

OUR HARBOR APPROPRIATIONS.

The Senate Agrees to \$51,000 for Wilmington.

Twenty-five Thousand for a Harbor Survey at San Pedro.

Blund Again Balked in His Effort to Attach a Silver Coinage Clause to the Sundry Civil Bill.

WASHINGTON, May 19.—In the senate today the bill exempting American coastwise vessels, piloted by licensed masters or by a United States pilot, from the obligation to pay state pilots for services not rendered, was taken up.

Butler offered an amendment repealing such parts of the navigation laws as prevent the purchase by citizens of the United States of ships in foreign countries, and the right to man, register and fly the American flag.

Frye moved to lay the amendment on the table, and Butler asked the yeas and nays on the motion. The motion was agreed to—yeas, 31; nays, 13—a party vote, except as to Messrs. Kyle, Blodgett and Pugh, who voted with the Republicans to lay the amendment on the table. The bill was then passed without division.

In the conference report on the bill to provide for the disposal and sale of the Klamath River Indian reservation was presented and agreed to.

The river and harbor appropriation bill was taken up and McPherson made a motion to exclude from the bill an authorization for new contracts, and to reduce by 50 per cent the entire amount appropriated.

Dolph moved to table the motion, which was agreed to—yeas, 42; nays, 6, Harris, Kyle, McPherson, Paddock, Palmer, Vilas.

Amendments were reported from the committee on commerce, and the following were agreed to among others:

Increasing the appropriation for the harbor at Wilmington, Cal., from \$20,000 to \$51,000.

Inserting the item of \$25,000 for a survey for a deep water harbor at San Pedro, Cal.

Increasing the appropriations for Yaquina bay, Ore., from \$75,000 to \$85,000.

For Gray's harbor and the Chehalis river, Washington, from \$30,000 to \$50,000, and for Olympia harbor, Washington, from \$25,000 to \$35,000.

Inserting the item of \$20,000 for a ship canal to connect the waters of Lakes Union and Washington, with Puget sound by the Smith's cove route.

Increasing the appropriation for the San Joaquin river, California, from \$50,000 to \$60,000.

Reducing the appropriation for the canal at the Cascades of the Columbia river, Oregon, from \$430,000 to \$320,250.

Inserting the item of \$185,500 for the Columbia river at Three-mile rapids.

For the mouth of the Siuslaw river, Oregon, from \$10,000 to \$20,000.

For Puget sound and its tributaries, from \$10,000 to \$15,000, and for Swinomish, state of Washington, from \$15,000 to \$25,000.

Inserting the item of \$33,000 for the Columbia river between the mouth of the Willamette river and the city of Vancouver; \$18,000 for the Willapa river and harbor, and \$10,000 for a survey of the upper Columbia river.

Frye (in charge of the bill) moved to reduce the appropriation for the harbor and bay at Humboldt, California, from \$200,000 to \$150,000, this being one of the 25 per cent reductions.

Senator Felton opposed the amendment.

Frye's amendment was agreed to.

The following amendments were also agreed to:

Reducing the appropriation for the Mississippi from the mouth of the Ohio to Minneapolis, from \$1,500,000 to \$1,150,000.

Reducing the appropriation for the Mississippi river, from the head of the passes to the mouth of the Ohio, from \$2,500,000. (The amount first recommended by the committee was \$2,750,000.)

Reducing the appropriation for a ship canal between Chicago, Duluth and Buffalo, from \$500,000 to \$375,000.

Reducing the appropriation for the Missouri, from its mouth to Sioux City, Ia., from \$800,000 to \$600,000.

All the committee's amendments having been disposed of, the bill went over until tomorrow, when it will be open to general amendment, and the senate adjourned.

HOUSE PROCEEDINGS.

Blund Again Balked in an Attempt to Secure Silver Legislation.

WASHINGTON, May 19.—The house today went into committee of the whole, Lasher of Georgia in the chair, on the sundry civil bill. The chair delivered a decision on the point of order made against Blund's amendment yesterday. It was conceded, said the chair, that the amendment changed the existing law, and, therefore, it would not be in order, unless being germane that it reduced the amount covered by the bill. The chair was unable to see how the amendment was germane, and it did not reduce the amounts covered by the bill, as it appropriated the seigniorage which might amount to \$2,000,000. He therefore sustained the point of order and ruled out his amendment.

Blund then re-offered his amendment, with the proviso attached "that the cost of this coinage shall not exceed \$93,000; \$5000 of which shall be for the coinage of subsidiary silver, and the remainder for standard silver dollars." Blund said he attached the proviso in order to remove the chair's objection that the amendment did not reduce the amounts covered by the bill. Considerable discussion followed, and finally the chair said he had heard nothing to change his opinion that the amendment was not germane, and he therefore ruled it, as modified, out of order.

Blund appealed from the decision, but the committee sustained the decision of the chair by a vote of 120 to 75.

Johnson, of Indiana, ridiculed Democrats for their action on the silver question, and said they let pass four occasions on which they might have redeemed their free silver pledge.

Cogswell, of Massachusetts, offered an amendment appropriating \$1,016,445 for continuing the work of the eleven cents.

The chair overruled a point of order

which was raised against the appropriation, but on a standing vote the amendment was defeated by a large majority. Tellers were ordered, and the Republicans having refrained from voting, the committee was left without a quorum. The roll was called and 182 members responded. When the tellers resumed their places the quorum vanished, and another roll call was ordered, but before it was completed an amicable arrangement was effected and further call was dispensed with. The amendment was rejected, the committee rose and the house adjourned.

Expense of Chinese Exclusion.

WASHINGTON, May 19.—Assistant Secretary Spaulding has written a letter to Representative Lord of California, expressing the opinion that \$100,000 will be required for the enforcement of the Chinese exclusion act approved on the 5th inst., of which \$50,000 will be needed to defray the expenses of registration. He estimates the expense of enforcing the provision in regard to the imprisonment of Chinese convicted of unlawful entry at the rate of \$200 per capita, or a total estimated expense of \$50,000 per annum. He suggests that provision for these expenditures be made in the sundry civil appropriation bill.

A REPUBLIC IN ITALY.

The Secret of the Pope's Policy Toward France.

LONDON, May 19.—The Paris correspondent of the Chronicle says: "Well-informed circles believe the pope's policy towards France is inspired by a group of Italian-French statesmen, including Bonghi and Jules Simon, who are aiming to establish a republic in Italy, thereby securing the independence of the Holy See. It is stated that the pope sought the advice of Archbishop Ireland on the relations of Catholicism to republican institutions." Rome, May 19.—The vatican has learned that the Comte de Paris will issue a manifesto in reply to the pope's anti-royalist attitude, that the royalists of France threaten the reduction of the Peter's pence contributions. The vatican, however, are satisfied that the increasing receipts from America and Australia will amply compensate for any falling off in France.

In the British Commons.

LONDON, May 19.—In the house of commons Shaw Lefevre (Liberal) moved second reading of the bill providing for the abolition of plural voting. A case referred to by the speaker was that of a clergyman who possessed fifty votes, Thomas Wallace Russell (Liberal) opposed home rule, and moved an amendment to the bill, declaring it inexpedient to carry out the one man vote principle until the number of representatives in Great Britain and Ireland were equally distributed. He said in proportion to her population Ireland should have eighty-three representatives, not 101. Russell's amendment was carried, 237 to 189.

Will Continue the Strike.

LONDON, May 19.—The Durham coal miners have decided to continue the strike which began March 12th, in spite of the great sufferings, not only among miners, but factory hands, iron workers and others thrown out of employment through the lack of coal supply. The result is that many have been compelled to accept partial relief and consequently, under the British law, have been disfranchised.

Austria's Stock of Silver.

VIENNA, May 18.—The counting of the silver currency in Austria-Hungary shows that the entire stock in the entire value of \$15,000,000, which is much less than was generally believed. It is probable that instead of any being sold, silver will have to be bought to meet the demand for small coin.

NEW SANTA FE BONDS.

Rumors of a Scheme to Raise Money for Improvements.

CHICAGO, May 19.—Rumors are current in Boston and New York that a new and important Santa Fe bond issue will soon be made. The story is that the issue will include \$100,000,000 of second mortgage bonds, which, after exchange for income bonds, will leave a surplus of \$20,000,000 for "betterments and improvements." The success of this issue would place in the hands of the Santa Fe management the funds necessary for several important extensions, the chief of which is a line into San Francisco.

WHO IS THOMPSON?

A Los Angeles Capitalist Reported Missing at San Francisco.

SAN FRANCISCO, May 19.—R. G. Thompson, a retired capitalist of Los Angeles, and who formerly owned considerable land in Napa county, arrived here last night, accompanied by his wife, and registered at the Grand hotel. They were on their way to Portland, Ore., and from there were going to Colfax to visit their grown children. Thompson left the hotel during the evening and has not been seen since. The police incline to the theory that he is the victim of foul play.

[Inquiries made in the city last night failed to elicit any information relative to R. G. Thompson, mentioned in the above dispatch. The name does not appear in the city directory nor on the city assessment roll. R. H. Thompson, vice-president of the Redondo Railway company, went north about a week ago, on his way to Portland, and his wife left a few days later to join him. It was at first surmised that he was the missing man, but a telegram from Redondo Beach yesterday evening announced that Mr. Thompson's whereabouts were known and that he was all right.]

AN ABANDONED SHIP.

Coal Gas Exploded in the Hold and Fatally Injured the Captain.

ALBANY, Oregon, May 19.—The Herald's special from Yaquina says: Last evening three boats containing eighteen men belonging to the ship St. Charles ended at Cape Foulweather lighthouse. The second mate and two sailors were badly injured. The captain is in a critical condition. The St. Charles was en route from Nanaimo to San Francisco with a cargo of coal, and on Tuesday an explosion occurred, causing the crew to abandon their sinking ship.

The explosion was caused by the accumulation of coal gas in the hold, which was ignited by a lamp going below with light. Captain Thompson was fatally injured, and the second mate and a sailor badly bruised. A big hole was torn in the stern of the ship, but fortunately the boats were not injured, and the crew got away before the vessel sank.

Viticultural Convention.

SAN FRANCISCO, May 19.—At the session of the viticultural convention today Captain Thompson, of the world's fair commission, stated that the commission had on file enough applications for aid to require \$500,000, whereas the commission only had \$300,000 at its disposal. A resolution was then introduced stating that the appropriation of \$600,000 for viticultural purposes was too small, and appointing a committee of three to urge the increase by the commissioners to \$1,200,000. Resolutions were adopted providing for the appointment of a committee of twenty-four from wine, brandy and raisin makers, cooperers, etc., to assist the world's fair commissioners.

SANTA MONICA.

THE SANTA FE ROAD WILL NOT BE BLOCKED.

How an Injunction Was Not Issued—The Plans of the Santa Fe—News Notes and Personal.

SANTA MONICA, May 19.—There has been considerable said of late in reference to the position Messrs. Kinney and Ryan have taken in reference to their suit and claim against the Santa Fe. Mr. Ryan stating that they had no thought of stopping the extension of the Santa Fe to this place.

The facts in the case are that immediately upon filing the papers in the suit they applied to Judge McKinley for a temporary injunction restraining the work, which the judge very properly denied, stating at the time: "If you gentlemen wish, you can try the case now, I am ready," which action was evidently a damper on their ardor, for they did not wish to try the case then. Now, if they did not wish to stop the work, why the application for an injunction? It seems to your correspondent that the mountain dwindled into a molehill by the action of Judge McKinley.

The Santa Fe has the grade stakes set to the depot site on the corner of Fort street and Lucas avenue. They have three miles of the distance ironed, and are ballasting and making the roadbed from gravel obtained on the Catalina branch. Opposite the otchick farm gate they will establish one of their depots, and a party has agreed to build a pavilion 600 feet long, extending to the water. Picnic grounds will also be laid out and other improvements accomplished which will make that portion of the beach and town as attractive as that further north and materially enhance the value of south side realty.

THE BERING SEA ARBITRATION.

Names of the Men Who Will Conduct Uncle Sam's Case.

Justice Harlan and Senator Morgan the American Arbitrators.

Gen. John W. Foster Special Agent of the United States—Phelps, Carter and Blodgett to Act as Counsel.

By the Associated Press.

WASHINGTON, May 19.—The American personnel of the Bering sea arbitration commission is fully decided upon. On the part of the United States, Justice John M. Harlan and Senator John P. Morgan will be the arbitrators, and ex-Minister John W. Foster, as agent of the United States, will have charge of the preparation of the case and counter-case, and will be the official representative of the house before the board of arbitration. The counsel of the United States consists of ex-United States Minister Phelps, James C. Carter of New York and Judge Henry W. Blodgett, of Chicago. By the terms of the treaty the case of each government will be admitted by the 7th of September; the counter case by the 7th of December, and the printed argument of counsel by the 7th of January, at which date the board of arbitration will hold its first meeting in Paris.

CHICAGO, May 19.—Judge Henry W. Blodgett, of the United States district court, has practically accepted the position as one of the counsel for the United States in the arbitration of the Bering sea dispute with England. The position was tendered him by the president through Solicitor-General Aldrich. Judge Blodgett has accepted the appointment, and upon the official announcement of the same by the president, will send in his resignation as United States judge.

"I shall take up no more cases in court," said Judge Blodgett, this morning, "and if I can dispose of the cases already submitted to me, by the end of the present week, I shall go to Washington next week. However, I have not yet resigned because the president may decide to appoint some one else. I think you will be safe in saying I will be one of the counsel in the case."

It is desired, I understand, that the commission take up the work in Washington next month. The position of the United States will probably not be prepared before next September, will then be submitted to the English government, and counsel will have ninety days in which to reply. The United States will be given sixty days in which to answer this reply. All this is in the treaty of arbitration between the two countries. The arbitration treaty also provides that each country be allowed two arbitrators, and that three neutral powers appoint one each. These countries are Italy, France and Sweden. The arbitrators will meet in Paris and decide the case there. I doubt very much if they get together much before next spring, consequently you can see there is at least a year's lag before the United States will probably be allowed to present its case.

The counsel associated with Judge Blodgett will be E. J. Phelps of Vermont and C. J. Carter of New York. Judge Blodgett's successor will be appointed by the president. Pending his appointment one of the circuit judges of the seventh judicial circuit will do the work of the district court.
