September Offers the Best Bathing and Fishing.

What the Crowds Did at Santa Monica Yesterday.

All Who Went to Redondo Put in the Day Hooking Fish—The New Line of the Redondo Railroad—Notes and Personals.

Yesterday a large crowd went down to enjoy the luxuries of Santa Monica, and a matchless day, with a cloudless sky, delightful breeze and invigorating surf, they found awaiting them. The various bathing establishments had all the business they could do, the tides and temperature being especially propitious for good bathing. The fact is, all the knowing ones in Los Angeles and Southern California, and their name is legion, have caught on to the fact that the best bathing, the finest weather and the most excellent fishing and shooting are to be had in the months of September and October, and Santa Monica is sure to have a good run of patronage during the bright autumn days. Driving is also much more enjoyable, and the cañons present then a never-failing charm, which captivates all hearts.

The concert on the esplanade by the Douglass band yesterday was a superb one, the programme being a galaxy of gems, played in a perfect manner. The frequenters of the resort will deeply regret when the last note is played, and many of our citizens are contemplating a move to have them here every Sunday in the year. A little push now by the right parties would secure this band for the year round, and it would pay to have them with us always. At Cowley & Baker's pavilion the Arend orchestra furnished music.

The Crystal plunge was the scene of a merry party of bathers all day long. Among those who enjoyed this favored retreat were: Mrs. Chas. Bell, Mrs. Wm. Waters, Mr. and Mrs. Griffiths, Miss Messmer, C. E. Dosh, A. Boyd, Mr. and Mrs. F. E. Walsh, Miss Jennie Bell, Miss George Bell and hundreds of others.

All day long there could be seen gathered together on the beach and esplanade clumps of our citizens earnestly discussing railroad and wharf matters, and from the earnestness of their conversation it was evident that they realized the importance of the work to be set on foot at Monday evening's meeting of the board of trustees, when the Southern Pacific franchise ordinance will probably be passed. Then will commence the work of development.

The wharf was lined all day long by a large number of amateur anglers, among them were many of the fair sex, who, while they dropped the line and hook baited for finny beauties, cast other lines out toward their stalwart partners with matrimonial inclinations.

Some few weeks since the HERALD had an item of gossip about a certain married lady who came down here for her health, while her hubby dear stayed at home and toiled. At an inopportune moment during the middle of the week hubby came down and found her holding a gentleman's head in her lap, and a row ensued in consequence. The lady thinks she was dealt wrongly with, because it was only a musician's head that rested in her lap.

Brooks, Cleveland, Ohio.

AT REDONDO.

Good Fishing From the Pier—Those Who Were There.

"They'll never give us folks a chance, and fishing so good now, too," remarked a discontented Redondo resident yesterday as he stood pole in hand looking at the procession coming down toward the wharf from the cars. It was an excited crowd, and no wonder, for a serried line of poles already extended along the outer edge of the wharf, and the active movements among them proclaimed that the fish were biting as well as they have been for the past four days. The fishers were arrayed along the wharf as close to each other as they could get, and when a man felt a bite and suddenly raised his pole he could not always be sure that some one else had not hooked a fish at the same time and that he was unhooking the wrong one. But it was the ladies who did most execution among the fish and upon the wharf. The fish bit gallantly but better for the ladies than for the gentlemen, and when they came up out of the water one would have thought them flying fish from the way they darted about among the heads of other fishermen, until some gallant individual caught them, detached them, rebaited the hooks and saw that the same were safely in the water again, when a new fish promptly took hold and the performance was repeated. Presently, as the day advanced, boys with big strings of fish forsook the wharf for the bathing beach, and the tide being low and bathing good, they were speedily joined by sisters, cousins and other folks' relatives in the water. All day long the fish bit, and all day long the bathing beach was patronized, so that the beach presented as lively an appearance as on almost any Sunday during the summer.

The Riverside Knights of Pythias band was on hand and rendered an excellent programme as usual.

The steamer Pelican, with her harpoon gun, attracted a great deal of attention, and the story of her whaling trip last week was repeated over and over. She starts out on another expedition after whales on Wednesday.

The three steamers, Navarro, Alex. Duncan and Coos Bay were all at Redondo yesterday and received their due share of attention.

Colonel Robert Drought, of the First regiment, Irish brigade of Dublin, is visiting Los Angeles, and took his first look at the Pacific yesterday at Redondo. He is highly pleased with the country, and proposes, if nothing happens to prevent, to locate permanently in Los Angeles as soon as he can arrange his affairs across the water so as to do so.

Miss Waddilove has returned to her old quarters at the Redondo, after a short absence.

LONG BEACH.

This evening (Saturday) the town is filled with strangers, the streets being very nearly as lively as they were six weeks ago, a large number of visitors having arrived on the 6 p.m. train.

With the Terminal running from here to Santa Ana, giving us connections with Riverside, Redlands, Orange, Anaheim and a score more places, it will make this the most populous seaside resort, both summer and winter, on the coast.

The piles for the railroad are all driven at the mouth of the river, and only await the tracklayers to enable the horse of the first of three transcontinental railroads to greet the steamers from the Occident at this future great seaport of South California.

Rattlesnake island (Beale Isle) has already jumped to the front as the favorite bathing place, scores and sometimes hundreds of persons going from here to enjoy its superior bathing. Those who prefer surf bathing can here have it, while those who would rather have theirs in smooth water can have all they want by staying inside of the bar. The boating here is excellent and with bathing houses, hotel, etc., backed by the energy and enterprise of the Terminal people the island is capable of being made the most beautiful, as it now is, the safest bathing resort.

There is considerable chin music on the streets about a barbecue and a general whoop up to celebrate the advent of the Terminal, but with the well-known enterprise of the people of this burg, don't take an option on it.

The great cut on the Cerritos is nearly finished, and when done the large gang of men will be transferred to the island to level off and make ready for wharves and warehouses.

The weather is so nice here that our visitors find it hard to leave, and quite a number will stay until November.

Mr. and Mrs. S. Lindsay and family of Los Angeles will occupy Judge Austin's cottage the balance of this month.

Mr. Van Duzen, your nextpostmaster, is a great admirer of Long Beach, and therefore deserves the appointment. He received a dispatch from Congressman Bowers today, stating his appointment was sure.

Miss S. M. Johnson left today for a two weeks' stay in Santa Barbara.

NEMO.

Long Beach, September 12th.

PASADENA.

On Saturday the raising of a proposed special school tax of \$5500 to meet the current expenses of the ensuing year was defeated, 114 votes being cast for the measure and 105 against. The schools were to have opened today, but in view of the above the opening has been postponed until Monday, September 28th.

Company B will hold a regular weekly drill tonight.

Mrs. Greenleaf and Miss Greenleaf are expected home from Santa Monica today.

Rev. A. W. Holt preached at the North Pasadena Methodist church yesterday.

Pete Steil has had a number of kodak views taken of his proposed railroad route up Wilson's peak.

The Y. M. C. A. meeting yesterday afternoon was well attended.

Some members of Company B were practicing at the arroyo range yesterday afternoon.

H. H. Mayberry, of Los Angeles, was among yesterday's visitors.

Many strangers were in town yesterday. The livery men had a lively day.

Ed. Kennedy left yesterday on an extended eastern trip.

Mr. Watson, a returned missionary, occupied the pulpit of the Methodist church yesterday evening.

Wallace Wetherby spent yesterday in town.

No more hot weather for Pasadena this season.

Mrs. Winslow spent Sunday at Long Beach.

An infant child of Mr. and Mrs. H. J. Poore died yesterday evening as the result of burns received the day before. The infant tumbled from a chair and upset a tea-kettle of boiling water, which terribly scalded her. Convulsions ensued yesterday and death resulted between 5 and 6 o'clock.

To the Public.

We advertise at present for a firm whose preparations have proven, in our own family, all they claim to be. We refer to Chamberlain's Colic, Cholera and Diarrhoea Remedy. We stand up for this medicine because we have tested it. This is not an advertisement for the medicine, it is simply our testimony regarding it after a fair trial. -Hontzalle (Pa.) Observer. For sale by C. F. Heinzenman, 222 North Main, Druggist.

A Druggist Surprised.

J. G. Bone, a druggist at Dunmore, Pa., says he has never sold a medicine that gave such universal satisfaction as Chamberlain's Colic, Cholera and Diarrhoea Remedy, and that the large demand for it has been a great surprise to him. It is sold here by C. F. Heinzenman, 222 North Main, Druggist.

There are five dynamite factories in Belgium, whose annual output is about 250 tons, of which only one-fifth is used at home. The remainder is sent abroad.

Female pages were employed by the last legislature in Oklahoma. This is turning over a new leaf.

Cure of Spinal Weakness.

E. F. Woolston, Yates, Orleans county, N. Y., says: "My wife, five years ago, was confined to her bed with inflammatory rheumatism of the muscles of the back. The doctors thought her case hopeless, and doomed her to be a bedridden invalid. The violent pain kept her awake almost every night. She lost over thirty pounds in weight. To ease her pain I thought I would put on ALLCOCK'S POROUS PLASTERS. I covered her back with them. To my great delight she began to sleep well. The pain very much abated in one week. I then took the plasters off, washed her back and put on fresh ones. At the end of the second week she insisted on getting up, and by the third week was entirely well and able to attend to her household duties."
