

CARBONDALE.

The Carbondale correspondence of The Tribune has been placed in the hands of Mr. J. M. Forbes, etc. also news items, should be addressed to Roberts & Reynolds, news agents.

A NEW ORCHESTRA.

A movement is on foot whereby Carbondale will have two new musical organizations, a ladies choir of twenty-five voices and a new orchestra of twenty prominent young people. The former organization met for the first time under the direction of Prof. Hayden Evans yesterday afternoon. The personnel of the orchestra is: Violins, Messrs. D. L. Crane, L. M. Smith, W. P. Colville and George Burrell; violas, Miss Bertine Hunsucker and A. R. Thomas; violoncello, Mrs. E. D. Lathrop and George S. Kimball; pianists, Miss Maud Copeland and G. Frank Cotch.

The musicians will be under the direction of Prof. Thiele, of Scranton, who has pleased audiences in this city on several occasions. They will give a number of entertainments at the homes of their friends during the coming winter and as yet they have not selected a name. The choir is composed of a number of the city's best vocalists, who have organized for the sole purpose of singing at the meetings they can derive from their meetings.

LOST, STRAYED OR STOLEN.

"Lost, Strayed or Stolen" pleased a fair sized audience at the Opera house last night. The piece is an exceedingly laughable one and the brilliant costumes and pretty scenery added much to the general effect. The songs and choruses were all well rendered, both the male and female voices being unusually well trained. Each person appeared well adapted for his or her part. Should a return date be secured the house will no doubt be packed.

ELEVENTH ANNIVERSARY.

The members of the Germania Singing society are making preparations for the celebration of the eleventh anniversary of the founding of the organization, which will take place on the 24th of the present month. The rooms will be formally opened on that date with one of the festivities which the Germanians are noted for. The affair promises to undergo anything of its kind previously undertaken by the organization.

ROYER BROTHERS.

The Royer Brothers, in the acrobatic farce, "Next Door," will hold forth at the Opera house tonight. The plot is full of life throughout and the acrobatic feats performed by the Royer Brothers are as good as have ever been witnessed in this city. There is no plot to the programme but every minute is enthralling with athletic action. A large number of seats have already been reserved for the performance.

FIRE AT THE FAIR.

Fire was discovered early yesterday morning shortly after six o'clock in the Fair Novelty store on North Main street. The Mitchell's were given the alarm and hurried to the scene, where it was discovered that one box of underwear was on fire. H. W. Reigluth, the proprietor of the store, is in New York city, and the persons in charge can give no idea as to the cause of the blaze.

PREPARING A CANTATA.

The young people of the Berean Baptist church are preparing a patriotic cantata entitled "Columbia," which they anticipate rendering in the near future. The same persons have accepted parts in this piece that so admirably filled their parts in the cantata "Father Time," which was rendered to a large audience in the church some months ago.

Jones is in charge. The Delaware, Lackawanna and Western collieries are working full time in this town and vicinity. Registered at the Lake house this week are: J. B. Kelly and wife, H. H. Coston, John Vlet, G. W. Kear and wife and Charles E. Kear, all of Scranton. Next week our station agent, J. F. McFarland, takes his annual vacation. He will visit his father at Wimmers a few days, then with his brother will go to Pike county to hunt deer.

Joe Watrous will be installed as railroad agent while Agent McFarland is away. Everyone remembers Joe as a happy-go-lucky fellow willing to accommodate everybody. The scholars at the high school are complaining quite bitterly of the new teachers giving too long and too hard lessons, and then making them stay after school to study up. Two scholars are reported as having left on this account. If this be true it would pay the school board to investigate.

Our delegates report a good time and the best convention of the series—at Arlington, from a week's visit with relatives at Mount Cobb. The miners of the Sturges shaft are out on strike. The hose company soon arrived on the scene, but they were unable to do anything, owing to there being a scarcity of water and no fire plugs in that section. The employees of Storrs' mines re-

A MAN CAN'T WORK.

WHEN HE IS SUFFERING WITH PILES.

He Can't Eat, Sleep, Can't Get Comfort Any Way But One—Pyramid Pile Cure Will Cure Him, Give Relief at Once.

Just a little pain may so distract a man's mind that it will cost him hundreds of dollars. Life is a battle. To succeed one needs all his energies and all his brain force to apply to the question at hand. Even a corn will make him irritable, cross, angry—and an angry man seldom succeeds. The trifling pain of a corn is a pleasant feeling beside the agonizing ache of piles. That is a pain which seems to pervade the whole body. It irritates the inflamed parts near the seat of the trouble and brings on a heavy dragging feeling in the perineum. Those who have never so suffered do not know what it means. It racks the nerves, prevents sleep, concentrates thought and makes a man lose flesh as fast as he would with a virulent fever.

And yet piles are looked upon as a little thing. They are neglected—allowed to run on from month to month and year to year. By and by comes a surgical operation. Maybe it cures—maybe it kills.

There is only one sure, safe and quick cure for piles. It is the Pyramid Pile Cure. It is a recent discovery and its properties are such that it changes the inflamed parts, reduces the inflammation at once and with continued treatment, removes all swelling and all trace of the disease. It puts the membranes in a healthy, active condition and cures completely and permanently.

From C. F. Collins, Garnett: "I commenced using the Pyramid Pile Cure and my case was so bad I thought the remedy was going to fall in my case, but before I had used two thirds of one box I began to feel better and I can honestly say I am entirely cured. It is the quickest and surest remedy I have ever heard of."

From Josiah Roberts, Port Oram, N. J.: "Just one-quarter of a package of the Pyramid Pile Cure cured my case and I have lost no opportunity of recommending such a great remedy."

From William McHale, Rockport, Mass.: "One package of Pyramid Pile Cure has helped me more than anything I have yet used."

The Pyramid Pile Cure is sold by druggists generally. If your druggist doesn't keep it, he will get it for you if you ask him. Book on cause and cure of piles sent free. Address, Pyramid Drug Co., Marshall, Mich.

turned on Tuesday from a visit with friends at Starrucca. Mr. E. Richmond have returned from their summer outing among the White Mountains. An electric railroad to connect Hawley, White Mills, Honesdale, Seeleyville and possibly Beech lake must enhance the public interest in Honesdale. And just why a few should oppose the franchise does not appear clear to the mind, from a business point of view.

PECKVILLE.

Many unavoidable delays on the electric light plant have put the work back about two weeks. However it is stated that Blakely will be illuminated by the home product by the latter part of November.

The rates given out by council for electric lights is very low and thus enables owners of private residences to light their homes at a nominal cost. This was the idea from the start that the benefits should fall to the taxpayers who voted the project in. The reduction of 50 per cent to the churches will be highly appreciated by the church-going people.

Mrs. S. H. Briggs, as a delegate of the Women's Christian Temperance union of this place, was at Hawley yesterday attending the state convention of that society.

Morris Friedman, the Ridge merchant, who was removed to the Scranton hospital for an operation, died last Tuesday evening and was buried yesterday afternoon.

Merchant V. A. Peck will occupy the large store room of the new Odd Fellows' building. Asa Scott is moving into his new home on Prospect hill. Mr. and Mrs. Charles Waltz have returned from a week's visit with relatives at Mount Cobb.

The miners of the Sturges shaft are out on strike. The construction of the new Riverside breaker is being delayed by the non-arrival of machinery.

HONESDALE.

This is court week. The first entertainment of the Christian Endeavor course will be given Oct. 27. There have been with us for the past week—the politician and the weather. Both are very warm. Contractor John Bryant will improve the exterior of Homer Greene's residence by the addition of modern porches on the south and east sides. Mr. and Mrs. W. J. Ward return today from Beech lake, where they have been spending the past three weeks.

Mrs. Paul W. Gardner accompanied her husband and two children yesterday. They will commence housekeeping in Green Ridge. Rev. R. M. Roderick will exchange pulpits with Rev. J. R. Ellis, of Olyphant, next Sunday. The pleasant weather for the past few weeks has brought out a second crop of the red raspberries. They are being picked and brought to market and sell for twenty cents per basket.

The "Maine Avenge" at the opera house this evening, produced with new scenery and a strong company, headed by Hamilton Harris. Miss Hattie Beers is visiting friends in Scranton.

Mr. Arno Voigt returned to Jefferson Medical college on Monday. The funeral of Mrs. Phoebe M. Spencer was held from her late residence, on Second street, yesterday at 2:30 p. m. Rev. W. H. Swift officiated. The deceased had been a great sufferer all summer. She is survived by her daughter and two sons, Miss Rowena, Fred. M. and Charles F. Colonel and Mrs. G. B. Osborne re-

ceived their wages yesterday morning. The week old son of Mr. and Mrs. W. C. Griffin was buried Tuesday.

CLARK'S SUMMIT.

A very enjoyable entertainment was given at the Methodist Episcopal church, Clark's Summit, Tuesday evening. Miss Jennie Stearns' pupils did themselves great credit; Mrs. C. R. Krebs was in her usual happy mood and scored a success with every number. The music was exceptionally fine, consisting of solos, duets and trios.

DEFECTIVE MINE LAWS.

Mine Inspector Williams, of the Central Mine Inspection district of Luzerne county, has the following to report to the authorities at Harrisburg, which has just been published: "In the year 1871 the first year of the anthracite laws there was one life lost for 186 employees, and a production of 26,000 tons per life lost. The number of persons employed was 5,880. In the first decade under the mine laws one life was lost for 233 employees, and 8,000 tons of coal were produced per life lost. In the second decade, one life was lost for 240 persons employed, and 28,446 tons were produced per life lost. The total number of employees for last year was 25,650, against 9,570 in the year when the mine inspection began. The quantity of coal produced in 1897 was 2,427,418 tons in an average of 134 days, against 3,000,000 tons in the first year of mine inspection in perhaps double time, or 20 days. It is not possible to compare the records in mines with the number of persons employed. In the latter part of the second decade in this district, an unusual number of men were employed opening new mines and driving tunnels who were not producing coal, and it is not just that the accidents should be attributed to coal mining.
