AUTOMOBILE ACCIDENT.

Mr. and Mrs. Pettebone Have a Narrow Escape at Miami.

Special to the Scranton Tribune. Stroudsburg, May 16.—R. I. Pettebone, a well-known resident of Wilkes-Barre, and his wife had an experience at Miami, a few miles from here, last night which they will not likely soon forget. In company with his wife the gentleman was riding an automobile. They were on their way home from Doylestown. As the horseless carriage was going up the hill between the two bridges, near the mill of County Treasurer Fred W. Eibenberger, the rear reversed in some manner and the "moble" began a rapid descent towards the creek. The accident happened just in the heart of a storm, and thus greatly added to the discomfort of the occupants. Mr. Pettebone and wife escaped a severe ducking and possible injury by jumping. A call for help brought the residents of the Eibenberger house to the rescue of the Pettebones, and they were taken to the house, where they remained all night. A tackling block was necessary to get the "auto" out of the creek. The machine part was found in good order, but the other part was badly damaged. The journey towards Wilkes-Barre was resumed about noon today.

All efforts are directed by the Musical History club and Philharmonic society to make this one of the best musical productions of the season, as it will be the closing one. Opera house, Thursday, May 24. Mr. W. E. Thayer, of Scranton, freight collector for the New Jersey Central railway, has been canvassing among the Honesdale business men in the interest of a through daily freight car from New York to Honesdale, via the Central and Delaware and Hudson, without transfer. Since the change to a steam road the freight business of the Delaware and Hudson has been steadily increasing, until now it has more than doubled.

"If I were sick and wanted to get well, I'd find out how some one else got well who had the same sort of sickness as mine." If your sickness is like hers, Mrs. Jacobs' story will interest you. "I was very sick indeed," writes Mrs. Mollie Jackson, of Felton, Kent Co., Delaware, "and our family doctor said I had consumption. I thought I must die soon for I felt so awful bad. Had a bad cough, spit blood, was very short of breath, had pains in my chest and right lung, and also had dyspepsia. Before I took your 'Golden Medical Discovery' and 'Pleasant Pellets' I was so weak I could not sweep a room, and now I can do a small washing and feel like a new person. I believe that the Lord and your medicine have saved my life. I was sick over two years. I took 3 bottles of the 'Golden Medical Discovery' and four vials of Dr. Pierce's Pellets."

Are you sick? Are your lungs weak? Have you obstinate lingering cough, with bleeding lungs, weakness and emaciation? Thousands in just your case have been cured by the use of DR. PIERCE'S GOLDEN MEDICAL DISCOVERY. It always helps. It almost always cures. Sick persons are invited to consult Dr. Pierce by letter absolutely without fee or charge. All correspondence is strictly private. Write and get a specialist's opinion on your case, free. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE MARKETS.

Wall Street Review.

New York, May 16.—Stocks of railroad companies made a demonstration of unusual strength in the stock market today. Whatever unfavorable factors developed during the day were ignored by their investors, and the resulting declines were overcome. The hour element was distinctly in favor of the strength that they returned from the field before the day was over and did not repeat yesterday's movement of a heavy raid on the industrial centers, which on that occasion swept the market in the last fifteen minutes of trading. The close today was distinctly firmer, and the best level of the day, earlier issues in industrial stocks, which were generally higher, came. The stocks of western railroads were easily the leaders in the movement and the best of the day. The movement was not confined to the closing hours, however, and several days past. The steel stocks all advanced, many on credit by shorts and officials, and the market was generally higher. The movement was not confined to the closing hours, however, and several days past.
