

Epidemic Diphtheria.
A Conway, Mass., letter, dated the 7th inst., says: That most terrible of diseases, especially among children, malignant diphtheria, with which Conway has been afflicted for some weeks past, seems to be steadily increasing, and many a hitherto happy home has been rendered desolate by its sad visitation. Probably two-thirds of the cases are now proving fatal, and parents are becoming greatly alarmed for the safety of their children. The local physicians seem to be entirely unable to successfully grapple with the disease, and the outlook is becoming every day more threatening.

The disease first made its appearance on the 21st of October, in the family of Gillman P. Hassel, whose little daughter, a remarkably bright and amiable child of 10, died after a short sickness. The next death was on October 29th, when William Bement's wife and two children died within a space of 24 hours, the mother and one child being buried at the same hour, while the other child died as the funeral services were in progress.

The death of Mrs. Bement, and the attending results, were peculiarly sad. She was greatly distressed at the sufferings of her little ones, and in trying to remove with her finger the substance which seemed to obstruct the throat of one of them, her hand was inoculated with the poisonous matter, her arm soon became mortified, and death resulted in a few hours. A sister of Mrs. Bement, living in a neighboring town, arrived, soon after, to lend her assistance to the family, and in washing some clothing worn by one of the dead children both of her hands also became affected, and death resulted after a short season of intense suffering.

The third victim from inoculation was a Mrs. Pomeroy of Easthampton, a sister of Mr. Bement, who intended to remain in the family several weeks, but was attacked in a similar manner to the others, after washing some infected clothing. As soon as the disease appeared, she hastened home, hoping that a change of air would restore her health, but she gradually failed and died in a few weeks.

Following the deaths of Mr. Bement's family were three children of George Truesdell, whose deaths occurred, October 23, November 23 and December 3. Mr. Truesdell also suffered a severe attack of the disease, which singularly formed itself into ugly cankerous sores on his hands, face and other portions of his body, as well as in his throat, and his wife, who became greatly reduced by long watching and distress, is now suffering from the disease.

Value of "Charms."
Perhaps the ensuing anecdote may teach some people the folly of superstition: A negro killed a white man, in Texas. The negro was much alarmed, knowing that should he be caught he would be hanged to the nearest tree convenient for the purpose, there being no hope for a fair trial in that section. A friend of his hearing of his situation went to see him in his hiding-place, and promised for a consideration (of money of course) to give him a powder, which he should take when he was captured, that would prevent his being hanged or shot. The poor man believing it to be a charm, readily paid the sum demanded and received the powder, which he was to swallow when there was no other hope. The next day the man was discovered in his hiding-place by a crowd of white men, who were determined to carry out the decision of Judge Lynch, and were about to hang him to a tree which they had already selected. The prisoner, with great reluctance, yet having faith in the power of the powder, was taken to the tree, and when all the arrangements were made he took the powder from his pocket and swallowed its contents. The effect was quickly seen, as he fell dead immediately.

Cattle Stolen for their Hides.
Queen's county farmers have for a month missed cattle. In one night, recently, Smith Williams of Mineola lost eight head, John Moesch of Woodlawn lost two cows, John Drew lost one cow, Leonard Duryes lost five cows, and Adam Schindere lost two cows. Rewards were offered, but without result. On Monday two hunters found a pile of beef carcasses in the woods near woodlawn. The hides and hindquarters were gone, and from appearances fifty head had been killed there. Near by two more carcasses were found, also stripped of their hides. Several horses are also missing from the neighborhood.

Outrage by Tramps.
A cowardly outrage was committed on a young lady school teacher in Evesham township, Burlington county, N. J., a day or two since, by two tramps. After school had been dismissed she remained in the school room to do some writing, when the tramps seeing her alone entered the house, divested her of her clothing, and decamped without attempting any further indignity, taking her clothing with them. She made her situation known to some passers by, who secured some clothing for her.

A Man Shot for a Deer.
Altoona, December 6. — Yesterday morning a man named Joseph P. Brown, whilst out hunting on the summit of Brush mountain four miles distant from the city, mistook another hunter named John Thompson for a deer, and at a distance of 100 yards fired at him. The rifle ball entered the occiput and came out at the right eye, killing him instantly. Brown surrendered himself and was exonerated from all blame by a coroner's jury.

THE SUN.
Weekly and Daily for 1875.
The approach of the Presidential election gives unusual importance to the events and developments of 1874. We have endeavored to describe these fully, faithfully and fearlessly.

THE WEEKLY SUN has now attained a circulation of over seventy thousand copies, and its quality is well known to the public. We shall not only endeavor to keep it fully up to the old standard, but to improve and add to its variety and power.

THE WEEKLY SUN will continue to be a staunch newspaper. All the news of the day will be condensed when unimportant, at full length when of moment, and always, we trust, in a clear, interesting and instructive manner.

It is our aim to make the WEEKLY SUN the best family newspaper in the world. It will be full of entertaining and profitable reading matter, every sort, but will print nothing to offend the most scrupulous and delicate taste. It will always contain the most interesting stories and romances of the day, carefully selected and tastefully printed.

The Agricultural Department is a prominent feature in the WEEKLY SUN, and its articles will always be found fresh and useful to the farmer.

The number of men independent in politics is increasing, and the WEEKLY SUN is the only paper that belongs to no party, and obeys no dictation, confiding for principles, and for the election of the best men to the executive and legislative offices of the country and librating the overthrow of republican institutions. It has no fear of knaves, and seeks no favors from their supporters.

The markets of every kind and the fashions are regularly reported in its columns.

The price of the WEEKLY SUN is One Dollar a year for a sheet of eight pages, and fifty-six columns. As the paper is published weekly, subscribers are not able to make any discount or allow any premium to friends who may make special efforts to extend its circulation. Under the new law, which requires payment of postage in advance, one dollar a year with twenty cents the cost of prepaid postage added, is the rate of subscription. It is not necessary to get up a club in order to have the WEEKLY SUN at this rate. Anyone who sends one dollar and twenty cents will get the paper, post-paid, for a year.

THE WEEKLY SUN—Eight pages, fifty-six columns. Only \$1.20 a year, postage prepaid. No discounts from this rate.

THE DAILY SUN—A large four-page newspaper of twenty columns. Daily circulation over 150,000. All the news of the day. Subscription, postage prepaid 16 cents a month, or \$6.00 a year. To clubs of 10 or over, a discount of 20 per cent. Address,

"WILD OATS."
PROSPECTUS FOR 1875.
THE CHAMPION AMERICAN Comic Paper.

ILLUSTRATED by a corps of the best American artists, and contributed to by the most popular humorists of the day.

WILD OATS now enters successfully upon the sixth year of its existence, and has become the established humorous and satirical paper of the country. It was started and continued the first year of its existence, to satisfy the demand of the public, it was changed to a fortnightly, and continuing its good work of hitting folly as it flies, and showing up the political and social shams by its masterly cartoons and pungent editorials, achieved a greater success than before, and was recognized as the ablest and brightest of its class. Since then we have yielded still further to the public demand, and now publish "WILD OATS" weekly; it has literally grown into its present shape and its intrinsic merits, being the first successful weekly humorous paper ever published in this country.

Among the artists especially engaged to furnish illustrations for "WILD OATS" are Frank Bellew, Thomas Worth, Hopkins, W. S. Shelton, Wolf, Jump, Keetles, Stueckhardt, Day, Poland, and several others who are yet unknown to fame.

In military departments "WILD OATS" will, as always, be bold, plain, and unapproachable. At least one first-class serial story will always be found in its pages, by the best humorist, satirical and character writers in the United States; while its sketches and squibs will be sparkling, original, and pointed.

"WILD OATS" will be first-class in every particular, and on this account may be taken into the best families without fear or suspicion, as no words or illustrations will appear that can offend the most fastidious.

THOMPSON'S VERMIFUGE
NEVER FAILS TO CURE WHEN THE PATIENT IS AFFLICTED WITH WORMS.

This Vermifuge is confidently recommended to the public as an effectual remedy for expelling Worms from the system. It is extensively used, and has in every case produced the desired effect, and often after other remedies failed. It is purely vegetable, mild in its operation, and may be given with perfect safety. Worm Confections, Worm Lozenges, Worm Sugar Plums, Worm Chocolate, &c., are attractive and sweet tastes, but of no account unless they destroy the worms. Thompson's VERMIFUGE is an old established and well-tried remedy, containing no Calomel, or Mineral of any kind. It is warranted not only to destroy worms, but by its slight purgative property, carry off the mucus and slime which produce and nourish them. Worms are frequently the cause of disease in children when they are not suspected, on account of the symptoms of them resembling those of Dysentery, Fever, Convulsions, &c. Children are often treated for the above and similar complaints without success, while these pests of the bowels are destroying the life, as they increase so rapidly and are continually moving from one part of the body to another, parents should pay particular attention to all symptoms of worms: picking of the nose, offensive breath, eyes sunken and dim with dark circles around them, grinding of the teeth during sleep, irregular appetite, dull, sickly look, wasting of the body, flushes of heat, vertigo, swelled stomach, a sense of something rising in the throat; fever, drowsiness, starting in the sleep, fits, nausea, unusual thirst, gnawing sensation of the stomach, frequent desire to pass something from the bowels, slimy discharges, &c. Persons of all ages are liable to suffer from Worms.
