DOINGS IN THE OLD WORLD

How May Day Will Be Celebrated in Europe.

Popular Fetes in England, Germany and Austria.

Turbulent Times Expected in France, Italy and Belgium.

Spain and Portugal Also Threatened with Violent Demonstrations—Extensive Preparations to Suppress Disorders.

By the Associated Press.]

LONDON, April 30.—Up to midnight telegrams received from the continent indicate that in Germany and Austro-Hungary, as in England, the May-day celebration will partake the passive character of popular fetes. On the other hand, in France, Italy, Spain and Belgium, the authorities are making preparations as if to suppress a revolution. At a cabinet meeting in Paris, today, it was decided that it would be highly dangerous to abate the repressive measures already taken in the slightest degree. The minister of justice instructed the public prosecutors and examining magistrates to remain in their offices throughout the day tomorrow. No disorderly bands of people will be allowed to assemble or penetrate to the city. The government is most apprehensive of trouble in the industrial centers, and has requested the leading manufacturers to use their influence to calm the workmen and assist the detectives in picking out men of notoriously Anarchistic proclivities.

ALARM IN ITALY.

A dispatch from Rome says: Feeling of public alarm is less acute than on the eve of last May day, yet feverish symptoms are manifest, arising from the numerous recent arrests. Bomb explosions are reported tonight from Forli, Solarolo and Voghera. Many arrests have been made. At Ancona a Socialist meeting was broken up and forty-eight of those in attendance arrested. Arrests continue to be made at Milan, Turin and Bari. On the whole, official reports from the provinces are reassuring, still no precautions are being neglected against any possible outbreak. The garrison in every large town is strongly reinforced, and a virtual state of siege has been declared. Processions and public meetings are forbidden, and strict orders have been issued that the slightest disorder is to be at once suppressed.

PRECAUTIONS IN SPAIN.

Dispatches from Madrid report that the workmen, having been prohibited from engaging in outdoor demonstrations tomorrow, have resolved to hold in-door meetings. The military will be under arms throughout the principal districts of the kingdom. The minister of war has sent out circulars instructing military commanders not to hesitate to assume supreme command if the necessity arises. Detachments of civil guards will protect the telegraph lines. The greatest precautions have been taken in Barcelona. The French Anarchist Blondel, who is believed to have been a companion of Ravachol, was arrested there tonight.

PORTUGUESE PRECAUTIONS.

At Lisbon the troops are confined to the barracks, and have received orders to be ready at the first warning to act. No disorders are expected to occur at Oporto, but the authorities have taken every precaution necessary to prevent or quell any possible outbreaks.

THE OUTLOOK IN BELGIUM.

BRUSSELS, April 30.—There are very general preparations throughout Belgium for the celebration of May day. Reports from various industrial centers indicate that the labor organizations will devote the day to meetings, parades, etc. These, it is believed, will be entirely peaceful. In most places no special measures have been taken by the police. Bertrand, the leader of the Socialist party, says the demonstrations will be peaceful, with two objects: To demand a normal day's labor and universal suffrage.

INCENSED ANARCHISTS.

BERNE, Switzerland, April 30.—The prefect of police at Lausanne, by making preparations to prevent an Anarchistic demonstration on May day, has incurred the enmity of the Anarchists. Today a bomb was exploded in the house of his mother, wrecking the building, but fortunately the occupants escaped unhurt. Several arrests have been made.

GERMAN CELEBRATION.

BERLIN, April 30.—May day will be celebrated here by meetings at various breweries, beer gardens and public halls, with speech making and singing. No processions will be allowed, either here or in most of the other large cities of Prussia.

ITALIAN DYNAMITERS.

ROME, April 30.—A petard, loaded with dynamite, iron scraps and stones, was exploded at the Massimo palace this morning. A similar explosion occurred in the cafe Rossini at Forli. Arrests of Anarchists continue throughout Italy.

BACKBONE BROKEN.

The Great Strike of Coal Miners in Durham Nearly Ended.

LONDON, April 30.—The backbone of the disastrous strike in Durham has been broken by the action of the miners themselves. There is a prospect, slight though it is, that the trouble will soon be ended. The miners voted in favor of all members not connected with pits owned by members of the Mine Owners' association, resuming work. Twelve thousand men will thus be enabled to go back to work at once. The miners connected with the Mine Owners' association pits continue to strike, but it is thought that with the pits of the other owners working, the association owners will effect a compromise with their men. The partial resumption of work will enable many iron works and factories to open which shut down because of the stoppage of fuel, and the distress that resulted from the stoppage of work among their employes will be alleviated.

MILBANK'S VICTIM.

Mystery Still Surrounds the Late Sensational Duel.

LONDON, April 30.—A friend of Milbank said tonight Milbank's adversary in the duel was the Duke de Morny, and that he was so badly wounded that he died on the field, and his corpse was taken aboard the yacht, which was lying off the coast.

A dispatch from Paris states positively that the Duke de Morny was seen in that city today, and denied taking any part in a duel. Milbank has not yet returned to London.

THE DEEMING TRIAL.

MELBOURNE, April 30.—The Deeming trial was continued today. Expert medical testimony was taken as to the condition of the body of the murdered woman. The cross-examination endeavored to show that the character of the wounds indicated that Deeming was insane.

DEPARTED CRUISERS.

SAN DIEGO, April 30.—The cruisers Boston and Baltimore left for San Francisco this evening.

WATER TUNNEL OPENED.

THE BEAR VALLEY COMPANY'S LATEST IMPROVEMENT.

Seven Hundred Inches of Water Sent Down to Rialto, Alessandro and Ferris.

Special to the Herald.]

TUNNEL CAMP, near Redlands, April 30.—At 7 o'clock this morning the water was turned into the new tunnel which is being constructed by Prof. S. Leonard of Los Angeles for the Bear Valley Irrigation company, from the plans of Chief Engineer Taylor. Over 700 inches of water was running through the tunnel all morning, and distributed to the thirsty fields towards Moreno, Alessandro and Ferris. The great importance of the tunnel is shown by the anxiety with which the ranchmen watched its development, and the joy with which they greeted this, its first trial.

The structure is half a mile in length and is over three times as long as that at Olive. It penetrates a mountain about half-way between Redlands and Alessandro. All the water for this end of the San Jacinto valley will go through it. The water comes from the Mentone mountains, eighteen miles from this camp, and arrives here from its source in forty-five minutes, as clear as crystal and as cold as ice.

The construction of the tunnel has taken a remarkably short time considering the many interruptions to which the work has been subjected. During the progress of the tunneling the water supply depending upon the structure for transit has been limited, and periodically there would come a large and violent kick from the ranchmen. In these instances the irrigation company has been compelled to interrupt Contractor Leonard. Such an interruption begins today, and 700 inches of water will run through the tunnel for one week. The force of men employed here have almost all left for Redlands, San Bernardino and Los Angeles.

A week from Monday the water will again be shut off, and work will be resumed. The entire tunnel is already floored with cement concrete, topped with cement plaster. The side walls are of brick masonry, laid in cement mortar, and are finished with cement plaster. The whole tunnel will be arched over with brick, and when completed will have a clear aperture of 6 1/2 feet.

Chief Engineer Taylor, Supervising Engineer le Comte de Muisere and the officers of the company have inspected the work and are highly pleased with it.

CONDENSED CABLEGRAMS.

The Anglo-Scottia mills and large factories near Nottingham burned; loss, \$500,000.

A coffer containing valuables belonging to the Prince of Wales was stolen from the railroad station at Lyons.

Miss Katherine Arnold, daughter of Sir Edwin Arnold, has been married to Edward Hamilton-Earle, son of Vice-Admiral Veseley Hamilton of the British navy.

Viscount Cuelsea, eldest son and heir of Earl Cadogan, has been married to the Hon. Miss E. Mildred Sturt, daughter of Lord Allington.

The German bark Thalia, Captain Meyer, which sailed from Hamburg February 2nd for Adelaide, founded at sea. The sole survivor was landed at Blythe, England, by a vessel which rescued him.

The court of inquiry at Bremerhaven investigating the stranding of the North German Lloyd steamer Elder, ascribed the disaster to a mistake on the part of the navigating officer, whose sounding, it declares, was manifestly erroneous.

The Italian minister of agriculture and commerce has issued a circular announcing that the government will officially take part in the Chicago exposition, through the various chambers of commerce in Italy, but not directly. The government will give moral support and patronage to the exhibition of Italian products, and a ship of war will be designated to transport the exhibits to New York.

Heavy snows have fallen in Pustertal, Austria, and now incessant rains are melting the snow, and the great quantity of water is loosening the side of one of the surrounding mountains, which threatens a land slide of disastrous consequences. The whole side of the mountain appears to be moving, and the debris is damming the River Trave. It is feared the water will overflow the banks and do immense damage.

GERMAN CABLE LETTER.

Prospects for a Peaceful May Day in Germany.

Socialists Disposed to Hold Orderly Celebrations.

The Kaiser in a Speech Gives Fresh Umbrage to Workingmen.

Chancellor Caprivi's Weakened Position. Herr Miquel's Finance Schemes. Coming Meeting of Prime Ministers.

Associated Press Dispatches.

BERLIN, April 30.—[Copyright, 1892, by the New York Associated Press.]—The latest reports from all the industrial centers in Germany show every prospect of a peaceful May day celebration. The authorities have taken every precaution to prevent any disturbance, and police will be centered at every important point, ready to act upon the first indication of disorder.

Enormous excursions to the country will be made from every large town. The fetes in Berlin include concerts, chorus singing and fireworks. The Socialists have engaged sixty beer houses, at which the landlords have undertaken to hire only Socialist waiters. The leading Socialists oppose any illegal action, declaring that if the Anarchists attempt to create disorder, the Socialists will be the first to deliver them to the police. The Independent Socialists will hold separate demonstrations. Only at Dusseldorf, Hamburg and Lubek will processions be allowed.

Since the Paris explosions entrance to the Berlin Schloss is restricted, nobody being allowed to enter without a special pass, and even then accompanied by a soldier.

THE KAISER'S LATEST SPEECH. The emperor's visit to Baron Stumm has given fresh umbrage to the workingmen. He harangued Baron Stumm's workmen and bestowed the highest eulogies upon the factories and regulations for the workmen, declaring them models that all Germany ought to imitate. The speech was coldly received, as Stumm's arbitrary treatment of his employees and his pitiless discharge of any man suspected of Socialist views is notorious. The grand banquet he gave the emperor is the talk of the newspapers, and cost over 20,000 marks.

LANDTAG DEBATES.

The debates upon the reassembling of the landtag lacked the expected interest. The Conservatives and Centrists appeared timid, and did not definitely define their position toward the government; they confined themselves to acrimonious speeches, censuring the government for its withdrawal of the primary educational bill; while the Progressives unanimously predicted the triumph of the Liberals at the general election.

MIQUEL'S FINANCIAL SCHEMES.

The financial reforms proposed by Herr Miquel, minister of finance, will shortly be debated in the landtag. They are certain to meet with bitter opposition. His schemes will be attacked as a piece of state Socialism. He proposes to make an income tax progressive, exempting small incomes, and he will introduce a new tax, making interest pay more in proportion than earnings. Minister Miquel expects to increase the revenue.

This increase will enable him to relinquish tax on land and industries, amounting to 100,000,000 marks, to the local authorities.

His most unpopular proposal is to create a tax on beer, which the Centrists will especially attack. Probably in the face of the opposition, Minister Miquel will abandon the proposed tax.

CAPRIVI'S WEAKENED POSITION.

Surprise is expressed at Chancellor Von Caprivi going to Carlsbad, leaving to Count Von Eulenbug the burden of the debate in the landtag. The general belief is that the chancellor wishes to emphasize his withdrawal from the presidency of the Prussian ministry, and leave Von Eulenbug to handle the reins of important debate unaided, and thus gauge the future influence with which the chancellor will have to reckon. It is an open fact that the chancellor's position has been weakened by recent events. He has a less share in the emperor's councils than formerly.

With the retaining of Herr Kalsborn-Schan as minister of war, there are now two ministers (the other being Von Boetticher) who hold views at variance with the chancellor's on certain questions, though the difference is not serious enough to lead to a rupture.

PREMIERS TO MEET.

Von Caprivi will return to Berlin to meet the king and queen of Italy when they visit here, in order to hold a conference with the Marquis di Rudini, the Italian prime minister. There is little likelihood of Count Kalnoky, the Austro-Hungarian prime minister, being present at the conference, as it is practically certain Count Kalnoky and Chancellor Von Caprivi will meet later in the summer.

RUDINI TO BE SUSPENDED.

Rumors of another impending rupture in the Italian cabinet have arrived here. Signor Nigra, the Italian ambassador at Vienna, is mentioned as a possible successor to Rudini. The belief in political circles is that the crisis will be timed over.

PROPOSED ITALIAN LOAN.

It is thought that the proposal to float an Italian loan here to assist in the military expenditures of Italy does not meet with favor. That the German market is little inclined to absorb the new loan yet awhile is shown by a drop of half a point in Prussian and German loans when it was reported that the projected German loan would be issued immediately. The announcement in the Reichsanzeiger that the loan would not be issued until the end of the year

allayed all fears and led to the recovery of prices.

EMIGRATION OF PRUSSIAN POLES. The emigration of Prussian Poles, chiefly to the United States, is rapidly growing heavier. The augmentation is attributed, not only to agricultural depression, but to the general fear that war with Russia is inevitable sooner or later.

HEER JAEGER'S DOWNFALL. Information is received that Jaeger, the defaulting chief cashier of the Rothschilds, is in hiding in Brussels with a mistress, who is at the bottom of the whole matter.

Reports received of increasing trade started a proposal to run a service of steamers between New York and Paramaribo to compete with the existing Dutch and English lines.

A CORNEAL PLANT. Mr. Murphy, special agent of the United States to introduce the use of corneal, states that the German government is now establishing a corneal plant in one of the largest mills at Magdeburg.

RUSSIAN EPIDEMICS. Rev. Mr. Francis, rector of an American church at St. Petersburg, passed through here en route to London, worn out by his exertions on behalf of the famine sufferers. He says smallpox and typhus fever are making fearful ravages in Russia, and unless strong precautions are taken those diseases will spread throughout Western Europe.

ANOTHER FATAL FIRE. A BALOGAUST IN A SUBURB OF NEW YORK CITY. A Girl Dashed to Death by Jumping from a Window—A Number of Children Cremated.

NEW YORK, May 1.—At 1:45 o'clock this morning fire was discovered in the collar of a three-story brick house at 189 Broadway, Williamsburgh. On the second floor lived John Solhalter, wife, four daughters and son. The family became panic-stricken, and despite warning cries and shouts one of the daughters, Maggie, jumped from a window and was horribly mangled. The third floor was occupied by Thomas Tubbs. There were ten in the family, five of whom are missing. A 2-year-old baby and one of the sons were taken to the hospital frightfully burned, and it is thought they cannot live.

The firemen found Benjamin Tubbs, 12 years old, on the third floor, badly burned about the face and hands, and overcome by smoke. A fireman carried out a 2-year-old baby, and others did equally good service. Smoke drove the firemen out finally, and it was then found that five children of the Tubbs family were still missing, and it could not be learned whether the children were still in the building. Several of those saved were burned and sickened by smoke, and were removed to the Eastern District hospital.

At 2:30 the fire is not under control, and the people living in the houses adjacent to the burning building are running into the streets half clad, or with their clothing in their arms. At the last report it was generally believed that five of the Tubbs children perished in the flames.

SCUDDER'S BLOODY COAT. An Attempt to Smuggle Tell Tale Evidence Out of Jail. CHICAGO, Ill., April 30.—Mrs. Henry Martyn Scudder, wife of Dr. Scudder, now in jail on the charge of murdering his mother-in-law, Mrs. Dunton, attempted today to take from the jail a coat which is valued as evidence in connection with the coming trial. She visited the prisoner today and told the jailer, as she went in that her little boy would come for her husband's soiled clothing. The boy came and was given a cumbersome bundle. The boy passed the turnkey and was on the point of leaving the jail when he was halted. Mrs. Scudder appeared on the scene and first threatened, then begged and pleaded that the boy be allowed to pass off, but without avail. She held the bundle until it was forcibly taken from her possession. The bundle was examined and the overcoat in question was found. Dr. Spray, who is attending the alleged murderer, on behalf of the state, discovered blood stains in the pocket of the coat some time ago, and the prosecution propose to build the theory that it contained the weapon with which the murder was committed. States Attorney Longenecker admits that blood spots were found in the pocket of the coat, and says the garment has been put in safe keeping and will be produced as evidence against the prisoner.

SHOT THROUGH A WINDOW. An Attempted Highlander Murder in San Bernardino. Special to the Herald.] SAN BERNARDINO, April 30.—Ah Gow, a bad Chinaman, shot Ah How Hang tonight at 3 o'clock through a window. The bullet entered Hang's wrist, severing an artery and passing out of the palm, making a bad wound, bleeding profusely. Officers are now looking for Ah Gow.

Constable Hamilton arrived from Banning tonight with two men named James McHaney and Harry Webster, charged with cattle stealing. At the preliminary examination both were held in the sum of \$1500 each to answer, and will be able to give bail for their appearance.

The Charleston at San Francisco. SAN FRANCISCO, April 30.—The cruiser Charleston returned today from San Diego.

New suits at 125 W. Third st. Select from our large new stock and you are sure to be fitted. Getz, Fine Tailoring.

Good News. All kinds of sewing machines cleaned and repaired for \$1 each. All kinds of sewing machines rented for \$2 per month, at the Davis Sewing Machine office, 128 South Main street, between First and Second streets.

UNCLE REMUS MADE A MISTAKE when he tied his mule's halter around his leg while he reached for his bridle; he afterwards remarked that "he done gone seed his mistake before dat mewel had dragged him a rod." Seeing your mistake will not alter the fact, if you make a bad bargain. Yesterday an elderly gentleman, accompanied by his wife, after purchasing of us a nice, genteel suit for \$20.00, remarked to our salesman, "I see you do as you advertise in this store." "To what do you refer?" said the salesman. "Why," said he, "you don't worry a man to buy, and you let him take his time. We were in a store down the street, and the salesman pestered us so much to buy what we didn't want, that we soon found we had made a mistake. You folks seem to have just what people want, and there is no occasion to try to force customers to buy what does not please them." There you have it. That's our position exactly; that's our success. Just what the gentleman remarked, in a nutshell. RIGHT GOODS! RIGHT PRICES! RIGHT TREATMENT!

London Clothing Co. Corner Spring and Temple Sts.

GRAND OPERA HOUSE. Under the direction of AL HAYMAN. McLAIN & LEHMAN, Managers. Five nights and Saturday Matinee, commencing TUESDAY, MAY 3d, first appearance in this city of the Prima Donna Contralto MISS AGNES HUNTINGTON!
