CLASHING OVER CHOLERA.

The Old Trouble Revived at New York.

Federal and State Authorities Fall Out.

Complications That Threaten Serious Consequences.

The Situation at Quarantine Shows Little Improvement—Fire Island to Be Purchased as a Camp of Refuge.

By the Associated Press.]

New York, Sept. 10.—The apparent unanimity and co-operation between the state and federal authorities, which existed Friday, has been broken off, and in the face of a dreaded epidemic there is a clash of authority and a sudden cessation of friendliness between Dr. Jenkins and Secretary Foster. Secretary Foster said tonight that Dr. Jenkins visited Sandy Hook in company with himself, Dr. Hamilton, Dr. Bach and other officials, and agreed that it was admirably fitted for the purpose of a quarantine camp. He had now, however, changed front and evinced a sudden hostility to all that the government offered. Secretary Foster says Dr. Jenkins refused the medical assistance the marine service tendered him, and refuses any federal aid, saying he is simply able to cope with the emergency, without any assistance from the general government. In the meantime the government is going ahead with the work at Sandy Hook.

AT LOWER QUARANTINE.

At present the situation at Lower Quarantine is as follows:

Scandia—Thirteen dead, (two since arrival) eleven sick and twelve suspects. Moravia—No cases for five days, and cholera practically stamped out. All the passengers on board.

Rugia—No cases and all the passengers on board.

Normannia—No passengers on board and no cases at present.

The Stoinington—The cabin passengers of the Normannia on board, all in good health.

Hoffman island—The steerage passengers of the Normannia in good health.

At Swinburne island—Twenty-five sick persons and sixty-three suspects. On Monday, it is expected, the cabin passengers of the Normannia will be transferred from the Stoinington to Fire Island. The cabin passengers of the Rugia will be put on board the New Hampshire. The steerage passengers of the Normannia will be taken from Hoffman island to Sandy Hook, and the Rugia's steerage passengers will take their place.

In addition to the deaths already reported on board the Scandia, two occurred today; eleven are reported sick, and two as suspects.

VESSELS RELEASED.

After a thorough course of fumigation and disinfection, and after every person on board was put in such condition that it was practically impossible for them to convey contagion to the city, three steamers were released from quarantine this afternoon. They were the Britanic, from Liverpool; the Joseph John, from Hamburg, and the Zaandam, from Antwerp.

The immigration agents of this city, whose business it is to forward new arrivals at this port to their various destinations, are much disturbed over the announcement made by the Illinois board of health, refusing admission to all immigrants into the state unless they bear certificates from the health and immigration officials of New York that they are free from disease, and that their baggage and belongings have been thoroughly disinfected.

GOTHAM'S GOOD HEALTH.

The board of health issued the following bulletin this afternoon: "There are no cases of cholera in the city today. The number of deaths for the week ending at noon today, was 731, against 747 in the corresponding week of last year. The deaths from diarrhoeal diseases numbered 92, which is less than in any corresponding week since 1870, although the population of the city has nearly doubled since. There were no deaths during the week from typhus or small-pox. The health of the city is unusually good in every particular."

The steamships which left for Europe today all sailed with very small lists of cabin and steerage passengers.

It has been ascertained that since Monday two secret representatives of the Canadian government have become fully informed as to what is being done here to prevent cholera from entering the city. Upon the report of these secret agents, it is said, depends the question whether the Canadian government will establish a complete and rigid quarantine by water and rail against New York. The steamship Odbam, now at upper quarantine, has on board perhaps the largest exhibit which will be sent from abroad to the Chicago fair. The shipment in question consists of a German village of 6500 pieces, and will be erected on the fair grounds.

THE SANDY HOOK CAMP.

Governor Abbott Protests Against the Landing of Passengers.

LOON LAKE, N. Y., Sept. 10.—The president passed the day very quietly. Governor Abbott, of New Jersey, has protested against the use of Sandy Hook as a camp for passengers from the quarantined ships, saying New Jersey only ceded the territory for military purposes. He also complained that infected articles were thrown into the bay from the quarantined vessels, thus endangering the health of the places where they might be washed ashore. These had the president's anxious study, and the Governor Abbott he replied that the attorney-general had been directed to examine the question raised as to the right of the United States to use the Hook as a camp for detained passengers, and the secretary

of the treasury had been instructed to see if a camp were established, that absolutely safe precautions be taken against any communication by the passengers with the main land or inhabited shore, and also to warn the steamship companies that the throwing of articles from quarantined ships into the bay, must be stopped.

A FIGHT OVER FIRE ISLAND.

Its Purchase Authorized, but Resisted by the Neighboring Inhabitants.

SYRACUSE, N. Y., Sept. 10.—Governor Flower today authorized Health Officer Jenkins to agree to the terms of David S. S. Samis, owner of Fire Island, which the health officer wishes to purchase for a quarantine station. Samis demands \$50,000 before the passengers are landed, and \$160,000 guaranteed to be paid within six months.

BAY SHORE, L. I., Sept. 10.—A large mass-meeting was held here tonight, delegates being present from ten or twelve miles distant, to take action concerning the proposed sale and use of Fire Island for a cholera station. A resolution was adopted instructing Health Officer Baker to board all vessels and employ the men and means required to prevent persons landing at Fire Island from any and all vessels or transports exposed to cholera.

A telegram was sent to Health Officer Jenkins forbidding the landing of cholera subjects, and stating that force would be used to prevent it. A large number of men volunteered services, were sworn in as deputies, and went on duty at once. A sentiment of indignation prevails, and an order has been given to use every lawful means to prevent the use of Fire Island for quarantine purposes.

THE PLAGUE ABROAD.

Press Reports of the Situation in Hamburg Exaggerated.

BERLIN, Sept. 10.—(Copyright, 1892, by New York Associated Press.)—The Berlin authorities consider that the foreign press exaggerates the condition of affairs in Hamburg. Cholera is bad enough in the poorer and older quarters of the city, but the middle and upper classes would not have known of the existence of the epidemic, except for the information gleaned through the newspapers. If Hamburg were polluted through its bounds, the imperial board of health would have assented to the suggestion of the alarmist to isolate the city and suburbs, and interdict all communication with them. The ministers, however, took special advice of Professor Virchow, Professor Koch and other authorities, and arrived at the conclusion that a rigorous system of surveillance would be sufficient protection.

A large number of fugitive families from Hamburg have now sought shelter at places in Mecklenburg-Schwerin, and disease is almost unknown among them. Not a single case requiring cremation has occurred here since the ministers' assent to cremation was given.

A matter of fact, Berlin is remarkably healthy. Among the public here the scare has utterly vanished. Even the hotels have now ceased to reject guests from Hamburg. A panicky feeling, however, continues to prevail in the rural districts.

Business reports from Hamburg grow worse. It is estimated that the financial and commercial losses there already reach a total of 200,000,000 marks.

ROTTERDAM, Sept. 10.—Isolated cases of cholera are reported in this city, and also in the Netherlands and the towns of Bissen, Maasland and Dedemysaart.

PARIS, Sept. 10.—Sixty-nine additional cases of cholera yesterday, forty-four deaths.

LONDON, Sept. 10.—It is learned that cholera has again made its appearance in Teheran, and that the disease has assumed an epidemic form.

WASHINGTON, Sept. 10.—The department of state today transmitted to the treasury department the following dispatch from the United States consul at Naples: "Two deaths at Capri from a disease resembling cholera. Naples is healthy."

St. Petersburg, Sept. 10.—Again the hopes that cholera had spent its strength have been dashed to the ground. Yesterday's returns from the whole empire show an increase of 918 new cases, and 927 deaths, as compared with the previous day.

HAMBURG, Sept. 10.—If any reliance whatever may be placed upon the official statistics, the cholera scourge continues to abate here. Yesterday 182 new cases were reported, a decrease of 211 as compared with the previous day. The number of deaths yesterday were placed at 132, as against 214 Thursday. The daily reports, however, continue to remain badly mixed up, as is evidenced by a supplementary report issued today, giving 128 new cases and 41 deaths, that occurred prior to yesterday and were not incorporated in previous reports.

HAVRE, Sept. 10.—An increase of new cases of cholera in this city is shown in the official figures this morning. On Thursday eleven new cases were reported, while yesterday there were fourteen. The deaths yesterday were the same as on Thursday—ten.

No Cholera in Chicago.

CHICAGO, Sept. 10.—The cholera scare in this city suddenly collapsed this morning on the official announcement that Albertina Larsen, the Swedish immigrant who died here last night, died of heart disease instead of cholera. This is the official report of the health authorities. There are no indications of cholera in Chicago.

The Vermont Election.

WHITE RIVER JUNCTION, Vt., Sept. 10.—Returns received from all of the 248 towns in the state, excepting Roter and Standard, assuming the vote of the two towns to be relatively the same as the towns reported, make Fuller's majority over Smalley 19,625, and over all 17,900 in the whole state.

The Second Dividend.

WASHINGTON, Sept. 10.—The comptroller of the currency has declared the second dividend of 10 per cent, in favor of the creditors of the California National bank, of San Diego, California, making in all 20 per cent on claims proved, amounting to \$718,338.

Death of a French Comedian.

PARIS, Sept. 10.—M. Daubray, the celebrated Palais Royal comedian, died today.

POLITICAL GREAT GUNS.

Opening of the Republican Campaign in Ohio.

A Ponderous Array of Oratorical Talent.

Reid, Foraker, McKinley and Other Hackneyed Orators.

Assuring Evidence of Democratic Unity in New York—Gen. Stevenson Concludes His Tour of Indiana.

By the Associated Press.

WOODSDALE ISLAND PARK, Ohio, Sept. 10.—The anniversary of Perry's victory on Lake Erie was chosen by the Ohio league of Republican clubs to open the campaign in Ohio. Hon. Whitelaw Reid arrived at Cincinnati early this morning, and at 10 o'clock left for the park on a special train with Governor McKinley, ex-Governor Foraker, H. Clay Evans, of Tennessee, Hon. Bellamy Storer, Gen. H. H. Houston, of Kentucky, Hon. J. A. Caldwell and others. The speakers received an enthusiastic welcome at the park.

Hon. Whitelaw Reid was the first speaker. He said a campaign opened by such an enthusiastic gathering could have but one ending in Ohio. Whenever the Republican party of the state is thoroughly aroused, thoroughly in touch with the younger and more progressive elements of the community, and moves upon the enemy's works, it always carries them.

REID INDULGES IN GUSH.

Mr. Reid paid a tribute to the character of Lewis D. Campbell, of the olden days; to Salmon P. Chase, of Cincinnati; to Edwin M. Stanton, of Steubenville; to Tom Ewing and Tom Corwin, all Ohioans, who had done service to their country.

"Take out these men and their history," said he, "and what is left of the soul-stirring history of Ohio for the last third of a century?"

Referring to political subjects, he said: "Our opponents are just now in deadly trouble, because they say the president is a cold man. Well, I have no doubt he often does cast a chill on them. His grandfather's hat also gave them trouble till they found it was only a good fit, but the whole country knew it. The ice cart at the White House door will disappear in a like manner from their campaign literature when they discover that it is quite suitable for the nation of 65,000,000 intelligent people to have a president that does not gush, that does not slip over and does not play the demagogue, but carries himself with the modest dignity of a private citizen, and yet with the decorum and nobility of the position to which he has been elevated, who measures his words and keeps them."

Continuing, Mr. Reid endorsed the provisions of the McKinley bill, and concluded by predicting that after the campaign the Republicans of Ohio would be able, like Commodore Perry, to say: "We have met the enemy and he is ours."

FORAKER PIPES A NEW TUNE.

Ex-Governor Foraker followed Reid. He spoke on the reasons why every Republican should zealously support Benjamin Harrison. He devoted some time to stating the differences between Harrison and Cleveland, eulogizing the career of the former and depreciating that of the latter. He dwelt on President Harrison's administration, and said it would be long remembered as intensely American. "He has firmly maintained law and order at home, and with dignity and patriotism maintained our rights and upheld our honor abroad."

In concluding, he said: "Four more years of Benjamin Harrison in the White House will not only continue the marvelous prosperity with which we are blessed, but give to us our rightful place in the commerce of the seas, and make us the dominant power of the western hemisphere. His record is resplendent with good deeds and brilliant triumphs."

BILL MCKINLEY TALKS.

Governor McKinley spoke next. He began his address by saying no political party can long hold public confidence which bases its claims to confidence on the disappointments of the people. This, he said, had been the case with the Democratic party for more than thirty years. All through these years the Democratic party had been predicting the failure of Republican policies, until now, when they declare that the tariff of 1890 is a failure, and will bring distress upon the American people.

Another thing about the Democratic party, he said, is that when it gets into power it is a disappointment, and to the honest and well-meaning Democrats, a humiliation. The campaign of 1890 was a pile of woes which were to follow the doings of the fifty-first congress. They won on the prediction by alarming the people and pledging themselves to tear up, root and branch, all legislation. He declared the Democrats were further today from disturbing the tariff law than ever.

Governor McKinley closed with a hearty endorsement of Harrison's administration.

A HOST OF OTHER SPEAKERS.

Other speakers who were heard briefly were Mrs. J. Ellen Foster, Hon. H. Clay Evans, of Tennessee; Allen, of Michigan; General Houston of Kentucky; Hon. Mr. Turner of Tennessee, and W. H. Farham, of Cincinnati. It was after 5 o'clock when the meeting closed. Hon. Whitelaw Reid went to Cedarville after his address was delivered, and will remain there with his mother until Monday, when he will return to New York.

An Arizona Nomination.

PRESCOTT, Ariz., Sept. 10.—The Republican convention nominated W. C. Stewart, of Flagstaff, for delegate for congress.

A Gratifying Assurance.

NEW YORK, Sept. 10.—The appearance of Burke Cockrane, Thomas F. Gilroy

and Thomas F. Grady at the Democratic headquarters, this morning, is accented by those in charge as a gratifying assurance that Tammany hall is now in full accord with the party, and will lend their aid toward the election of Cleveland. These gentlemen called on the leaders and held a short consultation.

Stevenson's Indiana Tour.

GREENCASTLE, Ind., Sept. 10.—Gen. A. E. Stevenson arrived here this morning and at 10 o'clock the candidate for the vice-presidency addressed a large and enthusiastic number of Democrats. General Stevenson's Indiana tour ended today and this afternoon the party left for Bloomington, Ill.

An Organ Bolts Blair.

CONCORD, N. H., Sept. 10.—The Portsmouth Chronicle, the leading Republican journal of Rockingham county, and the oldest newspaper in New Hampshire, bolts the nomination of ex-Senator Blair for congress.

TELESCOPED.

A Frightful Railway Disaster Just Outside Boston.

BOSTON, Sept. 10.—A terrible accident occurred about 1:40 o'clock tonight at Western Junction, on the Fitchburg railroad, caused by the westward bound express freight telescoping the rear car of the 10:15 Waltham passenger train, from Boston. Fifteen killed and wounded have already been taken from the wreck, and it is believed more are beneath the debris. While the passenger train was standing on the main line, the express freight, which followed from the Boston yard, crashed into the rear car, crushing it into pieces and jamming its human freight beneath the ruins. The force of the collision smashed the front end of the boiler and cylinders and the escaping steam added to the horror of the situation of those already imprisoned. Many were taken from the wreck terribly scalded, in addition to other injuries. As yet it is impossible to say how large the list of fatalities will be, but it is believed several are still beneath the ruins. It is claimed a fog prevailed at the time of the accident.

Sept. 11, 1:45 a. m.—General Superintendent Adams has just received a telegram from Medical Examiner Swan, who is at the wreck, stating that eight persons were killed and twenty-five or thirty wounded. Both tracks of the main line are completely blocked. No trains have left the Boston depot since the accident. At 3 a. m. a heavy train stands in the Fitchburg depot awaiting the clearing of the wreckage, so it can take a load of belated passengers to Waltham. Nothing further can be learned at this hour as to the number of killed and injured, or the nature of those wounded. The work of removing the victims is progressing as rapidly as possible.

EMBEZZLERS INDICTED.

The Kansas City Grand Jury Getting in Its Work.

KANSAS CITY, Sept. 10.—The grand jury of this county has returned indictments against H. W. Russell, formerly treasurer of the Lombard Investment company of this city, and Montgomery H. Lands, formerly auditor of the company, charging them with the embezzlement of \$26,000 from the company. Both men resigned last spring, and now reside in the City of Mexico. Measures have been taken for their extradition. An expert examining the books says other embezzlements have been discovered much larger than those of Lewis and Russell. The grand jury has indicted two more employees of the company, and bench warrants have been issued for their arrest. Their names are not known. The expert says the former discoveries are but a drop in the bucket compared with the later ones. The officers of the company say the assets are in no way impaired.

PREPARED FOR AN ATTACK.

Striking Lumbermen Casting Uncertainty at Menominee, Michigan.

MEMONIE, Mich., Sept. 10.—Word was received here at an early hour this morning that the strikers would attack this side of the river. The council, sheriff, and mill owners were in private session today, awaiting the arrival of the Wisconsin mob of over 2000 men, but aside from a small squad which congregated and drove from the tug a crew of non-union lumber piers, nothing has been done in the nature of an attempt to close the mills here. A meeting of non-union men is being held tonight. The sheriffs on both sides of the river have a large number of deputies ready in case of a disturbance.

Santa Cruz Fusionists.

SANTA CRUZ, Cal., Sept. 10.—The Democratic county convention was held today in Soquel. A fusion with the People's party was formed, on the basis of the People's party supporting the Democratic nominee for senator, and the Democrats supporting the People's party candidate for assemblyman. Hon. Thomas Beck was chairman of the convention. The following nominations were made: Assembly, P. R. Adams, county clerk, W. P. Netherton; sheriff, Jesse Cope; district attorney, M. Cossin.

A Terrific Hail Storm.

MADISON, Wis., Sept. 10.—A terrific wind and hail storm traversed a portion of this county today, and did great damage to tobacco. The loss aggregates several hundred thousand dollars. Corn and other crops were badly damaged. Turkeys and chickens were killed, and sparrows cover the ground in places. Considerable minor damage was done in the neighborhood.

Quarantined for Yellow Fever.

MOBILE, Ala., Sept. 10.—The steamship May arrived last night from Vera Cruz and was this morning sent to the national quarantine station, at Chandler, for sanitation by the quarantine physician. There is no sickness on board the steamer, but she had six cases of yellow fever, with two deaths, while at Vera Cruz.

The Fern Gotten Off.

PORTSMOUTH, Sept. 10.—The U. S. S. Fern got off this afternoon and was towed to the navy yard. The steamer is reported as being badly wrecked.

Your fall suit should be made by Getz. Fine tailoring, best fitter, large stock, 112 West Third street.
