

THE WEST COMING TO THE FRONT

A Test Vote on the Democratic Nomination.

Cleveland Has Few Followers in Congress.

Noyes-Rockwell Contest Settled—The President's Plans for an International Silver Conference.

Associated Press Dispatches. WASHINGTON, April 22.—The Noyes-Rockwell contested election case occupied the house today. Thought to be concealed behind the question, was the Democratic nomination for president. Was it to be Cleveland, Hill, or the much-spoken-of western man? The vote, it is said, indicates that the west may come to the front. Followers of New York favored Rockwell. Cockran of New York followed. Neither referred to the political imbroglio, except by innuendo, but O'Ferrall of Virginia announced himself as a stalwart Cleveland man. He referred to Hill as a fox and Cleveland as a lion. His reference to the "magnificent and grand" Grover Cleveland brought down thunders of applause, but failed to carry the house with him, and with but thirty-nine members recording themselves in favor of the contestee, the chasm between Cleveland and Hill seems to be more than ever without prospect of a plank to bridge it.

O'Ferrall closed the argument in favor of Noyes. The question recurred on the resolutions of the minority substituted for the majority report, and deciding that Noyes was not elected. Carried, 140 to 98, thirty-nine Democrats voting to sustain the report of the majority. There was no break in the Republican ranks.

The second substitute, declaring Rockwell entitled to the seat, was agreed to, 128 to 106. Bryan's motion to recommit was defeated. The resolutions as amended were agreed to, and Rockwell retains his seat.

SENATE PROCEEDINGS. In the senate today the bill placing the secretary of agriculture in the line of succession after the secretary of the interior, passed.

The bill authorizing the secretary of the interior to increase to \$12 a month the pension of every pensioner who is now on the rolls at \$8 a month, on account of service in the Mexican war, and who is totally disabled for manual labor and in such destitute circumstances that the latter pension is insufficient to provide him with the necessities of life, passed.

The Chinese exclusion bill was taken up and Chandler presented testimony showing the need of more stringent laws to prevent the influx of Chinese. He admitted that the situation between the American government and China was a bad one, but then commented on the correspondence regarding Blair's rejection.

Davis, a member of the committee on foreign relations, looked upon the house bill as a rank, radical, unblushing, unmitigated repudiation of every treaty obligation remaining between the United States and China.

Davis took occasion in the course of his speech to denounce the Cabenely proposition submitted to the pope last year. Without action on the bill, the senate went into executive session, and soon adjourned until tomorrow.

A GRAND ARMY HEARING. Representative Bryan today asked the house committee on appropriations to grant a hearing to a committee of the Grand Army posts of Nebraska, in opposition to the appropriation of \$100,000 for the entertainment of the members of the Grand Army at the encampment at Washington. The hearing will be accorded.

BUSSEY'S VINDICATION. Assistant Secretary Bussey appeared before the Raum investigating committee today to answer the assault made upon him by Dugan the other day. Bussey said his failure in New Orleans was brought about by the disastrous panic of 1873. He settled with his creditors at twenty-five cents on the dollar, but in less than a year paid them in full. Bussey then read endorsements from the most prominent men in New Orleans regardless of party, which he received when an applicant for the position of collector.

The committee was so much impressed with Bussey's statement that the Dugan testimony was stricken from the record.

RECLASSIFICATION OF MAIL MATTER. The house committee on post-offices and post-roads today ordered favorably reported a bill consolidating third and fourth-class mail matter, under the head of third-class, and fixing the rates of postage at one cent for each two ounces or fraction thereof.

SILVER PURCHASES. The treasury department today purchased 535,000 ounces of silver at \$0.8890@0.8797.

SILVER AGITATION. The Demand For Bimetallic Legislation Knows No Abatement. WASHINGTON, April 22.—It has been ascertained from members of congress who attended the meeting of the national silver committee last night, that the interest and demand for silver legislation by this congress shows no abatement. The hope was expressed that some action might yet be taken by congress on the Bland bill, or some other measure for the free remonetization of silver. The question of an international monetary conference was only incidentally mentioned, as confidence is felt among the free coinage men in the outcome. There was no expression on the part of those present that could be interpreted as favoring the immediate formation of a third party as suggested heretofore. A number declared that they would not vote for a presidential candidate who was against free coinage. The bimetallic league topic was much discussed, and there was a general impression that such a league should be formed.

financial officers of the governments of Great Britain, France, Prussia, Austria and Italy for the purpose of ascertaining their views on the subject of a bi-metallic standard. He has made an elaborate private report on the results of his mission. He is now in Washington and a frequent visitor to the state and navy departments. It is said the reports received from different countries have satisfied the president of the advisability of an international conference and that he has practically decided to take the initiative in the matter. It is understood he will soon send a special message to congress transmitting the correspondence on the subject.

AN ELECTRONEERING DEVICE. The published reports that the president has practically completed arrangements looking to an international monetary conference to be held early next summer, and that invitations have been issued to foreign governments to participate therein, are not received with any display of enthusiasm by the silver senators. Senator Stewart is outspoken in characterizing the alleged plan as "an electroengineering device, absolutely devoid of any honest purpose to carry out the express declaration of congress in favor of the full remonetization of silver."

It is quite clear that none of the Republican silver senators have been taken into the confidence of the administration on this latest alleged project. One of them says he knew some such plan was in contemplation; that this government had already made overtures to the governments of European countries looking to a conference, but he had been informed that before any definite proposition was submitted to the parties to the conference the silver senators would first be consulted. He said he was very much surprised to read that they had already been ignored and an agreement reached which absolutely negated any idea that the result of conference would be, as it was intended by congress to be, the restoration of silver to its place as money metal. He held, and other silver senators entertain the same belief, that the conference should come to nothing unless allowed to consider the free coinage question.

A BIMETALLIC CONVENTION. The national silver committee this morning decided to call a national bimetallic convention in this city May 26th. A formal call and address will be issued tomorrow evening.

CABINET CHANGES. Room to Be Made for M. M. Esteé Among the President's Advisors.

SAN FRANCISCO, April 22.—A Washington special says: It is announced that it has been positively decided to make some changes in the cabinet on May 20th, and it is stated that Attorney-General Miller will occupy a seat on the supreme bench, Secretary Noble will become attorney-general, and M. M. Esteé of Napa, Cal., will succeed Noble as secretary of the interior.

CLEARING HOUSE REPORTS. Gross Clearances of the United States for the Past Week.

Table with columns: City, Clearings, Increase, Decrease, Percent. Includes New York, Boston, Chicago, Philadelphia, St. Louis, San Francisco, Cincinnati, Pittsburgh, Minneapolis, Milwaukee, Omaha, Denver, Portland, Ore., Salt Lake, Seattle, Tacoma, Los Angeles, Galveston.

Total for the leading cities of the United States, \$1,043,193,235; a decrease of 7.2 per cent over same week a year ago.

COVINA. News Notes From a San Gabriel Valley Town.

COVINA, April 22.—Dick Pollard's house is nearly completed. Irving Houser is living in his new house. C. W. Potter has nearly recovered from his recent illness. Miss Elma Houser is building a house on her place southwest of town. Horace Bemis left Monday for Colorado, by the way of El Paso and Mexico city.

Franklin is suffering with erysipelas. Mr. Bouham and family, of Missouri, are living in Wm. Heppner's new house. Several thousand feet of flume for irrigating are being put in this year. The Good Templars will give an entertainment at Glendora next Friday night.

Messrs. Moxley & Evans have nearly enclosed a nice house for Mrs. Bemis. Will Pollard has purchased a lot in town and will build a house. Many thousand orange plants are being put into nurseries every day and hundreds of trees in orchards. Our serenaders promise to take a drum and two or three pistols to wake people up next time they go out. Warner Bros. have purchased the entire stock of Thos. A. Smith, of Gladstone, leaving no store at that place. Joseph Anon has purchased the stock of hardware of Mr. Franklin.

Falling Over a Precipice. Is a terrible thing, even in dreams. The victim of this frequent form of nightmare awakes with a start and a cry; his limbs bathed in cold perspiration, his heart thumping tremendously. Don't sleep on your back, particularly if you are troubled with dyspepsia and nervousness, and use Hostetter's Stomach Bitters, the inseparable attendant of chronic dyspepsia, and its off-spring as well; the Bitters is a sure remedy. The disordered stomach is the progenitor of numberless brain and nervous system, and the organs of thinking is a faithful reflector of its condition. In which the liver and bowels also share. If we are to quote to the brain and nervous system, we must first attend to the stomach and regulate the action of the digestive, secretory and excretory organs. Prevent and remedy malaria, indigestion, the kidneys and bladder, debility, heartburn, sick headache and is grime with this remedy, which has received the unqualified sanction of eminent physicians.

For Coughs and Throat troubles use Brown's Bronchial Troches. They stop an attack of any nature, cough very promptly. C. F. Fitch, Miami, Ohio.

Children Cry for Pitcher's Castoria.

CHARLEY MILLER DIES GAME.

The Boy Murderer Executed at Cheyenne.

Money Sent Him for a New Suit of Clothes.

A Brutal Murderer Hanged at New Orleans—His Companion in Guilt Reprived at the Last Moment.

Associated Press Dispatches. New York, April 22.—An old man, evidently not much experienced in sending telegrams, went into the office of the Western Union yesterday afternoon. After much labor he handed in a dispatch to the receiver as follows: Give these few dollars to Charley and tell him goodbye.

(Signed) GEORGE HOLZ. "I want to send \$18 with this telegram to Cheyenne," he said. He told the receiver to whose order he wanted the money paid, and then asked anxiously: "The money will go today, won't it? It would be of no use unless it did?" "Why are you so anxious to be paid to-day?" asked the receiver. "The boy is to be hanged to-morrow," was the answer, "and I want him to have money to buy a new suit of clothes to be buried in."

In response to further questions the old man said: "The boy is Charley Miller, born in New York, and is only 17 years old. His father and mother died some years ago and he was placed in an orphan asylum. He has one brother and two sisters. I was appointed trustee of the estate, which worth about \$1000, so Charley's share was \$250. He learned the printing business and went west. Two years ago he returned to New York, but soon started west again. He had drawn most of his money, and long before he reached Cheyenne he was penniless and hungry. On the tramp he fell in with two men who had plenty of cash. He waited until they had gone to sleep, then took a revolver out of the pocket of one and killed them both, stole all their money and jewelry and jumped off the train. Another man was arrested for the crime, but eventually Charley gave himself up. Every effort has been made to get the governor to commute his sentence, without success. In looking up my account today I found I owed the poor fellow \$18. I resolved he should have it before he died. It will help to give him a decent burial."

MILLER EXECUTED. CHEYENNE, Wyo., April 22.—Charles Miller, 18 years old, who, while tramping in company with Ross Fishbaugh and Waldo Emerson of St. Joseph, Mo., murdered his companions for a few dollars, a year ago, was hanged this afternoon. He showed the utmost indifference.

A HANGING IN NEW ORLEANS. NEW ORLEANS, April 22.—Philip Baker was hanged here this afternoon for the brutal and unprovoked murder of the young wife of Neil Neilson, a young grocer, by whom Baker was employed as clerk, after he had attempted the life of his employer, in March, 1890. To add to the enormity of his crime, the murdered woman was enceinte. Baker tried to fix the crime on Neilson, saying Neilson had discovered that he (Baker) was intimate with Mrs. Neilson, and cut her throat in jealousy.

A SCOUNDREL REPRIVED. Etienne Deschamps, a quack doctor, was to have been executed at the same time for the seduction and murder of Juliette Dietrich, aged 12 years, January 30, 1889, but the governor this morning granted a reprieve, pending the action of the board of pardons. After killing his victim with chloroform, Deschamps attempted suicide by the same means, but was resuscitated. Both were discovered nude on a bed, the girl dead and Deschamps unconscious.

CALIFORNIA PATENTS. Pacific Coast People Who Are Inventors. Messrs. Hazard & Townsend report the following list of patents issued to residents of California for the week ending Tuesday, April 12, 1892:

Valve, A. F. L. Bell, San Francisco; electric trace connection, J. N. and I. N. Burke, Forest Hill, Cal.; curry-comb, C. S. Burnett and T. Sweeney, San Francisco; harness-hook, Q. V. P. Day, Dinuba, Cal.; waste-water gate for washing machines, L. Dwight and A. A. Jepson, San Francisco; sash fastener, A. Johnson, Oakland, assignor to Marshall Improved Window Furniture company, San Francisco; window balance, A. Johnson, Oakland, assignor to Marshall Improved Window Furniture company, San Francisco; saw handle, W. H. Kidd, Santa Rosa, Cal.; electric lighting system, J. M. Lockwood, San Francisco; shoe, E. G. Miles, San Francisco; check book, Edward North, Newhall, Cal.; carving brace, Anna C. Peck, San Francisco; chalk-line holder, A. C. Rulison, San Francisco; door for catching basins of street sewers, G. W. White, deceased, G. H. White, San Francisco, administrator; animal trap, G. Winkler, San Francisco; brake for street-cars, F. W. Wood and J. Fowler, Los Angeles.

A MEN WORTH HAVING. She Lays Two Eggs Every Morning. Police Officer Stewart has a hen, which, if its attributes could be perpetuated in a new breed, would produce a race of chickens that would be invaluable.

The hen is just a common barnyard fowl; a brown, unpretentious little creature which, however, has beaten the world's egg laying record. Some time ago Officer Stewart, upon reporting off duty and going to his comfortable home at 767 Buena Vista street, was told by Mrs. Stewart that the family possessed a hen which had laid two eggs every day; not only that, but would lay them in about an hour. Now, Officer Stewart being a policeman, and a good one at that, is naturally suspicious, and made up his mind that Mrs. Stewart had made a mistake, or had been deceived by the hen, so he adopted the detective lay, so to speak, and watched that hen. Sure enough, she climbed into a nest about 6 o'clock, and the result of her temporary seclusion was a nice fresh egg. She then took a little exercise, picked up a few choice, tasty worms and some stray grains of grain, and, inspired by the admonitions of duty, at about 9 o'clock she hunted up

her nest again in a hurry, jumped into it, and in a few minutes was responsible for the presence of a second egg. Stewart was convinced then, but he doubted that the hen possessed the qualities of a repeater, so he watched her some more, but she kept up her reputation, every morning between 6 and 10 o'clock laying two eggs. She is offered no particular inducements for this extra exertion, for she has to scratch for a living with the other chickens, and her only reward is the delight she causes to her owners.

ANNA BECKER'S CASE. Her Parents Want Her Sent to the Reform School, and Why.

There was a rather curious case before Judge Smith yesterday morning. An application was made to the court by Frank Becker of Pasadena to send his 16-year-old daughter, Anna Becker, to the Whittier reform school.

The complaint against her was incorrigibility, and the father and mother and a sister stated to the judge that Anna Becker had been working in a restaurant where liquor was sold, and that she had a habit of remaining out late at night in the company of boys of evil character, and that the late hours and damaging associations were certain to compass her ruin.

Judge Smith delivered a lecture to the girl, and said he would take the matter of sending her to the reform school under advisement for two weeks, and in the meantime instructed the girl to go home and remain with her parents.

CHAMBER OF COMMERCE. THE SOUTHERN PACIFIC AVERSE TO GIVING STATISTICS.

The board of directors of the chamber of commerce met yesterday afternoon. There were present Directors Forman, Breed, McGarvin, Braun, Klokke and Edwards.

The committee on ways and means tendered a report on the condition of the finances, declaring them to be in good shape. A letter from the San Diego chamber of commerce denying any knowledge of the McLaren circular against San Pedro harbor, recently distributed at Washington, and a resolution of thanks from the same body tendered to the chamber of commerce for their services in the matter of the Panama steamers were read.

Mrs. Flint, president of the Flower Festival society, sent a letter stating that the ladies would not be able to undertake the holding of the flower festival in the month of May read. A communication from Warner Miller was read stating that he would be here to speak on the subject of the Nicaragua canal sometime between the 15th and 20th.

Chairman A. W. Francisco of the committee on statistics made a very complete report, from which the following extracts are taken: Your committee on statistics has received from the secretary a clipping from the Examiner of San Francisco containing the statement that the Southern Pacific company has decided to cease the publication of any information with regard to the business of the road in Southern California, for the reason that it is unwilling to make known the results of its work in fields where it has to meet active competition.

In the opinion of your committee it is not necessary that this information be given oftener than twice a year, as for example in June and January. It is not at all necessary that this information should be published in its separated form, that is to say in tables showing what has been done by the Southern Pacific and what by the Santa Fe, but rather in one general statement involving both the roads.

The facts which it is desired to obtain are briefly these: How much of the following are shipped eastward out of Southern California annually or semi-annually and from what counties: Apples, beans, canned and dried fruits, citrus fruits, deciduous fruits green, honey, nuts, onions, potatoes, winter vegetables, wool, wine, brandy, raisins. It is desirable to know what is shipped into the country in some of the following lines: Agricultural implements, meats and meat products, butter and cheese, eggs and chickens, fish dried and green and canned, shoes, iron, plants and trees, starch, etc.

It would also be of advantage, if obtainable, to give the carrying of passengers eastward and westward and to show the amount of local travel—which is a good indication of the prosperity of a country.

In the opinion of your committee it might be well not only to call upon the railroads for the facts above mentioned but also to ask the board of supervisors and officers of the county and the council and mayor and officers of the city to observe as far as consistent with their other duties, the rule of compiling the results of the business of their respective offices in such shape as to be of the highest possible value for statistical purposes.

In the opinion of your committee it is, therefore, a matter of imperative necessity that the publication of railway statistics should be continued and that the scope of this work in the public offices should be widened.

CLEVELAND'S One rounded teaspoonful of Cleveland's Baking Powder does more and better work than a heaping teaspoonful of any other. A large saving on a year's bakings. BAKING POWDER. A pure cream of tartar powder. Used in the U. S. Army and by teachers of cookery. Cleveland's is the standard, it never varies, it does the most work, the best work and is perfectly wholesome.

her nest again in a hurry, jumped into it, and in a few minutes was responsible for the presence of a second egg. Stewart was convinced then, but he doubted that the hen possessed the qualities of a repeater, so he watched her some more, but she kept up her reputation, every morning between 6 and 10 o'clock laying two eggs. She is offered no particular inducements for this extra exertion, for she has to scratch for a living with the other chickens, and her only reward is the delight she causes to her owners.

Notice of Sale of Real Estate Under Execution. LOUIS SCHMIDT, JUDGMENT DEBTOR, Plaintiff, vs. Elise Deste, Judgment Creditor, Defendant. Sheriff's sale, No. 9381.

By virtue of an execution issued out of the superior court of the county of Los Angeles, state of California, wherein Louis Schmidt, judgment debtor, plaintiff, and Elise Deste, judgment creditor, defendant upon a judgment rendered the 15th day of April, A. D. 1890, for the sum of \$1,585.54-100 in lawful money of the United States, besides costs and interest, have this day been sold at public auction, to wit: Lot sixteen (16) and seventeen (17) of Block 3, Smith's first addition to the city of Los Angeles, state of California, and bounded and described as follows: All that certain parcel of land situated in the city and county of Los Angeles, state of California, described as follows, to wit: Commencing on the south-east corner of the lot of land heretofore conveyed by the city of Los Angeles to Fierro Nicholas in May, 1882, thence south 60 1/2 degrees east about 200 feet to the west line of Main street extension, thence north along the west line of said street to the line of said Block 3, thence east 20 feet to the west line of said Block 3, thence north 60 1/2 degrees west, west 44 2-100 feet more or less to the north line of said Block 3, thence north 60 1/2 degrees west, west 44 2-100 feet more or less to the north line of said Block 3, thence south 27 1/2 degrees west, west 118 9-10 feet to the place of beginning.

Also, all the right, title and interest of said Louis Schmidt in and to that certain piece of land situated in the county of Los Angeles, state of California, bounded and described as follows, to wit: Lot sixteen (16) and seventeen (17) of Block 3, Smith's first addition to the city of Los Angeles, as per map of said tract, as the same appears recorded in book 25, page 11, Miscellaneous Records of Los Angeles county.

Also, all the right, title and interest of said Louis Schmidt in and to all those certain lots and parcels of land situated in the county of Los Angeles, state of California, bounded and described as follows, to wit: Lots six (6) and seven (7) of Block 3, Smith's first addition to the city of Los Angeles, as per map of said tract, as the same appears recorded in book 25, page 11, Miscellaneous Records of Los Angeles county.

Also, all the right, title and interest of said Louis Schmidt in and to that certain piece of land situated in the county of Los Angeles, state of California, bounded and described as follows, to wit: Lot sixteen (16) and seventeen (17) of Block 3, Smith's first addition to the city of Los Angeles, as per map of said tract, as the same appears recorded in book 25, page 11, Miscellaneous Records of Los Angeles county.

Public notice is hereby given that I will, on Monday, the 23rd day of May, A. D. 1892, at 12 o'clock of that day, in front of the court house door of the county of Los Angeles, Broadway entrance, sell at public auction, for cash, gold coin of the United States, all the right, title, claim and interest of said Louis Schmidt, judgment debtor, in and to the following described real estate, to wit: Lot sixteen (16) and seventeen (17) of Block 3, Smith's first addition to the city of Los Angeles, as per map of said tract, as the same appears recorded in book 25, page 11, Miscellaneous Records of Los Angeles county.

Also, all the right, title and interest of said Louis Schmidt in and to that certain piece of land situated in the county of Los Angeles, state of California, bounded and described as follows, to wit: Lot sixteen (16) and seventeen (17) of Block 3, Smith's first addition to the city of Los Angeles, as per map of said tract, as the same appears recorded in book 25, page 11, Miscellaneous Records of Los Angeles county.

Also, all the right, title and interest of said Louis Schmidt in and to that certain piece of land situated in the county of Los Angeles, state of California, bounded and described as follows, to wit: Lot sixteen (16) and seventeen (17) of Block 3, Smith's first addition to the city of Los Angeles, as per map of said tract, as the same appears recorded in book 25, page 11, Miscellaneous Records of Los Angeles county.

Also, all the right, title and interest of said Louis Schmidt in and to that certain piece of land situated in the county of Los Angeles, state of California, bounded and described as follows, to wit: Lot sixteen (16) and seventeen (17) of Block 3, Smith's first addition to the city of Los Angeles, as per map of said tract, as the same appears recorded in book 25, page 11, Miscellaneous Records of Los Angeles county.
