

AMERICAN BEEF IN FOREIGN LANDS

ADOPTION OF THE REICHTAG'S BILL NOT EXPECTED.

Belief in Washington That the Army Beef Report Will Remove Pretext for So Stringent a Measure—Reciprocity Between the Two Countries Delayed.

Washington, May 9.—The hostile action of the German Reichstag committee in reporting against the exportation of beef which had been arranged by the imperial cabinet and Ambassador White, and in substituting a measure which means practically the loss of the German trade to the beef packers of the United States, is regarded in Washington with some apprehension. It is not believed, however, that any action so radical and antagonistic to the relations of the two countries will be permitted to go further than the action of the committee. To be operative the measure would require the favorable action of the imperial cabinet, and it is asserted in administration circles that this acquiescence cannot be obtained. While the popular feeling against Germany in the United States is apparently cordially reflected in Washington, it does not extend to the heads of either government. On the contrary, the best relations exist, and there is every determination on the part of the president and the German government to establish more cordial commercial relations than have existed heretofore.

Beef Scandal Responsible. The acquiescence of the imperial cabinet in the legislative measure recommended by Ambassador White is confirmation of this. There is no question in the minds of cabinet officers that the army beef scandal is directly responsible for the present situation.

The findings of the court of inquiry, however, in the American beef packers of the charges which have been made, will form the basis for diplomatic correspondence between the two governments. The action of the president in approving the findings of the court will give the American government a personal statement from the president, and it will carry special weight for that reason. There is to be no promulgation of reciprocal arrangements between the two countries until the obnoxious discriminations against American beef products have been removed. The administration is firm in that. While it is admitted that the correspondence necessary to clear up the beef question will somewhat delay the completion of reciprocal arrangements, it is not believed the situation will assume a more serious aspect than it has at the present time. The state department is in correspondence with the German authorities, and hopes that the report of the beef court will in time cause the Reichstag to reverse its action.

THE HAVANA ARRIVES.

She Brings 1,535 Soldiers from Cuba.

New York, May 9.—The steamer Havana arrived this afternoon at quarantine from Havana. She brought 23 cabin passengers and 1,535 soldiers from the Second United States Cavalry, Second artillery and First, Eighth and Tenth infantry, and men from various other regiments. Among the cabin passengers are: Brigadier General H. C. Hasbrouck, General M. C. Butler, General F. P. Pearson, General O. H. Ern, Major G. L. Smith, G. H. Morgan, J. B. Kenner and S. H. Tyler; Captains J. Fayless, M. J. Lenihan, W. H. Johnston, A. C. Taylor, H. G. Slick, J. H. Beacom and C. B. Carlisle. The Havana will be detained at quarantine until the full period of ten days has elapsed from the time she left Havana, consequently the steamer and all passengers will be held until Thursday evening likely.

HANNA'S ENEMY MAY WIN.

Building Up Castles on the Governorial Nomination. Cleveland, O., May 9.—James W. Holcomb, chairman of the Anti-McKisson committee of fifteen, said in an interview today that, should Senator Hanna carry out his plan of holding a mass convention, Mayor McKisson, Hanna's arch enemy, would profit by the action and would be the next governor of Ohio. Regarding this new move, Holcomb said yesterday: "McKisson at present is dead. Should he capture Hanna's convention and go to Columbus with 25 delegates, politicians would be amazed at his strength. McKisson would be nominated and subsequently elected governor of the state."

BRIBE OF HALF-A-MILLION.

Ohio's Attorney General Gives the Name of His Tempter. Columbus, O., May 9.—Attorney General F. S. Monnett came into the supreme court this afternoon with his answer to the motion filed by attorneys Virgil P. Kline and M. F. Kline for the Standard Oil Company. In this answer, he asserts that the man who came to him and offered \$500,000 to stop litigation against the Standard Oil company was Charles B. Squire, formerly of Cleveland, and now of New York city, and that Squire told him that he represented Frank Rockefeller, of Cleveland, and Charles N.

ADmiral DEWEY WILL VISIT PHILADELPHIA

Will Be Guest of Naval Post, No. 400, at the Grand Army Encampment in September.

Philadelphia, May 9.—Admiral Dewey has expressed his intention of attending the thirty-third encampment of the Grand Army of the Republic in this city next September, if he can possibly get away. He will be the guest of Naval Post, No. 400, and will be asked to preside over the naval veterans' convention, which will be held in Independence hall at that time. The following cablegram has been received from Admiral Dewey on the subject: "If the experience of the service permit, you may confidently count on my being in Washington in the fall to attend your convention. George Dewey."

A committee of G. A. R. and naval veterans conferred with Mayor Ashbridge today and will go to Washington on Thursday to arrange with Secretary Long, if possible, for a big naval demonstration during the encampment. In anticipation of Admiral Dewey being here, arrangements are already under consideration towards making his presence a national event.

NO PART IN STRIKES.

Principles of the American Order of Steam Engineers. Philadelphia, May 9.—The supreme council of the American Order of Steam Engineers, which is holding its thirteenth annual convention in this city, today devoted much time to devising means of extending the order. It was decided to send out a number of organizers throughout the country. At present the order has councils in eight states with nearly 4,000 members. It was also decided that in the future more publicity shall be given to the principles of the order, which state that: "The order shall at no time take part in strikes, nor in any way interfere between employers and employees."

GOVERNOR SIGNS BILLS.

Measures Made Law by the Approval of the Chief Magistrate. Harrisburg, May 9.—The governor has signed the following bills: Authorizing the formation of partnerships in which one or more of the partners may limit their liability for the debts of the partnership to the amount of capital subscribed by such partner or partners respectively and providing penalties for violation of its provisions. Providing for the enrollment, organization, discipline and regulation of the militia of the commonwealth. In relation to re-insurance and the transaction of business by fire or marine insurance companies or associations otherwise than through resident agents and the transaction of such business by or with unauthorized companies.

TRANSFERRING THE DOLLARS.

First Load of Silver Carried by a Coxswain on the Maine. Philadelphia, May 9.—The work of transferring the \$5,000,000 silver dollars from the vaults in the present mint and postoffice building was commenced today. By a singular coincidence the first load of the precious metal, \$20,000, was carried in a wagon driven by Benjamin R. Wilber, who was a coxswain on the ill-fated Maine when she was blown up in Havana harbor. Twenty millions of the \$5,000,000 have been at the postoffice and all of this will be removed to the recently completed vaults before the remaining \$48,000,000 at the mint is disturbed.

Gobin Will Command Third Brigade.

Harrisburg, May 9.—General J. P. S. Gobin has been assigned to the command of the Third brigade, N. G. P. vice General Frank Magee, deceased.

THE MARKETS.

Wall Street Review.

New York, May 9.—The stock market today was demoralized by liquidation, both voluntarily and forced, and values melted away with large interests apparently apathetic. Marginal accounts were wiped out and nothing escaped the furious decline. The continuance of bear pressure disheartened many and resulted in shaking out many commission house accounts. The market was devoid of general news features, but local stocks reflected fear as to the probable effect of the Ford franchise tax bill, which it was the general belief would be signed tomorrow. London purchased some 20,000 shares, rendering an easier tone in sterling exchange and acting as the sustaining factor in the early dealings. Money on call was strong, ranging from 3 1/2 to 4, the latter being the quotation of the last loan. Standard shares were thrown over in some instances to protect specialists that were declining at an alarming rate. Among the weakest points were the flour stocks, which had risen the most during the long bull campaign, Brooklyn Transit suffering a net loss of 5 1/2. New York Airtrake 1 1/2 and People's Gas over two points. Other declines among the specialties were American Tobacco, 14; Sugar and Steel, Hoop, 6 1/2 each; Metropolitan, 4; Continental Tobacco preferred, 4 1/2; Manhattan, 4 1/2; National Steel, 4; and Consolidated Gas, 3. The railways suffered from 1 to 3 points loss, and there were some many other weak spots that their enumeration would be tedious. The bear factor was constantly on the alert for vulnerable points and stop loss orders were freely uncovered. In some quarters the expectation was entertained that the government crop report to be issued tomorrow would show little

Improvement in the winter wheat belt. Clearing house balances today of \$18,971,000 were the largest on record, and the credit balance of \$12,000,000 on the bank which managed the payment of the Spanish indemnity was the largest ever liquidated at the clearing house. The sub-treasurer's debit balance of over \$10,000,000 is the largest since 1897. The closing of the market today was weak, but final prices were well above the lowest, the total transactions of the day having been considerably over one million shares. Total sales, \$1,028,300.

There were quite a few lesions in the bond market which favored the downward tendency of the semi-speculative mortgages, whose losses, however, did not exceed fractional proportions. Total sales, \$3,122,000. U. S. 3's, the old 4's registered and the 5's advanced 1/4 in the bid price.

By Carrington & Cusack. New York, May 9.—The market opened fractionally weaker than yesterday, once advanced quite sharply all along the line with very heavy covering throughout. The wheat market, however, the whole market met with renewed liquidation and weakened, selling 1/2 cent. The market for the Street Railway, Brooklyn Rapid Transit, Manhattan, Continental Tobacco and generally all the specialties of the market. There was absolutely no news to have affected prices as they were based on the decline of the market, based on the theory that the whole speculative temper of the street has changed. The fact that Governor Roosevelt will probably sign the Ford bill this afternoon caused a general liquidation of traction stocks and sympathetically in the balance of the list.

The market should rally and probably will before tomorrow's close, and we think purchases of stocks and bonds are bound to be profitable. It is not, however, in what is known as light margin securities that operations are apt to be violent, but it must be remembered that the market has advanced radically over those existing a month ago. The government report tomorrow will hold the market in check for the time being, but the decline has been heavy enough to warrant a turn on the long side.
