

UNCLE SAM'S HAND

Extended in Good Fellowship to Chile.

Minister Egan Instructed to Treat With the Junta.

Germany Was First to Recognize Them as Belligerents.

The New Government Busily Engaged in Reorganizing the Public Service. No Farther Riots or Disorders.

Associated Press Dispatches.

NEW YORK, Sept. 7.—The Herald has this cable:

SANTIAGO, Chile (via Galveston), Sept. 6.—The provisional government of the republic of Chile will be formally recognized by the government of the United States tomorrow. Minister Egan today received a cable dispatch from the state department at Washington, instructing him to treat the Junta Gobierno as the government de facto of the country. Information to this effect was unofficially conveyed to Señor Jorge Montt, president of the junta, soon after the receipt of the cable dispatch, but official action will not be taken before tomorrow. Minister Egan will be cordially received by the junta for the news he brings if for nothing else. The members of the provisional government were much pleased at the receipt of this information, though they were not greatly surprised. They felt that as soon as the United States understood the situation here, that order had been restored throughout the country, and the authorities of the junta universally recognized, Mr. Egan would receive the instructions which came today. It is the opinion here that Señor Pedro Montt, who is now in Washington as the representative of the junta, will be regularly accredited as the minister from Chile to the United States as soon as the matter is reached. This, it is thought, will not be many days.

BUSILY REORGANIZING.

The setting the Public Service to Rights in Chile.

SANTIAGO, Chile (via Galveston), Sept. 6.—The junta is busily engaged in reorganizing the public service. All the judges and court officials who were dismissed by Balmaceda have been reappointed. Other changes will be rapidly made until the entire civil service is in sympathy with the new government.

When the papers in the desk of Balmaceda's minister of foreign affairs, Señor Godoy, were examined today a cable dispatch was found, dated Berlin, August 12th, informing him that the German government had decided to recognize the belligerent rights of the Congressionalists. This news Minister Godoy had taken care to suppress.

Minister Egan has received a letter from the state department at Washington approving his action in endeavoring to bring about a cessation of hostilities in Chile.

It is asserted on high authority that the story that arms were shipped to Iquique on the Montserrat is untrue. It is also asserted that there was not a single Lee rifle in the hands of the Congressionalist soldiers. The rifles which it was alleged had been transferred from the Itata to the Esmeralda were of this make, and the fact that none of them were held by General Canto's army disproves that story also.

BALMACEDIST REFUGEES.

The German Admiral Refuses to Give Them Up.

NEW YORK, Sept. 6.—The Herald this morning published the following: VALPARAISO, Chile (via Galveston), Sept. 5.—The German minister to Chile and the admiral in command of the German fleet here, had a dispute over the disposition of the political refugees on board the German cruiser Sophie. The minister notified the admiral that he might be required to surrender to the junta such refugees. The admiral bluntly replied that he would do no such thing unless the emperor or Chancellor Von Caprivi ordered him to do so. He then sent a dispatch to the emperor, explaining the situation, and announcing that unless otherwise ordered, the Sophie would proceed at once to Molendo, Peru, the nearest neutral port, where the people wanted by the junta would be landed. Later in the day, a reply was received from Berlin, approving the admiral's action, and the Sophie will sail tomorrow.

NO RIOT AT COQUIMBO.

The stories of riot at Coquimbo are without foundation. Word was received from there today that the congressional officials have taken possession of that city and Serena without any disturbance, and that order has been maintained throughout. The Balmaceda officials at Coquimbo have been granted protection on board English war vessels. The government troops at those places have been disbanded and allowed to go home.

ARMY FOR THE JUNTA.

The armed transport Aconagua has been ordered south to meet a ship bringing arms and field guns ordered by the junta in Europe.

French War Ship Wrecked.

SAN FRANCISCO, Sept. 6.—A private letter received in this city from Tahiti brings news of the wreck of the French war steamer Volage. The letter was

dated at Papiete, July 19th, and the news had just been received at that port. The Volage was carrying Governor La Cascade on a tour of the Pomoto islands. No lives were lost, but the vessel is a total wreck. The school her tow, has been towed from Papiete to bring back the governor and the officers and crew of the wrecked vessel.

NOT ALL DEAD YET.

Parachute Jumpers of Both Sexes Undaunted by Accidents. PEORIA, Ill., Sept. 6.—Last Sunday two aeronauts met with serious accidents while making parachute leaps. One fell in a lake and the other along live electric wires. These accidents did not deter pretty Miss Kiefer, sister of one of the injured men, from making an ascension today, but she will probably pay for her foolishness with her life. She made the ascent all right but her parachute failed to work, and she alighted in the lake. The big parachute settled over her and held her down. Before she was rescued could be taken out she was unconscious. The physicians hope to restore her to life.

Seceders from Parnell.

NASHVILLE, Tenn., Sept. 6.—The Parnell branch of this city, of the Irish National league, at a meeting this afternoon, elected delegates to the national convention, and resolved as the sense of the members that Parnell and McCarthy should both retire, and a new leader of the Irish party be called to the helm. The Parnell branch has hitherto been almost unanimous for Parnell.

A MOST DARING PLOT.

SAN QUENTIN CONVICTS FORM A PLAN TO ESCAPE.

The Conspiracy Well Matured When It Was Discovered and Frustrated—The Seven Ringleaders of the Plot in Solitary Confinement.

SAN QUENTIN, Cal., Sept. 6.—A daring plot to break from the state prison here has been frustrated. Seven of the most desperate among the thirteen hundred convicts have been placed in solitary cells, closely guarded, while a number of others are being specially watched. Among the seven are three who escaped last year and defended themselves in a fortress among the hills until the then warden made terms with them. They are Charles Dorsey, the murderer, who escaped in '87 and was captured in Cleve; Mickey Delaney, a burglar; William Panlon and Harry Manning, stage robbers; Abraham Turcott and James Sullivan, murderers, and George Ross, burglar. Delaney had tools with which he was to break out of his cell, and when the guard passed he was to fall him with a slungshot. With his keys all the other convicts were to be released from their cells. Then an attack was to be made on the guards in the prison yard, and an escape made. It is believed outsiders were to be in waiting with arms, and a desperate fight would certainly have resulted from the attempt at recapture. The plot was detected by a guard overhearing certain words that raised suspicion. The men were watched and gradually the names of the leaders were learned. For three weeks the warden had been prepared for the outbreak. When the crisis was thought to be at hand, the leaders were quietly arrested and lodged in solitary cells. No arms or tools have been found except a skeleton key, but as there are factories, machine and carpenters' shops, etc., inside the walls of the prison, it would be easy to conceal them for quite a while.

The seven convict ringleaders of the frustrated conspiracy to escape are still in solitary cells. They will not be released until a confession is obtained. The officials of the prison do not know the details of the plot, but it is certain there was a conspiracy to escape, and that the assassination of the officers of the prison was contemplated. The first information came from a convict whose time is nearly up. Then a detective was dressed in stripes and sent into the prison yard. He heard conversations that confirmed the first information. One day he heard them say: "It is only a short time now." The prison officials dared wait no longer, and arrested the leaders. It is believed friends were to be awaiting them outside the prison if they succeeded in making their escape.

AN EAGLE'S PREY.

An Indian Baby Killed by the Ferocious Bird.

SAULT STE. MARIE, Mich., Sept. 6.—While the small girl baby of John Cowdage, a Chippewa Indian guide, living on the shore of Echo lake, was playing near the door of his hut yesterday an enormous bald eagle swooped down and seized the child. The Indian mother rushed out and the bird, after rising several feet, dropped the babe, which was evidently too heavy for it. The fall caused its death. The bird made another plunge for its victim, but was fought off by the mother until the arrival of her husband, who shot it.

Meeting With Success.

WASHINGTON, Sept. 6.—The consul-general of Germany at San José, Costa Rica, has made an official report to his government in which he says: There is no doubt that the extraordinary endeavors which the American industrial world, backed by the government, is making to increase trade with the Spanish-American countries, is meeting with success. The difference in price, if any, is more than compensated for by the attractive and handy get-up of American goods.

All a Mistake.

SHAMOKIN, Pa., Sept. 6.—Mrs. Robert Ray Hamilton's All a Mistake company disbanded here today, because of lack of patronage. The members of the company objected to continuing the tour unless their salaries were paid. They returned to New York on railroad tickets said to have been purchased with money borrowed by Mrs. Hamilton.

Cornerstone Laid.

SAN FRANCISCO, Sept. 6.—The cornerstone of the Church of the Advent was laid today with appropriate ceremonies. The new structure will cost \$50,000. It will be situated on Eleventh street near Market.

Under German Protection.

BERLIN, Sept. 6.—The North German Gazette says that the request of the

ROBBERS CAPTURED

Two of the Ceres Bandits in Custody.

Bill Dalton and Riley Dean Are the Culprits.

Circumstantial Evidence is Strong Against Them.

Sheriff Kay is Sure They Are the Right Men, but Both Claim They Can Prove an Alibi—Both Jailed in Visalia.

Associated Press Dispatches.

VISALIA, Cal., Sept. 6.—William Dalton and Riley Dean were captured late this afternoon about three miles south of Traver, Cal. The two men were seen to ride up to the house of Maggie Rucker. Immediately Sheriff Kay and Deputy Witby went to the house. William Dalton came to the door and was ordered to throw up his hands. He obeyed, but declared he was alone. Kay refused to believe this, and Deputy Witby went through the house and into the rear, where he found Dean hiding in the cellar with a rifle. He ordered him to surrender and Dean did so. Two horses and a number of rifles were captured. The horses bore signs of hard riding.

William Dalton is a brother of Gratton Dalton, now in jail awaiting sentence for holding up a train at Allia last February. William was charged with being an accomplice, but was out on bail, his case being set for October 6th. William called on his brother at the jail last Tuesday. He was in a very excited state, and the jailers, fearing that an attempt would be made to rescue Gratton, placed three extra guards on duty. William, however, left at midnight of the same day, for Modesto, seven miles north of Ceres, the scene of the robbery.

Dean arrived at Maggie Rucker's house last night, and Dalton claims he never saw him till today. Sheriff Kay is positive the men are the robbers, but refuses to say how he obtained the information leading to the arrest. He will start out again tomorrow, and he is confident that he will capture the third robber soon. The men answer the description of the Ceres robbers. Dalton is a short and Dean a tall man. It is thought the Ceres was for the purpose of getting money to bail Gratton Dalton.

MERCED, Cal., Sept. 6.—News has just been received here by Detective Lawson, which is authentic, to the effect that Bill Dalton and Riley Dean were arrested near Traver, this afternoon, and lodged in Visalia jail. Great excitement was created here by the news, as Dalton was out on bonds for another alleged robbery, and all his bondsmen are residents of Merced, where his attorney, J. W. Breckenridge, also resides.

GOSHEN, Cal., Sept. 6.—Sheriff Kay passed through here tonight for Visalia, with two men supposed to be the Ceres train robbers.

VISALIA, Cal., Sept. 6.—Dean and Dalton claim that they were near Traver on the night of the robbery. They say they can prove being in Traver on that day.

SAN ANTONIO, Tex., Sept. 6.—Superintendent Innes, of the Southern Pacific, has returned from the scene of the train robbery at Samuels siding, and reports that five robbers have been hemmed in by rangers and Mexican troops in the Texas peninsula, and cannot escape.

IMPERIAL COURTESIES.

Emperor William Visits Austrian Military Headquarters.

VIENNA, Sept. 6.—Emperor William and the king of Saxony, with their suites, wearing Austrian uniforms, visited Archduke Albrecht today. The Archdukes Charles, Louis, William and Rainier were also present. Most cordial greetings were exchanged. The generals commanding the opposing forces in the maneuvers each received a life-sized portrait of Emperor William, mounted in a gold frame. All the officers engaged in the maneuvers have received decorations from Emperor William and the king of Saxony. Archduke Albrecht received the collar of the order of the Black Eagle. A grand luncheon was served in honor of the visitors, at which 160 covers were laid. Archduke Albrecht offered a felicitous toast to the German emperor and expressed his admiration for the German army. The toast was received with a storm of cheers. Emperor William thanked the company heartily and proposed the health of Emperor Francis Joseph, Archduke Albrecht and the commanders-in-chief.

The Grand Turk's Favors.

CONSTANTINOPLE, Sept. 6.—Achmed Eyrib has been appointed governor of Crete, to succeed Djenod Pasha, who has just been promoted from the governorship to be grand vizier. A rumor, which it is impossible to confirm, is current to the effect that Kiamil Pasha, the recently deposed grand vizier, is suffering imprisonment. His dismissal is now understood to be due to complicity in a plot for the deposition of the sultan.

Gladstone and the Labor Party.

LONDON, Sept. 6.—In a communication just made public, Mr. Gladstone writes in favor of increased representation of labor in parliament, but deprecates the formation of a labor party. His objection to such a party, in his words, is on the ground that "if every class of a community exercised its right to form a party we should have a queer parliament."

Unfavorable Weather.

CHEYENNE, Wyo., Sept. 6.—Melbourne, the eastern rain-producer, who has been attempting to produce rain here, has so far failed. He attributes his failure to Friday's wind storm, and will renew the attempt tomorrow.

Italian government Germany has undertaken to protect the Italians resident in Chile.

A SENSATIONAL BOOK.

The History of the Assassination of President Lincoln.

St. Louis, Sept. 6.—A dispatch to the Republic from Parkersburg, W. Va., says: General T. M. Harris, of Ritchie county, a member of the court-martial which investigated the death of Lincoln and condemned Mrs. Surratt, has just finished a history of the assassination of President Lincoln. The history was compiled from the stenographer's notes in General Harris's possession. In his book Harris boldly asserts that Jefferson Davis and certain members of his cabinet were interested in and encouraged the assassination of Lincoln. He fortifies his statement by a large amount of documentary evidence. The book will create a sensation.

TURKEY'S SECURITY.

The Franco-Russian Entente Will Restrict the Powers.

St. Petersburg, Sept. 6.—The newspapers here express confidence that in view of the entente cordiale between France and Russia, the powers will hesitate to protest against Turkey's concession to Russia as regards the Dardanelles, for fear of raising stormy questions regarding Bosnia, Cyprus and Egypt, while Turkey, strengthened with the knowledge of the Franco-Russian entente, in counterpoise to the dreadbund, will not be easily intimidated. Thus the papers believe peace is assured.

IN A STATE OF UNREST.

GREAT DISSATISFACTION AMONG THE SAMOANS.

Mataafa and His Followers Trying to Depose Malietoa—The Salary List Climbing Up Too Fast for the Natives. German Money Not Wanted.

SAN FRANCISCO, Sept. 6.—Associated Press correspondence from Samoa, per steamer Mariposa, says: The country is in a state of great unrest. Mataafa is still at Malie with 300 or 400 men, and has sent out messengers again to raise a party in his behalf. He has been told that the United States would not send any more ships to Samoa. When the Iroquois arrived he was persuaded that she came in his interest. It is generally understood that the government is only waiting the arrival of an English war ship to make a joint demonstration, and to punish the natives who refuse to obey Malietoa. Unless some action is taken without delay, there will be trouble.

The great cause of complaint among the natives is the way the salary list is climbing up. Two Swedish gentlemen came out with the chief justice to act as clerk of the court and marshal, the only positions in his gift. As it turned out that there was nothing in these positions, two new places were created for their chief of police and secretary to the chief justice. The people, however, have confidence in the chief justice's impartiality. Their only objection is that he is very slow.

Much dissatisfaction has been caused by the acts of the president, Baron Senft von Pilsack. He is a German and does his best for the Germans. The currency question is the burning issue of the hour. A German firm imported a number of silver marks from Germany some time ago, and wish to pass them at gold value in payment of taxes, etc. Most of these coins are old marks of Wurtemberg and other small principalities. The residents object to them, as they cannot pass them, except at a discount, in America and the colonies. The president, however, insists that they be received. The king and government decided that they would not take them, but the president again ordered them to do so, or Germany would be angry. They again refused, but still Pilsack declines to accept their decision, and the question is still open.

STORM AT SEA.

A French Liner Badly Battered by the Waves.

NEW YORK, Sept. 6.—The French liner La Touraine, which arrived from Havre today, experienced a violent hurricane, lasting forty-eight hours. During the gale a sea stove in the lookout on the foremast, forty-five feet from the water's edge, and broke a number of stanchions. The cap of an iron windlass, weighing over four hundred pounds, was hurled to the port side of the steamer, a distance of several rods. The officers of the steamer say it was one of the heaviest storms experienced in seven years. No one was injured. The United States minister to Spain, F. Burd Grubb, was one of the passengers.

Weather Crop Bulletin.

WASHINGTON, Sept. 6.—The weekly weather crop bulletin says: On the Pacific coast the rainfall was generally in excess. In Central California the rainfall has been from one to two inches less than usual. Near Portland and Olympia the deficiency amounts to about five inches.

Oregon—Threshing nearly completed. Wheat and oats, heavy yield; hop picking progressing. Hop lice and mould injured the crop considerably. California—Weather favorable. Potatoes plentiful, and so cheap that some of the crop will be left in the ground. More hops than last season, on account of increased acreage. Fruit is being shipped to the canneries in carload lots.

Killed by Robbers.

Petaluma, Cal., Sept. 6.—This morning James G. Butler, aged about 35, was found dead in bed. He was badly beaten last Friday night by some persons unknown. The coroner summoned a jury and is now holding an inquest. It is believed that he was knocked down and robbed.

Killed by a Bull.

LOUISVILLE, Ky., Sept. 6.—At Elizabethtown, Col., William Wilson was fatally injured by a wild bull, which he was attempting to halter for exhibition at the fair.

SOME OF THE REASONS WHY
The Mutual Life Insurance Company
OF NEW YORK
IS THE BEST LIFE INSURANCE COMPANY IN THE WORLD:

Because it is the OLDEST active Life Insurance Company in the UNITED STATES and has done the most good. It is the LARGEST, STRONGEST and BEST company in THE WORLD. Its assets exceeding one hundred and fifty millions of dollars. It has paid in dividends alone over eighty-five millions of dollars; an amount greater than the total dividends of the next two largest companies in the world. It has paid more Cash surrender values to its retiring members than any other company. Its total payments to policy holders exceed the combined payments of the next two largest companies in the world. It has more insurance in force in the United States than any other company, and has more policies in force in the State of California than the next two largest companies. It has shown actual results of profits on policies already paid and on contracts now in force that have never been equaled by any other company in the world. From organization to January 1, 1891, it has paid back in cash to its members and now holds securely invested for future payment \$451,370,159, OVER SIXTY-TWO MILLIONS OF DOLLARS MORE than ever received from them, besides paying all taxes and expenses for the past forty-eight years. A record not even remotely approached by any other company. It issues every legitimate contract connected with human life and its policies are the most liberal and profitable known to underwriting.
