TABLES TURNED.

Members of a Car Company Swear Out Warrants for Each Other.

PHILADELPHIA, July 31.—Architect Joseph S. Brien, for whom a warrant of arrest was issued by Magistrate Devlin several weeks ago, on a charge by Manager Post of the Tubular Car company of embezzlement of \$35,000, appeared before the magistrate today. The prosecution failed to put in an appearance, and Brien was discharged. Subsequent events show that the probabilities are that if Manager Post had put in an appearance, he would now be in jail. A detective was waiting for him with a warrant, calling for his arrest on the charge of the embezzlement of \$17,500. For nearly two weeks Brien and Post had been giving out to the public that each was on the still hunt for the other. The warrant for Post was issued on the oath of J. Gray, that Post, as manager of the Steel Tubular Car company, borrowed the above amount. Since then they learned that the money was fraudulently obtained, hence the suit. Post's whereabouts is unknown.

POSTAL PROMOTIONS.

Postmaster-General Wanamaker Holds His First Examination.

WASHINGTON, July 30.—The first competitive examination for promotions in the postoffice department, under the postmaster-general's recent order, took place today. The postmaster-general was present at the examinations, and made a brief address to the clerks, in which he spoke encouragingly of the prospects opened up to the employees of the department by the new department. He gave them assurance that hereafter advancement in that department will depend solely upon the results of these examinations and their office records. Hitherto, he said, persons that obtained places in the department landed at the foot of the staircase, and stayed there until strong backing or powerful influence pushed them upwards, and he assured them that such a custom should no longer prevail.

HALF-BREED CITIZENS.

A Remarkable Decision by the United States Court.

PIERRE, S. D., July 30.—Considerable comment has been aroused by the decision of the United States court in regard to the status of children born of Indian women and white, or citizen, husbands. The case was that of the United States vs. Ward, on the charge of selling liquor to a half-breed. The evidence was that a negro father, who was a citizen, and an Indian mother. The decision of the court is that children follow the status of their father, and hence are citizens of the United States, and amenable only to its laws. If the decision holds good, it will effect the ownership of the greater part of the lands taken up in the vicinity of Fort Pierre and Stanley, across the river from Pierre, as it is nearly all held by squawmen's children or their wives.

A Trading Schooner Seized.

SAN FRANCISCO, July 30.—The American schooner Ellen was seized by customs officers today, under the section of the statutes which provides that no vessels under thirty tons burden shall trade between American and foreign ports. The Ellen, which is a small craft, had arrived from Mexico with a cargo of copper ore.

LONDON, July 31.—The house of commons sat until 4:30 o'clock this (Friday) morning. The members engaged in a prolonged discussion of the amendment to the education bill, made by the house of lords, which the government supported. There was also strong opposi-

tion to the grant of money for the training colleges in Ireland, by the Irish Conservatives and Radicals, who accused Balfour of bolstering popery.

FRED TEELE.

The King of the Boom Said to Have Returned.

In the days of the boom, when dollars were as plentiful as town lots, and everybody possessed both in ample quantities, Fred Teele was a high roller. In fact he was a dazler. His business was of course that of a real estate agent, and he was liberal with his money, and made many friends. About a couple of years ago he disappeared, leaving his wife, but taking with him a comely young woman. Nothing was heard of him for some time, when it was discovered that he was conducting an advertising agency in New York.

It is now said that the debonaire young man has returned, and is either in this city at present, or in the immediate vicinity. He has not made himself generally known if he is here, but that, under the circumstances, is hardly to be expected.

SHOT AT AUBLE.

A Detective's Close Call Last Night in Chinatown.

Charley Lee Kong is enjoying life at the city prison just at present. Kong is registered on the big book, and the charge opposite his name is an assault with intent to commit murder. Last evening Detective Auble bored a hole through a door on Los Angeles street where Kong runs a little game. Kong was highly indignant and showed his indignation by getting a gun and firing at the hole, where he supposed Auble was standing. Auble anticipated the Mongolian, and had disappeared just before the shot was fired. Officer Johnson arrested the Mongolian.

WANTED KERKOW'S HORSE.

The barkeeper, who saw the man driving off, rushed after him and captured him. Cross was turned over to Special Officer Roos, who brought him to the police station.

A Boarding-House Row.

There was a lively row at the Clifton house yesterday, and as a result several warrants were sworn out. Joe Millardo was arrested for battery, while a complaint for disturbing the peace was sworn out against Mrs. Rheinstein. "MARION HARLAND."

President of Midland College. Dr. Jacob A. Clutz, who was chosen president of the general synod of the English Evangelical Lutheran church, recently in session at Lebanon, Pa., is a native of Adams county, Pa., and is forty-three years old. He graduated from Pennsylvania college in 1859, and the same year entered the Gettysburg Theological seminary, graduating in 1872.

Immediately after graduation young Clutz was ordained a minister of the Lutheran church by the West Pennsylvania synod. He was pastor at Newville, Pa., for a year, when he was called to St. Paul's church, Baltimore. He continued in this capacity until 1883, during which time he served as treasurer of the children's Foreign Missionary society, and also as corresponding secretary of the board of foreign missions.

In 1883 he resigned his Baltimore pastorate to become eastern secretary of home missions. In the last named capacity Dr. Clutz developed administrative ability of a high order, which led to his being chosen in 1889 as the first president of Midland college, a new institution established the year before at Atchison, Kan., by the general synod.

In the discharge of his various duties as college president Dr. Clutz has manifested the same energy and executive ability that characterized his career at Baltimore. The college already possesses property valued at \$30,000, and has, in addition, an endowment of \$24,000. The latter was left to the college in the form of a life insurance policy by the late Rev. George D. Gotwald, an enthusiastic young Lutheran clergyman of Kansas City, who was largely instrumental in founding the institution.

Let's Talk About the Weather. Every time the weather turns cooler very suddenly, as it did recently in most parts of the country, many declare that the mercury took its biggest tumble then. It may, therefore, be interesting to know that the record of Jan. 1, 1864, has not since been equalled or even closely approached. Over a very large section of the United States the mercury fell 60 degs. between 9 p. m. of Dec. 31 and 10 a. m. of Jan. 1, and in a few places 65 degs. A few persons reported a fall of 70 degs. in four hours, but private thermometers varied then as now. It may as well be the memory to note that the coldest New Year's in American history ushered in the blottiest year.

In the Matter of Precedent. Mrs. J. R. McKee and Mrs. Russell Harrison, daughter and daughter-in-law of the president, are now in England and enjoying themselves hugely by all accounts. The American reader is inclined to smile at the cablegram to the effect, that our diplomats abroad are greatly embarrassed, as "the case is unprecedented of ladies of official rank visiting the Old World alone, but in lands where precedent and official etiquette are so important it is no laughing matter. The ladies will visit Paris and Berlin also, and no matter what ceremony is observed there is, as Abraham Lincoln used to say, "No doubt but we shall be able to keep house."

The latest statistics as to the Indians of the United States have spoiled many fine essays, and some tolerably good poetry. The Indians, to use the language of an agent, "have just about stopped dying out." In fact, they are about as numerous as they were twenty years ago, though some authorities maintain that this only seems so because the count is far more accurate since all the wild tribes have been located on reservations. At any rate it is certain that the decrease is much less than was supposed, and probable that several of the superior tribes are increasing.
