

KICKED OUT BY THE KAISER.

Why Bismarck Resigned the Chancellorship.

A New Version of His Rapture With the Emperor.

Bulgarian Conspirators Executed—Cholera's Advance—A Novel Test of Bravery—General Foreign Intelligence.

By the Associated Press.]

GENEVA, July 27.—The newspaper Genevoise publishes a statement made by a friend of Bismarck, whose name is not revealed, who says he entered Bismarck's study on the day of the rupture between the prince and the emperor. Bismarck was trembling with agitation and walking the room, muttering imprecations. Bismarck exclaimed: "The emperor kicked me out without consideration; me, the greatest servant of his grandfather and father!"

When he became calmer, Bismarck explained that the emperor had announced his intention to attend a fete given by Dr. Windthorst, the Centrist leader. Bismarck begged the emperor not to go, saying his presence would be regarded as a condemnation of the attitude of the chancellor in the eyes of the Centrists, his bitterest enemies, while it would cause great satisfaction to the enemies of the emperor and be an overt repudiation of the chancellor.

The emperor answered brusquely, disdainfully stamping his foot, "Are you going to dictate my very bill-of-fare?" he asked.

Bismarck replied, "Then I must resign." "I accept your resignation," said the emperor. "You may retire. Send me your resignation in writing."

CHOLERA'S ADVANCE.

Nearly All Russia Affected—Its Advent in St. Petersburg Expected.

St. Petersburg, July 27.—According to an official bulletin, 2055 cases of cholera and 1172 deaths occurred in the infested districts of Russia on the 22d and 23d. It is feared the cholera will soon appear here if the warm weather continues. The death rate along the Volga is really greater than supposed. There were 252 deaths at Saratoff on the 14th. Trade along the Volga is at a standstill.

VIENNA, July 27.—The preventive measures ordered enforced in Western Russia have not been executed, owing to the prevailing panic, although cholera has appeared at Ekaterino, Odessa, Slav and other places. The arrangements for the great military maneuvers near Charkoff will be cancelled. Large quantities of disinfectants have arrived at Constantinople for the Caucasus, but cannot proceed, owing to the fact that no ships can be chartered for Russian ports. All the ports on the sea of Azoff are affected with cholera. It is expected that the disease will soon appear in Western Crimea.

FIRE SUFFERERS.

Seven Thousand People Still Homeless at St. Johns, N. F.

HALIFAX, N. F., July 27.—The latest information from St. Johns, N. F., states that the militia still parade the street to maintain order and prevent incendiarism, which has been attempted. The condition of the poor in the burned section is worse than of those in the burned section, as they are without means of subsistence and can get no relief. Contributions to the relief actually try to burn their few belongings so as to get help. Seven thousand persons are encamped in a large field, lack of shelter being the worst feature at present. There is no want of food and clothing. The coming winter, it is feared, will realize the famine that succeeds a feast.

FOOLHARDY BRAVERY.

An Englishman and American Engulfed by Motten Lava.

CITY OF MEXICO, July 27.—Henry Adams of New Hampshire and James D. Walton, an Englishman, to settle a dispute as to the relative courage of Americans and Englishmen, agreed that the one who should first plant the flag of his nation on the crater of the volcano near Colima should be declared the winner. When they reached the mountain smoke was issuing from the crater. Their guides stopped some distance down the side and watched the adventurous climbers. When near the top there was a sudden eruption and both were engulfed in the molten lava.

AN OFF DAY.

Milanoff, Popoff and Other Odds, Heads Cut Off.

SOFIA, July 27.—Milanoff, Popoff, Chorghioff and Karanoff, the conspirators, found guilty by court-martial of plotting against the lives of Prince Ferdinand, of Bulgaria, and the Prime Minister Stambouloff, were executed this morning.

Svoboda publishes a despatch, which it claims was sent by the Russian government to its minister at Bucharest, ordering him to pay \$10,000 to the plotters concealing plans to murder Prince Ferdinand, the ruler of Bulgaria.

Norwegian Crisis Ended.

CHRISTIANIA, July 27.—At a meeting of the storting it was decided to present an address to the members of the cabinet who recently tendered their resignations, owing to the refusal of the king to sanction the establishment of separate Norwegian consulates, requesting them to remain in office and to postpone indefinitely the settlement of the consulate question. As this solution of the difficulty has been accepted by the king, the crisis is considered at an end.

LONDON, July 27.—The Standard says Lord Salisbury has instructed Sir Charles Evan Smith to remain in Morocco.

HAWAIIAN POLITICS.

Ashford and Wilcox Make It Warm for the Ministry.

SAN FRANCISCO, July 27.—Honolulu advices, per the steamer Australia, state that Representative Ashford had another tilt with the ministry during the discussion of the appropriation bill in the legislature, July 13th, and Ashford moved that no further supplies be voted for the support of the cabinet, and that the house ask for the dismissal of the ministry. A warm discussion took place during which Wilcox moved a vote of want of confidence in the ministry, charging Attorney General Whiting and Marshal Wilson and his deputies with being concerned in opium smuggling. The house adjourned but the debate was resumed on the following day, and Wilcox was granted permission, by the assembly, to withdraw his motion previously made for the appointment of a committee of five to go to Washington and treat concerning the cession of Pearl harbor to the United States. Wilcox claimed that no business of importance ought to be considered while the present ministry is in power. When the steamer left Honolulu, a report was current that the ministry had tendered their resignations to avoid discussion on Wilcox's resolution of want of confidence, which was to come up July 21st.

ALICE MITCHELL'S TRIAL.

The Fair Murderess Tells How She Killed Freda Ward.

MEMPHIS, Tenn., July 27.—In the trial of Alice Mitchell for the murder of Freda Ward, the defendant took the stand in her own defense, today. She told the story of the killing, substantially as heretofore rehearsed; she admitted her infatuation for Freda, and said she tried twice before to kill her, but was prevented; once by the publicity of the place in which she found her, and the other time by not having a razor in her pocket. She told of her intended marriage to Freda, and how she intended to raise a monstache by slaying her. She declared that she used to like Miss Joe Ward, Freda's sister, till she went on the stand and swore to a lot of lies about her; now it would not be safe for Miss Joe to trust herself in witness' power.

Miss Mitchell occasionally gave evidence of the loss of some of her heretofore remarkable self-possession.

LOST IN THE ELEVENTH INNING.

A Great Game Between Los Angeles and Oakland.

Carroll and Turner Both Make a Home Run.

Hoffman's Curves Puzzle "The Technicals"—The National League Games—The Fans Once Again Rally Around the Flag.

It was a pretty game, even if the Angels did lose, and the spectators were given the full worth of their money. There were many kinds of playing. The batting was rather light, except in a few scattering instances, while the fielding was both of the brilliant and ragged order, in about equal proportions. And then there was some umpiring. Mr. Frank Conant, in the absence of the regular league hired man, accommodatingly volunteered to stand where the crowd could yell at him and an occasional wild pitch hit him in the leg. In the main his decisions were fair enough, but once in a while there would crop out a ruling that had more whisks on it than adorn the face of the handsome Frank. But honors of this class were quite evenly divided, and no one side has a kick coming on that score.

The run getting commenced in the first inning, when Oakland scored one in their half. Manassau was given his base on balls and stole second. Hutchinson went out on an easy fly to Lytle. Then O'Brien struck a hot liner which hit Balz on the ankle and bounded out of the diamond past third base, and before Hulon could field the ball, Manassau had crossed the plate.

In the third, Wilson opened up for Oakland with a hit, and took second and third on passed balls. Homer walked to first, and Manassau's sacrifice scored Wilson.

Then Los Angeles got in and danced a little. Tredway opened with a safe hit and stole second. Glenaville's single advanced him to third, and he scored on the old play of the throw to second to head off Glenaville. Lytle's hit scored Glenaville.

Tom Turner, the terror, distinguished himself in the fourth inning by knocking the ball over the right-field fence for a home run.

In the sixth the Angels were favored by fortune, the deadly base on balls, and a few costly errors. Tredway walked to first. Manassau dropped Glenaville's fly to short left. Lytle's cut advanced the runners one base, and O'Brien's error of Roper's grounder and Hulon's hit scored.

And thus the score stood, 4 to 3, until the last half of the ninth inning, when Carroll tore off another home-run hit over the left-field fence. This tied the score, and no more runs were made until the last half of the eleventh, when O'Brien's two-base hit, with Carroll's single and Turner's safe hit scored the winning run.

Following are the official words and figures:

STOLEN BASES.

Points about the Eleven-Innings Game.

A red-hot game from the start.

Both the home runs made by the Oaklanders went dangerously near the foul line.

The game yesterday was the first eleven-innings game played by the Los Angeles club on the home ground.

Stafford cut off a base hit, and Glenaville and McCauley put up starting good ball.

Strange to relate, the errors made yesterday did not prove costly.

Tredway made a couple of splendid catches yesterday. He pulled down a foul hit that it seemed almost impossible to get.

Hulon did some tall batting yesterday. He secured four hits, which was half of those made by Los Angeles.

Rogers made a clever catch of an awkward high foul, and did fairly well behind the bat. His throwing to bases was only fair.

Newman may be seen behind the bat this afternoon. He is anxious to get back to work.

Roach and German will be the opposing pitchers this afternoon.

The Colonels have won five out of the last six games played, and Colonel Robinson bired the Los Angeles theater last night, to show that he was strictly in it.

THE DUKES DOWNED.

First Game of the Second Season Won by Frisco.

SAN FRANCISCO, July 27.—The first game of the second season was played here this afternoon between the "Frisco" and San Jose. The fielding was excellent and the hitting fair. Hoffman pitched a strong game for the home club, and outside of the first inning kept the San Josees from hitting. San Francisco won by a score of 5 to 2.

COLONEL ROBINSON HAPPY.

His Team is Now Tie in the Lead with San Francisco.

Colonel Robinson was as happy last night as a young girl on a summer vacation at a seaside resort. His team of high-priced stars did no longer occupy

the tail end, but were now tie in the lead. The colonel has already forgotten the first half and is now talking about a fast finish between the Angels and the Colonels. Listen to the colonel for a few minutes and you are bound to catch his enthusiasm. "We can't lose," he confidently remarked to a Herald man. "We'll have the greatest minor league team in America. Don't see how these other clubs will manage to keep up in the race. May exchange O'Brien for Denny. The latter wants to play with the Colonels and Finn wants a second baseman. Denny and the new man O'Brien that I have signed for first base, will strengthen the team. Then I have Burrow, a left-handed pitcher, on the road. I got him just to put in against Los Angeles."

WASHINGTON, July 27.—It was a close game up to the sixth inning, when the colts easily piled up enough runs. Washington, 2; hits, 5; errors, 5. Chicago, 7; hits, 10; errors, 0. Batteries—Dwyer and McGuire; Hutchinson and Schriver.

CHAMBERLAIN SLIPS UP.

BOSTON, July 27.—Chamberlain was effective most of the time, but finally slipped. Boston, 5; hits, 11; errors, 3. Cincinnati, 4; hits, 7; errors, 3. Batteries—Sivertis and Kelly; Chamberlain and Vaughn.

Queen Isabella's Progress.

Mrs. Martha J. Lamb, in a delightful paper on "Columbus and His Times," read before the graduating class of Gardner school, expressed some facts concerning Queen Isabella from which the women of today may draw a lesson of modesty. It is to be feared the British government desires the island as a station along the line of their proposed telegraph cable from Honolulu to New Zealand.

The Dalton Gang Again at Their Tricks in Oklahoma.

EL RENO, Oklahoma, July 27.—This morning, while Mrs. S. W. Sawyer, wife of the president of the bank, was at the paying teller's window, two men entered the bank and compelled her at the point of a revolver to hand out all the money in the vault, amounting to \$10,500. They then rushed to the door, mounted horses and made good their escape. The robbery is believed to be the work of the Dalton gang. Hundreds of armed citizens soon started in pursuit, headed for the Dalton rendezvous in the Granite mountains.

SWARMS OF HOME-SEEKERS.

Bustling Scenes at Tres Pinos and Vicinity.

Forfeited Railroad Lands Opened to Settlement.

Many Land-Grabbers From San Francisco Filing Claims—Old Settlers Proving Up Their Property.

By the Associated Press.]

TRES PINOS, Cal., July 27.—Some excitement attended the opening of the land grants today. Settlers in farm wagons poured through the town continually during last night and today, some going to, and others coming from the county clerk's office at Hollister. These were generally old settlers who have no doubt been able to prove their residence on the land and the cultivation of it. The San Francisco land hunters who have rushed into the country during the past week, have gone to San Francisco to make their entries at the land office. This town is crowded with land seekers who have not yet made selections, but many of whom are waiting for the stage to depart in the morning for Panoche and Vallecitos, which the squatters think are the choicest places for settlement. Old timers are affected very little by the opening of the land, but the new-comers are nervous and excited. There has been no violence, however, outside of a few fights where two settlers have located upon the same quarter section. A few hardy women are here to take up claims, and will probably secure lands.

JOHNSTON ISLAND.

The British Flag About to Be Raised Over It.

SAN FRANCISCO, July 27.—The steamer Australia brought word today that the British cruiser Champion left Honolulu, July 13th, for the southwest, and it was thought in Honolulu her mission was to annex Johnston or Cornwallis island, which lies 700 miles southwest of the island of Oahu. Johnston island consists of a number of rocky islets on a coral formation, and was discovered by Captain Johnston, of the British man-of-war Cornwallis in 1807. The Pacific Guano company, of San Francisco, raised the American flag there some time ago, when engaged in collecting guano. It is thought the British government desires the island as a station along the line of their proposed telegraph cable from Honolulu to New Zealand.
