THAT story from Panama that the board of canal directors have resolved to go ahead and finish the canal sounds all right as a simple proposition, but when comes the money? England didn't bite, and France has already been bitten.

In the death of Mrs. David Hewes, sister of Mrs. Leland Stanford, the poor of San Francisco have lost a great-hearted and sympathetic friend.

A Los Garos piano forte maker is about to build one of those instruments entirely of redwood for exhibition at the World's fair.

That editorial in the Sacramento Bee, warning both Cleveland and Harrison to look out for Weaver, in the coming presidential election, is only a case of the mischievous by calling out "wolf."

SHIPS are being chartered in New York, the load assorted cargo for San Francisco at the low rate of 7 per ton. This, of course, is attributable chiefly to the Russian famine, owing to which ships are glad to take freight at almost any rate to San Francisco if they can only get a return cargo of wheat.

WHEN you go to catch a thief and a gun-fighter, be sure that you "take the drop" on him. Don't let him take it on you or the services at the grave will be very interesting—to your friends. They will be singing hymns, of course, but you won't hear them.

INGALLS' visit to Europe is said to be to post himself on labor all over the civilized world, so he can make rose-colored speeches to the workmen, in September and October, on the beneficent workings of the McKinley bill. He can save himself the trouble. The Homestead outbreaks, which have arisen since the talking skeleton crossed the Atlantic, have thoroughly awakened the workmen to the duplicity of such tariff shouters as Ingalls. He is liable to be any one of a dozen things before he again holds down a seat in either house of congress.

MAX POPPER, of San Francisco, chairman of the Democratic state central committee, will arrive here today to lead the political field over. As he is a man of commercial antecedents, we believe he will be heartily welcomed by our business men, regardless of any political distinctions.

ductive country in America. While Seattle has behind her only desolate pine forests, and Portland is wholly dependent upon grain shipments to Europe, our own city has behind her orchards that yield from \$200 to \$800 per acre. The slow and slavish farming that contemplates nothing but the cereals to be marketed at the other side of the world has long been abandoned and forgotten.

It is impossible to read the accounts of the Collis outrage, on the line of the Southern Pacific railroad, without being satisfied that, while our criminal statutes are good as far as they go, still they are defective and do not go far enough. When our present laws for the punishment of robbery were designed, dynamite had not yet been invented.

Herein lies work for the next legislature. Our criminal code should be amended so as to punish dereliction of trusts, otherwise than by use of dynamite, by imprisonment for life; and in all cases where this deadly explosive is used, the offending party to be executed, either by hanging or electricity, whether any lives are lost or not.

A man fancies himself injured by another and loads up his rifle. He kills that man coolly and deliberately, and, after trial and conviction, we hang him for it. If the death penalty is a legal and fitting one for the man who starts out with fixed purpose to kill some particular person, is it any too severe for the reckless villain who deliberately puts dynamite under a railway coach, not knowing nor caring whether he is going to kill one man or twenty? More-over, death ends every man's sufferings and, in many cases, a man might as well be dead as reduced to the condition of a helpless cripple and an object of public charity.

Hence we say, never mind whether the outrage by dynamite is attended by fatal results or not, hang the perpetrator. This is a matter of great importance to Los Angeles people, most of whom have to travel by train between here and San Francisco. Dynamite means a chance of fire, and fire means a chance for repeating the holocaust of Tehachaps. We are aware that such laws are sumptuary in their nature, and at variance with the traditional features of a republican form of government, but there is nothing in a republican form of government, as founded by the fathers of '76, which contemplates the use of dynamite. We are brought face to face with an unexpected danger and must meet that danger in the best possible manner. Once give the train robber to understand that he will be hanged whether he kills anybody or not; and he may not feel quite so ready to use his dynamite cartridges to derail the trains.

HOME, TILL AFTER ELECTION.
The first session of the fifty-second congress, which adjourned last night, was no worse than its immediate predecessor, and, in many respects, vastly better. It did not vote away the people's money with the same alacrity to draw warrants on the treasury, without waiting to see if a proper equivalent was being rendered; nor were the majority as slavish in their obedience to the dictation of King Caucus as was the majority in that house of representatives which Czar Reed said he thanked God was not a deliberative body.

And adjournment would have been had two weeks ago but for the appropriation for celebrating the world's fair at Chicago next year. The appropriation of five millions was deemed excessive, as no other city but Chicago was to reap any pecuniary benefit from the fair; and finally the resolution of Mr. Durborrow, of Illinois, appropriating two and one-half millions to the fair, was taken up and passed without any serious objection. This being all that was holding them together, there was nothing to wait for, and the members, only too glad to get away from the malarial effluvia of the Potomac marshes, adjourned sine die and returned to their respective homes.

The silver question occupied a good deal of unnecessarily expended time, and to no practical purpose. The thing which most astonished everybody here was that the silver advocates should have forced the question to an issue with so little positive numerical strength. The silver question is not dead but sleepeth, still Senator Stewart and the bigger guns of the movement must necessarily lament considerable wasted ammunition.

THERE was lots of shouting last night over the ratification of Lindley's nomination for congress. Well, let 'em shout. We will see when the end comes, that he shouts best who shouts last. Mr. Lindley is a very vulnerable man, and the easiest man to beat that the Republicans could have nominated.

REFRIGERATED fruit from California did not "catch on" in London as was expected. What the retail trade fears is that the fruit will not keep long enough after being exposed to the air,

to enable dealers to dispose of it without loss. Never mind, the peach crop is a failure in Delaware and Maryland, and New York still affords a good market for all we can send her.

THE "power of the press" in England is well exemplified by the fact that the next house of commons will contain thirty-five newspaper men, either editors or proprietors of journals. The newspaper is as great a political factor in Great Britain as elsewhere.

GENERAL BIDWELL was officially notified of his nomination on the Prohibition ticket, yesterday, at San Francisco. His notification has about as much significance as the speech of the stage super, who says: "My lord, the carriage waits."

IN SOCIETY.

Mrs. A. B. Roth and the Misses Roth left on the steamer Santa Rosa, from Redondo yesterday, for a pleasure trip to San Francisco. They were the recipients of a grand surprise party Thursday night, the guests assembling at the residence of Mrs. Ducommun, on Grand avenue, from whence they proceeded in a body to the Roth residence, on South Olive street. Those present were: Mr. and Mrs. A. B. Roth, the Misses Roth, Mr. and Mrs. H. Barting, Mr. and Mrs. S. Urquiza, Mr. and Mrs. Ed. Roth, Mr. and Mrs. Dubais, Mr. and Mrs. Elias Cohn, the Misses Sterns, Ducommun, Germain, Kalisher, Barting, Norton, Greenbaum, Grodel, Spear; Messrs. E. Germain, Charles Ducommun, A. Roth, E. Roth, L. Brode, A. Loeb of Paris, S. Levy, I. Gotthelf, F. Rosenstern, A. C. Golsh. They were royally received and entertained. The Misses Roth favored the company with several beautiful duets. Miss Bertha Roth gave an excellent solo, and Mrs. Urquiza rendered several selections on the piano in a masterly way. After recitations and dancing, a sumptuous lunch was served, interspersed with speeches and toasts to the ladies, that they might have a joyous journey and a speedy return.

One of the most delightful entertainments of the season assumed the shape of a concert gotten up by the officers of the National Military home at Santa Monica, inaugurating the new library and dedicating a most magnificent grand piano, the gift of Messrs. Steiny & Co., of New York. No pains were spared to make the affair a success, and all the participants did so well that it would be almost impossible to particularize any item of the programme as deserving of especial mention.

It is reported that to Miss Fulton, of New York, belongs the credit of having suggested to the Messrs. Steiny and Co., of New York, that they should make the affair a success, and all the participants did so well that it would be almost impossible to particularize any item of the programme as deserving of especial mention.

Mr. John Lockridge and Miss Irene Mathews were married at the M. E. church at 8:30 o'clock Thursday evening. The church was filled with friends to witness the ceremony, which was performed by Rev. J. Pointer. Mr. Walter Butler and Miss Mollie Seals were the attendants. After the ceremony a reception was tendered the bride and groom at Mr. Beneman's, on Twenty-first street. The presents were numerous.

Mrs. L. Gutman, of San Francisco, is in the city on a pleasure trip, as the guest of Mr. and Mrs. George J. Isaacson.

Mrs. R. F. Donegan, who is spending the summer at San Pedro, came up to the city yesterday.

Professor R. L. Kent has returned from his outing at Strawberry valley. He leaves today for Avalon.

Mr. and Mrs. J. M. Davies, Miss Maud Reece, and Dr. and Mrs. White leave on the steamer today for Catalina.

Will Wilson is reported to be in the swim at the Strawberry valley.

LETTER BAG.

The Growing Democracy.
EDITORS HERALD: Recognizing in you champions of Democratic principles, I write to you on a matter which should receive the undivided attention of the juvenile Democracy, viz., the necessity of establishing and maintaining a juvenile Democratic club. Such a club the Republican boys already have, and such one we should have; we could meet, discuss the questions that are now clouding the political atmosphere, and although we may not solve them, we can at least get the benefit of discussion and of the views of others, to relieve us of mistaken impressions or to strengthen our belief and arguments in favor of the glorious principle, Democratic principle, of tariff reform.

Again, we could arrange with the Republican boys' club for series of political debates, which should certainly mutually benefit all concerned. Can you not devise some means by which we can organize, and partake in future political demonstrations? We have only you to rely upon, and we hope that your taking up this question will be productive of successful results. It seems to me that if some old Democratic stand-by offer his office or hall on any place where we can meet and organize, we would then get started on the road to success. The above are sentiments of many Democratic youths whom I have personally met and, I do not doubt, of many more whom I have not met.

Treating that you will give some of your valuable space and time to this request. AN ENTHUSIASTIC JUVENILE DEMOCRAT.

A Card from Mr. Stinson.
EDITORS HERALD: Will you please state that it is not true as stated in your morning issue that "in order to get control of the property on the corner he had to purchase an interest in the bank." I have not purchased any stock in the Citizen's bank since last January, and none has been offered to me since that time. I bought my stock in the Citizen's bank because I regarded it as a good investment, and I am so well pleased with it, that I will pay a reasonable premium for any of said stock that may be for sale. The Citizen's bank and Prof. Lowe, president of the Safe Deposit and Trust company, willingly and cheerfully agreed to give me possession of the corner for my new building, at great inconvenience to themselves. Respectfully, G. D. STINSON, August 5, 1892.

CONGRESS ADJOURNED SINE DIE.

An Appropriation Made for the World's Fair.

The Durborrow Bill Passed by Both Houses.

The Sundry Civil Bill, as Finally Accepted, Carries an Appropriation of \$27,827,000—Scenes of the Closing Session.

By the Associated Press.

WASHINGTON, Aug. 5.—At noon today the house assembled in committee of the whole for the consideration of the Durborrow World's Fair bill. Cummings of New York attacked it bitterly, characterizing it as an attempt to rob the treasury.

Follows of New York defended the bill.

The debate continued till 1 p. m., much of it being entirely foreign to the question. At 1 o'clock the chairman stated that, under the orders of the house, the committee must rise. The committee rose and the bill was reported to the house, the pending amendment being the substitute of De Armond of Missouri for the first section, providing that if the exposition deposits at the mint enough silver bullion, it shall be coined for the exposition in any amount not exceeding \$5,000,000. The substitute was defeated, 76 to 139.

The roll was then called on the passage of the Durborrow bill, the vote resulting: Yeas, 181; nays, 83.

A motion to reconsider was laid on the table, after Bailey of Texas made a futile attempt to filibuster. This passes the bill finally in the house. It was at once enrolled and taken to the senate, but before it could be presented the senate went into executive session.

On motion of Houk of Ohio, the senate joint resolution was passed, authorizing foreign exhibitors at the world's fair to bring into the country foreign laborers to assist in preparing exhibits.

Boatner of Louisiana submitted a majority report on the Watson charges, and it was ordered printed; so also were the views of the minority, signed by Simpson, of Kansas. Grout of Vermont submitted his individual views.

A recess was then taken until 7 o'clock.

EVENING SESSION.

At the evening session, the senate joint resolution was passed extending to the king and queen of Spain and the descendants of Christopher Columbus, invitations to be present at the opening of the world's fair.

The Durborrow bill came over from the senate, and Holman presented the conference report on the sundry civil bill. Holman stated that the bill, as finally agreed upon, appropriated \$27,827,000. This is \$9,600,000 less than the bill as it passed the senate, and \$2,614,000 more than as it passed the house.

O'Neill of Missouri, author of the provision in regard to the Pinkerton amendment, strenuously objected to the compromise suggested on it. The compromise, he said, was a miserable makeshift. It was a backdown on the part of the house.

Simpson, of Kansas, regarded the conference report as a cowardly surrender of the house of representatives to the aristocracy of the senate.

After further discussion the conference report was agreed to, 189 to 14, disposing of the last appropriation bill. On motion of McMillin, a committee was appointed to join a similar committee from the senate, to wait on the president to inform him that congress was ready to adjourn.

A message was received from the senate announcing agreement on the sundry civil appropriation bill.

The speaker laid before the house a resolution for final adjournment at 11 o'clock tonight, and it was agreed to, without objection.

The committee appointed to notify the president returned and stated that the president had no communication to make, and the hour of 11 o'clock having arrived, the speaker declared the house adjourned without day.

SENATE PROCEEDINGS.

The Durborrow World's Fair Bill Received From the House and Passed.

WASHINGTON, Aug. 5.—The senate waited some time, after convening, today, for a message from the house, then went into executive session and confirmed a batch of nominations.

During the executive session a message was received from the house with the world's fair bill. After the doors were reopened, it was laid before the senate in regular session.

Veet said if he could defeat it by any sort of parliamentary tactics, he would do so cheerfully. Cockrell, George, White and Harris also said they were opposed to the bill.

Cullom said the people of Chicago were willing to share proportionately in the profits of the fair, if there should be profits, but the house had not put that stipulation in the bill, and it would be dangerous to do it now.

After some further colloquy, Sherman said the people of Chicago had already done more than they promised.

The bill was then put to a vote and passed. After some further business, a recess was taken till 8 p. m.

At the evening session, Pettigrew, chairman of the quadro-centennial committee, called up the resolution to authorize a committee or sub-committee to visit Chicago during recess and

DR. PRICE'S DELICIOUS Flavoring Extracts NATURAL FRUIT FLAVORS.
Vanilla - Of perfect purity.
Lemon - Of great strength.
Orange - Economy in their use.
Almond - Flavor as delicately and deliciously as the fresh fruit.

The Columbia Colony in Southern California!

6520 Acres Offered by the Southern California Land Company. 1630 Shares at \$100 Each in Installments of \$5 per Month Without Interest.

NOT A LAND DISTRIBUTION, BUT AN INVESTMENT OF MONEY! Each Share will Earn Five Per Cent Per Month on Each \$100 for Five Years From the Date of the First Subscription, and Has the Best Real Estate Security.

Books of Subscription Now Open at the Office of the Company, 230 North Main Street, Adjoining the First National Bank, Where the Prospectus in Full Can Be Obtained.

Sixteen hundred and thirty shares at \$100 each will buy the Fowler Ranch of 6520 acres, with the present improvements and the prospective improvements to be made by the present owners at a cost to them of \$30,000. This splendid property is situated on the border line of Tulare and Kern counties, four miles west of the Valley Road of the Southern Pacific railroad, and four miles north of the branch line to the oil wells, and twelve miles west of the present line to San Francisco. A survey of the Santa Fe line has been made through the western portion of this tract.

PROSPECTUS: We are soliciting subscriptions for shares in an incorporation to be organized for the purpose of buying from the present owners the Fowler ranch, containing 6520 acres, situated on the border line of Tulare and Kern counties, for \$25 per acre, with its present improvements and with \$30,000 of improvements to be made by the owners and included in the price of \$25 per acre, as stated. This is not a land distribution, but an investment of money, with return of money and profits, by dividing the tract into acre subdivisions, and after the improvements are made, selling at a future period at \$100 or more per acre. There will be 1630 shares in the corporation at \$100 each, to be paid for in 60 monthly installments without interest. On the sixth payment the subscribers will incorporate, and the trustee then will receive a deed for the 6520 acres, in escrow, clear of all incumbrances, with the certificate of title attached of the Abstract and Title Insurance Company of Los Angeles, to be delivered to the corporation when the purchase money is paid. The \$30,000 proposed improvements guaranteed by a deposit in bank of that amount, to be paid out to the contractors on certified vouchers, as they progress with the work.

DESCRIPTION OF THE PROPERTY. The land is a rich black loam, and is known as the Fowler ranch. It was purchased many years ago by the late Senator Tom Fowler, when he had the opportunity of obtaining the cream of Tulare and Kern counties. It is in the center of the arcedian, fruit and alfalfa belt; has upon it now a sample artesian well flowing 80,000 gallons, and is in the immediate vicinity of the largest flowing wells in the state.

The Present Price, and What the Investment Will Pay. The low rate of the purchase, \$25 per acre, with all the present and the proposed improvements herein recited, made and paid for by the present owners, at a cost of \$30,000, enables us to guarantee at the lowest rate of sale in the future, say \$100 per acre within five years, an interest of ten per cent a month on each share of \$100 from the date of subscription.

This tract has one section already fenced, a colony house, the present flowing well, large reservoir, etc. The improvements to be made by the present owners will consist of an irrigating canal of twelve miles, six more artesian wells, as feeders, survey and division into 40-acre tracts, survey and laying out of the town of Colonna, broad avenues through the entire property planted with trees, etc.

How the 5 Per Cent Per Month on Each \$100 Is to Be Earned for the 5 Years. Many well-known citizens thoroughly versed in the capabilities of lands in Southern California, and who have set forth of \$100 per acre within five years, and assert that within five years this splendid body of land, improved as proposed, with the water conveyed to each tract, will command readily and quickly \$200 per acre. But we place it at the low figure named, \$100 per acre, and any larger amount that it may be sold for will increase the percentage which we claim it will earn at our figures.

6520 acres at \$25 per acre, with the improvements included ..... \$163,000 00
Interest at 5 per cent per month from commencement of subscription to the end of the 5 years on 1630 shares ..... 489,000 00
\$652,000 00

Sales of 6300 acres at \$100 per acre ..... \$630,000 00
Sales of 880 town lots of 1/4 acre each ..... 44,000 00
\$674,000 00

This would leave a surplus of \$22,000 after paying the interest of 5 per cent per month. This surplus would meet all expenses for the full term: salary of superintendent, taxes, expenses attending sales, and any extra improvements that the trustees might deem necessary.

Placed Before the Public for Investment.

The Southern California Land Company of Los Angeles now places this tract before the public, and strongly recommends it for the investment of large or of small amounts. This company has conducted in the past seven years many large successful land deals in Los Angeles, its vicinity, about its ranch, and its references include the leading citizens of Southern California. Its clients have numbered hundreds of investors in the Childs tract, Fremont tract, City Center tract, etc. Its dealings have amounted to hundreds of thousands of dollars, and it stands today one of the most popular firms in this section of the state.

An Interest of Five Per Cent Per Month Must Arrest Attention.

An investment with perfect security and earning 5 per cent per month on each \$100 share for a term of five years from the date of the first payment of \$5, must arrest the attention of everyone. It will also be borne in mind that should the stockholders elect to sell at \$100 per acre within, say two years and a half, at the end of the time that we here propose, their investment will net them 10 per cent per month for that period.

Full Security.

This is not a land distribution, but an investment of money with return of money and interest. Building associations and savings banks are all founded on real estate security and pay from 5 to 8 per cent per year. Here you have not only the best real estate security, but your investment earns FIVE PER CENT per month, and at the same time you own your own portion of the land, 4 acres to each share, until it is sold by your own trustees, and then you have your division of the profits.

For further information required will be promptly answered by mail or personally at our office. A map of the tract with present and prospective improvements, etc., is ready for inspection.

SOUTHERN CALIFORNIA LAND CO., 230 N. Main St., Adjoining First National Bank, Los Angeles, Cal.

inquire as to the expenditures of the money appropriated by congress and as to the general management. Coke moved to amend the resolution so as to provide that the visit be at the expense of the committee. [Laughter.] The amendment was laid on the table, and Pettigrew's resolution adopted.

At 9:25 a message from the house announced that that body had agreed to the conference report on the sundry civil bill. The report was thereupon laid before the senate and agreed to.

Some remarks were made by Mauderson, Allison and Cockrell on the work done during the session, and at 10:20 the vice-president's signature to the sundry civil bill was announced.

A resolution for final adjournment at 11 o'clock tonight was reported and agreed to. A committee of two senators was appointed to wait on the president and inform him that unless he had further communication to make, the two bodies were now ready to adjourn.

Resolutions of thanks to vice-President Morton were presented and adopted. Then the committee appointed to wait on the president reported that the president had no further communication to make, and at 11 o'clock vice-President Morton made his farewell speech, after which he declared the senate adjourned without day.

Bidwell Notified.

SAN FRANCISCO, Aug. 5.—Gen. John Bidwell, of Chico, was officially notified last evening of his nomination for the presidency by the Prohibition party, and replied at some length, accepting the nomination. A meeting was held at Metropolitan temple, which was largely attended.

Found.

At the drug store, a valuable package, worth its weight in gold. My hair has stopped falling and all dandruff has disappeared since I found skookum root hair grower. Ask your druggist about it.

Long Beach Camp Meeting.

The Terminal railway will sell round-trip tickets from July 29th to August 10th at 70 cents.

It is Positively a Fact.
