CARBONDALE.

RESUMPTION OF TRAFFIC.

Opening of the Railroads Yesterday.

Several Trains Abandoned.

The three early morning trains out of this city on the Delaware and Hudson road were abandoned yesterday. The first train from down the valley reached here at 10 o'clock a. m. After that the trains ran on nearly schedule time. The Erie "flyer" came in only fifteen minutes late, and in this connection it is worthy of note that the recent blizzard did not interfere with traffic north of this city as much as it did south. Heretofore heavy storms have tied up the "Jeff" when little here and Wilkes-Barre. Even the Honedale branch was unusually obstinate in succumbing to the storm King. Monday trains made pretty good time over the mountain, but yesterday no trains were sent out until late in the afternoon. They got through with some difficulty.

Superintendent Flynn stuck to the street car line with his customary tenacity, and, much to the surprise of the road's patrons, cars were running at 9 o'clock in the morning. They could not be opened clear through to Forest City, but probably will be today.

Monday's New York papers got in here at 10 o'clock yesterday morning, but yesterday's editions had not arrived at 9 o'clock last night.

The carrier of mails to Honedale encountered an insurmountable drift on upper Canaan street and returned to this city with his pouches a half hour after his departure. He expects to go through all right today.

The Dundaff stage has not yet been heard from.

WILL ENTER INTO BUSINESS

J. D. Fox, of this city, has purchased a novelty store in Glen Falls, N. Y., and will take possession on the first of March. He comes into possession of a long established trade and will doubtless have the success his many friends wish him. His family will move to that city on April first and will be much missed. Mr. Fox has been traveling salesman for a novelty house for several years.

INTERESTING LECTURE.

Dr. Weaver, of Wilkes-Barre, who was a surgeon in Uncle Sam's volunteer army, delivered an interesting lecture in the Watt building last evening, under the auspices of the Trinity church. His subject, "Camp Life, Chickamauga," was illustrated with stereoscopic views. After the entertainment, ice cream and cake were served. A large number were in attendance and a neat sum was realized for the church.

FIREMEN FAVORED.

Superintendent Flynn, of the Traction company, had notices posted at the power house yesterday to the effect that henceforth conductors will carry members of the Carbondale fire department and from fires free. The laddies will be identified by their badges, provided by the city some time ago. From now on these little emblems will be of some practical use.

MERRY MASQUERADE.

The merry masquerade ball given by the Germania Singing club Monday night was as happy as any similar affair they have ever conducted. The attendance, owing to the storm, was not as large as that of preceding years. The hall was embellished with the national colors for the occasion.

LOCAL AND PERSONAL.

At the solemn high mass of requiem said at St. Rose's church yesterday for Bishop O'Hara, Rev. T. F. Coffey, was celebrant; Rev. W. A. Nealon, deacon, and Rev. J. J. Griffin, subdeacon.

Miss Mary Meehan, of Brooklyn street, has returned from a visit in Scranton.

Miss Mabel Carr is convalescent. School Director P. F. Hughes is ill at his home on Gordon avenue.

Attorney Butler has been appointed by court to ascertain the indelicacy of Fell township.

Mr. and Mrs. Walter Hyatt, of Canaan street, are in New York, where they went to attend the funeral of Mrs. Hyatt's mother.

The funeral of David Morgan, of Simpson, will be held this morning. It was postponed yesterday owing to bad weather. The remains will be taken on a street car to Peckville for interment.

Mrs. S. Singer returned last evening from a visit with friends in Scranton. The Ladies' Valentine dance at

aware of what was going on at the time. He stated he saw the defendant assisting the old man across the street. The justice committed the accused to the county jail. Attorney John T. Martin represented the Commonwealth, and John J. Manning the defendant.

Despite the inclement weather on Saturday evening the entertainment given in Edwards' hall by the members of St. George's Mission, was well attended. The following programme was rendered: Graphophone selection, recitation, Maud McKinley; song, Delos Davis; recitation, Sadie Rogan; song, Nettie Mason; recitation, John McKinley; graphophone selection; violin and organ duet, Mrs. N. R. Myers and Mr. Benjamin; recitation, Alice Evans; song, Minnie Mager; recitation, Cona Matthews; graphophone selection; recitation, Mary Nicols. At the conclusion of the programme ice cream, coffee and cake were served. Miss Jennie White, of Providence, won a handsome comfortable which was the champion.

Miss Mary Butson, of Green Ridge, is visiting her home on Scotch street. The borough council will meet this evening. Miss Nellie Farrell is visiting relatives at South Scranton. Miss Alice Hasheigh, of Carbondale, has returned home after spending a few days with friends in town. T. P. Jones spent Sunday at Green Ridge.

The members of the Primitive Methodist church enjoyed a sleighride to Taylor Friday evening.

JERMYN AND MAYFIELD.

A driver employed by Peter Krantz, the Carbondale lumberman, had an exceedingly narrow escape from death Monday during the blizzard. He had been in Jermyrn and was returning when he reached the railroad crossing near the Erie breaker at Mayfield. Apparently failed to notice the approach of engine No. 10, which was on the middle of the track when the engine came along, throwing the team one side of the road and the sleigh to the other. Those who witnessed the accident expected to find the driver dead, but to the fortune he had the head and a bad scaring he seemed little the worse for the awful experience. One of the horses also escaped injury, the other was severely injured about the hip. The engine struck the sleigh just as it was going north, which accounts partly for the fortunate escape of driver and horses. The sleigh was almost demolished.

The monthly institute of the local teachers was held in the high school on Saturday. A paper on reading by Miss Edith Mullen, which contained many valuable suggestions to the teachers, giving instruction to intermediate grades. Miss Margaret Jones read an excellent paper on writing, which was of a most practical nature. Mr. Fowler spoke on local and state geography. He began with the school ground, then borough, county and state, and then all the valuable mines the state contains. Miss Buchanan spoke on the subject of teaching arithmetic to grammar grade, in which she discussed very fully the subject of common fractions. For the next institute, to be held on March 10, the following programme has been arranged: Miss Mullen, "Talk on Child's Study"; Miss Davis, on "Busy Work in Primary Grades"; Miss Roberts, "Number Work in Primary Grades"; Miss Mullen, "Reading in Primary Grades"; Dr. S. I. Graves was a Scranton visitor yesterday.

On Friday evening the Franklin Literary society will give their first public entertainment in the high school building, at which the people of the borough are cordially invited to witness. The following excellent programme has been prepared for the occasion: Song, "Excelsior"; opening address, president; concert recitation, Hilda Swick, Louisa Munn, Mamie Roberts and L. Sprague; parapsyche, "Village Blacksmith"; Sumner Davis; recitation, "Paul Devere's Ride"; Clio Carter; organ solo, B. Mash; "Our Society, Its Aims and Object"; Clarence Benjamin; recitation, Nellie Osborne; violin duet, Misses E. Roberts and H. Murphy; recitation, "Famine"; Emma Pedrick; reading, "Quadroom Girl"; George Harris; recitation, Maggie Maxwell; duet, Margaret Davies and Minnie Phillips; recitation, Alice Henwood; song, "The Bridge"; girls; recitation, "F. J. L."; Irene Roberts; chorus, girls; character sketch of Evangeline, Otto Myers.

Kirk Miller, a well known Greenfield farmer, was in town yesterday with his team and left last evening in the height of the blizzard to make the return journey. He was discovered late last night, between Clark Goswami's farm and the toll gate in a half frozen and exhausted condition and it is probable that he would have frozen to death had not help arrived when it did. He was taken to Jake Van Sickle's where it was found his ears, hands and feet are terribly frost bitten. The team was also placed in the barn and Miller was unable to proceed home until late yesterday.

Secretary of the School Board Pritchard yesterday received a handsome hunting flag for the school. The flag will be hoisted today and will be hung at half mast in memory of the loss of the battleship Maine and so many gallant sailors who were so suddenly thrown into eternity just a year ago.

Rev. M. Lynoit left for Mexico yesterday, where he expects to remain for some time. Mrs. William Sells, of Second street, has been ill for several days past. The blizzard of Monday was one of the worst experienced here for a number of years. Charles and George Maynard, of South Main street, who have been visiting Nanticoke friends, returned home Monday evening. Attorney Carey is contemplating opening an office in Scranton.

Armin Bausch, of Wilkes-Barre, is here visiting his relatives on the East Side.

MOSCOW.

Mr. Samuel Williams, of this place, who has been ill for some time, died at his home Tuesday. His funeral was held from the M. E. church at Daleville Friday afternoon. Rev. Ackerly, of that church, officiated. She leaves a husband and three children. H. L. Gaige was in New York last week. D. S. Gardner is confined to his home with rheumatism. Rev. W. L. Thorpe, presiding elder

FREE TO MEN

No money in advance. Weak, stunted, shrunk and feeble portions of the body quickly enlarged and strengthened. Medicines and instruments sent on trial. Medical instruments, Particulars sent today. It can be administered without the knowledge of the patient. Send for pamphlet.

THE SCRANTON TRIBUNE, WEDNESDAY, FEBRUARY 15, 1899.

of the Honedale district, held a quarterly meeting in the Methodist church Saturday and Sunday. D. J. Clouse spent Monday and Tuesday in Scranton. John Scheitler, of Gouldsboro, spent Sunday with friends in town. Bert Deisacker is home again after spending a month at Renova, Pa. Mr. and Mrs. John Wardell, of Scranton, attended the funeral of Mrs. Williams Friday. The M. E. Sunday school expect to indulge in a sleigh ride Saturday afternoon.

The many friends of Miss Sarah Decker will be pleased to know that she is improving. Mr. Charles Wardell, of Gouldsboro, was in town last week. Charles Evans, of Scranton, is spending a few days with his sister, Mrs. Thomas Johns.

TAYLOR NEWS.

Merry Milkmaid a Great Success.

The opera "Merry Milkmaid" was produced in Weber's rink on Monday and Tuesday evenings under the direction of the Calvary Baptist Church choir. The attendance on the former evening, owing to the inclemency of the weather, was not as large as was expected, but last evening the spacious rink was crowded. The performance reflected much credit on the director, David E. Jones. Sergeant John H. Wells, of the Ninth regiment, is deserving of much credit for the manner in which the performers were drilled. Miss Edith Watkins impersonated the queen, and her renditions were enthusiastically applauded. Miss Otwell Howells responded to fortune teller. She possessed a rich contralto voice, which was much admired. Dorothy was Miss Lydia Haskins. She also sang in excellent taste. Commander was the character of James E. Watkins. With his excellent baritone voice, he was much appreciated. The other artists and their assistants were Miss Susie Harris, Maud Davis, Lillian Howell, Leah Evans, Gertrude Watkins and Marie Francis. They performed their parts in a pleasing manner and captivated their hearers. The former boys performed their parts well also and were loudly applauded.

The funeral of Mrs. William Fallon occurred from her late home in South Taylor yesterday morning. A requiem high mass was sung in the St. Lawrence church by the Rev. Jordan. Burial was made in the Minooka Catholic cemetery.

Miss Nellie Davis, of Sumner avenue, Hyde Park, has returned home, after visiting Mrs. George Gannon, of North Main street.

Funeral director John E. Davis is recovering from his recent sickness. The members of the newly organized choir which will compete at the Walsh Baptist church established on Washington's birthday, are urgently requested to meet this evening in Welsenuth's hall. By order of director, Richard Watkins.

The public schools were poorly attended on Monday, owing to the severe weather. The teachers were compelled to dismiss. Scarcely ten pupils were in attendance in each department.

Taylorville Lodge, No. 462, Knights of Pythias, will hold a grand social and entertainment in their rooms in their rooms in Reese's hall. The contest for the \$10 gold piece will be decided also. The committee in charge of the affair have succeeded in getting together an excellent programme for their event. All members are urgently requested to be present.

Mr. J. Decker, of South Scranton, was a Taylor visitor on Monday. Rev. J. H. Harris, Ph. D., of this place, officiated at the funeral of the late Mrs. Elizabeth Lewis, of Hyde Park, on Monday.

Tire broke out at an early hour Tuesday morning in the hotel of James Sheridan, of Old Forge. Nothing could be done to save the hotel. Two adjoining buildings were also burned to the ground.

For La Grippe. Thomas Whitefield & Co., 246 Wabash-st., corner Jackson-st., one of Chicago's oldest and most prominent drug and medicine houses, has prepared a remedy for the grippe, as it is not only gives a prompt and complete relief, but also counteracts any tendency of la grippe to result in pneumonia. For sale by all druggists. Matthews Bros., wholesale and retail agents.

AVOCA.

The Pittston and Avoca curling teams played an interesting game at Pittston on Saturday afternoon, which resulted in a victory for the Avoca team. The score was: First rink—Skips, William Graham, Sandy Thompson, score, 18-18 in favor of the former; Second rink—Skips, Joseph Weddall, John Thompson; score, 20-16 in favor of Weddall. Third rink—Skips, Thomas Hallstone, William Thompson; score, 18-20 in favor of Thompson. Avoca team has been unsuccessful in their prize game this year. They have held the Pariser cup for three successive years and hope to hold it again after next season. Another interesting game is expected as soon as the ice permits.

Tuesday evening, Captain C. G. Branson, the converted pugilist and gambler, will conduct services in the Primitive Methodist church and will continue there for the next few weeks. He has just closed a series of meetings at Green Ridge, where he has made several conversions. A general invitation is extended to the public to attend the services.

Miss Gertrude Davis has returned home to Jermyrn after several days' visit with friends in town. William Bennett, of Vine street, is suffering from a peculiar ailment of the nose. Drs. Wehlauf and Pier held a consultation on Sunday in regard to his condition. Grave doubts are entertained for his recovery.

Miss Mary E. Davis, daughter of Mr. and Mrs. D. E. Davis, of Vine street, is critically ill. Miss May Howell, of Centremoreland, is the guest of Mr. and Mrs. Blair Howell. Mrs. Sarah Ross, of Lincoln Hill, is suffering from an attack of rheumatism.

The entertainment, which was to have been given on Sunday evening under the direction of F. J. Noon, was postponed until a later date. Thomas Herbert, of Main street, is attending the funeral of his uncle at Ashby today. It can be administered without the knowledge of the patient. Send for pamphlet.

Chinese came from far and wide to see and experiment with the new barometer, curiosity, and the people in the neighborhood, soon finding it an institution of great practical utility, became regular patrons. They quickly caught on and people against the construction of the road never materialized, and as for the graves along the route, every farmer would manufacture as many graves as he could get dollars for permission to traverse them.

China's First Railway. From the Engineering Magazine. The first railroad constructed in China was a narrow gauge line from Shanghai to Woussing, but down in 1876, and intended chiefly as an ocular demonstration to the Chinese. At the end of twelve months it was sold to a Chinese official, who straightway tore up the rails and deported them to Fuzhou. The simple dummy engine of the line now reposes peacefully in the mud of some Formosa harbor, together with the wreck of the junk in which it was transported. During these twelve months of its existence the Shanghai-Woussing railroad, with its single junk engine and its train of small cars, which, by the way, were of the American pattern, carried three hundred thousand passengers. The

Chinese came from far and wide to see and experiment with the new barometer, curiosity, and the people in the neighborhood, soon finding it an institution of great practical utility, became regular patrons. They quickly caught on and people against the construction of the road never materialized, and as for the graves along the route, every farmer would manufacture as many graves as he could get dollars for permission to traverse them.

Woman vs. Whiskey.

It was the snake that ruined the earlier Eden. It is the snake—alcohol—which is the Arabic El. Cohol, meaning the Devil, which ruins the later Eden—the home.

Woman and whiskey are natural antagonists. She has been the greatest benefactor of her race. It has ruined her children, blighted her life. Women organized the first effectual movement against intemperance. Women have prayed and paid and stayed through all successive temperance movements. It is woman who must meet this new aggression of alcohol against the peace and purity of the home.

THE SWANE INTERPRETANCE

is a subtle beast. Drive him out of the door, he comes in at the window. Driven from the cellar, from the sideboard, from the kitchen, he now returns wearing the mask of heaven, masked as a medicine, and recommended as a remedy for human ills.

It is the opinion of eminent physicians that alcohol is the most powerful of all stimulants. It is the opinion of eminent physicians that alcohol is the most powerful of all stimulants. It is the opinion of eminent physicians that alcohol is the most powerful of all stimulants.

They saw the shadow of the snake fall on their children. How much more perilous is alcohol disguised as a medicine! Sick people mistake its stimulating effects for real benefit. They allow the appetite for alcohol to grow on them while they are lulled into a false confidence by the label "medicine" borne by it in reality a whiskey bottle. "Hard" cider has been called

"The Devil's Kidding Wood."

What then are pure alcohol, whiskey and rum, covered with a flavoring of some herb or root? Medical men of every experience have said that alcohol in the guise of various patent medicines is one of the most

prolific causes of intemperance. It sows the habit, creates the craving, and it does this in the very homes where every door is supposed to be closed to liquor. If alcohol is to be used in patent medicines,

As "Vorce," the leading temperance journal says: "Compel every patent medicine manufacturer to put on the wrapper of his bottle the quantity of alcohol it contains." There is no desire to be unjust to patent medicines. Temperance people only ask that alcohol shall not be introduced into the home under a false name that whiskey shall not mask as medicine.

It is idle to contend that alcohol is necessary to the preservation of the virtues of medicines. This claim is without merit. Every letter of prescription and Dr. Pierce's Favorite Prescription and Dr. Pierce's Golden Medical Discovery are absolutely free from alcohol in any form and yet preserve their healing qualities and pleasant flavors in any climate and under all conditions. The safety and sanctity of the home demand that women shall once more rally for the new crusade against whiskey medicines.

By a preparation of the Drug by which its injurious effects are removed, and the valuable medicinal properties are retained. It possesses a powerful and anti-spasmodic power of Opium, but produces no sickness of the stomach, no vomiting, no constipation, no headache. In acute nervous disorders it is an invaluable remedy, and is recommended by the best physicians.

Every Public Building, Warehouse, Hotel, Theater, Colliery, Store and Dwelling should be equipped with them.

6. W. S. FULLER, General Agent 25 Lackawanna Avenue

TIMOTHY'S STOMACH.

The advice given to Timothy to "take a little wine for thy stomach's sake" has been a favorite excuse of those who felt the need of offering an apology for the use of intoxicants. As a matter of fact there is nothing to show that the wine advised for Timothy's stomach was alcoholic or anything else than the pure unadorned grape juice, the common "wine" of every day use. But however that may have been, it remains true that it has been established by the most eminent physiologists that there is nothing that alcohol can do for the body which cannot be better done by something else, and that even such medicines as are usually used as they are unsafe. Apart from the danger of establishing the alcohol habit, the use of alcoholic medicines is a positive injury to the stomach in every case where the digestive and nutritive system is enfeebled.

"STOMACH TROUBLE."

It is a condition in which the stomach and other organs of digestion and nutrition are performing their work partially and imperfectly. The stomach is the power house of the body. It is here that the energy is created which becomes the vital force in man. It is by the stomach and its allied organs that the food which is eaten is converted into nutriment, and the special form of nutriment required by the several organs of the body is thus distributed to the various parts of the body. The brain, the nerves, the spinal cord, muscle, and every supply of phosphorus. The bones must have their lime. The blood must have its sever I salts all duly proportioned with relation to their health promoting office. Derangement of the stomach, therefore, strikes at the very root of the tree of health. "Weak" stomach must do weak work and it does. It does not provide adequate nutriment for the several organs of the body. It fails to properly prepare even what it provides. Sometimes it almost entirely fails to separate some of the required elements. The nerves for example go without their phosphates. On the blood is deprived of some necessary salt. Then the nerves cry out in their starvation and their cry is pain. It may be head pain, heart pain, lung pain, liver pain, but if you follow that pain back to its cause you'll find the stomach is not doing its work properly. You'll never cure the pain until you cure the stomach which is the cause of the trouble here, and the first step to that cure is the best dose of Dr. Pierce's Golden Medical Discovery.

Now in view of these facts look at the effect of whiskey medicines. The poor stomach is not strengthened but spurred into action. It needs to be fed but it is flogged with

A WHISKEY WHIP.

It goes on a little faster for a time, but stumbling and staggering like an exhausted horse goaded toward the goal by whip and spur. Look at the fact in this light. Suppose your horse "picks up" a stone or a nail and begins to tramp and kick. You'll whip him until you get him out and lash him till he runs. You know that would ruin him, probably lame him for life. What you will do is to get down and examine the horse's foot and remove the cause of lameness. That's the way to treat the stomach. It's no use to spur it with alcohol, or whip it with whiskey medicines, which only result in further exhaustion. The trouble must be removed and then the stomach will take care of itself.

COMMON SENSE TREATMENT.

It is in perfectly removing the cause of disease that the great temperance medicine, Dr. Pierce's Golden Medical Discovery, stands superior to all other medicines designed to restore the stomach and cure the stomach and organs of digestion and nutrition. Clear bread can't be made by dirty hands. If the stomach is fouled the nourishment it distributes must be foul also, and that foulness is a poison which infects the blood and through it attacks the weak spot in any vital organ. Dr. Pierce's Golden Medical Discovery actually purifies the blood by increasing the activity of the blood-making glands.

"WEAK LUNGS."

There are thousands of people who have what is popularly termed "weak lungs." From these thousands are drawn the recruits for that doomed army of consumptives whose slaughter, year after year, makes the bloodiest battle field seem tame and trivial. What "weak lungs" need is strength, and strength comes to the parts of the body as it comes to the mind, by food and nourishment. For its food value people drink the nauseous cod liver oil or the modified nastiness of its emulsions. This may be good so far as it goes, but it never seems to go far enough to reach the diseased lungs. The necessity for the lungs is a rich stream of pure blood. The blood is the builder. If loss of blood weakens the body, gain of blood strengthens it. Every requirement of blood-making and body-building is filled by Dr. Pierce's Golden Medical Discovery. The use of this remedy has produced the most wonderful results, even when the doctors had said there was neither hope nor help. Men and women suffering with bronchitis, bleeding of the lungs, obstinate, lingering cough, diseases which if neglected or unsuitably treated lead on to consumption have been perfectly and permanently cured by the use of "Golden Medical Discovery." No one suffering with "weak lungs" should despair so long as this medicine is within easy reach. It is not a cure-all. It cures many forms of disease, because these various forms of disease have one common root in a diseased condition of the stomach and organs of digestion and nutrition, with the natural consequence of a body insufficiently nourished and a deteriorated and tainted blood supply.

The record of "Golden Medical Discovery" warrants the statement that there is nothing "just as good." If you want the results which follow the use of the "Discovery" you can't have them unless you use that medicine. Therefore refuse all substitutes.

THE TESTIMONY OF THOUSANDS

can be produced to prove the marvelous efficiency of the "Discovery." The following are only specimens of the thousands of letters on file: "Words fail to express a heart I suffered for three years, with cold chills, palpitation of the heart, shortness of breath, and low spirits," writes Mrs. J. A. Jones, of Walkerboro, Colleton Co., S. C. "I could not sleep and really thought I would soon die. Had a peculiar roaring through my head all the time. Was so emaciated and weak I could not feed myself. My aunt induced me to try Doctor Pierce's Golden Medical Discovery, which I did, only to please her, and six bottles cured me. To-day am sound and well. During the three years I was sick, I had five different physicians."

Abram Freer, of Rockbridge, Green Co., Ills., writes: "My wife had a severe attack of pleurisy and lung trouble; the doctors gave her up to die. She commenced taking Dr. Pierce's Golden Medical Discovery and she began to improve from the first dose. By the time she had taken eight or ten bottles she was cured of the cough and had a large amount being sold here. I think the 'Golden Medical Discovery' is the best medicine in the world for lung trouble."

Mrs. L. Hedgecock, of Dozier, Collingsworth Co., Texas, writes: "I was troubled for seven or eight years with indigestion and liver complaint, and received more benefit from the use of Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' than any medicines I have ever tried."

YOU CAN WRITE

to Doctor Pierce if you are sick and consult him by letter, absolutely without charge. Every letter held as strictly private and sacredly confidential, and all answers are sent in plain envelopes, bearing on them no printing of any kind. Address as below. Free. Dr. Pierce's Common Sense Medical Adviser, 1008 pages, 700 illustrations, is sent free on receipt of stamps to cover expense of mailing only. Send at one-cent stamps for the book in paper cover or at three-cent stamps for the same edition cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.
