Acute Rheumatism Months of Suffering—Hood's Sarsaparilla Cured. Mr. Noah J. Horner, Staibstown, Penn.

"C. I. Hood & Co., Lowell, Mass.: 'Gentlemen: Four years last January I was taken down with sub-acute rheumatism which located at the base of the brain. It was eight weeks less one day before I was able to walk out of the house and after months of suffering and much pain I feared.

I Would Never Be Well. My physician advised me to use Hood's Sarsaparilla. After taking it in half doses for two weeks I felt better, so at different times afterwards I used it again and in the first year I have again been restored to health by it. I attribute my restoration to health to the use of Hood's Sarsaparilla. My son has had certain skin quite young and last summer while attending school he used two bottles of Hood's Sarsaparilla and said it did him more good than he realized from \$100 for prescriptions, etc.' Noah J. YES OR NO A Well-Known Physician, Who, Among Other Things, Is Noted for His Frankness.

No one ever heard Dr. E. Grever use the phrase "I think" in his practice. The doctor is one of those frank, fearless, honest, positive men who never hesitate to say "yes" or "no" as the case may require. "I can cure you" or "I cannot cure you," is his invariable decision after examination, and to this fact is attributable his remarkable record without failures.

But it would be strange indeed if the doctor were not a more than usually successful practitioner. He has been surgeon-in-chief in more than one of the largest hospitals of this country, was lately Demonstrator of Physiology and Surgery at the Medical-Chirurgical College in Philadelphia, has been an honorary member of the Medical-Chirurgical Association, is a graduate of the University of Pennsylvania, etc., and is still a close student. A man with such a record could not fail to be a successful physician under any circumstances, but when backed by cautious, conservatism in expression, or to use a more popular phrase, the "be-care-you-er-right-than-go-ahead" system, it would be more than strange if failure overtook him.

You can consult Dr. Grever any day at Rooms 5 and 6. Temple Court Building, 311 SPRUCE ST. from 9 a. m. till 9 p. m. Consultations free. Those suffering from Nervous Diseases are guaranteed a cure. For such there is the cheering word "Yes," as failure is unknown in the doctor's treatment.
