CITY NOTES.

There will be a meeting of the managers of the Florence mission tomorrow at 10 a. m. "Hamp" Anderson, who was shot in the chest by another negro last week, is convalescing in the Lackawanna hospital. The basketball league of Scranton, Wilkes-Barre, Pittston and Kingston will meet at Pittston this morning to arrange a schedule for the coming season. The first contest will take place in Scranton on Thanksgiving night. The opera, "The Little Tattler," in three acts, composed by D. G. Johns, of the West Side, will be staged in January. A number of leading soloists and well known musicians of the city are rehearsing it Monday and Thursday of each week at Music hall. Six pupils of the high school, Misses Joseph, Sylvester and Kann, and Messrs. Watres, Doersain and Talkowsky have formed a musical organization, which they term the "Six Sharp's." They intend to give concerts during the coming winter season. The first meeting of the members of the Scranton Banjo, Guitar and Mandolin club will be held at the Young Men's Christian association rooms on Wednesday night, when officers will be elected. Members are requested to bring their instruments with them. The following verdict was handed to Coroner Kelly on Saturday at noon as the result of the deliberations of the jury on the murder of Comfort, the Italian, at Dunmore, on Nov. 11: That "Atholus" Comfort came to his death from a pistol shot wound in the hands of some person or persons unknown to the jury, and also that Joseph Boscina and Rocco Di Salvatore and Antonio Imbrilio were present at the time this man, "Frank" Comfort, came to his death. "Telescopes at David Bro's. Just pure fun for the little ones, that's what those "Queer People" signify.

FELL DOWN THE SHAFT. Munley Is Alive After a Frightful Fall Through Space.

Peter Munley, night headman at the Richmond shaft, fell down the shaft about 9 o'clock on Saturday night and still lives. Munley was pushing a car on the carriage, and after the carriage had descended he slipped and fell into the shaft. He grasped the rope and in doing so tore open the thick pair of gloves. After this he retained hold and tore the flesh off his hands and finally lost his hold and fell into the empty car, which, by this time, had descended a considerable distance down the shaft, which is over 300 feet in depth. A call was made for the Delaware and Hudson ambulance and Dr. Sullivan attended the injured man, who was conveyed to his home on the Boulevard, Dickson City, and was yesterday reported to be in a serious condition. When you need anything in David Bro's line, don't forget them. The next rehearsal of the "Chimes of Normandy" will take place this evening at the hall over Powell's music store, at 8 o'clock. Mr. Lindsay, the conductor, will be pleased to receive all new comers. David Bro's banking establishment negotiates loans to the extent of \$100,000. A sure cure for frown; those "Queer People."

RIGHTEOUS WRATH OF GOD

Sermon of Rev. Dr. Robinson in the Second Presbyterian Church.

LOVE WITH A THUNDERBOLT

Promises Are Tempered to Fit Mushy or Jelly Fish Christians Who Have No Backbone—Views Upon Church Fairs and Suppers.

A large congregation was last night gathered in the Second Presbyterian church, where the pastor, Rev. Charles E. Robinson, preached on "The Record of God's Promises," and devoted five minutes to discussing "How About Church Fairs and Suppers."

The sermon treated particularly of the righteous indignation of God in his treatment of those who denied his grace and was from I Samuel, II, 30. "Wherefore the Lord God of Israel saith, I said indeed that thy house and the house of thy father should walk before me forever; but now the Lord saith, be it far from me; for they that despise me shall be lightly esteemed." The text was associated by Dr. Robinson with the mild remonstrance against the violence of his sons. He said, in substance:

Love May Be Severe. "The text cites the recall and recoil of God's promises; it may be likened to the rain cloud which is anticipated with pleasure, but which may contain a thunderbolt. It suggests the question of a father's responsibility for the sins of the child. The father is not always responsible; he is responsible if by precept he has taught sin or has not been firm in suppressing it. There is too much platonic religion—like some theology which has mush in it, or like the jelly fish that has no backbone. "God's desires are records which must go down through ages and they must not be humiliated. Some people believe that God is not supposed to be angry with sinners. True, God loves a sinner and bids them come to Him, but His love is the love that has the lightning stroke in it. His wrath, however, is of righteous indignation; the love which is of patience, long-suffering and of great goodness is for the sincere and not for the tyrannical, the dictatorial or the deceitful. "The text is a last lesson to those who would make merchandise out of honor—that they honor me will I honor, and they that despise me shall be lightly esteemed."

Church Fairs and Church Suppers. In his discussion of church fairs and suppers, Dr. Robinson held that the old idea, fair with its grab-bag, lottery and postoffice is an abomination. If the word "fair" is dropped and useful articles are sold at prices equitable and comparing with those of the stores, it is proper church enterprise. He contended that a business man who labors in the commercial district of the city and gives a portion of his earnings to the Lord has no right to criticize good women who sell their work for the good of the church. No credit is due those who buy or eat at church fairs or suppers unless they have made a sacrifice to leave domestic cares or the home circle. The credit is due those who work and toil for the success of affairs for the purpose of church revenue. For Mrs. Brown to spend time and effort on a marketable article to be sold at a fair price, is just as commendatory labor as for Mr. Brown to contribute a portion of his earnings in cash.

BUNCO STEERERS STEERED.

The Job of Three Detectives of Franklin Avenue Ends in Police Cells—They Relieved Charles Furey of \$44 and Then the Police Entered the Game. They buncoed once too often. For several days the police have been on the alert for John Thomas and several pals, who until Saturday, maintained a third-rate gambling house on Franklin avenue. They were wanted for swindling and stealing \$44 from Charles Furey. Through the alertness of Lieutenant Davies a trio consisting of Thomas, a man named Carey and a woman whose only appellation is "Boss" were arrested at an early hour yesterday morning. Furey made a complaint some days ago that he had been induced to walk into Mr. Thomas' residence and indulge in a game of cards, in which he alleges that swindling of the highest order ensued and his pocket was lightened of \$4, and, further, he was surprised to find that \$40 more had been surreptitiously taken from him. Lieutenant Davies, Officers Palmer, Boland and Marier entered the rooms about 2 a. m. yesterday and found the parties wanted. Thomas, who is alleged to be a married man, with a wife residing at Bellevue, is very indignant over his arrest and cannot account for it. Furey and his confederates to discuss the matter with Mayor Connell this morning. Other men, in the same vicinity, who live upon the earnings of unfortunate girls, are quaking lest the same treatment be meted out to them. Every lifting curve, every mark, every dash in those funny "Queer People" signifies a laugh.

EXCELSIOR TOURNAMENT.

Lovers of Sport Will Be Treated to High-Class Boxing for Two Nights. No one who desires to witness an exhibition of the manly art and a programme that will include at least eight events each night can afford to be absent from the tournament of the Excelsior Athletic club, which will be held tomorrow and Wednesday nights at Music hall. The entries secured are at weights as follows: 115 pounds, 125 pounds, 135 pounds, 145 pounds and 155 pounds. The boxers who will appear are among the best amateurs that Philadelphia, Trenton and New York can produce. The cream of the Excelsior Athletic club will also be in the contest for honors, and there is every guarantee that the events on each night will more than repay the price of admission. The old time favorite, Joe Willaseck, of Philadelphia, will enter the lists. There are others, too, who will not be behind in a genuine exhibition of scientific boxing. Do not forget the dates, Nov. 20 and 21. The exercises begin each evening at 8 o'clock. Have your eyes examined free of charge at David Bro's.

END OF AN UPRIGHT LIFE.

Death of Herman G. Senker After Much Suffering. After months of suffering from tumorous growths, Herman G. Senker, of 512 Stone avenue, died last night at 10 o'clock. His family employed all human agencies to alleviate his sick-

SWISS CITIZENS' JUBILEE

Twenty-fifth Anniversary of Scranton's First Swiss Society—Prominent People of New York and Hoboken Attended.

It has been twenty-five years since the first Swiss society was organized in Scranton and the event was becomingly celebrated Saturday night with festive exercises by the Groutli Verein societies of the city at Music hall.

TEST TO BE MADE TODAY.

Bonta Plate Glass Works Will Be Started. Inventor Is Sanguine of Success—Stockholders Will Be Present and Will Elect a Board of Directors.

Today at the plant of the Bonta Plate Glass company at Moosic the directors and stockholders will witness the first trial of the manufacturing machine that has been erected on the grounds. This machine will roll off plates of glass and the success of the experiment will demonstrate the claim set up by the inventor that glass can be manufactured with less trouble and at a more reduced expense than attends the manufacture of the article under the method now employed.

The claim of the Bonta Plate Glass company is that by the new machinery and also by the new formula of manufacturing glass, that the transparent article will not only possess a more pellucid composition, that it will possess greater durability; and not only that, but the greatest feature will be that its cheapness and the reduced cost to the public will single it out for popular and immediate favor. For some time the company has been handicapped by not knowing the exact location of the plant. That is the reason it is not in operation at this time. There was a question that had not been ultimately fixed, relative to the arrangement of the buildings, which interfered with any attempt to complete the work of constructing them. However, an agreement has been arrived at and the task of constructing the buildings will now go on. The plant is located at a point where a natural advantage accrues. Contiguous to the site on all sides are banks of sand, just suited to the manufacture of the product of the works. The machinery is so simple looking that a doubt of its utility arises on beholding it whether the representation will prove to be true. J. W. Bonta, inventor of the modus operandi, and general manager of the new works, asserts that with a fair trial the machine will amply demonstrate not only what is claimed for it, but also an achievement far beyond the most sanguine expectations. After the test of the machine has been observed fully, a business meeting will be held at the office of the company in Moosic. It will be an assembling of the stockholders; directors will be elected for the ensuing year. J. W. Bonta has already been chosen general manager of the works.

THOSE COUNTY BONDS.

List of Holders Does Not Show Many Widows or Orphans. It having been charged that the majority of the recent county bonds involved the disturbing of investments of widows and orphans, the following list of the holders of these bonds will be of interest:
