

# LOS ANGELES HERALD.

VOL. XXXVIII.—NO. 32.

FRIDAY MORNING, MAY 13, 1892.

PRICE FIVE CENTS.

## DEPUTY MARSHAL MARSH

### One of Marshal Gard's Aids in Trouble.

### Arrested and Hurried Off to San Diego.

### Kidnaping Is the High Crime He Is Accused of.

### A San Diego Deputy Sheriff Also in Custody for the Same Offense—A Serious Charge of Counterfeiting Them.

Special to the Herald.]

SAN DIEGO, May 12.—Constable Mountain brought down Deputy United States Marshal Marsh of Los Angeles, on the charge of kidnaping Edward Crosthwaite across the Mexican line for stealing cattle a year or more ago. Deputy Sheriff Smallcomb, of Tia Juana, was also arrested on the same charge. It is alleged that they turned him over to the Mexican officials to obtain a reward of \$500 offered by Governor Torres for the apprehension of Crosthwaite, who had insulted the governor at the Horton house in this city. After lying in jail a long time at Escondido Crosthwaite was allowed to get away. The cattle-stealing charge was not pressed.

The justice let the prisoners go on \$1000 bail each. The examination will be held this morning.

### ANOTHER ACCOUNT.

### How Marsh and Smallcomb Delivered Their Man to the Mexicans.

By the Associated Press.]

SAN DIEGO, May 12.—Deputy United States Marshal A. W. Marsh was arrested at Los Angeles today on the charge of kidnaping, and was brought to this city tonight. Thomas Smallcomb was arrested at Tia Juana and brought up here on the same charge. They were released on bail in the sum of \$500 each.

The story dates back about fifteen months. Edward Crosthwaite, residing in Lower California, is said to have had some difficulty with Governor Torres, and came across the line. According to the statement of Crosthwaite, the governor was very anxious to have him under his jurisdiction and offered quite a sum for that purpose. It is charged that Marsh and Smallcomb set about earning the money; they secured a warrant from the Tia Juana justice on some charge and proceeded to Bakersfield where Crosthwaite was then located, placed him under arrest, put him in irons and took him to Tia Juana. The irons were removed and he was allowed to walk about with a constable.

The deputy marshal went to supper, leaving Crosthwaite in charge of Justice Cruz in a small shanty. Cruz then, it is said, told Crosthwaite to skip across the line, and on his refusing, fired two shots so close to the prisoner's head that he ran out of the house and in one or two steps was across the line and in the arms of the Mexicans. He was kept in jail eleven months without a trial. As soon as liberated he came to this city and put the case in the hands of the officers.

### CAUGHT AT EUREKA.

### A Notorious Counterfeiter Recaptured After a Long Chase.

SAN FRANCISCO, May 12.—Among the passengers who arrived on the steamer Humboldt from Eureka this morning were Secret Service Agent of the Treasury Harris and James Staples, alias James Lewis. The latter was caught on the 16th instant, after an eight months' chase. Rewards had been offered for his capture, and the police in Arizona and California had been on the look out continuously. Staples was found working in Ben Dixon's shipyard. About eight months ago he was caught passing counterfeit \$5 gold pieces, which he had manufactured in Albuquerque, N. M. He was arrested and indicted by the grand jury. While in jail he made the acquaintance of a man who was in for robbery. Between them they conceived the plan to escape. They got out of prison and Staples got over the wall and away. His companion was mounting the wall when one of the guards fired, and the robber fell back dead. A shower of bullets was sent after Staples, but he was too far away, and none of them struck him.

### Grand Lodge of Odd Fellows.

SAN FRANCISCO, May 12.—At today's session of the grand lodge of Odd Fellows, a special committee was appointed to present a plan by which members who were in good standing when their lodges became defunct, can retain their membership in the order. The nomination of officers resulted as follows: Grand master, G. W. Stockwell, Los Angeles; deputy grand master, J. F. Angles, Monterey; Walter B. Lyon, Thompson, Eureka; Walter B. Lyon, grand secretary; James W. Lomon, grand treasurer; George B. Maguire, grand representative; Luman Wadham, E. F. White, Harry D. Richardson, grand trustees. J. H. Simpson of San Francisco was elected grand warden.

### From the Antipodes.

SAN FRANCISCO, May 12.—The steamship Mariposa arrived this morning from Sydney via Honolulu. Among the passengers arriving from the colonies by the steamer were the earl and countess of Meath, Joe Goddard, the puglist, matched to fight Joe McAuliffe in June, next, and Joe Goddard's brother, Herbert.

### The Roan Mine Victims.

ROSLYN, Wash., May 12.—The rescuing party continued to search all night. This morning they found five more bodies, making in all nineteen thus far recovered. This morning's recoveries are: Sidney Wright, Herman Deusts, John Hodgson, George Brooks and Frank Hannah.

### Murphy for Chairman.

OAKLAND, May 12.—The Alameda county delegation to the state Demo-

cratic convention, which meets in Fresno on Tuesday next, held a meeting this afternoon and unanimously endorsed Hon. B. D. Murphy of Santa Clara county for the chairmanship of the state convention.

### THE END NOT YET.

### Southern Pacific Trainmen Unable to Settle Their Grievances.

SAN FRANCISCO, May 12.—A session of railroad men was held today to discuss the grievances of the trainmen, and nearly fifty officials were present, including A. N. Towne, J. D. Richardson, Grand Master Clark of the Order of Conductors, and Chief Wilkinson of the Order of Trainmen. There were also thirty-two members of the grievance committee present. The schedule prepared by the railroad officials in answer to the demands of the trainmen was read. The most important item in the document was that touching the subject of wage rates.

The method whereby the men desired to be paid is a mileage rate only; that is to say, 5 cents a mile for the work to be done, and doing away with regular salaries and additional pay for extra work.

The officials offered as an objection to this, that it would prove entirely unsystematic, and would also cause great inconvenience in keeping accounts. There were many objections made to the schedule by the officers of the brotherhood present, and soon it became apparent that more conferring would be necessary before the affair could be finally settled. Another conference will be held in a few days.

The end looks as far off as ever, as every day something new crops up to cause discussion. The latest is a demand for pay by the trainmen for "deadheading," that is, traveling to take charge of an engine or train.

It was reported today that the demand of the discharged car-builders at Sacramento had been met and that all was going on in a peaceful manner at the shops.

### BAIRD CONVICTED.

### The Madera Banker Found Guilty of Forgery.

FRESNO, Cal., May 12.—The jury in the case of W. F. Baird, ex-cashier of the Bank of Madera, charged with forgery, returned a verdict of guilty tonight. The principal witness today was D. S. Dorn, a San Francisco attorney, who testified that Baird confessed the forgeries to him last September.

Upon the conclusion of the case for the prosecution, the defendant's attorney made a motion that the court instruct the jury to acquit the defendant, as the testimony offered by the prosecution did not show Baird to have forged the Williams-Wren note. The court denied the motion, and the defense announced that it would introduce no testimony.

The case was argued and the jury retired at 3:30 this afternoon, returned at 7:45 and announced that it could not agree, but the court sent the jury out again to deliberate further. At 9:45 the jury came into court the second time and announced a verdict of guilty as charged.

### A MINING DISASTER.

### Three Men Killed in an Old Tunnel at Cherokee.

OROVILLE, Cal., May 12.—A mining disaster occurred at Cherokee, twelve miles from this town, at 4 o'clock this afternoon. Three young men, named Jack Powers, Jr., J. C. Hall and L. P. Hall, were mining in an old tunnel when it caved in and killed all three men. They had been quite successful lately, and in one spot got \$1600. They began in this tunnel last Monday, and believed they would do well. The Hall brothers came from Montana lately. Powers was born in Cherokee and was married, but the other two were single.

### A Dividend for Depositors.

SAN DIEGO, May 12.—Receiver Pauly of the California National bank said this evening that he has just been authorized by Comptroller of the Treasury Lacey to declare a dividend of 10 per cent, payable to the depositors as soon as checks could be prepared and signed by the comptroller.

### Bering Sea Squadron.

PORT TOWNSEND, Wash., May 12.—The Bering sea squadron, consisting of the Yorktown, Mohican, Adams and Rush leaves here at 8 o'clock tomorrow morning for the north. The Bear will arrive in the afternoon. The Ranger, which is due from San Francisco Saturday, will coal at Seattle and soon join the fleet.

### Instructed for Cleveland.

RED BLUFF, Cal., May 12.—The county Democratic convention was held here today. The delegates to the Fresno convention were instructed for Cleveland.

### The Iroquois' Flag Hauled Down.

VALLERO, May 12.—The warship Iroquois hauled down her flag today and went out of commission, likely never to be used again.

### IN THE WRONG TERRITORY.

No Evidence to Be Had in Chicago Against the Reading Coal Combine. CHICAGO, May 12.—The federal grand jury spent all of today inquiring into the Reading coal combine, and learned nothing. The district attorney said, after the adjournment of the jury: "We are in the wrong territory, and I absolutely believe all of the coal dealers examined today know nothing that could be construed into legal evidence against the combine. It is a fact, however, and we demonstrated it here today, that no coal dealer can now buy coal for future delivery beyond a period of thirty days. The system of future delivery, which had been in existence for twelve years, is absolutely wiped out. There is no question that an arrangement exists whereby coal is boosted in price, but we cannot prove it here. The government will have to look in the east for the manipulators."

### Anna Dickinson's Troubles.

New York, May 12.—Ann Dickinson has recovered from her recent illness while at the Fifth-avenue hotel, where she had been living for some time. She was unable to pay her hotel bills, and left the house for quarters on Twelfth street.

## EAST AND WEST UNITED.

### Another Link of Steel Connects Them.

### The Big Bridge at Memphis, Tenn., Opened.

### The Event Celebrated by Imposing Ceremonies.

### Dedication of the Childs-Drexel Home for Union Printers—William Astor's Will—General News Gleanings.

### Associated Press Dispatches.

MEMPHIS, Tenn., May 12.—At noon with impressive ceremonies, the great steel bridge across the Mississippi river was formally declared open to traffic, in the presence of a great throng of people, including distinguished visitors, state and national, from this and adjoining states. The day was observed as a holiday, and the city was in gala attire. The man-of-war Concord and river craft of all kinds were covered with bunting. The weather was delightful.

The festivities began with an imposing street parade. When the procession reached the bridge, the ceremonies began by sending eighteen locomotives upon the structure as a test of its strength. The eighteen engines came across the bridge at the rate of thirty-five miles an hour, blowing their whistles and ringing their bells, the din being added to by all manner of noises being made by the vessels in the river.

Governor Eagle of Arkansas and Governor Buchanan of Tennessee were then taken out from the respective sides on decorated flat cars, and in the center of the bridge shook hands with President Clapp of the city of Memphis standing over them with hands outstretched, and the ceremony on the bridge was over.

When the company returned to the Tennessee side, Governor Buchanan welcomed the distinguished guests to the state and city. He was replied to by Governor Stone of Mississippi and Governor Eagle of Arkansas. Bishop Galloway invoked the divine blessing. President Clapp accepted the bridge for the city of Memphis, and Engineer Morrison delivered it to President Nettleton of the railroad company, in a speech which was the work.

After the other speeches Senator Voorhees of Indiana was introduced as the orator of the day. Opening with an eloquent reference to the enduring importance of the event, his speech dealt chiefly with subjects natural to such an occasion; the wisdom, patriotism and foresight of Jefferson, results which it accomplished; the growth of the south within the last thirty years; its still brighter future, and finally predicted that the time was not far distant when the barrier of the navigation of the two oceans would be removed.

Tonight two magnificent pageants brought the day's celebration to a close; the crowd, if anything, exceeded that of the morning and was variously estimated at from 30,000 to 50,000 people.

The Memphis bridge is the third largest of its kind in the world. There are five spans and six piers, including the anchor pier. There is a total length of 2697 feet in the bridge proper. The structure is extended west of the main bridge by an iron viaduct 2500 feet in length, followed by 3100 feet of timber trestle and nearly a mile of embankment to a junction with the existing track of the Kansas City, Fort Scott and Memphis railroad, a few hundred feet west of Gibbey, Arkansas. Some idea of the immensity of the steel parts used may be obtained by knowing that the main posts are thirty feet high and weigh twenty-eight tons.

### CHILD'S-DREXEL HOME.

### Dedication of the Union Printers' Army at Colorado Springs.

COLORADO SPRINGS, Colo., May 12.—The Childs-Drexel home for union printers was dedicated here today with appropriate ceremonies. The building is located a mile from the city, on an elevation which overlooks the Garden of the Gods and gives a fine view of Pike's Peak, Manitou and Cheyenne cañon. It is built of white lava stone, with red sandstone trimmings. It is four stories high, and 144 by 40 feet, with all the modern conveniences, and cost \$80,000. It is in part the gift of George W. Childs and A. J. Drexel of Philadelphia to the International Typographical union. Rooms in the parlor are furnished by unions in St. Louis, Chicago, San Francisco, New York, and one by the Chicago Inter-Ocean. The gathering of a fine library has already begun.

At the dedication today Hon. Ira G. Sprague, mayor of Colorado Springs, delivered an address of welcome in behalf of the city, in which he spoke in eulogy of the printers and printing trade, instancing many illustrious men, beginning with Horace Greeley, who had been printers.

Gov. John L. Routt delivered the address of welcome on behalf of the state, congratulating Colorado on being chosen as the site for the building, and the suitable spot in the country.

Hon. George W. Childs spoke briefly, saying it was forty-one years ago that the International Typographical union was established. Printers' unions had not only spread the light of education and reason over this vast continent; they had given to labor a higher dignity and broader independence—all those qualities which render it of the greatest worth.

The speaker continued, saying he had been more or less intimately associated with printers from boyhood. He naturally sympathized with them, and what little he had been able to do to express his respect and admiration for them had honored him more in the giving than the craft in receiving. The printers were not indebted to him, but he to them.

As Mr. Childs concluded he was roundly applauded.

August Donath of Washington fol-

lowed Mr. Childs with a brief history of the home.

Senator Gallinger of New Hampshire then delivered the oration of the day.

President Capellan of the National Editorial association spoke briefly, as did also the venerable Bishop McLaren of Chicago, an old time friend of Mr. Childs.

Rev. A. R. Kiefer closed the ceremonies with a benediction.

After all the ceremonies were concluded, Mr. Childs, Bishop McLaren, Senator Gallinger and Governor Routt walked to the front of the immense lawn, and each planted a tree. C. H. Lunt, president of the Colorado Springs chamber of commerce, planted one for Mr. Drexel, who is now in Europe.

The dedicatory exercises were preceded by a parade of military and civic societies and the printers' union. The day on the whole was a most beautiful one, and the celebration was one of the greatest ever held in the west.

The Childs party remain in Colorado Springs till Saturday.

### WILLIAM ASTOR'S WILL.

### Only \$200,000 Given to a Charity Out of a Fortune of \$50,000,000.

NEW YORK, May 12.—The funeral of William Astor was conducted with great simplicity at Trinity church today, and the remains buried in the Astor tomb, in Trinity cemetery.

Astor's will will probably be offered for probate tomorrow. The value of the estate is estimated at from \$30,000,000 to \$50,000,000. The widow receives, in addition to the annuity settled on her at her marriage, the Fifth-avenue and Newport houses and their furniture, for life, with an annuity of \$50,000 from his individual estate.

Astor also gives nearly \$1,500,000 in trust funds to be divided among his three grand-children, bearing the family name of Van Allen. His daughters, Mrs. I. Roosevelt and Mrs. Wilson, each receive trust estates for life of \$840,000, with the use of houses in Fifth avenue. A trust fund of \$850,000 is divided among the four children of Mrs. J. Coleman Drexel.

About \$200,000 is given to charitable institutions of private individuals. The rest of his individual property is given in trust for life to John Jacob Astor. The son receives practically the whole estate, except about \$6,000,000.

### BLAINE TAKES A TUMBLE.

### The Secretary of State Measures His Length on the Ground.

WASHINGTON, May 12.—Secretary Blaine attended a strawberry festival in the northwestern part of the city this afternoon, and came near meeting with a serious accident. While approaching a large pavilion in which the greater number of the guests were gathered, he stepped on a narrow, elevated board walk running along a driveway, to greet some friends. Among the ladies was Miss Leiter, who, selecting a red rose from a cluster at her belt, fastened it in the lapel of his coat. Raising his hat in acknowledgement, the secretary of state made a misstep, his foot slipped off the board and his length was measured on the ground. He was at once helped to his feet, and in response to anxious inquiries, declared himself wholly unharmed. After mounting a short flight of steps, Secretary Blaine rested for about five minutes in a little reception room, and then insisted upon joining the company outside, with which he remained some time.

### Sherman's Flag Bill Killed.

WASHINGTON, May 12.—The senate committee on military affairs today made an adverse report on the bill introduced by Senator Sherman to prevent the desecration of the American flag by making it a misdemeanor to print, paint, or affix to the national flag any business advertisement, motto of any political party, name of its candidate, etc., and authorizing the secretary of war to sell at cost price flags of a prescribed pattern. The committee is of the opinion that the government ought not to be put in the position of competing with private dealers.

### Campaign Committee.

WASHINGTON, May 12.—The Republican congressional campaign committee organized this evening by the election of Senator Anthony Higgin of Delaware as chairman, Representative John A. Caldwell of Ohio as vice-chairman, and the following to constitute, with the above, an executive committee: Senators Perkins, Kan.; Washburn, Minn.; Representatives Townsend, Col.; Houk, Tenn.; Hermann, Ore.; Walker, Mass.; Cheatham, N. C. Edward McPherson of Pennsylvania was elected secretary.

### World's Fair Strikers.

CHICAGO, May 12.—Unless the demand of the iron-workers is conceded Chicago building trades council will be asked Friday night to declare a general strike of all the workmen at the world's fair grounds. Whether the council will accede to the request remains to be seen. The secretary of the painters' organization said today that the painters would willingly quit work to help the iron-workers.

### EASTERN ECHOES.

### Brief Mention of Current Happenings Beyond the Rockies.

At Trenton, N. J., Maddock & Sons' pottery establishment burned; loss, \$175,000.

At Calhoun, Ky., in a drunken row over a game of baseball, three men were shot and mortally wounded.

At Ewing, Mich., H. A. Schofield, a drunkard, shot and killed his wife, then shot and mortally wounded himself, because she had refused to live with him.

At Goodwill, Md., four negroes for some supposed grievance killed D. M. Justice, a white man. Wells, who did the killing, was taken from the officials and lynched.

George Fried and his brother-in-law, Milton Everett, are in jail at Springfield, Mo., charged with the murder of Deputy Sheriff Williams of Taney county and the alleged wife slayer, J. W. Bright. It is said Everett has confessed that Fried did the killing.

Investigate the good values in fine tailoring, a perfect fit and large new stock at 125 W. Third st. H. A. Getz.

Send the ANNUAL HERALD to your eastern friends. No present could be more appropriate.
