FIVE CENTS.

NATIONAL AFFAIRS.

Efforts Made to Enforce the Bering Sea Entente.

A British Agent to Be Sent to the Seal Islands.

Poachers Slaughtering Seals While the Government Is Waiting.

Judges of the Private Land Claims Court Appointed—Minister Porter Not Recalled.

Associated Press Dispatches.

WASHINGTON, June 10.—The government is actively engaged in preparing to carry out the plan for a closed season in Bering sea this year. It is understood that the force of revenue cutters now in those waters is to be supplemented by one or more naval vessels at the earliest possible moment. The necessary orders had not been sent out from the navy department up to the close of business hours, today, and the detail officers will not discuss the future movements of the department, but there is reason to believe that the orders will not be long delayed. There are four vessels at Mare Island, California, ready for sea. The British men-of-war available for service in Alaskan waters are few in numbers. The larger part of the Pacific squadron was sent to Chile some months ago, and has not yet returned. The British government, it is known, wishes the agreement strictly observed.

A proposition was made by Minister Pannocote that authority be given the British government to station an agent on the seal islands to see that the North American commercial company does not kill more than the 7500 seals fixed in the agreement, but on this ground the request was promptly denied by the president, who felt that it was a reflection upon the good faith of this government that could not be permitted. For another reason, however, he saw fit to allow a British agent to visit the seal islands, and that was in order that he might see for himself and report to his government for its guidance in arbitration, the actual state of the seal fisheries. Meanwhile poachers are believed to be taking a large number of skins and killing the mother seals while they are at sea in search of food for their young.

IMPORTANT APPOINTMENTS.

The president this afternoon made the following appointments:

Leonard W. Colby, Nebraska, assistant attorney-general.

Joseph D. Reed, Iowa, chief justice of the court of private land claims.

Wilbur F. Stone, Colorado; Henry C. Sluss, Tennessee; Thomas C. Fuller, North Carolina, and William Murray, Kansas, associate justices of the court of private land claims.

Matthew M. J. Reynolds, Missouri, United States attorney for the court of private land claims.

Chief Justice Reed is a resident of Council Bluffs, Ia.; he was born in Ashland county, O., in 1835; served through the war as an officer in the Second Iowa light artillery; he was afterwards in the legislature and later a judge of the district and supreme court of the state; was elected to the fifty-first congress as a Republican, and since the close of that congress has practiced law.

Judge Murray, of Kansas, was formerly judge of the district court, and resides at Wichita. He is a Republican.

The Democratic members of the court are Col. Fuller, of Raleigh, N. C., one of the leading lawyers of the state, and Judge Stone, of Colorado, who was judge of the Colorado supreme court many years.

The United States attorney before the court is M. J. Reynolds, of St. Louis, president of the Young Men's Republican league.

AUSTRALIAN POSTAGE.

From private advices received at the postoffice department from the Universal Postal union congress, now holding sessions in Vienna, it is learned that the long-desired accession of the Australian colonies has been effected. This means a reduction of more than 50 per cent in rates of postage to those countries.

A DELEGATION OF TARHEELS.

A delegation of seventy persons, representing all the southern states, called upon President Harrison, today, and invited him to attend the exposition at Raleigh, N. C., in October and November next. The president said he would endeavor to arrange his matters so as to accept the invitation.

HARMONY TO RELIEVE BELKNAP.

An order was issued by the navy department today ordering Rear-Admiral Harmony to hoist the flag on the Lancaster on the 23d inst., and proceed to the Asiatic station and relieve Rear-Admiral Belknap.

PRODUCTION OF PETROLEUM.

A census office bulletin shows that petroleum is produced in eleven states. In 1889 the total production was 34,820,000 barrels, valued at \$26,554,000.

PORTER NOT RECALLED.

It is denied positively at the state department that Porter, minister to Italy, has been recalled.

THE CAUSE OF THE WAR.

A Southern Orator Lays the Responsibility on a Northern Faction.

FREDERICKSBURG, Va., June 10.—This town was profusely decorated today with bunting and confederate and national flags in honor of memorial day and the unveiling of a monument to the confederate dead.

Thousands of visitors were here from different parts of the union. At 3 o'clock the monument was unveiled with appropriate ceremonies in the presence of a host of people.

The orator of the day was General Bradley L. Johnston, who, in the course of his speech, said the idea is dimly

pressing itself upon the northern mind that the south tried to avoid war, and did not want war, but that it was brought on and continued for the purpose of keeping a faction in power and enabling the controllers of that faction to make a profit out of it.

REFRIGERATOR CARS.

Jay Gould Comes to the Rescue of the Southern Pacific Company.

SAN FRANCISCO, June 10.—Jay Gould has completed arrangements for the use of the Southern Pacific lines for his refrigerator cars. There has been complaint by fruit shippers of car shortage and of lack of proper cars for the movement of perishable fruit. To meet this requisite of the fruit trade, Jay Gould has sent out E. E. McCammon as Division freight agent and coast representative of the American Refrigerator Transit company. Cars will now be stationed at the different points where shippers require them, and will also be kept at the Southern Pacific yards in sufficient numbers to meet any demands.

Turf Topics.

In the fifth race at Morris Park on June 3d fifteen horses started in a maiden three-year-old race for six furlongs. A feature of the race was that, although there were only four California horses in the race, they finished first, second, third and fourth. The horsewresters Lyceum, Lizette, J. B. and Uno Grande. This is a remarkable showing for California, to say the least. This fact is published for the first time.

L. J. Rose's Gondolier started June 3d in a two-year-old race at Westchester, but failed to get a chalk mark.

COLUMBIAN FAIR NOTES.

A WINE ROOM MAY BE CONDUCTED BY CALIFORNIA.

A Building Site Selected by the California Commission—Maxwell's Appointment Still Hangs Fire—Another Protest.

CHICAGO, June 10.—California will be allowed to conduct a wine room and fruit stands in its state exhibit building. The California commission called on Chief of Construction Burnham yesterday to learn when a site could be granted California. Burnham said this could not be done for ten days, or until the landscape architects had platted off the grounds.

The commission today went to Jackson park and selected the ground they desire for an exhibit. It is situated just north and west of the Illinois state building, and comprises five acres.

The commission is determined that California shall begin building as soon as a site has been granted.

RESOLUTIONS AGAINST MAXWELL.

CINCINNATI, June 10.—The American Seed Trade association passed resolutions protesting against Maxwell as head of the horticultural department of the world's fair.

A TRI-STATE EXHIBIT.

CHATTANOOGA, Tenn., June 10.—At the tri-state convention today, a resolution was adopted favoring a united exhibition by Alabama, Georgia and Tennessee, at the Chicago world's fair, in '93, and a permanent organization was effected to carry out the plan.

PHILADELPHIA FRAUDS.

Additional Warrants Issued for Persons Connected with the Scandals.

PHILADELPHIA, June 10.—Mayor Stuart, Director of Public Safety Roney, City Solicitor Warwick and other city officials conferred tonight on the subject of the shortage in the city treasurer's office, and the looting of the Keystone National bank. The result of the conference was that additional warrants were issued for persons connected with these scandals. The officials are very reticent, and the names of the parties for whom the warrants were issued cannot be learned tonight.

Late this afternoon Edward W. McGill, assignee of John Bardeley, entered five suits against the alleged debtors of Bardeley, to recover the indebtedness of the defendants to the assigned estate. The first is against the Keystone bank to recover \$945,000, the amount of due bills held. The other four suits are to recover upon four promissory notes aggregating \$2,273.

Phirpan Young, president of the Millcracker-Cracker company, and one of the directors of the broken Spring Garden National bank, was arraigned today, charged with conspiracy with Francis W. Kennedy, president of the bank, to defraud the cracker company. Young waived hearing and was bound over in \$40,000.

THE RUNNING TURF.

California Two-Year-Olds Win at Westchester.

MORRIS PARK, N. Y., June 10.—Track fast.

Five furlongs—Dr. Wilcox won, Arnold second, McCormick third; time, 1:00 1/2.

Five and one-sixteenth—Major Domo won, Masterlode second, Lillian Walcott third; time, 1:47 1/2.

Seven furlongs—Fon won, Loantaka second, Ambulance third; time, 1:26 1/2.

One mile and a quarter—Foxford won, Montana Second, Laurestan third; time, 2:08 1/2.

One mile—Admiral won, Dr. Hasbrouck second, Ballyhoo third; time, 1:41 1/2.

Six furlongs—Merry Monarch won, Lester second, Temple third; time, 1:15 1/2.

AN ADDRESS TO HOME RULERS.

Parnell Arraigned and an Appeal Made for Funds.

NEW YORK, June 10.—Dr. Thomas Addis Emmet, president of the National Federation of America, has issued an address to the friends of home rule for Ireland. It severely arraigns Parnell and says the future guardianship of Irish affairs must be trusted only to a majority of those elected to represent Ireland in the British parliament.

Money is needed at once and an appeal is made to the friends of home rule. The National Federation is similar to the one existing in Ireland. Its funds will be controlled by a central board of trustees, and Eugene Kelly, of New York, is treasurer.

POLITICAL PARTIES.

Gatherings of Some of the Off-Color Clans.

Stanford a Prime Favorite for the Presidency.

Resolutions Adopted by the Wisconsin Farmers' Alliance.

Ohio Cold Waterites Fishing for the Farmer Vote—Iowa Prohibitionists in War Paint.

Associated Press Dispatches.

ST. LOUIS, Mo., June 10.—The advance guard of the executive committee of the People's party which convenes here Saturday, to select the place of meeting for the national convention, has arrived. E. L. Sexton, one of the secretaries of the Cincinnati convention, stated to a reporter that many advocate the placing of state tickets in the field in a number of states, while others think that such a course would be unwise and have a tendency to divide the party's strength. As to the candidates that would be placed before the national convention, Sexton said a variety of names had been suggested, but so far Senator Stanford of California seems to be the favorite.

WISCONSIN FARMERS' ALLIANCE.

LACROSSE, Wis., June 10.—At today's session of the State Farmers' Alliance convention a lengthy set of resolutions were unanimously adopted. They favor a system of taxation that will not favor one class at the expense of another; free coinage silver; the abolition of national banks and the substitution of legal tender currency issued by the government in sufficient volume to do the business of the country; that the government should loan money to citizens with certain prudent restrictions on real estate security, at interest not to exceed two per cent; recommend an uncompromising effort to secure to farmers and other wealth producers a fair share in the management of the government; favor the cooperation of industrial organizations in securing the demands of the St. Louis platform; demand the prohibition of gambling on boards of trade; favor government control of telegraph and railroads; the election of the president, vice-president and senators by direct vote of the people; the prohibition of non-resident alien ownership of land; the establishment of postal savings banks; that all interest accruing from the loan of public money by any municipal corporation shall be returned to the treasury from which money was loaned; that towns, cities and villages where license is granted for the sale of liquor, be compelled to pay all the expenses of the prosecution, including the expense of defense now allowed under the present laws, which shall be incurred in the prosecution of persons for any offense committed while under the influence of intoxicating liquors.

The resolutions also favor woman suffrage; provide for the admission to the Alliance of the wives and daughters of members with equal privileges and without fees, and that the executive committee be authorized to establish a purchasing agency to be under the control of said committee.

IOWA PROHIBITIONISTS.

DES MOINES, Ia., June 10.—The Prohibition state convention this afternoon adopted a platform and nominated a full state ticket. The platform adopted is long and complicated. It favors straight-out Prohibition; free and unlimited coinage of silver; Australian ballot reform; a state constabulary to enforce prohibition, and the immediate abolishment of the whole United States internal revenue system, since its operation is to encourage, by recognizing the liquor traffic. There was considerable discussion over the platform, but it was finally adopted as a whole.

The candidates nominated are as follows: Governor, Isaac T. Gibson, Salem; lieutenant-governor, J. T. Little, Perry; superintendent of public instruction, Mrs. M. H. Durham, Burlington; railroad commissioner, C. S. Hart, Coyne; supreme judge, D. B. Twiney, Bennett.

A state central committee was elected, composed of one member from each district, and other plans were formed to carry on an active campaign.

The action of the Peoples' party in doing the prohibition issue, both in the Cincinnati and Des Moines platforms, was commented upon and denounced.

THE OHIO COLD WATER PARTY.

SPRINGFIELD, O., June 10.—Over 1500 strangers are in the city, drawn by the Prohibitionist state convention, which met here this afternoon, and many Prohibition notables are on the ground, including Rev. Sam Small of Georgia and Samuel Dickie, chairman of the National Prohibition committee. The talk of the delegates now is for a strong farmer and labor platform, and union with the farmers meets with wide favor.

PEOPLE'S PARTY OF UTAH.

SALT LAKE CITY, June 10.—Pursuant to call and following the apparent programme of the People's party, the territorial committee held a secret meeting this afternoon. Tonight it is given out that it passed a preamble that it is the sense of the territorial central committee of the People's party of Utah, that the party throughout the territory should dissolve and leave its members free to unite with the great national parties, according to their individual preferences. Little importance is attached here to this action.

A NEW POLITICAL PARTY.

ST. PAUL, June 10.—A new political party has been started here under the name of the National Association, sixty gentlemen of this city and vicinity filing the articles of incorporation. The objects of the party, as stated in the articles of incorporation, are to "unite socially and fraternally all respectable citizens, for bettering their condition by

a course of debates upon political subjects, from which will result a more thorough knowledge of what is needed in the way of reform. It will give us a clearer idea, from the interest shown by the different members in these debates, of their fitness as candidates for different positions of trust as public servants, instead of picking them from the roster of a base political party, as done heretofore." The organization is to be on a secret society basis, and will be extended into other states as fast as possible. By next year the leaders expect to have sufficient strength to warrant the nomination of a presidential candidate.

Edward Spelman Dead.

PEORIA, Ill., June 10.—Edward Spelman, the millionaire distiller, died here today from the effects of an injury received in a fall from a ladder in Pekin, a week ago. Spelman was prominent in local politics, and a noted figure in the Cronin trial at Chicago. He was "district officer" of the Clan-na-Gael in New York, head man of that organization in Illinois, and was put on the stand to testify in regard to the alleged conspiracy to assassinate Cronin. His testimony was irrelevant.

A Punctured Windpipe.

STOCKTON, June 10.—While a number of men were hoisting a cylinder in the new flouring mill of the Farmers' Union this afternoon, a tackle broke and let the cylinder fall. J. F. McKenzie, in escaping from beneath the cylinder, fell upon a stake which penetrated his throat and punctured his windpipe. The wound is very dangerous and may prove fatal.

SUFFERING AND DEATH.

AN EXPLORING PARTY'S SAD EXPERIENCE IN ALASKA.

Two Young Men from San Diego Starved in the Wilderness—Terrible Torture Inflicted by Clouds of Mosquitoes.

SAN FRANCISCO, June 10.—A story of suffering and death in the interior of Alaska by California explorers has reached this city. A party of men returned from Yukon to Chilcote with the news that an exploring party consisting of James Ingram and F. C. Young, of San Diego; J. W. Spenny and R. C. Rose, of Portland, Ore., and others went to the valley of the Yukon for prospecting purposes, starting inland from Forty-mile creek. After spending some time on the Yukon, they commenced their homeward trip. Their provisions gave out; they became so weak that they could not pull their boat, and they had to abandon it. They were harassed, not only by cold and hunger, but by clouds of mosquitoes and noxious flies. With bleeding faces and bodies full of sores, the party dragged their way on. They grew so weak that they could not beat off the mosquitoes. Their eyelids became so inflamed that partial blindness ensued. Hunger-stricken Ingram beseeched his companions to shoot him and end his misery. He was begged to be patient, but nature gave out and he sank in the snow and died. Young died of starvation on the following day. The rest of the party managed to push further on. They had not eaten food for nearly a week, when a quantity of dried salmon was found. Strength and hope returned to the adventurers. Their first thought was to reach their comrades. Ingram had never stirred. His body was covered with mosquitoes. The survivors covered him with a few branches of hemlock and placed a rough stone at the head of the rude grave. The body of Young could not be found, but the distant growls of savage wolves indicated the fate of the lost man. The survivors finally reached Chilcote.

CONSPIRATORS CONVICTED.

UNIONTOWN, Pa., June 10.—The jury in the case against John McSloy, Mike Dismon and twenty-eight other strikers, for conspiracy and riot at the brick works, found McSloy and Dismon guilty and acquitted the rest. The case against John B. Rae, Peter Wise and others was then taken up.

WHICH WAS CORRECT?

Two young girls who were considered bright scholars in the high school were looking over a birthday book, which was arranged alphabetically, a handsome, illuminated letter forming the heading for each page.

"I wonder," said one of the girls, "if there are just as many pages as there are letters in the alphabet, or whether there are some duplicates? Count the pages and see, Maud."

Maud turned the leaves rapidly and announced: "There are no duplicates; only thirty pages, just as there are letters."

"Why, you goose!" said Alice, "you'd better go back to primary school. Don't you know there are only twenty-four letters in the alphabet?"—Youth's Companion.

A Train Problem.

It is seldom indeed that the following question is answered correctly offhand: A train starts daily from San Francisco to New York and one daily from New York to San Francisco, the journey lasting five days. How many trains will a traveler meet in journeying from New York to San Francisco?

About ninety-nine persons out of a hundred would say five trains, as a matter of course. The fact is overlooked that every day during the journey a fresh train is starting from the other end, while there are five trains on the way to begin with. Consequently the traveler will meet not five trains but ten.—New York Tribune.

SOME OF THE REASONS WHY

The Mutual Life Insurance Company

OF NEW YORK

IS THE BEST LIFE INSURANCE COMPANY IN THE WORLD,

Because it is the OLDEST active Life Insurance Company in the UNITED STATES and has done the most good.

It is the LARGEST and STRONGEST company in THE WORLD. Its assets exceeding one hundred and fifty millions of dollars.

It has paid in dividends alone over eighty-five millions of dollars; an amount greater than the total dividends of the next two largest companies in the world.

It has paid more Cash surrender values to its retiring members than any other company.

Its total payments to policy holders exceed the combined payments of the next two largest companies in the world.

It has more insurance in force in the United States than any other company, and has more policies in force in the State of California than the next two largest companies.

From organization to January, 1891, it has paid back in cash to its members and now holds securely invested for future payment \$451,370,159, OVER SIXTY-TWO MILLIONS OF DOLLARS MORE than ever received from them, besides paying all taxes and expenses for the past forty-eight years. A record not even remotely approached by any other company.

It issues every legitimate contract connected with human life and its policies are the most liberal and profitable known to underwriting.

For rates or description of the company's bonds, consols, and investment securities, or life and endowment policies, address, giving date of birth,

SOUTHERN DEPARTMENT, PACIFIC COAST AGENCY, LOS ANGELES, CALIF.,
