When the Ready-to-Wear Costume first appeared it was greeted with enthusiasm by thousands of women, who saw in it not only a saving of time, but a saving of money. But there were objections. The chief objection was a marked similarity of style. One costume was very like another, and the purchaser found herself duplicated at every street corner.

Things are different now, and we have done our share in bringing about the revolution. The objection of duplication has not been fully removed as a whole, but it has been entirely eliminated from this store. There is no point in which we are so particular as in this matter of exclusiveness of style.

The gowns you find here have no duplicates elsewhere. The first thing you'll notice will be the jaunty, saucy, tasteful style about them. The next thing will be the exquisite finish and detail of their manufacture, made as they should be made. Made as you like to have them made. The materials are Cottons, Linens, Silk and worsteds, in the season's new shades. Most of the suits are fully silk lined, some light-fitting, others in double-breasted or roster effects. The skirts are made in all the new shapes.

Our showing of Separate Shirts, Jackets, Capses, Collarettes and Neck Scarfs is most complete.
