

THEY DON'T GO.

The Council Overrule the Mayor's Vetoes.

Two of His Honor's Messages Set At Naught,

And a Councilman Refers to Him as an Obstructionist.

The Business Transacted at Yesterday's Meeting of the Council—A Report From the City Assessor—The State Street Bridge.

The council met yesterday. The first thing after the opening was the reading of the mayor's message vetoing the ordinance for opening Santee street, for the reason that it prescribed a fixed salary for the commissioners.

After hearing the message read, Mr. Nickel moved the ordinance pass, notwithstanding the veto. Mr. Alfond seconded, and the motion was carried.

The city assessor reported that during June he had collected on \$147,204 assessed value of personal property, \$1760.43.

The above with the reports heretofore submitted shows a total assessed value of personal property of \$1,667,190, and a total collection of \$20,006.27 from the first Monday in March to date.

The report of the commissioners on opening of Mott street, from Second to Third, was referred to the board of public works.

The land committee recommended that a quit claim deed be issued to Roger Plant for that property on North Main street known as the Grand Central hotel property.

The requisition of the fire chief for board of fire horses was referred back to the city with a request that he state why he does not board his horse at the Main-street engine house.

City Engineer Dockweiler put in a requisition for \$25 for buggy hire for himself in the work of the outfall sewer outside of the city. This is the claim that was thrown out last week.

Mr. Nickel at once objected and said he thought the engineer should pay it. After much discussion a motion to allow the requisition was put and carried by 6 to 3, Mr. Innes changing his vote to aye.

The next trouble occurred over a requisition of Mr. Dockweiler for two draughtmen. He explained that there was much tracing of valuable maps needed which were going to ruin, as well as maps being made for the internal sewers, and there was a great deal of work entailed in consequence of the outfall sewer also.

The requisition failed of a passage. The bond of E. R. Fox for constructing the approaches to the Walnut-street bridge was approved. The contract price is \$2200. The bond is \$1200. He was given until afternoon to alter the bond.

The sewer committee were granted permission to expend the necessary money in getting the right of way for the outfall sewer.

AFTERNOON SESSION. When the council convened in the afternoon it was plain to be seen that something of importance was in contemplation.

In the absence of President Bonsall, Mr. Tufts was called to the chair. The first special order was the protest against the confirmation of the report of the commissioners on Seventh street, but while awaiting the arrival of the city attorney, the Breed street matter was taken up, the protest read, and on motion the assessment and the acceptance of the street superintendent were set aside and the contractors directed to complete the work according to the specifications.

The contractor in the matter of Eighteenth street petitioned to have the award of contract set aside and bids be readvertized, for owing to fatal defects in former advertisement. The petition was referred to the city attorney.

Action on Seventh street was deferred one week. The protest in the Broadway opening matter came up. The city attorney's report concerning the matter was read, and on motion action was deferred one week, to allow the city attorney to prepare a new ordinance abandoning all the city's property from Ninth to Pico street, and secure a waiver of damages from the property owners along the line of the proposed new section of street.

The city attorney reported a deed from the Citizens' Water company and other parties for land to continue Walnut street. On motion the deed was accepted.

He reported also the delivery of contract for approach to Seventh-street bridge to Mr. Merge's, and the preparation of an ordinance compelling the running of cable cars at slow speed around curves in the center of town, which was referred to the board of public works.

The matter of E. R. Fox's bond on the Walnut-street bridge approaches again came up, and action was deferred one week to enable Mr. Fox to prepare a bond in suitable form.

The mayor returned, without his approval, the contract for constructing approaches to the State-street bridge, claiming that it was a useless expenditure of money, that the same amount of money would open Soto street to the East Side, where there was travel, while there was none over State street.

After the reading of this message, Mr. Rees rose and orated. He said that the mayor was an obstructionist, and that if the mayor wanted to save money for the city he could co-operate with the council in its plans of retrenchment.

Mr. Nickel thought the State-street bridge a public necessity, surprising the citizens in the lobby by favoring a plan for the benefit of Boyle Heights.

Mr. McGarry said Mission road was near enough to accommodate the few people living near State street.

Mr. Nickel retaliated by referring to Ninth-street bridge and its lonely situation.

The vote by which the contract was approved was reconsidered. After considerable discussion the city clerk was ordered to sign the contract on behalf of the city, Messrs. Tufts, McGarry and Summerland voting no.

Mr. Tufts, from the committee of the whole, reported recommending that the city engineer be instructed to draft an ordinance establishing the grade on Alameda street, from Seventh street to the city limits. The report was unanimously adopted.

A motion for the reconstruction of the license ordinance was referred to the finance committee.

Numerous petitions were read and referred. The canner at Seventh and Alameda streets was granted permission to lay a switch connecting with the Southern Pacific company's track. A petition from business men in rear of the city hall for permission to use the city hall driveway to reach the rear of their premises, was denied.

A communication from the finance committee of the board of education giving the estimate for the coming year's expenses at \$204,000, and the amount required from the city at \$58,389, was referred to the committee of the whole. Council then adjourned.

Prof. W. T. Wenzell, of the college of pharmacy of the state university, after actual analyses made by him, "pronounces the Royal baking powder the strongest and purest baking powder before the public." The Royal baking powder destroys the dyspeptic qualities of hot food.

THE RAILROADS.

Williamson Dunn Leaves the California Road.

The Belt Road Likely to Reach Santa Monica.

The Pico-street Line Likely to be Built to the Beach.

Williamson Dunn Takes a Position With the Denver and Rio Grande.

Excursionists Arrive.

One of the most amiable, and at the same time able railroad men in Southern California is Williamson Dunn, who for many years has held the position of general agent in this city for the Southern California railroad.

He has been most successful, so much so that he has received several most tempting offers from other roads. These he has uniformly declined, but the Denver and Rio Grande made him such a very tempting proposition, that he accepted it and resigned his position with the Southern California.

General Freight and Passenger Agent Hynes of the latter company yesterday issued a circular accepting the resignation, and abolishing the office. The duties which Mr. Dunn attended to will hereafter be done under the jurisdiction of Mr. Ed. T. Chambers, the First-street depot ticket agent.

ON TO SANTA MONICA. The Belt electric road company on Saturday completed their negotiations with the Vernon people and in consideration of a \$10,000 subsidy, agreed to at once change the Vernon road from horse to electric power.

The road itself was consolidated with the Belt line some weeks ago, but the company could not see its way clear to electrifying it, as the business from it hardly warranted that expense, but the \$10,000 subsidy has settled the matter.

Belt company officials were yesterday in consultation with some of the directors of the Santa Monica railway and Terminal company, whose plan to build to Santa Monica from either this city or Inglewood was exclusively announced in Sunday's HERALD.

One of the Electric road officials told a HERALD reporter that his company looked very favorably on the project of the Santa Monica road building from their terminal of the Pico street electric road, and of operating the whole line by electricity.

This would be the shortest possible line to the beach, would have easy grades and in fact would capture the bulk of the passenger business.

FROM THE EAST. The following excursionists arrived yesterday via the Santa Fe: Professor Wendell Skell, Cincinnati, O.; A. D. Webb, Jefferson City, Mo.; Charles W. Young, Mr. and Mrs. Abram Yeager, Indianapolis, Ind.; Christina Cochran, Chicago, Ill.; Mrs. L. M. Thompson, Valparaiso, Ohio; Mr. and Mrs. A. L. Cadd, San Bernardino, Cal.; Mrs. Martha Davis, St. Paul, Minn.; Henry Howe, Mr. and Mrs. Edson Howe, Edgewood, Ill.; Mr. and Mrs. Scott Bethurum, Higginsville, Mo.; Fanny L. Skein, Kansas City, Mo.; Frank Longstreet, New York city, N. Y.; Robert S. Tail, New York city, N. Y.; C. W. Parker, Chicago, Ill.

NOTES. Richard Gird is building a spur track of the Chino Valley railroad from the sugar factory to a point on the east side of Central avenue and a short distance south of the factory, where he will build cattle sheds and yards having a capacity of 1000 head of cattle.

This road will be used to transport beef pulp from the sugar factory to the sheds, where cattle will be stall-fed and fattened for market. The possibilities of this branch of enterprise are greater than might at first be imagined.

Mr. Gird has some 5000 head of cattle on the ranch and supplies markets all over Southern California with beef. With the added facilities of stall feeding on beet pulp he will be enabled to furnish the very best of beef to the public—a fact that will be generally appreciated. (Champion.)

Railroad men at the Arcade depot were amused yesterday at an article headed "Missed a Husband," in the Times, purporting to be an account of an incident at the Arcade depot. The story was printed in the HERALD six weeks ago, the day after the affair occurred.

A Mystery Explained. The papers contain frequent notices of rich, pretty and educated girls eloping with negroes, tramps and coachmen. The well-known specialist, Dr. Franklin Miles, says all such girls are more or less hysterical, nervous, very impulsive, unbalanced; usually subject to headache, neuralgia, sleeplessness, immoderate crying or laughing. These show a weak nervous system for which there is no remedy equal to Restorative Nervine. Trial bottles and a fine book, containing many marvelous cures, free at all druggists, who also sell, and guarantee the best of heart tonics. Cures fluttering, short breath, etc.

WHY WILL YOU cough when Shiloh's Cure will give immediate relief? Price 10 cts. 50 cts. and \$1. For sale by H. J. Woodcock, 222 N. Main, or Trout Sixth and Broadway.

For the Zinfandel, ring up telephone 44. H. J. Woodcock keeps it.

Much Truth in Small Space. EDITORS HERALD: Permit me to do what every citizen of Los Angeles county and all Southern California should do—thank you for your editorial in the issue of the HERALD today. You have said more in the same space, have packed more truth and good sense to the square inch in that article than I have seen in any paper on the coast in years. The question is, who is the "Hoo-doo"? It would seem to a man up a tree that there could be but one answer to that question. The first letters of their names are S. P. Co. and W. T. Co., and rumor, which is often more than half right, has it that these only form a sort of double-headed malign goddess, or old-man-of-the-sea, who work together to prevent anything being done for this port. Keep up such vigorous thrusts as "Who is the Vou-doo?" and your work will certainly bring congress to a realizing sense of the needs of the hour on this coast.

A SAN PEDROITE. San Pedro, July 13, 1891.

MARRIAGE LICENSES. People Who Yesterday Secured Permissions to Wed. Marriage licenses were yesterday granted to the following named persons:

Wallace Macgregor, aged 24, of Big Bug, Yavapai county, Ariz., and Lucy Wyman Gibbs, aged 24, of Bramtree, Mass.

Marion W. Conkling, aged 25, of Los Angeles, and Nettie Hamilton, aged 21, of Los Angeles.

Angostura Bitters is known all over the world as the great regulator of digestive organs. Dr. Siegert's is the only genuine. At all druggists.

Geo. J. Isaacson, watchmaker, jeweler, engraver and diamond setter, 146 North Main, opposite W. U. Tel., Los Angeles. All work warranted and satisfaction guaranteed.

Now Open. The marmonoth Saratoga Soda Fountain, which in beauty is now open, No. 241 E. Spring street. All kinds of soda water are dispensed here, including 90 different flavors, all made from fruit juices. Come and see the Saratoga and quaff its delicious beverages.

Children Cry for Pitcher's Castoria.

AMUSEMENTS.

GRAND OPERA HOUSE.
