HOME WILL BUY MODERN NEW 2 ROOM house, all improvements; terms easy; corner Madison avenue and Delaware street. Apply BARRY LEE.

HOME WILL BUY VERY DESIRABLE LOT corner Madison avenue and Delaware street. Terms easy. Apply BARRY LEE.

Notice to Taxpayers. NOTICE TO TAXPAYERS—THE TAXPAYERS of the city of Scranton, Pa., will hereby take notice that the board of appeals appointed by the city council of said city to hear and determine appeals from the assessments for the year 1894 are holding meetings daily at the office of the city clerk between the hours of 10 a. m. and 2 p. m. for the purpose of receiving and hearing appeals from the assessments and that appeals will only be heard in cases of new assessments for said year, the authority vested in said board of appeals being the revision of assessments for any year but that of 1894. The meetings of this board will close March 31, 1894. By order of board of appeals. M. T. LAVELLE, City Clerk.

GENERAL NEWS OF INDUSTRIES

The Lehigh Valley Railroad company has not yet withdrawn its cheap rate tickets. It is not likely to do so unless it is guaranteed an equitable business. This action on the part of the Lehigh Valley company only affects the railroad doing business between New York city and Buffalo. The regular fare between the two above cities is \$9.25, but as the Lehigh Valley company is allowed a differential of \$1.25, the fare by this route is \$8. It is contended by the Lehigh Valley people that they are willing to enter into any contract for the maintenance of rates, but it has got to be on an equitable basis, that is, each road to be allotted a certain percentage of the passenger traffic, and when one company exceeds its quota then that company is to be compelled to advance its prices. The officers claim that the company has for many years been worked on a conservative basis and the consequence was that all the competing roads charged what they liked and took in to the company's business. Now this is changed and they intend to stand up for what they consider their rights.

The new railroad between Pittsburgh and Fairmount, West Virginia, was thrown open to traffic Monday. The new line will be known as the Fairmount District. The distance of the new line between Uniontown and Fairmount is traversed by the State Line railroad from Uniontown to the state boundary, and from there to Fairmount by the Pittsburgh, Fairmount and Morgantown railroad. The line opens hundreds of square miles that are wanted in its material and for a mountainous country fertile. The new line will divert to Pittsburgh trade which has heretofore gone to Buttermilk, for Fairmount is now 150 miles from Pittsburgh by rail, where before it was several hundred miles. It is probable that the Pennsylvania railroad will try to top this new line soon. It is thought that the Pennsylvania line will be extended to Morgantown either from Brownsville or Fairchance. Grading is likely to be commenced this summer. Surveyors are said to be out at present along one of the proposed Pennsylvania routes. With low freight rates west Virginia coal is likely to be sold strongly in veins close to the surface, making mining comparatively easy and cheap. At Van Vorhis, on the new line, there are 10,000 acres of black diamonds. At West Run, not far from Morgantown, there are 35,000 acres of coal.

The freight traffic on the Pennsylvania railroad is gradually improving. Since the beginning of February it has increased 20 per cent, and while it is not as heavy as a year ago, it does not show much loss when the impetus given to freight shipments by the Chicago exposition is taken into account. While the traffic is materially heavier than that of two years ago the receipts have diminished materially because the depression in business has decreased the tonnage from industries which contributed largely to the revenue of the great corporation. The tonnage traffic of the company is also increasing and will probably soon reach its normal condition. The company has discharged very few men on the line between Philadelphia and Pittsburgh, but has been obliged to reduce the time of labor from ten to eight hours to continue them in employment. The number of workmen in the service of the company between the two points approximates 15,000.

At the coming sheriff's sale of so much of the abandoned South Pennsylvania railroad as extends through Somerset county the farmers who sold rights of way through their farms will be able to buy back the land at one-fourth of what they received for it. There was more than \$1,000,000 expended in this road before the Vanderbilt policy of attempting competition in Pennsylvania and abandoned it.

The reorganization of the Pennsylvania and West Virginia Railroad company has excited renewed interest in that project. The proprietors have agreed to put up \$200,000 to complete the road to the place to Crossin, Bedford county, and thence by the Baltimore and Ohio railroad into West Virginia. The road was projected several years ago, and rights of way obtained. The grades and bridge abutments are finished. It is expected that the line will be finished in a year. It will take some of the richest mineral and timber lands in the state, which have been practically undeveloped on account of their distance from a rail way.

The new eastern passenger agreement recently entered into by traffic officials at Chicago has not been signed by the Lehigh Valley, Grand Trunk or Wabash. The \$10,000 penalty attached to rate cutting or commission payment under the agreement is certain to break it. No line has the slightest intention of paying such a penalty. If rates are cut they are and will be members will find means to withdraw from the agreement before they sail in to equalize matters.

MINOR INDUSTRIAL NOTES: The various collieries of Cox & Bro. & Co. will work only three days this week. Only one day's work was made last week, an unusual record for this firm.

Business on the Erie and Pittsburg railroad has been increasing to such an extent in freight traffic that it has been found necessary to add an additional crew to each division.

The canceled railroad tickets of the Pennsylvania railroad are first reduced to pulp before disposal to the paper mills. W. B. Leeds, division superintendent of the Pennsylvania lines at Richmond, Ind., has resigned, having been elected president of the American Tin Plate company. The capital invested in iron and steel in Pennsylvania this year is estimated at \$20,000,000. In number \$25,000,000. In textile industries \$700,000,000.

On magazines have wasted \$75,000 on the nineteenth year in the Grand old in the Finleyville field, near Pittsburg.

The proposed issue of \$5,000,000 Delaware and Hudson stock at par to take up fixed obligations to that amount which matured on the 1st of January last.

Business on the Erie and Pittsburg railroad has been increasing to such an extent in freight traffic that it has been found necessary to add an additional crew to each division.

In Great Britain was 458 killed (1 in 785), and 2832 injured (1 in 184). The Lehigh Valley railroad, beginning on April 1, 1894, at Scranton, Pa., and ending at Chicago and Grand Trunk railway, inaugurates its vestibule train service between New York and Chicago, via Niagara Falls. The trains make the run in twenty-seven hours.

Rucklen's Arnica Salve. The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Itch, Ringworm, Chilblains, Corns and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Matthews Bros.

FINANCIAL AND COMMERCIAL

Stocks and Bonds. New York, April 3.—The stock market today was quiet, Missouri Pacific alone served to relieve the monotony, having risen 3 points for the day. The improvement in this stock was attributed to the better condition of business. The greatest cause in money is now being reflected in the low prices of shares of properties which have weathered the late financial flurry. The markets were subjected to a raid which was intended to disturb long holdings. Reading and General Electric were weak. Very little long stock came out and when Missouri Pacific rose to 33 at the close, the entire market moved up. The closing was firm. Transactions were 169,259 shares.

Table showing the following complete table showing the day's fluctuations in active stocks as supplied and revised daily by Lath & Fuller, stock brokers, 121 Wyoming avenue.

New York Produce Market.

New York, April 3.—Flour—Hardly firm. P. and you will be strong and healthy. For shattered constitutions and lost manhood P. P. P. (Prickly Ash, Poke Root and Potassium) is the king of all medicines. It is the greatest blood purifier in the world. For sale by all druggists.

THE MAN A PRINTER LOVES.

There is a man the printer loves and he is wondrous wise; Whenever he writes the printer man he doth all his life. And when he's done all of them, with their blots and stains, He punctuates each paragraph, and crosses all his 't's.

Upon one side she writes, and never rolls his leaves; And from the man of ink a smile, and mark "insert" receives. And when a question he doth ask—laughed wisely he hath been—He doth the goodly penny stamps for postage back put in.

He gives the place from which he writes—his address the printer needs—And plainly writes his honored name, so he may reach his readers. His ready revision reads, corrects and rewrites all again; And keeps one copy safe, and sends one to the printer man.

And thus by taking little pains, at trifling care and cost, Assures himself his manuscript will not be returned or lost. So let all those who long to write take pattern by this man—With jet black ink and paper white, do just the best they can; And then the printer man shall know, and all through life's journey as they go until their journey ends.—London Tit-Bits.

MEN WHO ARE ALWAYS BUSY

Paine's Celery Compound Brightens the Eye, Increases the Appetite, Restores Sleep, Regulates the Vital Organs.

Under the stress of social or business duties, or both, how few business men find time to properly repair the waste of excessive mental labor and close confinement. The result of this neglect is plainly to be read in the care-worn, nervous faces and physical poverty of the average business man one meets.

But Paine's Celery Compound brightens their eyes, increases their appetite, causes good digestion and regular action of the organs of assimilation. Much so-called work of business men is the over-work of worry, care, anxiety, haste. These make the severest drafts on their vitality. Those who suffer from nervous debility, mental depression, sleeplessness, or dyspepsia, find Paine's Celery Compound a powerful restorative. It regulates the liver and kidneys, cleanses the blood, and feeds the nerves with electric energy all over the body. Recovery from diseases of the liver, kidneys and stomach by the aid of Paine's Celery Compound is lasting. It is the greatest of all modern restorative agents.

Paine's Celery Compound is prescribed by physicians who differ in many other things but agree in estimating highly this great restorative of curing diseases of the kidneys, rheumatism, gout, dyspepsia, Bright's disease and stomach disorders due to a deranged nervous system.

AMONG Our Neighbors.

Commenting with reference to the local electric light question, the Pittsburg Gazette thinks that the Philadelphia decision adverse to city ownership of a plant ought to have no bearing hereabouts for the reason that: "One of the most important items of expense in the manufacture of electric light is fuel, and the comparatively low rate at which coal can be purchased at the scene of production should tend to lessen the cost. Whether or not the Scranton company is furnishing electricity at the lowest possible rate will probably be shown by the present investigation. The result will be awaited with interest."

G. R. Clark, the local florist, will adorn Pittsburg's new hospital grounds by the tasteful arrangement of shrubs, flowers and trees.

Sapient Sam Boyd, of the Wilkes-Barre News-Dealer, apropos of Mr. Rockwell's recent letter in THE TRIBUNE, remarks that the cost of an electric plant is really exaggerated, but putting a price of \$250,000 on the Scranton plant, is about the wildest we have met with yet. All municipalities ought to own their own electric plant, for the saving to the city thereby would in a few years pay the entire cost of establishing it."

Certain persons in Carbondale are greatly enraptured with the writings of Dr. Conant Doyle. They hope to get Dr. Doyle to deliver a lecture in the Pioneer City during his coming tour of the United States. A writer in the Carbondale Herald enthusiastically says: "Dr. Doyle is the new light in the literary firmament, who lately discontinued the practice of medicine to engage in the creative fancies of literature. He is a man of letters. His writings published charmingly social from the polished pen of this brilliant author a few months ago, which alone was quite sufficient to establish that writer's claim to gracious recognition. 'A Study in Scars' is certainly a brilliant composition, and its intellectual excellence should entitle it to a place among the standard works of English literature."

While the Wilkes-Barre Record has been bewitching Mayor Connell for not stopping the sale of fish on Penn avenue its own news columns was telling of a case in Wilkes-Barre that almost passes belief. Fish Dealer Isaac Wolf's house on Washington street was completed by the neighborhood and streched by the police. The Record thus narrates the result: "The house was in the filthiest condition imaginable. One of the rooms was used for stabling a horse and the floor was a sight to behold. Finding some nauseous smells that nearly knocked them down, they found some rats and found bones in it. Lifting them up they found the spices underneath filled with human excrement. At Wolf's market, on Northampton street, the police found a lot of rotten fish exposed for sale. It was packed in ice, but was so far gone that when lifted out, the fish either fell apart or else the entrails dropped out. We are happy to state that Scranton has no Isaac Wolf."

Next Christmas Day, in Hazleton's Grand Opera house, a big castedoff will be held. There will be a grand chorus prize of \$500 and numerous subordinate prizes. It is expected that choirs will be present from Wilkes-Barre, Union Scranton, Plymouth, Hyde Park, Pittston, Catawago, Lansford, Mahony City, Ashland, Shenandoah and Pottsville. There will be two sessions, morning and afternoon, and the festivities of the day will close with a grand concert in the evening.

Volume 1, number 1 of the Stroudsburg Daily Times appeared last Monday. George C. Hughes, an experienced and capable journalist, who has made the Weekly Times a power in Monroe county, is editor and proprietor. The Times is a neat, six-column, four-page paper, carefully edited and well laden with select news, miscellaneous and advertisements. It deserves the very best of support, and will get it if enterprise count for anything in old Monroe.

Editors W. B. Pennington and Joseph W. Louis will soon move their successful Plymouth Daily Tribune into a commodious new home built especially for them.

Luzerne County Bar association unanimously favors building a new court house for \$450,000 rather than waste \$70,000 in repairs upon the old one. It is said that if the commission decides to authorize the repairs, those rooms heretofore set apart, rent free, for the use of members of the bar, will be devoted to other purposes.

S. B. DUREY, mate of steamer Arizona had his foot badly jammed. Thomas E. Smith, of Scranton, did nothing equal to it for a quick man reliever.

For Delicacy, For purity, and for improvement of the complexion, nothing equals POZOSKI'S POWDER.

Connolly & Wallace

DRY ITING SCALES THAT CRACKED AND POPPED OPEN. LINDLEY, STEUBEN CO., N. Y., April 11, 1890. FOSTER, MILLER & CO., Buffalo, N. Y.

Worse. Scales would form over the sores and then dry out until they would crack and pop open, showing a watery matter. My skin was all like a dry wrapper. It felt as though it had dried on me. The scales were so bad that they would collect in the bed and have to be shaken out. It was about this time that I commenced using B. B. B. I was so bad that I was ashamed to take my hat off before a neighbor. I had used five bottles of another medicine without noticing any effect; but when I commenced to take B. B. B. the sores came out thicker than before, and they burned like fire; they were immense blotches of flesh that would burn so I could not sleep. The way they burned and itched can not be told, and I hope no one else may ever know from experience. The only relief I could get was from washing the sores with some B. B. B.

I stuck to the medicine and it was on the fourth bottle before I could see that I was really better, although I knew that it was better to get such rottenness out of my blood than to have it stay there. I did say once that I wished I never commenced taking B. B. B., but my wife encouraged me, and to-day I thank her for the advice, for I am in good health now, and I don't believe I ever would have been with my blood in such a condition as it was.

My scalp now is clean and clear of all scales and tetter, and on my body there are only small spots to show where the sores were, and these spots are free from scales. I do not doubt but that the cure will be perfect.

I am now on the sixth bottle and will take more until every spot is gone. I firmly believe that Burdock Blood Bitters will cure the worst disorders of the blood, for such certainly was mine.

Manhood Restored! NERVE DEBILITY. This wonderful remedy cures all nervous debility, loss of brain power, memory, etc. It is a powerful tonic and restorative. For sale by all druggists.
