Billy Appleby worked out most of his string on Saturday, and at noon on the same day told a HERALD writer that he was ready to ship at a day's notice. Rico and Odette ran a slashing good mile, the former just getting the verdict from the Shiloh mare. Fairy is apparently as sound as a dollar, notwithstanding that she showed up so lame when first taken up this season. She worked out a mile on Saturday in very creditable time. California will be well represented in the 3-year-old stakes for fillies by Fairy and Esperanza.

Billy Gardner will start for San Francisco with the Rose western string about April 6th. The Rose entries at the coming Blood Horse meeting at San Francisco, are Conrad, Peri, Blanca, Bon Voyage, Leola, Barbara and Mulatto. After the Blood Horse meeting, this string will leave for Chicago. Conrad pulled up lame the other day. It is thought to be only temporary; nevertheless, it will militate against his chances in the Pacific Derby to be run next month. Reports reach here that Rinfax is in grand form, and promises to be one of the great three-year-olds of the year.

The Blood Horse races have filled splendidly. Southern California is well represented. In addition to the Rose horses, the following are entered: Zingerella, Hochhooking, Jr., Dan Murphy, John Treat, Candelilla and Natchez. The latter horse is entered in the Burns handicap, one and three-quarters miles.

A table of the number of stakes won in 1890 by representatives of the various states is now going the rounds. Of the 371 stakes run in America, Kentucky bred horses won 195, California is second with 71, and Pennsylvania third with 27. The article, which was first given to the world in a Kentucky paper, winds up as follows:

"The showing made in Kentucky last year is as remarkable as the increase in the number of these valuable races, and proves conclusively that her soil for the breeding and rearing of the high grade racer knows no rival."

The table is incomplete. The number of starts of the California and Kentucky horses should be given. It is safe to assert that Kentucky started ten to one from the golden state. Take an average and one will find that Kentucky would have to play second fiddle to California.

Many improvements have been made at Wiesburn, the new breeding farm recently founded by Mr. K. D. Wise, of Los Angeles. Wiesburn is situated about nine miles from Los Angeles on the Redondo Beach railroad, and I am informed that \$25,000 has already been expended in stables and improvements. The doctor thinks that he has the finest track located on any breeding farm in California. It is a three-quarter mile track, and is covered with four inches of a sandy clay. "I will breed my best mares to Glendine," remarked Dr. Wise last evening. "I am confident that, bar accidents, Mr. Connolly will give the son of Judge Salisbury a mark of 2:18 or better this year. Last year, as a 4-year-old, Glendine won a race handsomely in 2:23 1/2. Mr. Murphy, who visited the track last week with Mr. Pulsifer, pronounced him the finest stallion he had yet seen in California."

The brood mares now domiciled at Wiesburn are Tempest by Sultan; Semi Tropic, 2:24, by Sultan; Kitty Benton by Mambrino King; Tura by Webster, a son of Hambletonian 10; Anna Nutwood by Nutwood; Rajah; Flowermont by Fieldmont, a son of Belmont; Nevada by Simmons, dam by Smuggler; Adelaide McGregor by Bonnie McGregor, dam by Milwaukee; Bonnie June by Simmons; Fareda by Gossiper and Nellie Johnson by Mambrino. All the above are standard bred. The stallions at Wiesburn are Glendine, Rajah and Emin Bey. The latter is a three-year-old by Guy Wilkes out of Tempest by Sultan. He gives every promise of being very speedy. Dr. Wise is well informed on all trotting matters, and will undoubtedly make a success of his new venture.

Regarding the purchase of the Australian stallion for Santa Anita, the Breeder and Sportsman says editorially: "The purchase of that handsome old thoroughbred sire, The Hook, by Mr. E. J. Baldwin, for the Santa Anita rancho, is another link in the progress of Los Angeles county as a breeding section of this state. The quality of the Santa Anita mares has always been of the type of Vouve Cluquot wine, and Cinto de Orion cigars. But the Santa Anita mares are growing old and the most famous one, Maggie Emerson, (dam of Sinaloa, Bonito and that brilliant cup horse Lucky B.) is dead. Mr. Baldwin is a firm believer in greatness through female lines and, in purchasing this old Australian horse, he has done so with the sole desire of getting new mares to breed to that marvelous performer, the Emperor of Norfolk. If The Hook's male progeny perform well, then good enough. But it is with the idea of getting fillies possessing the blood of Juliet, the greatest brood mare ever taken to Australia from England, when you come to regard her as a founder of families. She is first dam of Chrysolite by Stockwell, imported in 1870; Sylvia and Raspicker by Fisherman. Her male foals were Charon by Ferryman and The Friar by Maribyrnong; Benvolio by Peter Wilkins; and The Hook by Fish-

hook, own brother to Angler. Ferryman was own brother to Maribyrnong, Benvolio won the Sydney Derby in great style and in fast time. Second dam of The Gem by Maribyrnong; Lapidist and Firestick by Fireworks; and Robinson Crusoe, Henchman, Onyx and Friday by Angler. All these are through Chrysolite. Through Raspicker she was not quite so famous, but she produced Auk by the Marquis and Scraps by Lord of the Hills. Sylvia was her greatest daughter, however, producing the capital racehorse and great sire, Goldsborough, who won the Hawkesbury handicap, the A J C St. Leger, the great Metropolitan (two miles in 3:32 1/2 with 128 pounds at 4 years) and several minor events. Sylvia also produced Martini Henry, the great double winner of 1883, who won the V. E. C. Derby on Saturday, and on the following Tuesday carried off the Melbourne cup, two miles in 3:30 1/2. Sylvia also produced Robin Hood, own brother to Goldsborough, who won the V. E. C. Derby and A. J. C. St. Leger, and was drowned on the voyage from Sydney to Melbourne. Third dam, through Onyx, of Nordenfelt, who won both Derbies of 1885; of Enflade, winner of some great races in New Zealand, and of Beryl, one of the select matrons of the St. Alban's stud.

"The Hook is 19 years old, but a splendidly preserved horse and in perfect health. Would it not be strange if, in the years to come, the blood of old Juliet should become as victorious in California as it has been on the soil of Randwick or Flemington? Well, if he fails it will be his own fault, for he is to be mated with all the best young mares at Santa Anita except Miss Ford, who has been mated with the Emperor of Norfolk for a double line of the ever-victorious Bonnie Scotland blood."

ILLINOIS ASSOCIATION.

The Robbie Burns' Entertainment Tuesday Evening.

At the Illinois society in Illinois hall Tuesday evening the programme, which has been prepared by Robbie Burns and some of his friends, will comprise a series of musical, literary, humorous and dramatic attractions. Jessie Miller will give a piano solo and Robbie Burns in costume will dance a sailor's hornpipe; Sam Osborn will sing the comic song the Laird O' Cockpin, and the Baldwin children will sing Marguerite, and then Robbie Burns will, in costume, dance the Highland Fling, accompanied by the bag pipes squeezed by Gregor McDonald's arm. Miss Hattie Elliott and Miss Hazel Baldwin will recite, as will also the imitable Tom Barnes; the three Schonenman children will give an instrumental performance, and a banjo and guitar trio will conclude the performance, which will be followed by a dance.

Protecting Tracks from Drifting Snow.

The Delaware and Hudson railroad has adopted a novel means of preventing the snow from drifting back on the tracks after it has once been removed. In those places where it is most likely to drift back to the rails banks or walls of snow, some twenty feet to one side of the road, are erected. The blowing snow comes to these walls, is arrested in its flight and either stays there or just drops to the other side of the wall. The snow wall affords much protection from drifting. The idea is to form a wall of snow which has melted enough to cake.—New York Telegram.

Money in Ginseng Root.

An uptown man in ten weeks has paid \$3,896 for ginseng root taken from the Catskill mountains. This root is used principally by Chinamen, who consider it a valuable medicine capable of curing all diseases. It is exported in large quantities. The root hereabouts is dug up by boys, who in this way make considerable money during a season. The merchant referred to is extending this business, and next year expects to secure at least \$5,000 worth of the root.—Kingston Freeman.

He Sees.

A Brooklynite worth \$70,000 has for several years been borrowing his car fare from an acquaintance and never paying a cent. The other day he was sued for \$7, and the creditor brought his book into court with the date of every nickel he had loaned. He said his limit, even to a friend, was \$25.—Detroit Free Press

A Good Place for a Fight.

"Dog fights were very popular in that town. One particularly lively party of sports had great luck in evading the police. They hunted high and low for them, but never found them. They don't know to this day where the fights were held."

"I suppose you know. Where were they held—if there's no harm in telling."

"Well, they were held in the cellar of the barn of the chief of police."—Lewiston Journal.

How to Succeed.

This is the great problem of life which few satisfactorily solve. Some fail because of poor health, others want of luck, but the majority fail from deficient grit—want of nerve. They are nervous, irresolute, changeable, easily get the blues and "let the spirits down to keep the spirits up," thus wasting money, time, opportunity and nerve force. There is nothing like the Restorative Nervine, discovered by the great specialist, Dr. Miles, to cure all nervous diseases, as headache, the blues, nervous prostration, sleepless nights, St. Vitus dance, fits, and hysteria. Trial bottles and fine book of testimonials free at all druggists.

A MISAPPREHENSION.

A Controversy About the Grand Trunk Subsidy Offers.

MONTREAL, March 22.—Mr. Sergeant, general manager of the Grand Trunk road, was today seen in reference to an Ottawa dispatch published in a Toronto newspaper, March 20th, upon the subject of the alleged demand of the Grand Trunk for \$2,000,000, prior to the late elections. Sergeant remarked that Sir Charles Tupper was under a misapprehension as to the facts of the case. Sir Charles said: "The proof of my statement may be found in a memorandum which was prepared by Hector Cameron, who was present at the interview, for the information of Sir John Macdonald. Before sending it to the premier, Cameron submitted it to Sergeant for his approval. Here, then, is proof positive of the falsity of Sir Henry Tyler's statement that a promise of a subsidy was given, if the Grand Trunk would only support the government."

Sergeant had not seen the text of Sir Henry Tyler's statement, but as regards the allegation that Cameron submitted a memorandum of what occurred at the interview in question for his approval, no such statement was submitted. The interview took place February 25th, and a copy of the memorandum was read to Sergeant March 14th, and the latter knew nothing of its contents until that date.

Sir Charles Tupper further says: "In my interview with Sergeant, general manager of the Grand Trunk, so far from promising a subsidy, I positively refused to promise anything, and we actually resisted the pressure of our opponents for railway subsidies, and refused the request of the Grand Trunk for \$2,000,000 for their Edmonton and Salisbury extension."

Sergeant declared that the Grand Trunk did not ask for the promise of any grant, and therefore could not have been refused. The company made no request for \$2,000,000, or for any sum. Sergeant added that he had preserved full notes of what took place at the conference February 25th, but thought it only necessary to correct the inaccuracies.

MORGAN AND THE CATHOLICS.

The Indian Commissioner Says He Has Not Been Asked to Resign.

PHILADELPHIA, March 22.—Indian Commissioner Morgan was interviewed today in relation to the rumor that the president had demanded his resignation on account of his discrimination against Roman Catholic Indian teachers. General Morgan said he had not heard from the president on the subject, although he did not leave Washington until Saturday. "The w hole matter," said he, "arises from the failure of a Catholic Indian agent, named Jennings, to secure reappointment at Green Bay, Wisconsin, about a year ago."

CREATED A PANIC.

The Bad Effect of Newspaper Men Going to Church.

SALT LAKE, Utah, March 22.—Almost a panic happened tonight in St. Paul's Episcopal church. Rector Lane was to preach to the newspaper men, and the house was packed by the fraternity and their friends. They leaped from a window. One was killed and the other seriously injured. The institution narrowly escaped another such a disaster as occurred last spring, when ninety lives were lost.

AN UNLUCKY INSTITUTION.

Another Disaster at the Longue Pointe Insane Asylum.

MONTREAL, March 22.—In a fire this afternoon, at Longue Pointe asylum, four men were cut off from all escape in the fourth story. They leaped from a window. One was killed and the other seriously injured. The institution narrowly escaped another such a disaster as occurred last spring, when ninety lives were lost.

The Priests and Parnell.

DUBLIN, March 22.—The priests of Drogheda denounced from the altar this morning the Parnell meeting announced to be held in town this afternoon. The result was a practical boycott of the meeting, only imported contingents being present. Parnell repeated his usual statements. Meetings were held this afternoon in several places in North Sligo. At all these places Parnell was denounced from the pulpit in the morning.

A Loan for China.

PARIS, March 22.—The Banque de Paris is negotiating a loan for China.

TEMESCAL TIN.

The Furnaces Burn California Oil and Turn Out Perfect Metal.

The Temescal tin mine furnace was started on Friday, and turns out ingots of 100 pounds each from the tin ore. The furnace is a reverberatory one, and uses coal oil as a fuel. The oil burned well, and as far as can be judged from the shortness of time it has been in use, will answer all the purposes of coal, and will prove to be greatly cheaper. An expert from England, who is now at the mines, pronounces the tin to be of the very best quality. The mines are now called Cajalco in place of Temescal.

A Murdered Man's Body.

The overland from El Paso, which arrived here at 1 o'clock this morning, brought the body of Solomon Steve, the young man who was killed at Strauss. Steve was the agent at the town, and was murdered on account of his intimacy with another man's wife. The body is to be sent to Tulare for burial.

Steady Progress

Has characterized Hood's Sarsaparilla ever since it was placed before the public. Wherever introduced, its sales have grown from year to year, until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The success of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably certain to be of benefit.

Positive Statements.

"Since Hood's Sarsaparilla has been in my hands for sale I have had frequent and unreserved testimonials in its favor. Although carrying this preparation for less than one year, my sales have been greater than of any similar preparation, and the testimonials in its favor are of once positive and personally noticeable." A. Waiser, Heidelberg, Cal.

Sells on Its Merits.

"My boys say, 'Papa, why don't you buy more of Hood's Sarsaparilla at a time; we are always short.' It sells on its own merits." F. B. B. Portland, Oregon; the oldest druggist in Oregon. N. B. Be sure to get only

LIVE STOCK!

Auction Sale on Premises, HAMMEL & DENKER'S

Ranch Rodeo de los Aguas, Monday, March 23, 1891, 11 O'CLOCK A. M., Or immediately after Lunch, which will be spread for all the guests attending sale.

Owing to the fact that the undersigned are about to subdivide their ranch into 10-acre tracts, owing to its adaptability for fruit-growing and the raising of vegetables, it being in the most fertile belt line, and also in settling the estate of the late Henry Hammel, we will sell the following live stock:

The catalogue embraces as fine a lot of graded Holstein and Durham cows and heifers as can be seen on any ranch in the state. Fifty head of cows fresh, or will be in 10 to 15 days; 50 head of lovely heifers, gentle, and all large milkers.

Our horse stock is also exceptionally fine for orchard work, as they are low and very heavy set, weighing from 1000 to 1150 pounds; 50 head of this class; also by our Hambletonian horse, a lot of young brood mares, colts and fillies, roadsters, and family buggy horses; also two 16 foot headers, Buckeye mowing machines, threshing machines, and, in fact, all kinds of agricultural implements. A special invitation is extended to all to inspect the land and select their choice, as the land will positively be sold as soon as the stock is sold.

Direction to the ranch—Take the Temple street road, the Pioo street, or Sixth street, by Westlake park. Either will take parties to the ranch, which is situated between Santa Monica and Los Angeles. All information desired can be had at the ranch, or at the office of Hammel & Denker, 117 Requena st.

MEETINGS.

SOUTHERN CALIFORNIA COUNCIL, NO. 779, Royal Arcanum—Meets second and fourth Friday evenings of each month, at E. J. P. Hall, No. 118 1/2 S. Spring street; visit his brothers occasionally invited. S. E. LEVIE, Secretary, Box 1178.

What are you looking at?

You wouldn't like to enter into a contract to dispossess that dog! Neither would we. Dogs do not need to wear fashionable clothes to be fashionable. It would be perpetrating a poor joke to say that the suit of clothes in which this canine is attired has a sort of DOGGED look about it. In a good many respects human beings have a marked advantage over the four-footed tribes, but in one very important particular dogs have a trifle the best of it—they don't have to dress. Attire came with civilization; only the barbarian could venture forth unclothed. With advancing civilization came advances in dress. There is as much difference between what we wear and what was worn in the world's infancy, as there is between a canoe and an ocean steamer. People of the remoter ages dressed for protection only; the matter of appearance did not bother them much.

We have learned to go a little further, to cultivate our taste and to be choice in the selection of what we wear.

You must be choice, indeed, if your taste, no matter how highly it is cultivated, is not gratified by our GREAT LINE OF NEW SPRING CLOTHING.

We are showing the handsomest line of suits in Cutaway Frocks, Straight Front and Round Corner Sacks, made of the finest worsteds, cassimeres, chevots and tweeds.

To attempt to describe our STOCK OF PANTALOONS, BOYS' CLOTHING, NOBBY DOUBLE-BREADED REEFERS with gilt buttons, the choicest lines of FURNISHING GOODS and HATS, would fill up this entire paper.

Come around and see us, we'll make it interesting for you.
