Prevention better than Cure.

For the prevention and cure of Bilious and Malignant Fevers, is recommended, DR. HAHN'S

Anti-bilious Pills.

WHICH have been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the southern parts of the United States...

Facts of this conclusive nature speak more in favour of a medicine, than columns of pompous eulogy, founded on mere assertions, could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason, which can result from extensive experience for believing that a dose of these pills, taken once every two weeks during the prevalence of our annual bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild and may be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off full purgative bile and prevent its morbid secretions; to restore and amend the appetite; to produce a free perspiration and thereby prevent colds which are often of fatal consequence. A dose never fails to remove a cold if taken on its first appearance. They are celebrated for removing habitual constiveness, sickness of the stomach and severe head-ache, and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing most disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

DR. HAHN'S

Genuine Eye-water.

A certain and safe remedy for all diseases of the eyes, whether the effect of natural weakness, or accident, speedily removing inflammation, obstructions of rheum, dullness, itching, and films in the eyes, never failing to cure those maladies which frequently succeed the small-pox, measles, and fevers, and wonderfully strengthening a weak sight. Hundreds have experienced its excellent virtues when nearly deprived of sight.

Tooth-ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

The Anodyne Elixir.

For the cure of every kind of head-ache, and for pains in the face and neck.

Infalible Ague and Fever Drops.

This medicine has never failed, in many thousand cases not one in a hundred has had occasion to take more than one bottle, and numbers not half a bottle. The money will be returned if the cure is not performed.

A PROPOSAL

BY William Young Birch,

AND Abraham Small,

Of the City of Philadelphia,

FOR PUBLISHING BY SUBSCRIPTION,

THE INVALUABLE WORK,

DR. RUSSELL'S

HISTORY OF

Modern Europe.

With an account of the Decline and Fall of the Roman Empire, the Rise of Modern Kingdoms, &c. &c.

THE great applause which this excellent book has received, is a sure proof of its merits. The vast sale which it has had for several years, is a fair criterion by which the public opinion of its worth can be known. During the life of the learned author, it went through the annual sale of a very large impression—every succeeding edition received some improvement the result of his deep researches and great judgment—he lived to make it as perfect as in the nature of things it could be—he is dead! Whilst the English language is read, the History of Modern Europe will remain a monument to his fame! It is as entertaining as instructive; as interesting as profound. The plan of the work is copious, but by a happy arrangement, the reader is at once presented with the contemporary history of every part of Europe. The book now offered to the public is from the last and most correct copy, to which this shall be no way inferior.

IT CONTAINS—An history of the decline and fall of the Roman empire. The rise of modern kingdoms, generally. A particular history of the French monarchy. Do. Spain from the dominion of the Visigoths. Italy, with the rise and progress of the Temporal Power of the Popes. Britain, from its relinquishment by the Romans. Ireland. The German empire, from Charlemagne. The empire of Constantinople to its overthrow. Empire of the Arabs. Rise and progress of the Turks and fall of the Greek empire. History of Portugal; View of the progress of Navigation; Conquests in the East and West Indies; Discovery of America, &c. History of Sweden, Denmark, Norway, Russia, Poland and Prussia: North-America, as connected with European history. A very comprehensive and highly useful chronology.

- CONDITIONS. I. The whole shall be comprized in five large octavo volumes, printed in the best manner, on a superline paper. II. It is intended to deliver one volume every two months, at the price of Two Dollars per volume in boards, payable on delivery. III. As it may be inconvenient to deliver them to distant subscribers in single volumes, those who wish it, may let them remain with the publishers until the whole are published.

The work is at press and will be printed on a beautiful new type cast for the purpose. The encouragers of this undertaking may rest assured, that nothing now foreseen shall delay its regular procedure; so that in one year at farthest the citizens of the United States shall be presented with an American Edition of Doctor Russell's History of Modern Europe, equal to the English copy, and at a lower price.

300 Dollars

REWARD.

RAN AWAY from the subscriber, on the 18th of June last TWO NEGRO SERVANTS; viz a negro woman named Pat, a washer-woman and cook, of about fifty two years of age—tall and well shaped, of a black complexion. She has had teeth, those of her under jaw are much discoloured and project a good deal. She has a full head of woolly hair—a very cross forbidding countenance, is very impertinent, and laughs and talks loud. Pat was born in South Carolina, and speaks bad English, with the negro dialect. She has on the upper part of her breast, two pretty large lumps of flesh resembling Wens, or rather with the appearance of the marks of a burn. She carried away with her several changes of cloaths, and gowns of white muslin, and of coloured and figured printed cottons fashionably made up. She also carried away with her,

CLARA her daughter—a very stout, robust, strong made girl, of a stout stature, and round shouldered—appearing to be about 14 years of age. Clara has large flaring eyes, a flat nose, an oval flat face, her under jaw projecting a little, and good teeth. She is very artful and impudent, has a great fluency of speech, uses good language, and has been taught to read.—She has the appearance of ring worms on her left cheek and chin; the skin in her complexion much lighter than her mother's.—Her hair is short and woolly. She wore a pink ground printed cotton with a small black figure, with new fore parts.

Also ran away, on Wednesday the 11th inst. JUNE, DICK and MELIA. Dick, or as he has lately called himself, Richard Weaver, is a house-servant,—he is about 5 feet 7 inches high, rather small made, is about 25 years old, of a good smooth, black complexion—has a flat nose, with very large open nostrils. He carried his head and neck as if he were stiff in the neck and shoulders, which are high and tolerably square, and his neck short—his legs are straight but small and illy made, with scarce any calf. He has had had teeth, is left handed, and exceedingly awkward—he has a full head of woolly hair, which he plits and dresses to the best advantage. His voice is small, his speech commonly mild and slow, and his manners appear extremely simple, but he is at bottom an artful knave, and when spoken to is very apt to be passionate and impetuous. Dick is a native of South-Carolina, and speaks bad English—he feigned and carried away with him Amelia, who he called his wife.

Amelia is a very complete, well instructed ladies maid, much below the common stature and of a small make—her complexion is that of a dark mulatto or mestizoe, nearly resembling that of the Laifers of India, with black curling hair, and a very low forehead—her right eye has a great weakness, owing to the small pox in her infancy—under her eyes very black—a flat face, flat broad nose, with scarce any tiling at the bridge; a large mouth, with thick lips, and good strong teeth. On the nose of her back she has the marks of a Sciton. Dresses with taste, and imitates the French style; is very sensible, and expresses herself well. She took with her a variety of clothes, fashionably made—she has for more than two years past been liable to fits, which at times give her a wildness in her eyes—her health is generally delicate—she is at present likely to increase her family, and is about 22 years of age—the can dress hair, clear starch, has a taste for millinery and mantua-making; and as she is very ingenious, can turn her hand to any thing and may probably offer herself to some milliner or mantua maker as a work-woman. As Amelia has heretofore been a great favourite of a very indulgent mistress, and 'tis believed has been led away by the persuasion of her paramour Dick, if she will return to me, she will be forgiven and treated with the same tenderness she has always received.

FIFTY DOLLARS Reward for each will be paid for the delivery of Pat and Clara to the subscriber, or to any goal in the United States so that they get possession of them.—One Hundred Dollars each for Dick and Amelia, on the like delivery. The subscriber warns all master of vessels, from taking these Runaway-servants from the United States, and requests such of his friends and acquaintance as it may not suit to accede them, to give information, should they hear of either of the fugitives, to the subscriber by letter directed to the post office, Philadelphia, which will find him, wherever he may pass the summer, or to the Printer of the Gazette of the United States, who will communicate it to a friend in Philadelphia to act on his behalf.
