Valley Survey Corps Causes Much Comment by Their Presence.

PITTSBURGH, May 13.—The talk of the Lehigh Valley company abandoning the track through town, running all trains over the canal tracks, and building a new depot at Water street station, was revived again today, by the presence here of a corps of Valley surveyors, who passed up the canal track, in a special car, this morning, stopping at every embankment, pier, and building, lying close to the track, taking measurements of the space between them and the car as they went. The surveyors and company officials would not say for what purpose the surveys were being made, therefore, it is not known what are the intentions of the company.—Saturday's Gazette.

Such surmises, while pleasant to dwell upon, are hardly probable. The right of way held by the Lehigh Valley through town is too valuable a franchise to relinquish for the mere betterment of Pittston's interest. The presence of the company's survey corps is more likely to be due to the fact that in the suit now pending in court between J. A. Patterson and J. A. Tannahill, of North Main street, over which a dispute has arisen concerning a piece of land it is alleged the Lehigh Valley company if not directly, are indirectly, interested. The dispute hangs on the exact location of a small strip of land in the rear of Mr. Tannahill's foundry that fringes the oil canal and which is now occupied by the Lehigh Valley's "coal bed" tracks.

The suit which is being pushed by J. E. Patterson is expected to be tried within the next two weeks and promise to be a royal battle in the latter part as the parties concerned claim that each is entitled under their respective deeds to the land in dispute. Mr. Patterson being interested in the Valley company and the fact that a number of the latter's lawyers have charge of the case is considered more than ordinary and is looked upon with much significance. They are Messrs. Durbin & Wheaton, McClintock and John T. Leshahan.

Mr. Tannahill the defendant has placed his interests in the hands of James L. Morris, of this place who is justly termed one of the brightest of young lawyers practicing before the Luzerne bar. Mr. Morris will be ably assisted by George Moon and E. A. Lynch, brother of Judge Lynch. While the piece of land in dispute is not worth much from a pecuniary standpoint the loss of it to Mr. Tannahill who now holds it would mean considerable as it is principal entrance to Mr. Tannahill's works by rail in the form of a switch.

A SLIGHT GLEZE.

The Volcan Iron Works Barely Escapes Disaster.

PITTSBURGH, Pa., May 13.—At 5:45 o'clock Saturday afternoon an alarm of fire was turned in from box 23, located at the corner of Exeter and Ann streets, West Pittston. The scene of the fire was the mounding department of the Volcan Iron works. When the West Side company arrived the roof was found to be the only part affected and a stream of water was promptly brought to bear upon it with good effect. In a short time the firemen succeeded in quenching what a few minutes before gave every indication of making a serious conflagration. The loss, while slight, is fully covered by insurance.

Dr. Norwood's Norway Pine Syrup was used for years as a prescription by a successful physician. It is in all respects the best cough medicine made today. Sold by all dealers on a guarantee of satisfaction.

YES OR NO

A Well-Known Physician, Who, Among Other Things, Is Noted for His Frankness,

No one ever heard Dr. E. Grower use the phrase "I think" in his practice. The doctor is one of those frank, forthrightest, positive men who never hesitate to say yes or no, as the case may require. "I can cure you" or "I cannot cure you," is his invariable decision. After examining, and to the fact that he is attributable his remarkable record without failures. But it would be strange indeed if the doctor were not a more than usually successful practitioner. He has been successful in more than one of the largest hospitals of this country, was lately Demonstrator of Pathology and Surgery at the Medical-Chirurgical College in Philadelphia, is a graduate of the University of Pennsylvania, etc., and is well known throughout the country. A man with such a record would not fail to be a successful physician under any circumstances, but when backed by cautious conservatism, an experience, or no use a more popular phrase, the "sure-you're-right-the-gosh-awful" system, it would be more than strange if failure overtook him.

You can consult Dr. Grower any day at Rooms 5 and 6.

Temple Court Building 311 SPRUCE ST. from 9 a. m. till 9 p. m. Consultations free. Those suffering from Nervous Diseases are guaranteed a cure. For such there is the cheering word "Yes," as failure is unknown in the doctor's treatment.
