

### IN A NOBLE RAGE.

#### The Anger of the Administration Aroused.

#### Insults from Chileans to Be Promptly Resented.

#### Officers of the Baltimore Cannot Be Much Longer Restrained.

#### A Peremptory Demand on Chile for Reparation to Be Emphasized by the Presence of Four American Men-of-War.

Associated Press Dispatches.

CHICAGO, Oct. 23.—A special from Washington says Captain Schley has asked Secretary Tracy to have Admiral Brown come at once to Valparaiso, to aid by his presence in seeing full justice done to the cowardly ruffians who murdered a sailor last week. It is now alleged that Boatwain's Mate Regan was shot by a policeman. The dispatch asserts that Minister Egan will be instructed to demand reparation, and that the president has said to Tracy: "I mean to have no more of this business from any nation, and the demand upon Chile must be peremptory."

There will be four cruisers at Valparaiso when the demand is made. Captain Schley has informed Secretary Tracy that it has become impossible for American officers to go ashore without being insulted, and that hereafter they mean to go armed and meet insults in the proper way. "We are losing our self-respect by permitting these things," says Schley, "and the younger officers are wild with rage and cannot be much longer restrained."

"I don't want them to be further restrained," said Secretary Tracy to one of the commodores, "and I have told Schley so."

CAPTAIN SCHLEY'S DISPATCH.

WASHINGTON, Oct. 23.—A cablegram has been received at the navy department from Captain Schley, commanding the United States steamship Baltimore, at Valparaiso, Chile, giving additional details of the fight between American and Chilean sailors, in which one of the former was killed. He gives the names of those hurt in the affair, and corroborates the facts concerning it already printed. He asserts briefly that the fight was caused wholly by the Chileans who made an attack upon the American sailors without provocation. The boatwain's mate, who was killed, was dragged from a street car by members of the mob, which numbered fully 150. The officers at the navy department deny that the dispatch contained any sensational statements, and say the phrases quoted as coming from them in the morning papers are wholly unfounded. The cablegram may be made public after it has been submitted to the president.

LATEST OFFICIAL INFORMATION.

WASHINGTON, Oct. 23.—It is improbable that any serious results will follow the Baltimore incident at Valparaiso. It is probable that this government will await the outcome of the legal inquiry now in progress in Chile before making any move, and that meanwhile precautions will be adopted to avoid any further collisions. Secretary Tracy and General Foster had a conference with the president this afternoon, and at its close Secretary Tracy dictated the following as the latest official information on the subject:

From a dispatch received from Captain Schley it appears that he had made a careful investigation which showed that a petty officer, Charles Regan, while riding in a street car was assaulted, dragged from the car and shot. Apprentice Talbot, Coal-heaver Itherson, Coal-heaver Turnbull and Petty Officer Hamilton were wounded in many places, principally stab wounds in the back. Coal-heaver Panter and Landsman Davidson were dangerously injured by assaults with clubs, stones and knives; and many other men were seriously injured by assaults. Thirty-five seamen were arrested by the public authorities and detained. The surgeons on the Baltimore are unanimously of the opinion that some of the wounds were inflicted by bayonets, thus showing clearly the participation of the police. The American sailors were without arms and defenses. They were sober and innocent of any misbehavior. In several instances sailors of the Chilean fleet rendered assistance to our sailors, and in some instances the police protected them.

SECRETARY TRACY SAID THROUGH SOME difficulty with the cipher used in the dispatch, they were yet unable to ascertain what disposition had been made of the men arrested.

ANOTHER LETTER BY BALMADECA.

NEW YORK, Oct. 23.—A special cable from Valparaiso says another letter written by Balmaedca has turned up. It was to his three brothers. He says he cannot longer jeopardize his friend, the Argentine minister, by remaining at that legation. He had intended giving himself up to the junta, but owing to the belief that his leaders will respect nothing, he has changed his mind and will make a personal sacrifice. He says he has left for publication a document that will prove of historical use, and that through it Europe will comprehend his conduct.

ENGLISH FLOODS.

#### The Valleys of the Thames and the Medway Badly Inundated.

LONDON, Oct. 23.—From all parts of the provinces come reports announcing a tremendous amount of damage done by the floods. In many cases the waters are still rising, and bid fair to so continue for some time to come. In different parts of the country farms are submerged and the inhabitants have been compelled to seek refuge on the upper floors of their houses. A railroad cutting near Christ Church, undermined by the floods, collapsed this morning and completely blocked up the railroad lines. The neighborhood all around is inundated, so it is impossible to repair the damage done until the floods have subsided. The Thames continues to rise and is now five feet above its normal high water mark. A portion of the royal gardens and the queen's drive at Windsor is flooded.

In addition to the inundations in the neighborhood of the Thames river, the Medway has been so swollen by the heavy rains that it has overflowed its banks and submerged vast tracts of

country in Kent. At Maidstone the inundation has caused much damage to buildings of all descriptions, and the outlook is that there will be considerable damage of a like nature at Tunbridge Wells.

MEXICAN MATTERS.

#### An Exodus of Chinese to the United States—Disastrous Floods, Etc.

CITY OF MEXICO, Oct. 23.—A considerable number of Chinese are leaving this country daily for the United States. They cross the line at or near Brownsville, not far from the mouth of the Rio Grande.

A prominent member of congress says President Diaz will soon make important changes in the governors of the states, as he is dissatisfied with the way things are going on.

In Campeche the financial condition of the state is bad, and San Luis Potosi finds it difficult to pay the interest on the state debt, which is increasing daily.

Floods in the state of Tabasco are increased and becoming more disastrous. Thousands of cattle have been drowned; crops are almost entirely destroyed, and many lives have been lost.

A Long-Continued Fire.

LONDON, Oct. 23.—The fire in Mark Brown's wharf, Tooley street, which broke out Monday morning, October 5th, has not yet been extinguished. This fire was announced on the afternoon of October 5th as subdued. The fact, however, is that it has not been extinguished, this making about the nineteenth day it has been burning. During that time 120 tons of debris have been removed from the interior of the burned warehouse, but a large mass of material is still there. The loss is simply enormous.

A Gale at Brest.

LONDON, Oct. 23.—A furious gale is raging at Brest, France. It is feared that a whaler foundered during the storm, and that the crew perished.

PARIS, Oct. 23.—Advices from Brest announce that the longboat of the Austro-Hungarian, a French government training ship, manned by twelve boys and two quartermasters, was capsized at a dangerous spot in the entrance to the harbor. It was blowing half a gale at the time, and the crew were saved with difficulty.

### PARNELL'S SUCCESSOR.

#### THREE CANDIDATES FOR HIS VACANT SEAT IN PARLIAMENT.

A Butcher Merchant Nominated by the McCarthyites to Contest the Honor With John Redmond, Parnellite, and Captain Sarsfield, Conservative.

CORK, Oct. 23.—At a convention today of the followers of Justin McCarthy, a local butcher merchant, Martin Flaven, was selected to contest against John E. Redmond, the Parnellite candidate, the seat in parliament left vacant by the death of Parnell. The Conservatives selected a deputy lieutenant of the county, Captain Sarsfield, to contest Cork city against John E. Redmond, the Parnellite candidate, and against the representative of the McCarthyites.

DAVITT GIVEN AN OVATION.

QUEENSTOWN, Oct. 23.—Immediately on the arrival at Queenstown this morning of the steamer Wisconsin, Michael Davitt was interviewed in regard to his nomination by the McCarthyites as candidate for the seat in the commons made vacant by the death of Hennessey. Davitt said he could not say whether he would or would not accept the nomination, until he reached Dublin and had an opportunity of consulting with his friends. Davitt received an enthusiastic reception from the town commissioners and from a delegation representing the Irish federation. He was presented an address of welcome to which he made a reply.

ARCHBISHOP WALSH INDIGNANT.

DUBLIN, Oct. 23.—Archbishop Walsh repudiates the interview which it was said was held with him shortly after the death of Parnell, and in which he was quoted as referring to the dead leader in terms so disparaging that they aroused indignant comments in many quarters where sympathy for the dead man was not expressed. Archbishop Walsh also denounces the attack which was made upon him by the Chicago Herald of October 9th, classing the statements made as a "sensational calumny." He adds: "They attribute to me the atrocious and unchristian like sentiment that charity should not find a place in the organ of Parnell. I feel bound in my own defense, and in that of the dignity of my office, to ascertain whether American law permits bringing to justice the author or publisher of the libel."

GERMAN PRINTERS.

#### A General Strike to Be Ordered Throughout the Empire.

BERLIN, Oct. 23.—Meetings of printers employed in Breslau and in Leipzig were held today in those cities, and resolutions made for a general strike of German printers, which seems to be determined upon for tomorrow. At the Breslau and Leipzig meetings the printers resolved to give their support to the resolution arrived at by the printers of this city yesterday; this resolution is voiced by 4000 Berlin printers, who decided to ask their union to order a general strike in case of the refusal of employers to grant them a working day of nine hours and an advance of 33 per cent. in wages. It is generally admitted that a wholesale strike of printers will be immediately ordered. The printers of Frankfurt, Hamburg, Koenigsberg, Mayence and Nuremberg have decided to join in the general strike.

#### Will Van Duzen or Shoulters Be Appointed?

#### The Water Supply of the Salton Sea Shut Off.

#### Assemblyman Bruner Arrested and Admitted to Bail.

#### Chairman Stetson Sights Southern California in His Selection of a Traffic Committee—Other Pacific Coast News.

Associated Press Dispatches.

#### No Southern California Representative Among the Appointees.

SAN FRANCISCO, Oct. 23.—Chairman Stetson today announced the following names of men appointed to constitute the executive committee of the traffic association of the state of California: Barry Baldwin, president of the merchants' exchange association; F. L. Castle, J. C. Siegfried, M. P. Jones, Robert Watt, B. F. Dunham, Isaac Upham, Isador Jacobs, Eugene Beck, J. H. Neustadter, A. J. Marcus and A. J. Hallidie, all of San Francisco, and Thomas E. Hughes, president of the board of trade of Fresno; O. T. Settle, president of the Farmers' union, of San Jose; J. A. Hedges, Stockton; and W. H. Wood, Sacramento. Chairman Stetson in making the appointments known, states that to properly represent the principal lines of trade the representation from San Francisco should consist of at least thirty members, and from the country at least ten more, making a committee of forty members instead of eighteen, as called for by the resolution providing for such committee.

DRYING UP.

#### The Source of Supply of the Salton Lake Cut Off.

YUMA, Ariz., Oct. 23.—G. W. Durbrow, of Salton, and E. B. Preston, a prominent California engineer, returned today, from the crevasse, eighteen miles below Hanlon's weir, which has been the source of supply of the Salton lake from the Colorado river. An interview divulged the fact that no water was flowing from the river into the Salton basin; that only a small stream was running through the river bank, and continued eight miles inland, from which point the water returned to the Colorado. Where four weeks ago a small river ran toward Salton, not a trace of water can now be found. There will be no rise of consequence in the Colorado for four months, which can effect the Salton region, and by that time the desert winds will fill up the openings with sand, checking any further inflow. The water has been falling for the past month at Salton lake. One month more and no sign of the so-called desert lake will be seen.

STAGE HELD UP.

#### Three Robberies Near Redding in One Week.

REDDING, Cal., Oct. 23.—There was another stage robbery last night, making the third one this week. The Redding and Alturas stage was held up this side of Leighton, six miles from Redding. Wells, Fargo & Co.'s box and the mail were robbed; \$200 was taken from the box. The lady passengers were badly frightened. The driver was robbed of \$5. Officers were on the ground early this morning and in pursuit. The mail carrier was arrested at Redding and Weaver stage Monday night are believed to be the right men.

ELECTRIC WIRES.

#### A Serious Menace to Life and Property in Large Cities.

SAN FRANCISCO, Oct. 23.—A decision was rendered by Judge Hebbard today in the case of George Henzel vs. David Scannell, chief of the fire department, to enjoin the chief from removing a number of wires erected by plaintiff. The court denied the injunction and dissolved the restraining order. In the course of his opinion, Judge Hebbard says: "It appears that the present system of suspending electric wires over and upon the roofs of buildings in the city, is a standing menace to life and property, the direct and indirect cause of fires, and a serious impediment to firemen in the discharge of their duties."

Boulder Bruner Arrested.

SACRAMENTO, Oct. 23.—Assemblyman Elwood Bruner, of this city, who was indicted by the San Francisco grand jury on charges of perjury and malfeasance in office, was arrested today by Deputy Sheriff Devenny, of San Francisco. ### THE CRUISER CHARLESTON.

#### Her Appearance in Japanese Waters Creates Great Interest.

SAN FRANCISCO, Oct. 23.—A private letter received in this city from an officer of the United States cruiser Charleston, at Yokohama, says the appearance of that cruiser in Japanese waters has created great interest. On the day the vessel was thrown open for inspection, over twenty thousand people boarded her and she was surrounded by Japanese and other boats of all descriptions. The Charleston was also visited by foreign naval officers, and the American officers found it difficult to convince their Japanese friends that the cruiser was not built in England. Admiral Havelock has transferred his flag to the Charleston from the old wooden ship, Monocacy, that has heretofore served him for a flagship.

A LEAGUE OF PEACE.

#### Russia, France and Lesgr Powers Check-mating the Dreihund.

PARIS, Oct. 23.—A dispatch to Figaro from Copenhagen says: During the royal gathering at Fredensborg, the palace of the Danish royal family, where the emperor and empress of Russia have made long visits this autumn, the formation of a league of peace was discussed at length among the titled nobility there assembled. The league is to include Russia, Serbia, Montenegro, Greece, Sweden, Denmark and France. This league of peace, should it be an actual fact, will naturally be regarded as a counter move to the renewal of the dreihund agreements openly announced by the emperor of Germany previous to his recent visit to England.

It is stated that a conference is to be called in St. Petersburg on the Pamir question, but that is unlikely before a commission has visited the spot, an undertaking that is impossible until next spring.

The London Standard's St. Petersburg correspondent says there is no longer any doubt that the effort to have the exportation of wheat prohibited is being made, and a decree to that effect is expected daily.

Israel Liberman, of Dorobiez, Galicia, has failed, with liabilities of \$300,000. He was a member of the syndicate working the Zocerite mines. It is feared other firms belonging to the syndicate will collapse.

A Berlin dispatch says: Germany is pestered with pauper Russians. Ninety-five returned here from Bremen yesterday in a starving condition, having been refused passage to Brazil, and were sent to the workhouse.

The London stock exchange committee rejected the proposal that American dealers be accommodated after closing hours; 150 members signed a petition in favor of granting the accommodation, and 1000 members signed a petition against it.
