

WANTS

Man wants but little here below, Nor wants that little long— This surely isn't true of you, Though it be so of the song.

You wish to reach hundreds of people each year. Your wants are innumerable; and the question before you is, which is the cheapest and more convenient way to gain the attention of those whose services you wish to secure?

In the future this TRIBUNE proposes to make a specialty of want-advertisements. This paper will become noted for its effectiveness in bringing together the employer and the unemployed. Send in the "want" on a postal card, or else call on your way down town. We'll agree to do the rest.

GENERAL NEWS OF INDUSTRIES

Secretary Lovejoy, of the Carnegie Steel Company, Announces His Policy.

SAYS IT WILL NOT CUT PRICES

But It Will Meet Competition, and It Will Endeavor So to Distribute Its Activity During the New Year That the Greatest Good Will Result to the Greatest Number of Its Employees.

Other Topics of Industrial Interest Tensely Treated.

Secretary Lovejoy, of the Carnegie company, in an interview at Pittsburgh, says: "It is our intention not to allow our 12,000 employes to want during the winter. We will keep our plants in operation, and where a mill is running on a single turn we will provide for all our men by having alternate crews. In this way they will all be furnished employment, at least on half time. The statement that we intend cutting prices is untrue. We will maintain rates, but will meet all competition." The outlook is much better than at any time since spring. There is a better tone to the iron market and orders are coming in. At present 9,000 coke ovens are in operation in the Connellsville region, more than at any time in the last six months, and, as the blast furnaces are starting up, a further increase is looked for very soon. The operations of the large plants here will necessitate the resumption of numerous small mills which furnish them the unfinished product. This will give employment to many additional men, while hundreds of others will be furnished work in digging and hauling ore to the movement of freight.

With reference to the rumor that an effort will be made at the next session of the legislature to repeal the semi-monthly pay law the Pittston Gazette opines that such a movement would most likely be successful, inasmuch as those whom the law was intended to benefit are not likely to waste time and energy in opposing the repeal of a law that is practically a dead letter. The act never was properly framed, or it could not be avoided with impunity by corporations, as it has been. In the Wyoming valley but one or two of the coal companies complied with the law when it first went into effect, and these soon found that they could return to the old system of paying monthly without fear. Of course they did so immediately. In the Schuylkill region, where semi-monthly payments were made quite generally for some time after the law went into effect, nearly if not quite all have seen fit to return to the old system. A law that can be evaded so easily as this semi-monthly pay law has been might just as well be taken off the statute books.

A dispatch from Monongahela, this state, says: "The opening of the new year will see most of the mines in the lower pool paying 25 cents for digging. In the fourth pool the recognized rate in most cases is 2 cents, although some of the mines are paying less. In the Elizabeth neighborhood Walton & Co. closed down pending a settlement of the rate question, but on the whole the outlook for the diggers is vastly better than seemed possible two months ago. The men are showing wonderful unanimity of sentiment on the necessity for organization now, while all the conditions are favorable and the organizers are accomplishing wonders."

UNDER THE SCREENS: Rollin A. Wilbur has, it is said, been made general superintendent of the entire Lehigh Valley system.

It is denied that the Philadelphia and Reading company has purchased the Keweenaw colliery, near Shenandoah, now owned by the Thomas Coal company.

DeTurk & Co. are building another new warehouse at Eberly. The plant is being erected by Frederick Schultz, of Jalappa, and will be one of the largest in the region. The coal banks in its vicinity are fine ones and it is thought, will hold out for two years. When it is in full operation, between 500 and 600 tons of coal will be shipped daily.

While the Reading railroad's Frankfort branch is opened it is said that about thirty trains will be run each way daily.

One of the new Pennsylvania class P engines recently made a run of 100 miles in 100 minutes on the Chicago division of the Panhandle, hauling two baggage cars, two coaches and four Pullmans.

It is stated that both the Vanderbilt and Pennsylvania lines will, with the taking effect of the spring timetables, put on 24-hour trains between New York and Chicago, and much faster trains between New York and St. Louis, via Indianapolis.

The Wilkes-Barre and Keating's new freight depot at Wilkes-Barre is finished. The passenger station has reached the second story.

The freight business of the Pennsylvania road has never been duller than at the present time.

The Hawley Glass company will resume normal operations on Thursday night with non-union workmen, giving employment to 100 people.

CLIPPED FROM Canada Presbyterian, under signature of C. Blackett Robinson, proprietor: I was cured of off-recurring bilious headache by Burdock Blood Bitters.

Philadelphia Tallow Market. PHILADELPHIA, Jan. 1.—Tallow was dull and unchanged. Prices were: Prime city, in hogheads, 5c; in barrels, 4 1/2c; in kegs, 5c; in casks, 5c; in barrels, 4 1/2c; in kegs, 5c; in casks, 5c.

Any subscriber of The Tribune may receive a book of flour and coal coupons worth \$5 and 100 cents on each ton of coal.
