ARCHBALD GLEANINGS.

Events of a Day Recorded for Readers of the Present Age.

Special to the Scranton Tribune.

ARCHBALD, April 25.—The concert held in Father Mathew hall last evening for the benefit of Martin Mahady, jr., under the auspices of the Knights of Father Mathew, was a most successful and enjoyable affair. The attendance was very large and the audience was delighted with the entertaining programme that had been provided. Some of the most talented ladies and gentlemen of this place, and several from out of town participated, and all were greeted in well merited applause. Mr. Mahady is a member of the Knights of Father Mathew, and has been ill for several weeks.

The laying of the track of the Carbondale Traction company is creating great interest in the southern portion of the borough and there is a prospect of lively times before the work is completed. Last evening a deputation of citizens living along the line of the railway presented a petition to the burgess asking that the company be requested to lay the track in the center, instead of the side of the road, the intention at present being to place it on the right side between the foot of the hill and Colomero's hotel. The burgess called the attention of the road committee of councils to the matter and they will do their utmost to satisfy the people. The road between Wagner's and the terminus is rather narrow and this, coupled with the uncertainty as to the proper location of the street lines, makes the task of the council and the company hard to perform with satisfaction. County Surveyor Dunning's men were here this morning and made measurements along the road, but the result of the findings is not yet known.

Even this does not end the fuss. The Archbold Water company is objecting because the Traction company is laying its track over their water main and threaten an injunction. A main is laid on each side of the road, and the Traction company in order to avoid this difficulty will probably be obliged to take the middle of the road. This would certainly seem to be the best place for the street railway, but then it would be hard to maintain the 24-foot roadway which the borough ordinance requires. Meantime the work of preparing the road-bed goes bravely on and the workmen are now as far as Henry Ort's hotel.

HONESDALE SHADOWS.

Special to the Scranton Tribune.

HONESDALE, Pa., April 24.—A short time ago a borough ordinance was passed prohibiting bicyclists from using the sidewalk. Now that Main street, above High street, is to be narrowed it will leave a space four feet wide to be seeded down. This space could be much better utilized by converting it into a cyclist path of gravel or shale. This movement would give Honesdale a novel spectacle, would amply settle the question, "What shall we do with our cyclists?" and would assure the safety of the lives of pedestrians.

BABY'S BAD ECZEMA

Head on Solid Sore. Itching Awful. Had to Tie His Hands to Cradle. Speedily Cured by CUTICURA.

One little boy broke out on his head with a bad form of eczema, when he was four months old. We tried three doctors, but they did not help him. We then used your CUTICURA for three weeks, and after using them eleven weeks exactly according to directions, he began to steadily improve, and after the use of them for seven months his head was entirely well. When we began using it his head was a solid sore from the crown to his eyebrows. It was also all over his ears, most of his face, and small places on different parts of his body. There were sixteen weeks that he had to keep his hands tied to the cradle and hold them when he was taken up, and had to keep mittens tied on his hands to keep his fingers out of the sores, as he would scratch if he could in any way get his hands loose. We know your CUTICURA is a safe and certain cure. We feel safe in recommending it to you.
