THE NEWS OF NEARBY TOWNS

M'DERMOTT WANTED GORE.

After a Quarrel He Attempted to Shoot George Westgate.

Special to the Scranton Tribune. FOREST CITY, Pa., Feb. 18.—A cowardly attempt was made upon the life of George G. Westgate, a well known resident and a member of the Forest City borough council, by Frank McDermott, a young man of this place. An altercation occurred at one of our hotels which led to McDermott's making an attempt to strike Westgate, which he arrested, and a return blow was made upon McDermott by Westgate.

After this happened McDermott left the hotel and went to his home, returning with a revolver. Uttering an oath, with a threat to kill, he drew the revolver and pointed it at Westgate. Two bystanders seeing his action, grabbed the revolver as it was being discharged. The bullet missed its mark and grazed the hand of the man who arrested its progress.

A hearing was had last evening at 9 o'clock before Squire J. M. Brown, Attorney L. P. Wademan representing the commonwealth.

The prisoner was held in the sum of \$1,000 bail to appear at the next term of court. At this writing he had not furnished bail, and was taken to the borough jail to remain until Monday, when he will be taken to the Monroe jail.

OLDEN TIME PRICES.

A Novel Market Report Forwarded by a Honesdale Correspondent.

Special to the Scranton Tribune. HONESDALE, Pa., Feb. 18.—The writer has in his possession a memorandum of prices of provisions in Honesdale from 1846 to 1877, which was kept by one of our old time residents. The prices were put down semi-monthly. The prices on November 1 of each year were as follows:

Table with 5 columns: Flour, Butter, Potatoes, Ham, Pork. Rows show prices for various years from 1846 to 1877.

The wages paid common laborers in 1848 were 70 cents a day; in 1849, from 70 to 80 cents; in 1852, from 70 to 80 cents, and in 1853, from 75 to 85 cents. The people of this generation will have a hard time in figuring out how the people of that period managed to pay running expenses.

Criticizing a Young Lady.

"She would be a pretty girl for but one thing." "What's that?" asked Charley. "Her face is always covered with purple and red blotches." "Charley—Oh, that's easily enough disposed of. Used to be the same way myself, but I caught on to the trouble one day, and got rid of it in no time." "George—What was it?" "Charley—Simply blood eruptions. Took a short course of F. P. E. I tell you, it's the best blood corrector. The eruptions had rheumatism, so bad that you could hear him holler clear across the country every time he moved. He tried it, and you know what an abject old celt he is now. If somebody would give Miss Daisy a pointer, she would thank them after wards. All the drug stores sell it."

WHY HESITATE?

Do Not Foolishly Wait Until the Closing Day. From the number of names added daily to the long list of subscribers to the Encyclopedia Britannica, it is fair to conclude that there are many yet to come. Why hesitate longer to call and give your order? The regular price at which it is offered, together with the liberal terms of payment, preclude the possibility of any one pleading poverty as an excuse for not furnishing himself or his family with this incomparable educational work. You can afford a fund of knowledge which is absolutely unavailable from any other source—twenty five large volumes, over 22,000 pages and about 10,000 illustrations—a history of our own and every country, ancient or modern; a history of each state in the union, together with the latest map of that country or state; the life of every great man or woman who has lived since history began; all the arts and sciences explained and illustrated; the history, nature and habits, with illustrations, of every creature in the animal creation, from bumble bee to a buffalo, to gether with the description of every plant and flower in the vegetable kingdom.

The president of Yale college has said that it would require 2,000 volumes from the world's publications to procure all this information. With the proper use of the alphabetical contents and marginal references and index it becomes the most convenient of Encyclopedias. Not merely the salient points are given, but a full treatment of the subject, rendering it a complete library in the home with but few books. You must have seen a friend's books as hundreds have been provided with them, and they can be seen at any time at 437 Spruce street. On receipt of \$4.50 the entire set will be delivered—the balance in easy monthly payments. The offer must soon be withdrawn. But a short time remains in which to avail yourself of the price and easy terms of payment, which means the securing of the work.

MOTHERS

and those soon to become mothers, should know that Doctor Pierce's Favorite Prescription cures child-birth of its tortures, terrors and dangers to both mother and child, by aiding nature in preparing the system for parturition. Thereby "labor" and the period of confinement are greatly shortened. It also promotes the secretion of an abundance of nourishment for the child.

Mrs. DONA A. GUTRIER, of Oakley, Oregon Co., Ore., writes: "When I began taking your 'Favorite Prescription,' I was not able to stand on my feet without suffering almost hourly with my household washing, cooking, sewing and everything for my family of eight. I am stouter now than I have been in six years. Your 'Favorite Prescription' is the best to take before confinement, or at least it proved so with me. I never suffered as little with any of my children as I did with my last, and she is the healthiest we've got. Have induced several to try 'Favorite Prescription,' and it has proved good for them."
